I prefer that CityLine's new gateway signs in Sunnyvale's downtown:

	Response Percent	Response Count
Match the design of the existing Historic Murphy Avenue gateway signs	34.3%	70
Complement the existing Historic Murphy Avenue gateway signs	65.7%	134

You've got 15 dots to 'spend'. How would you spend them on each option?

	Response Percent	Response Count
Option 1: Simple Square column with solid panels.	24.0%	938
Option 2: W. Washington Ave. Gateway Square column with solid panels.	25.3%	990
Option 3: W. Washington Ave. Gateway Tapered column with internal lighting.	44.8%	1,753
