

Summary of FEMA Hazard Mitigation Assistance (HMA) Programs

Release Date: May 29, 2024

FEMA [Hazard Mitigation Assistance](#) (HMA) programs provide funding for eligible activities that reduce or eliminate long-term risk to people and property from future disasters. These activities are referred to as hazard mitigation. States, local, tribal and territorial (SLTT) governments may apply for this funding to support them build climate resilience.

FEMA is committed to ensuring equitable access to its [HMA](#) programs, which includes reducing barriers to funding and providing focused assistance to underserved communities.

Program Summaries

Building Resilient Infrastructure and Communities

FEMA's [Building Resilient Infrastructure and Communities \(BRIC\)](#) annual grant program supports SLTTs as they implement hazard mitigation projects to reduce the risks from disasters and natural hazards. The program is authorized by the Section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act ([Stafford Act](#)).

The BRIC program aims to categorically shift the federal focus away from reactive disaster spending and toward proactive investment in community resilience. FEMA funds BRIC with a 6% set-aside from federal post-disaster grant funds, such as Public Assistance and Individual Assistance grants. As a competitive grant program, applicants can apply on an annual basis.

FEMA's priorities for the FY 2023 BRIC program are to:

- Incentivize natural hazard risk reduction activities that mitigate risk to public infrastructure and disadvantaged communities as referenced in Executive

FEMA

Order 14008 – Tackling the Climate Crisis at Home and Abroad;

- Incorporate nature-based solutions, including those designed to reduce carbon emissions;
- Enhance climate resilience and adaptation; and
- Increase funding for the adoption and enforcement of the latest published editions of building codes

The BRIC program encourages mitigation projects that meet multiple of these priorities.

Management costs allow FEMA to provide financial assistance to reimburse the recipient and subrecipient for eligible and reasonable indirect costs, direct administrative costs, and other administrative expenses associated with a specific mitigation project or capacity- and capability-building (C&CB) activity. Applicants can request recipient management costs under the Management Cost funding category. Subrecipient management costs can be submitted through the State/Territory Allocation, Tribal Set-Aside, Building Code Plus-Up, and National Competition.

The BRIC program also encourages communities to participate in the BRIC Direct Technical Assistance (BRIC DTA) initiative. BRIC DTA provides tailored support to communities that may not have the resources to begin climate resilience planning and project solution design on their own. Through the initiative, FEMA will offer wide-ranging, non-financial support to BRIC DTA communities, including climate risk assessments, community engagement, partnership building, and mitigation and climate adaptation planning. Support for BRIC DTA communities can range from pre-application activities to grant closeout.

Flood Mitigation Assistance Program

[Flood Mitigation Assistance \(FMA\)](#) grants provide funding to states, local communities, tribes and territories to reduce or eliminate the risk of repetitive flood damage to buildings insured under the [National Flood Insurance Program](#) (NFIP). The program is authorized by Section 1366 of the National Flood Insurance Act.

FEMA's priorities for the FY 2023 Flood Mitigation Assistance program are to:

- Increase funding on Localized Flood Risk Reduction Projects, ensuring targeted support where it's needed most;
- Utilizing three of the Centers for Disease Control and Prevention (CDC) Social Vulnerability Index (SVI) themes such as Socioeconomic Status, Household Characteristics, and Housing Type and Transportation scores for the enhanced Bipartisan Infrastructure Law (BIL) federal cost share provides a more nuanced approach to project funding;
- Enhance project prioritization for properties meeting the Flood Mitigation Assistance and National Flood Insurance Program (NFIP) definition of Severe Repetitive Loss (SRL) and Repetitive Loss (RL);?
- Increasing the Individual Flood Mitigation Project priority to 75% Flood Mitigation Assistance and National Flood Insurance Program (NFIP) Severe Repetitive Loss (SRL) and Repetitive Loss (RL), up from the previous 50%; and?
- The equity data measure evolving from CDC Social Vulnerability Index (SVI) to Climate and Economic Justice Screening Tool (CEJST)/Justice40 Communities and [Community Disaster Resilience Zones](#), ensuring a more comprehensive consideration of equity, community needs and resilience.?

FEMA distributes funds annually to develop community or individual flood mitigation projects. These grants address community flood risk for the purpose of reducing National Flood Insurance Program (NFIP) flood claim payments and to mitigate the risk of flooding to individual flood insured structures. In addition, funding is also used for technical assistance and management costs.

As a requirement of the Flood Mitigation Assistance program, all subapplicants must be participating and in good standing with the NFIP.

Flood Mitigation Assistance Swift Current

The [Flood Mitigation Assistance Swift Current \(Swift Current\)](#) effort provides funding to mitigate buildings insured through the [National Flood Insurance Program \(NFIP\)](#) after a major disaster declaration following a flood-related disaster event to reduce risk against future flood damage.

The full funding opportunity announcement is available on [Grants.gov](#).

Funds will be made available to states, territories, and federally recognized tribal governments that receive a major disaster declaration following a flood-related disaster event and meet all other eligibility criteria. Swift Current is not available to all property owners and aims to provide flood mitigation funding for buildings with a current contract for flood insurance under the National Flood Insurance Program (NFIP) and a history of repetitive or substantial damage from flooding.

The total funding available for Fiscal Year 2023 is \$300 million, which was made possible through an infusion of dollars by the Infrastructure Investment and Jobs Act (IIJA), better known as [Bipartisan Infrastructure Law \(BIL\)](#). The figure below provides an illustrative overview of the key steps in the Swift Current process.

Hazard Mitigation Grant Program

The [Hazard Mitigation Grant Program \(HMGP\)](#) provides funding to SLTT governments so they can rebuild in a way that reduces, or mitigates, future natural disaster losses in their communities. The program is authorized by Section 404 of the Stafford Act.

HMGP funding is authorized with a Presidential Major Disaster Declaration. A governor or tribal chief executive may request HMGP funding throughout the state, tribe or territory when submitting a disaster declaration. The amount of funding made available to the applicant is based on the estimated total Federal assistance. The formula generally gives 15% of the total federal assistance amount provided for recovery from the presidentially declared disaster and is determined by the FEMA-approved Hazard Mitigation Plan.

Through HMGP, FEMA allows states to access up to 10% and local governments up to 5% of their HMGP award for management and administration costs, there is a lot of opportunity to access funding for mitigation planning and management. Management costs are any indirect costs and administrative expenses that are reasonably incurred by a Grantee or subgrantee in administering a grant or subgrant award.

Hazard Mitigation Grant Program Post Fire

The [HMGP Post Fire](#) program provides funding to help communities implement hazard mitigation measures focused on reducing the risk of harm from wildfire.

HMGP Post Fire funding is authorized under Sections 404 and 420 of the Stafford Act, and provides hazard mitigation grant funding to SLTT governments in areas receiving a [Fire Management Assistance Grant \(FMAG\)](#) declaration.

A Presidential Disaster Declaration is not required to activate funding. The funding amounts are determined by FEMA and are based on a national aggregate calculation of the historical expenditures for FMAG declarations from the past 10 years. This amount is recalculated at the beginning of each fiscal year (October 1-September 30). HMGP Post Fire awards are provided for each FMAG declaration but are aggregated under one award for each Recipient for the fiscal year to lessen the administrative burden and provide all available funding for that fiscal year under one award.

Pre-Disaster Mitigation Program

The [Pre-Disaster Mitigation \(PDM\)](#) program makes federal funds available to state, local, tribal and territorial governments to plan for and implement sustainable cost-effective measures designed to reduce the risk to individuals and property from future natural hazards, while also reducing reliance on federal funding from future disasters. This funding is offered in addition to funds provided through other FEMA grant programs for projects that will support growing mitigation needs nationwide.

On Dec. 29, 2022, President Joseph R. Biden signed into law the Consolidated Appropriations Act of 2023, making \$233 million available to 100 selected community and Tribal Nation resilience projects that support growing mitigation needs nationwide. For additional information, visit [Grants.gov](#) to review the Fiscal Year [2023 funding notice](#).

Safeguarding Tomorrow Revolving Loan Fund Program

The [Safeguarding Tomorrow through Ongoing Risk Mitigation \(STORM\) Act](#) became law on Jan. 1, 2021 and authorizes FEMA to provide capitalization grants to states, eligible federally recognized tribes, territories and the District of Columbia to establish revolving loan funds that provide hazard mitigation assistance for local governments to reduce risks from natural hazards and disasters. The STORM Act amends the Stafford Act.

FEMA

FEMA's priorities for the Safeguarding Tomorrow Revolving Loan Fund (RLF) program are to:

1. Empower eligible entities;
2. Create innovative funding solutions;
3. Deliver equitable investments and increased access;
4. Reduce grant application complexity;
5. Maximize administrative flexibility.

FEMA's [Safeguarding Tomorrow RLF](#) program is the first HMA program to provide capitalization grants to eligible state, territorial, and tribal governments for revolving loan funds. Awarded grant funding will be used by an applicant to administer its revolving loan fund and provide direct loans to local governments based on its unique mitigation needs and priorities.

Hazard Mitigation Assistance

A Common Goal

The shared goal of all FEMA HMA programs is to reduce the loss of life and property due to natural hazards.

General Requirements

All mitigation projects must be cost-effective, technically feasible and effective, and compliant with the [National Environmental Policy Act \(NEPA\)](#) and any other applicable requirements outlined in federal, state, territorial, federally recognized tribal and local laws.

Additionally, all applicants and subapplicants must have a FEMA-approved Hazard Mitigation Plan.

Program Comparisons for Cost Share

Through its grant programs, FEMA typically funds the [federal cost share](#) for 75% of eligible activity costs. In certain cases, FEMA may provide up to 90% or 100%. Refer to Table 1 for additional information. Applicants and subapplicants must pay for the remaining 25%, non-federal costs share, of eligible activity costs with non-

FEMA sources.

In general, the non-federal cost share requirement may not be met with assistance from other federal agencies. However, exceptions include funding from the U.S. Department of Housing and Urban Development’s [Community Development Block Grants](#) funds. Federal assistance that is used to meet a non-federal cost share requirement must meet the eligibility and compliance requirements of both federal source programs.

The table below outlines the federal and non-federal cost-share requirements.

Table 1: Cost Share Requirements

Program	Mitigation Award Activity (percent of federal/non-federal cost share)
Hazard Mitigation Grant Program	75/25
Hazard Mitigation Grant Program Post Fire	75/25
Building Resilient Infrastructure and Communities	75/25
Building Resilient Infrastructure and Communities Economically Disadvantaged Rural Communities	up to 90/10
Flood Mitigation Assistance (Localized Flood Risk Reduction, Project Scoping, individual mitigation of insured properties, and planning grants)	75/25

<p>Flood Mitigation Assistance</p> <p>Socially Vulnerable Communities with a Center's for Disease Control and Prevention (CDC) Social Vulnerability Index (SVI) of 0.5 or greater. Center for Diseases Control and Protection Social Vulnerability Score Index (CDC SVI). The following three SVI themes will be applied: Socioeconomic Status, Household Characteristics, and Housing Type and Transportation.</p>	<p>up to 90/10</p>
<p>Flood Mitigation Assistance – Repetitive Loss (RL) Property</p>	<p>90/10</p>
<p>Flood Mitigation Assistance – Severe Repetitive Loss (SRL) Property</p>	<p>100/0</p>
<p>Safeguarding Tomorrow RLF</p>	<p>90/10</p>

Eligible Applicants and Subapplicants

States, territories, and federally recognized tribal governments are eligible grant applicants. Each entity designates one agency to serve as the applicant for each HMA program. All interested subapplicants must apply to the designated applicant, who will then submit application(s) (including selected subapplications) to FEMA for a specified grant program.

Homeowners, business operators, and certain non-profit organizations cannot apply directly to FEMA for a grant, but they can be included in a subapplication submitted by an eligible subapplicant. The tables below identify, in general, eligible applicants and subapplicants.

Table 2: Eligibility for Application Submission for Applications/Subapplicants

Applicants	HMGP	HMGP Post Fire	BRIC	FMA (includes Swift Current)	Safeguarding Tomorrow RLF*
State agencies	Yes	Yes	Yes	Yes	Yes
Federally recognized Tribes	Yes	Yes	Yes	Yes	Yes
Territories	Yes	Yes	Yes	Yes	Yes

* The Safeguarding Tomorrow RLF program does not have subapplicants.

Subapplicants	HMGP	HMGP Post Fire	BRIC	FMA
State agencies	Yes	Yes	Yes	Yes
Federally recognized Tribes	Yes	Yes	Yes	Yes
Local governments/ communities*	Yes	Yes	Yes	Yes
Private nonprofit organizations	Yes	Yes	No	No

* Local governments/communities may include non-federally recognized tribes consistent with the definition of local government in 44 CFR 201.2, including any federally recognized Indian tribe or authorized tribal organization, or Alaska Native village or organization that is not federally recognized per Title 25 of the United States Code Section 479a et seq.

HMGP and BRIC subapplications containing projects sited within a Special Flood Hazard Area (SFHA) are eligible only if the jurisdiction in which the project is located participates in the National Flood Insurance Program. If subapplications contain projects located outside of the SFHA, participation in the program is not required.

For Swift Current, communities, including local governments, cities, townships, counties, special district governments, and tribal governments who choose to apply as subapplicants, must submit subapplications to their state/territory/tribal applicant agency.

FEMA Review and Selection of Applications

FEMA reviews all subapplications for eligibility and completeness, cost-effectiveness, technical feasibility and effectiveness, compliance with Environmental and Historic Preservation (EHP), and any other program requirements. FEMA cannot fund subapplications that do not meet the program's requirements. FEMA will notify applicants of the status of their subapplications and will work with them on subapplications identified for further review.

Table 3: Eligible Activities for Mitigation Projects and Capability and Capacity Building Grants

Mitigation Projects

Eligible Activities	HMGP	HMGP Post Fire	BRIC	FMA	Safeguarding Tomorrow RLF*
Property Acquisition
Structure Elevation
Mitigation Reconstruction
Flood Risk Reduction Measures
Stabilization
Dry Floodproofing Non-Residential Buildings
Tsunami Vertical Elevation

Safe Rooms
Wildfire Management
Retrofitting
Generators
Earthquake Early Warning Systems
Innovative Mitigation Projects

Capability and Capacity Building

Eligible Activities	HMGP	HMGP Post Fire	BRIC	FMA	Safeguarding Tomorrow RLF*
New Plan Creation and Updates
Planning-Related Activities
Project Scoping/Advance Assistance
Financial Technical Assistance				.	

*The Safeguarding Tomorrow RLF program provides capitalization grants to eligible entities to issue loans to local governments to fund a variety of mitigation activities listed in the table above.

Hazard Mitigation Assistance Programs Application Process

Hazard Mitigation Grant Program and Hazard Mitigation Grant Program Post Fire

Applications are processed through the HMGP system (formerly known as National Emergency Management Information System, or NEMIS). Applicants must apply using the Application Development Module of the HMGP system. When doing so, they can create project applications and submit them to the appropriate [FEMA Region Office](#) within 12 months of a Presidential Disaster Declaration. For HMGP Post Fire, project applications may be submitted until March 31 of the next fiscal year in which the FMAG event occurred.

Flood Mitigation Assistance and Building Resilient Infrastructure and Communities

Applicants to the Flood Mitigation Assistance and BRIC programs are processed through FEMA's Grants Outcomes (FEMA GO) grants management system.

Swift Current

Applications must be received in [Mitigation eGrants](#) (MT eGrants) by the applicant's submission deadline (3 p.m. EST). Applications received by MT eGrants after this date will not be considered for funding. Subapplicants should contact their [State Hazard Mitigation Officer](#) to find out their deadline to submit subapplications.

If you need help, reach out to: [MT eGrants Help Desk](#)

Mitigation eGrants

Existing applications for the [Pre-Disaster Mitigation](#) grant program are managed by the legacy Mitigation eGrants system for FY 2019 and previous year grants.

The MT eGrants grants management system is also used for the Swift Current funding opportunity, and is where applicants and subapplicants will submit, track, and manage all applications.

Subapplications must be submitted via MT eGrants management system for applicant review and submission for [Swift Current](#).

Contact Information

An applicant can contact a [State Hazard Mitigation Officer](#) or [FEMA Region Office](#) for general questions about hazard mitigation grant programs.
