Faducci Project Narrative for Corn Palace

Faducci proposes to create a steel and concrete bench with whimsical dancing corn figures for Corn Palace Park. The intent is to celebrate the history of the Park and introduce a whimsical design that is durable and colorful. Six playful and colorful corn figures will be hand sculpted on both sides of the bench. This proposal reconnects the community with the history of the Corn Palace property, preserving the heritage with humor.

- **Sculpture:** Faducci sculpture is constructed with a steel armature covered with hand-sculpted concrete. The image is whimsical in design, elicits interaction, waiting to be climbed on, played on, touched, and engaged.
- **Notations**
 - a. Texture of concrete is hand sculpted. Every surface is touched by the artist's hand, which is reflected in the surface texture.
 - b. Sculpture designed to be viewed and interacted from all angles 360 degrees.
 - c. All steel coated to prevent rust and corrosion.
 - d. Concrete is sealed for durability and anti-graffiti protection
 - e. Pigmented integral color that will not fade or bleed
 - f. All sculptures anchored to concrete pad (to be determined)
- **Dimensions:** (approximate) 72" long x 19" deep x 18" tall
- **Budget:** \$7,000 (includes fabrication and delivery)

Maintenance Plan

Faducci sculptures are easily maintained and durable with minimal maintenance. Typical cleaning is with a nylon brush and mild soap only.

Faducci Proposal for Corn Palace Park
