Session

Commissioners engaged with staff in a discussion about providing input on the study issue process for boards and commissions.

The commissioners identified main takeaways for the chair and vice chair to present at the City Council meeting anticipated in November. Its valuable for commissioners to have opportunities to provide input to Council Members on policies that are important to the public.

Additionally, commissioners expressed interest in holding Parks and Recreation meetings on-site at City parks. Some commissioners noted that they would appreciate meetings that are less frequent, but longer and with a more robust agenda. Other commissioners countered, that it is more valuable to hold monthly meetings.
