REPORT TO COUNCIL

SUBJECT

Approve the List(s) of Claims and Bills Approved for Payment by the City Manager

BACKGROUND

Pursuant to Sunnyvale Charter Section 802(6), the City Manager has approved payment for the claims and bills listed below, and checks have been issued accordingly.

<u>List No.</u>	<u>Date</u>	<u>Total Disbursements</u>
307	11/09/2025 through 11/15/2025	\$4,429,653.99

Payments made by the City are managed in various ways. The appropriate City staff reviews them to ensure that the related goods or services have been delivered to the City’s satisfaction and that they comply with the terms of the related purchasing mechanism. Discrepancies are resolved and resubmitted for payment. Different payment amounts require varying levels of approval within the organization. Ultimately, all payments are reviewed and processed by the Finance Department. The City Council establishes budgetary control through the adoption of a budget resolution. Council’s approval of the claims and bills is a ministerial action.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(b)(4) in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

PUBLIC CONTACT

Public contact was made by posting the Council meeting agenda on the City’s official-notice bulletin board at City Hall, at the Sunnyvale Public Library and in the Department of Public Safety Lobby. In addition, the agenda and this report are available at the City Hall reception desk located on the first floor of City Hall at 456 W. Olive Avenue (during normal business hours), and on the City’s website.

RECOMMENDATION

Approve the list(s) of claims and bills.

LEVINE ACT

The Levine Act (Gov. Code Section 84308) prohibits city officials from participating in certain decisions regarding licenses, permits, and other entitlements for use if the official has received a campaign contribution of more than \$500 from a party, participant, or agent of a party or participant in the previous 12 months. The Levine Act is intended to prevent financial influence on decisions that

affect specific, identifiable persons or participants. For more information see the Fair Political Practices Commission website: www.fppc.ca.gov/learn/pay-to-play-limits-and-prohibitions.html

A check in the checklist below indicates that the action being considered falls under a Levine Act category or exemption:

SUBJECT TO THE LEVINE ACT

- Land development entitlements
- Other permit, license, or entitlement for use
- Contract or franchise

EXEMPT FROM THE LEVINE ACT

- Competitively bid contract*
- Labor or personal employment contract
- Contract under \$50,000 or non-fiscal
- Contract between public agencies
- General policy and legislative actions

* "Competitively bid" means a contract that must be awarded to the lowest responsive and responsible bidder.

Agenda Date: 12/9/2025

REPORT TO COUNCIL

SUBJECT

Receive and File the FY 2024/25 Annual Status Report on Receipt and Use of Development Impact Fees and Adopt a Resolution Approving Findings Regarding Unspent Impact Fees and Find that the Action is Exempt from the California Environmental Quality Act (CEQA) Pursuant to Section 15378(b) (4) of the CEQA Guidelines

BACKGROUND

To ensure that mitigation fees are spent in a timely manner and on projects for which they were collected, the State Legislature passed the Mitigation Fee Act (AB 1600). This Act applies to developer fees imposed or increased on or after January 1, 1989.

The Mitigation Fee Act (California Government Code Section 66000 et seq., "Act") requires local agencies to present an annual, consolidated report ("Annual Status Report") showing the receipt and use of all development impact fees collected by the agency that are subject to the Act. The Council must review the Annual Status Report within 180 days after the close of the fiscal year. The Mitigation Fee Act also requires that the local agency make certain findings every five years regarding any unspent impact fees. The City has opted to present the required five-year findings for all impact fees each year, along with the Annual Status Report. This approach increases efficiency and public transparency.

The City currently assesses four development impact fees: the Housing Mitigation/Impact Fee; the Sense of Place Fee; the Transportation Impact Fee; and the Park Dedication In-lieu Fee (referred to as Park Dedication Fee in this report). The first three are subject to the Mitigation Fee Act. The City's Park Dedication Fees are subject to the Mitigation Fee Act if assessed pursuant to Sunnyvale Municipal Code Chapter 19.74 (Zoning - Park Dedication Fees for Rental Housing Projects). However, Park Dedication Fees assessed pursuant to the Quimby Act (California Government Code Section 66477) and codified by the City in the Sunnyvale Municipal Code Chapter 18.10 (Subdivisions - Parks and Open Space Dedication) are exempt. Therefore, only the details of the non-exempt Park Dedication Fees are included in the Annual Status Report. Expenditures in the exempt fund totaled \$80,412; \$1,205,109 in fees were collected for FY 2024/25; and interest earnings totaled \$2,200,621 for the year. Total Park Dedication Fees collected for the year are presented in the City's Annual Comprehensive Financial Report as well as the Recommended Budget for the coming year.

In FY 2015/16, the City established a Housing Impact Fee (RTC No. 15-0207). The Housing Impact Fee expanded the existing Housing Mitigation Fee to most nonresidential developments (all net new commercial, industrial, research and development, retail, and lodging projects in any zoning district, unless otherwise exempted) and included an impact fee for rental housing projects.

Regulations on rental housing changed in 2019 to reinstate a requirement for Below Market Rate

housing and fees for small developments and partial units. Housing development may pay an in-lieu fee if approved by the City Council and may pay a fee for partial units. The monies associated with each are held in the same Housing Mitigation Sub-fund.

EXISTING POLICY

Sunnyvale Municipal Code Chapters 3.50, 18.10, 19.74 and 19.75.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" with the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378 (b)(4) in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

DISCUSSION

As prescribed by the Mitigation Fee Act, the Annual Status Report must include the following information for each development impact fee:

- A brief description of the fee and the fund into which the fee was deposited;
- The amount of the fee;
- The associated fund's beginning and ending balances for the fiscal year;
- The total amount of fees collected and interest earned;
- Identification of each public improvement on which impact fees were expended and the amount of expenditure on each improvement, including the total percentage of the cost of the public improvement that was funded with impact fees;
- Identification of the approximate date by which construction of a public improvement will begin;
- Determination that sufficient funds have been collected to complete financing on an incomplete public improvement;
- Description of each inter-fund transfer or loan made from the account or fund, including the public improvement on which the loaned funds will be expended, and in the case of an inter-fund loan, the date on which the loan will be repaid and the rate of interest that the account or fund will receive on the loan; and
- Amount of any refunds made due to inability to expend impact fees once a determination is made that sufficient impact fees have been collected to finance a public improvement, and the improvement remains incomplete, and the City has not determined an approximate date by which construction will begin.

In 2023, Section 66006 of the Government Code was amended to require the approximate construction commencement date and, in the following year, whether it began as noted previously. If the project was delayed, the reason for the delay and a revised approximate date for construction to commence are also required. These updates are included in the project descriptions.

This information is presented in the attached FY 2024/25 Annual Status Report on Receipt and Use of Development Impact Fees (Attachment 1). As of June 30, 2025, the ending balances for the mitigation fees are as follows:

<u>Fee</u>	<u>Ending Balance</u>
Housing Mitigation/Housing Impact	\$48,815,336
Park Dedication Fee	\$30,279,249
Sense of Place Fee	\$11,842,573
Transportation Impact Fee	\$52,713,673

The City's 20-Year Resource Allocation Plans for the Housing Mitigation Fund (Fund 2021), Park Dedication Fund (Fund 2100), Capital Projects - Sense of Place Sub-fund (Fund 3113), and Capital Projects - Transportation Impact Fees Sub-fund (Fund 3111) fully commit collected impact fee revenue for existing or future projects. These plans are available in the FY 2025/26 Adopted Budget.

FISCAL IMPACT

There is no fiscal impact associated with receiving and filing the FY 2024/25 Annual Status Report on Receipt and Use of Development Impact Fees or adopting a resolution approving findings regarding unspent impact fees. In FY 2024/25, the City received \$11,249,970 in development impact fees covered by the Mitigation Fee Act (AB 1600). The fee revenue will be used to fund public improvements necessary to meet the demand for services resulting from commercial and residential development in the City. The specifics of how these funds are programmed for expenditure are included in the status report and the FY 2025/26 Adopted Budget.

PUBLIC CONTACT

Public contact was made by posting the Council meeting agenda on the City's official-notice bulletin board at City Hall, at the Sunnyvale Public Library and in the Department of Public Safety Lobby. In addition, the agenda and this report are available at the City Hall reception desk located on the first floor of City Hall at 456 W. Olive Avenue (during normal business hours), and on the City's website.

The Mitigation Fee Act stipulates a 15-day public review period for the Annual Status Report. The Annual Status Report was available for public inspection on November 24, 2025.

RECOMMENDATION

Receive and file FY 2024/25 Annual Status Report on receipt and use of development impact fees and adopt a Resolution making findings regarding unspent impact fees as required by the Mitigation Fee Act (California Government Code Section 66000 et seq.) and find that the action is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15378(b)(4) of the CEQA Guidelines.

LEVINE ACT

The Levine Act (Gov. Code Section 84308) prohibits city officials from participating in certain decisions regarding licenses, permits, and other entitlements for use if the official has received a campaign contribution of more than \$500 from a party, participant, or agent of a party or participant in the previous 12 months. The Levine Act is intended to prevent financial influence on decisions that affect specific, identifiable persons or participants. For more information see the Fair Political Practices Commission website: www.fppc.ca.gov/learn/pay-to-play-limits-and-prohibitions.html

An "X" in the checklist below indicates that the action being considered falls under a Levine Act category or exemption:

SUBJECT TO THE LEVINE ACT

- Land development entitlements
- Other permit, license, or entitlement for use
- Contract or franchise

EXEMPT FROM THE LEVINE ACT

- Competitively bid contract*
- Labor or personal employment contract
- Contract under \$50,000 or non-fiscal
- Contract between public agencies
- General policy and legislative actions

* "Competitively bid" means a contract that must be awarded to the lowest responsive and responsible bidder.

Description of Projects:

10503 Local Housing/ Projects and Programs

This operational function provides an operational budget to support staff activities. This project is ongoing and has no specific start/end date.

826530 County-Wide Homeless Count

This project funds the City's share of conducting a biennial countywide homeless count and survey. This homeless count and survey is a federally mandated initiative for Santa Clara County. As agreed, each jurisdiction within the County shall contribute a pro rata share of the survey costs based on its population. The count is conducted in January of every odd year, and the County hires a consultant to prepare the final report and compile all data. Once published, the report provides background information for each City to assist with homeless programs, but primarily serves as a funding tool for the County's federally funded programs. This project is ongoing and has no specific end date.

836490 - 1171 Sonora Court Predevelopment of Affordable Housing

1171 Sonora Court is a proposed 172-unit affordable rental housing project developed by MidPen Housing. 170 units will be affordable to lower-income households, with 34 designated for formerly unhoused residents. Two units will be unrestricted managers' units. The total development cost for the project is approximately \$183 million.

In 2022, the City Council approved a \$500,000 funding award for predevelopment activities through the City's 2022 Notice of Funding Availability (RTC 22-0973). The City funded this award using Permanent Local Housing Allocation funds. These funds were used to begin architectural plans for planning entitlements.

In 2024, the City Council approved an additional funding award to purchase the 1.3-acre 1171 Sonora Court property for \$12,500,000 and to provide additional predevelopment funds of \$1,533,000 as part of the City's 2024 Notice of Funding Availability (RTC 24-0863). The City will purchase the property from MidPen and enter into a long-term ground lease with MidPen upon commencement of construction. Predevelopment funds will be used to complete architectural and design drawings and to fund property holding costs. These funds will allow MidPen to pursue additional financing for the project and secure planning entitlements.

Fees authorized by the Quimby Act (California Government Code §66477) (part of the Subdivision Map Act) are codified in Sunnyvale Municipal Code, Chapter 18.10. Quimby Fees are imposed on developers of residential subdivisions and may be used to purchase land, buy equipment, or construct improvements in neighborhood parks, district parks, and recreational facilities serving the residential subdivision. The fees collected for this type of development are exempt from reporting requirements, and details are not included in this report.

The second type of Park Dedication Fee was established pursuant to the Mitigation Fee Act (California Government Code §66000(b)) and codified in Sunnyvale Municipal Code, Chapter 19.74. These Park Dedication Fees are assessed on developers of multi-family residential rental housing projects and may be used to purchase land, buy equipment, or construct improvements in neighborhood parks, district parks, and recreational facilities serving the multi-family residential unit. The fees collected for this type of development are subject to the reporting requirements included in the Mitigation Fee Act.

Description of Projects:

820130 - Routine Resurfacing of City Owned Parking Lots

This project funds resurfacing (including preparation, patching, slurry seal, curb painting and striping) of City-owned parking lots. Lots are resurveyed by staff every two years to update condition, scheduling, and estimated cost. Estimates are based on past costs, current conditions, and projected material costs. Changes in material prices, related projects, and delays can result in cost and timing changes. The resurfacing of parking lots follows a seven-year cycle.

Scheduled resurfacing includes the following:

- FY 2024/25 - Community Center Lots
- FY 2025/26 - Library Parking Lot
- FY 2026/27 - Corp Yard
- FY 2027/28 - Various Park parking lots (To be determined based on current conditions, budget, and department needs)
- FY 2030/31 - Civic Center Parking Lot
- FY 2031/32 - Community Center Parking Lot

This project also covers all remaining parking lots within the Civic Center and will be updated after the new Civic Center is completed. Funding in other years serves as a placeholder for resurfacing that has yet to be determined. Additionally, beginning in FY 2023/31, \$40,000 will be programmed every five years for minor work.

820240 - Park Tennis/Basketball Court Reconstruction

This project provides for the reconstruction of 41 City-owned tennis and basketball courts and does not include the 16 tennis courts at the Sunnyvale Tennis Center, which are included in a separate project. Based on historical data, usage, and current surveys, major reconstruction and repair for each court is required approximately every 30 years. Reconstruction will include rehabilitation via milling, crack sealing, overlay with asphalt resurfacing, fencing, and hardware, as appropriate.

The relocation of basketball courts at Orchard Gardens Park will be revisited under 830400 Orchard Gardens Park Renovation and Enhancement as allowed by the San Francisco Public Utilities Commission. FY 2024/25 funds are for six tennis courts at Sunnyvale Middle School.

Funds in FY 2025/26 will be used to restripe up to three existing basketball and/or tennis courts to accommodate pickleball. The Library and Recreational Services Department will do community outreach to determine locations.

FY 2031/32 and FY 2032/33 are for the design and reconstruction of one tennis court and a half basketball court at Seven Seas Park. Funds in FY 2036/37 and FY 2037/38 are for the design and reconstruction of a half basketball court at Wiser Park.

820270 Playground Equipment Replacement

This project provides for the replacement of park playground equipment, resilient surfacing, and related site work. Replacement priorities are determined by an annual survey of all park playgrounds by staff who are Certified Playground Safety Inspectors, and the replacement schedule is coordinated with other major park rehabilitation projects. This project was delayed to August 8, 2023, because it had to be rebid due to a certification technicality.

820280 Park Furniture and Fixtures Replacement

This project provides for the replacement of picnic tables, benches, bollards, bleachers, backstops, fencing, barbecues, pathway and parking lot lights/poles, drinking fountains, trash containers, retaining walls, and other fixtures. These fixtures require replacement as needed to address wear and tear and other conditions of use. This project is ongoing and has no specific start/end date.

825850 Swim Pools Infrastructure

This project provides for the replacement and/or repair of pool infrastructure and related components as necessary, based upon annual inspections by City staff. This project's scope includes equipment replacement for diving boards, pumps, and other miscellaneous items, as well as renovations such as pool relining, pool deck resurfacing, and replacement of the pool boiler heater for the joint-use agreement pool at Columbia Middle School and the joint-use agreement pool at Sunnyvale Middle School. This project is ongoing and has no specific start/end date.

827160 - Sunnyvale Tennis Center Court Rehabilitation

The Sunnyvale Municipal Tennis Center has 16 tennis courts, with a convenient on-site tennis pro shop open seven days a week. This project provides for epoxy sealing and line painting of sixteen courts at the Sunnyvale Tennis Center every five years. The project was awarded in FY 2024/25, with work starting in April 2025 and completing in May 2025.

830310 Community Center Grounds Renovation and Enhancement

This project will provide a major renovation of the Community Center Grounds, initially built in 1973, to ensure its sustainability by enhancing recreational usability, increasing attractiveness, and reducing utility use. Based on community input, the scope may include a new restroom; replacement of pathway and parking lot lighting systems with energy efficient fixtures; replacement of the ornamental pond; construction of playground and picnic areas; replacement of portions of landscaped and ornamental grass areas and the associated irrigation/pump system; replacement of park fixtures, including benches and tables, with recycled plastic equipment; replacement of portions of drainage systems; replacement of portions of concrete pathways; and additional work required to connect interlinking areas. This project started on time on October 30, 2024, and is anticipated to be completed in FY 2025/26.

830380 - Las Palmas Park Renovation and Enhancement

This project will provide a major renovation of the facility, originally built in 1971, to ensure its sustainability by enhancing recreational usability, increasing attractiveness, and reducing utility use. Public input meetings will be held during the design phase to gather feedback from neighbors, park users, and other stakeholders. The input will help determine the scope of work.

The current scope includes replacement of the athletic field and bleachers/fencing; renovation of recreation buildings; new maintenance building; replacement of park lighting systems with energy efficient fixtures; renovation of ornamental pond and water play features; the addition of an auxiliary restroom, renovation of dog park; replacement of portions of landscaped and ornamental grass areas and the replacement of the irrigation/pump system; replacement of park fixtures, including benches and tables, with recycled plastic equipment; and replacement of portions of drainage systems. Proposed enhancements are in accordance with approved design and development guidelines for parks. Some features will have been renovated before the commencement of this project, within the scope of other capital projects, upon completion of their expected life-cycle, and in accordance with an established replacement schedule. As a result, they will not need to be included in the scope of this project. The current cost estimates were based on recent construction; the actual costs and scope could change pending public input during the design process. Funds in FY 2024/25 are for design (anticipated to take two years), and funds in FY 2026/27 are for construction.

830510 Plaza del Sol Phase II

Plaza del Sol is being constructed in phases, as approved by the Council in FY 2002/03. Phase I, which included construction of the basic plaza design, concrete paving, young trees, other screening, and selective decorative features, was completed in June 2004. Phase II includes enhancements to the basic plaza. The approved design consists of a garage roof ramp with a walkable/useable mound, play equipment, overhead lighting, misters, enhanced labyrinth, additional landscaping, vegetated shade, and planters/seat walls. A design consultant was selected in September 2021 to further develop the approved conceptual design and prepare bid and construction documents for Phase II Design. Construction was anticipated to begin in mid-2023 with completion in late summer 2024. However, the project was delayed until 2026 to allow redesign and fee negotiation to include Wi-Fi at the park and a replacement for the planned synthetic turf, per recent direction from the City Council.

830600 Lakewood Branch Library Facility

This project funds the construction of a branch library in the Lakewood Village neighborhood to increase access to library services for residents of north Sunnyvale. The estimated 20,000-square-foot library will

be a collaboration among the city, Sunnyvale School District (SSD), and Fremont Union High School District (FUHSD). Construction was delayed until August 5, 2024, due to a permitting delay with the state and PG&E application for service and anticipated to be completed in FY 2025/26.

831340 Civic Center Modernization

On September 2, 2014, City Council made improvements to the Civic Center one of its strategic priorities. Council direction called for comprehensive community engagement to plan the Civic Center project prior to determining next steps.

In 2015 the City completed a feasibility study and conducted extensive community outreach on the project. Key outcomes included direction from Council to retain ownership of all land at the Civic Center and adoption of a Needs Assessment, Vision Statement, and Success Criteria. In 2016 the City developed a preliminary financing strategy and conducted a community survey to test the viability of a bond measure to fund the project. Falling short of the two-thirds majority to pass a bond, Council directed staff to pursue the project using a phased approach with Phase 1 focused on replacing City Hall and making improvements to the Public Safety Building. In FY 2017/18 a campus-wide Master Plan was adopted, which created a long-term vision for the campus and further defined planned improvements in the first phase of construction.

Design services for Phase I of the Civic Center Master Plan was approved by Council FY 2018/19. In August 2019, Council approved the schematic design and directed staff to proceed with design and construction procurement for Civic Center Phase I. In October 2020, Council awarded the construction contact of a new 119,874 square foot, four story, LEED Platinum, Net Zero Energy City Hall, a new 17,450 square foot, two story, LEED Gold Equivalent Emergency Operation Center, 17,450 square foot renovation of the existing Public Safety Building and site improvements that include 6 acres of open space, an outdoor amphitheater and Civic Plaza for \$174,117,000. Construction conclusion was extended from FY 2023/24 to FY 2025/26 to complete commissioning of an occupied building and microgrid approval with PG&E. Ongoing efforts on site and demolition work were completed after occupancy March 2023 which include completion Public Safety headquarters tenant improvements, construction of the utility yard, and programming of the microgrid.

831880 - Preschool Outdoor Play Area

This project provides dedicated outdoor programming space and storage at the exterior of the buildings that house the existing preschool programs at Murphy and Serra Parks. The improvements include a new non-slip surface for outdoor play, fencing with a lockable entry gate, and educational learning stations. The project began in February 2025 and is projected to be complete in FY 25/26.

832720 Washington Pool Infrastructure Replacement and Renovation

This project provides for the replacement and/or repair of pool infrastructure and related components as necessary, based upon annual inspections by City staff at the Washington Community Swim Center Pool. This project is ongoing and has no specific start/end date.

834330 Corn Palace Park Development

This project included design and construction of a new 2-acre public park at the Corn Palace II development site (1142 Dahlia Court). The park property is located at the northeast corner of Toyon

Avenue and Lily Avenue and extends east to the Lawrence Expressway. Public Street improvements along Toyon Avenue and Lily Avenue were installed as part of the Corn Palace II development owned by a developer. Features include a shade structure, play equipment, open turf, picnic areas and fitness equipment. Construction started October 28, 2024, slightly delayed due to an extended lead time needed to receive the playground equipment. Construction is complete and park grand opening was June 27, 2025.

834680 Las Palmas Tennis Center Needs Assessment

This project commissioned an assessment study of the existing buildings at the Las Palmas Tennis Center. The purpose of the study was to evaluate the current condition of the buildings and determine the need for renovation or replacement. The study was also intended to assess the size and type of buildings to ensure the City is providing appropriate levels of service to the Sunnyvale tennis community. The assessment was completed in FY 24/25, but construction is anticipated in 2029 due to funding gaps. A new capital project is needed for the design and construction phase of this project.

834770 Lakewood Park Renovation and Enhancement

This project will provide a major renovation of the facility, originally built in 1964, to ensure its sustainability by enhancing recreational usability, increasing attractiveness, and reducing utility use. The current scope includes replacement of the athletic field with synthetic turf and bleachers/fencing; addition of a dog park, renovation of recreation, maintenance, and restroom buildings; replacement of the concession shack with a modular restroom/concession structure; replacement of park and building lighting systems with energy efficient fixtures; replacement of playgrounds; replacement of portions of landscaped and ornamental grass areas and the associated irrigation/pump system; replacement of park fixtures, including benches and tables, with recycled plastic equipment; replacement of portions of drainage systems; replacement of portions of concrete pathways; overlay of the asphalt parking lot; and the additional work required to connect interlinking areas. Construction is anticipated to start in 2026, which was delayed due to the redesign of synthetic turf to natural grass

Fee: **Sense of Place Fee**

Fee Description: Fees paid by developers in areas where planned public improvements exceed the requirements of other areas of the City, including those with special land use or public improvement plans.

Purpose of Fee: The City Council has adopted Sense of Place Fees for certain geographic regions of the City to fund streetscape and other improvements that will encourage pedestrian, bicycle, and public transit use. These improvements are necessary to mitigate the impact of higher intensity development on the surrounding environment that results from increased population and traffic. The funds are used for improvements such as bike lanes, pedestrian crossings, area markers, and other elements identified in the applicable Sense of Place plan adopted by the City Council. The geographic areas subject to Sense of Place fees are the Tasman/Fair Oaks Area, the Duane/Lawrence Expressway Industrial-to-Residential area, the Fair Oaks Junction area, the Peery Park Area, and the Lawrence Station Area (LSAP).

<u>Amount of Fee:</u>	Tasman Crossing/Fair Oaks Junction	\$ 1,901 per unit in the applicable areas

Fee: **Transportation Impact Fee**

Fee Description: Fees adopted pursuant to the Transportation Strategic Program to fund major transportation projects necessary to support land use plans. (Sunnyvale Municipal Code, Chapter 3.50)

Purpose of Fee: Transportation impact fees are collected from developers of projects that contribute to traffic to the local roadway system at levels defined as significant per the criteria of the City of Sunnyvale General Plan and the Santa Clara Valley Transportation Authority Congestion Management Program Transportation Impact Analysis Program. Funds are used for projects identified in the Sunnyvale General Plan Land Use and Transportation Element, adopted November 11, 1997, as required to maintain roadway intersection levels of service per City General Plan policy. Projects to improve the regional transportation system are identified through the City’s *Resource Allocation Plan* process and are listed in the *Resource Allocation Plan*. These public improvements require various funding sources in addition to development impact fees, including federal, state, and regional apportionments and/or grant funding. Such funds are budgeted to the extent they can be reasonably projected. Sunnyvale has adopted a Capital Improvement Program (CIP) that provides the approximate location, estimated cost, and status of each proposed capital project, which is available to the public upon request and posted on the City's website. In addition, the City adopts the CIP as a component of its annual budget process, which is subject to extensive public input and public hearings. All transportation system improvements to support General Plan land use are anticipated to be completed by 2030.

Description of Projects:

823911 Bernardo Avenue Caltrain Under-crossing

This project provides funding for the design and construction of the Bernardo Avenue Caltrain Undercrossing. The undercrossing will provide a bicycle and pedestrian connection on Bernardo Avenue, near Evelyn Avenue and Central Expressway, under the Caltrain tracks. The undercrossing will be important for bicycle and pedestrian circulation, which needs improvement in the western part of the city, and will also provide a viable connection to the northern part of the City, where many employers and high-density residential developments are located. This project is a partnership with the City of Mountain View. The City’s Environmental phase is complete; however, Caltrain is on hold due to the government shutdown. Construction is planned in 2027.

832440 - Mary Avenue Overcrossing Environmental Impact Report

The project will complete the environmental impact report (EIR) for the Mary Avenue Overcrossing between the intersection of Mary Avenue and Almanor Avenue to the intersection of 11th Avenue and E Street. The overcrossing will span Routes 101 and 237. The project provides multimodal connectivity to support the level and type of development envisioned in the Moffett Park Specific Plan. The project will complete traffic analyses and environmental impact review associated with four project options including:

- A four-lane Mary Avenue with dedicated bike lanes and sidewalks
- A two-lane Mary Avenue with enhanced bike lanes and sidewalks
- A bicycle and pedestrian crossing
- Removal of the Mary Avenue overcrossing from the General Plan

Funds for this project are being used for the Environmental Clearance Phase and are expected to be completed in FY 2025/26. Construction is included in a different project.

832910 - Bernardo Avenue Bicycle Undercrossing Environmental Analysis

The Bernardo Avenue Undercrossing environmental analysis project will provide environmental clearance to allow construction of the undercrossing at a later date. The undercrossing will provide a bicycle and pedestrian connection on Bernardo Avenue, near Evelyn Avenue and Central Expressway, under the Caltrain tracks and Central Expressway. The City’s environmental review is complete, and Caltrain is delayed due to the government shutdown. The project is expected to be completed in FY 2025/26. Construction is included in a different project.

832920 East Sunnyvale Area Transportation Improvements

The East Sunnyvale Area Transportation Improvements project includes improvements in the East Sunnyvale Area Sense of Place (south of Highway 101 and west of Lawrence Expressway). All improvements are located in the East Sunnyvale Area as defined in the plan and include bicycle lanes and enhancements, transit stop upgrades, crosswalk installation and enhancements, Americans with Disabilities Act (ADA) compliant curb ramps, reduced curb radii at intersections, and bike box signal modifications. The project was necessary to advance the goals of the East Sunnyvale Area Sense of Place Plan and will encourage re-development as described in the plan. This project further provided the transportation upgrades listed in the plan for a synergistic transportation system for the area. The project began May 2023 and was completed in June 2025.

832970 Peery Park Area Transportation Improvements

The project scope has narrowed to include new sidewalks, Americans with Disabilities Act (ADA)-compliant curb ramps, and improvements to streetlighting, landscaping, and streets in the Peery Park Specific Plan for Potrero Avenue between Central Expressway and Maude Avenue. Since the plan was recently adopted, a few improvements have been implemented. However, new developments in the area will include improvements in compliance with the plan. This project will also provide the transportation upgrades listed in the plan to create a synergistic transportation system in the plan area. Bike lanes will be installed with buffers where possible and will also feature colored pavement at conflict areas. Transit stops will be upgraded to provide more amenities for existing transit users and attract new transit riders. Sidewalks will be installed along two main corridors in the area to provide a safer walking route for pedestrians. Curb ramps and traffic signals will be upgraded to ADA standards and facilitate safe and efficient movement of all modes of transportation.

The project design was completed in mid-2023. Construction is underway and will be completed in FY 2025/26.

833000 - Sunnyvale SNAIL Neighborhood Improvements – ATP

In 2016, Sunnyvale was awarded an Active Transportation Program (ATP) grant in the amount of \$4,847,000 for the environmental, design, and construction phases for implementing Active Transportation Improvements in the Sunnyvale's Sunnyvale Neighbors of Arbor including La Linda (SNAIL) and San Miguel neighborhoods. The original scope focused on improvements that are on the perimeters of Sunnyvale's SNAIL and San Miguel neighborhoods and intended to improve safety and expand connectivity to nearby schools and other destinations. However, after engaging with the community, and performing various studies, the City decided to prioritize providing active transportation improvements closer to the schools.

In March 2020, City submitted a Request of Scope Change to the Metropolitan Transportation Commission (MTC), Caltrans and California Transportation Commission (CTC) to revise the scope to include improvements in the immediate vicinity of the two schools. The City believed that these improvements would benefit more active transportation users. The request was reviewed and approved by CTC at its December 2020 meeting. The revised project installed curb extensions, high visibility crosswalks, advance yield markings, raised crosswalks, speed feedback signs and HAWK (High-Intensity Activated crosswalk) beacons, upgraded school path to current standards, enhanced bike lanes, and created new bike routes within SNAIL and San Miguel neighborhoods. Design was

completed in FY 2022/23, and construction began FY 2023/24. Project completion is expected in Fall 2025.

833010 – Bicycle and Pedestrian Safety Improvements

The project will implement bike and pedestrian improvements at selected locations throughout the City in accordance with the City's Active Transportation Plan, which was adopted in 2020. The project will install improvements such as bicycle facilities, crosswalks, quick-build safety projects, green bike lanes, bike boxes, curb extensions, and ADA-compliant curb ramps throughout the city. This project is ongoing and has no specific start/end date.

833020 - Future Traffic Signal Construction

This project provides funding for new traffic signals and their communications systems. The locations of these signal improvements are often determined by safety and operational analyses of the intersections, community input, or changes in traffic conditions. This project is ongoing and has no specific start/end date.

833850 - Sunnyvale Safe Routes to School Improvements

At selected locations near Bishop Elementary School, the project installed bike lanes, high-visibility crosswalks, raised or paved crosswalks, and curb extensions. New bike lanes on Maude Avenue between Pastoria Avenue and Wolfe Road will improve safety and connect surrounding neighborhoods to Bishop Elementary School and other destinations like Fair Oaks Park, Sunnyvale High, and the commercial corridor on Mathilda Avenue. Despite this, new bikeway barriers will remain for students travelling along Sunnyvale Avenue. Therefore, this project considered a variety of improvements including removing slip lanes where possible to eliminate conflicts and reducing crossing distances, upgrading traffic signals, and installing ADA-compliant pedestrian signals, infrared bike detection systems, green bike boxes, high visibility crosswalks, and installation of a raised crosswalk in front of the school. In addition to the improvements, the project provided bicycle and pedestrian education programs. Construction started in March 1, 2023 and was completed June 2025.

835630 - Stevens Creek Trail Extension (W. Remington Ave to W. Fremont Ave)

The Stevens Creek Trail was originally planned to extend approximately five miles from the Bay Trail at Shoreline Park to McClellan Ranch Preserve in Cupertino. There is an existing gap from Dale Avenue/Heatherstone Way in Mountain View to McClellan Road in Cupertino. This gap is within the City of Sunnyvale from Remington Drive to Homestead Road. The project will perform environmental studies and preliminary design for the trail extension from Remington Drive to Fremont Avenue. At the end of this project scope, the trail extension will be environmentally cleared and enter into final design. The project has been on hold due to a budget shortfall. After a budget solution is identified and reviewed by Council, design is anticipated to restart in early 2026. Construction is expected to start in 2029, and the planned completion has been pushed out to FY 30/31.

836040 - East Channel Trail Study

The East Channel Trail Study will evaluate a multi-use trail along the length of the East Channel within Sunnyvale from Homestead Road to the Bay Trail. This study will evaluate existing

City of Sunnyvale
Annual Status Report on Receipt and Use of Development Impact Fees

conditions, identify design constraints, determine trail alignment options, and evaluate alternatives at the crossings of local roadways. The project recommendations will include safety improvements for bicycles and pedestrians along the length of the trail. This project will provide a guidance document that staff can build upon for the application of grants and inclusion into future design and construction projects. Upon completion, the East Channel Trail will enhance the walkability within the City and expand active transportation opportunities.

Description of Projects:

10503 Local Housing/ Projects and Programs

This operational function provides an operational budget to support staff activities. This project is ongoing and has no specific start/end date.

826530 County-Wide Homeless Count

This project funds the City's share of conducting a biennial countywide homeless count and survey. This homeless count and survey is a federally mandated initiative for Santa Clara County. As agreed, each jurisdiction within the County shall contribute a pro rata share of the survey costs based on its population. The count is conducted in January of every odd year, and the County hires a consultant to prepare the final report and compile all data. Once published, the report provides background information for each City to assist with homeless programs, but primarily serves as a funding tool for the County's federally funded programs. This project is ongoing and has no specific end date.

836490 - 1171 Sonora Court Predevelopment of Affordable Housing

1171 Sonora Court is a proposed 172-unit affordable rental housing project developed by MidPen Housing. 170 units will be affordable to lower-income households, with 34 designated for formerly unhoused residents. Two units will be unrestricted managers' units. The total development cost for the project is approximately \$183 million.

In 2022, the City Council approved a \$500,000 funding award for predevelopment activities through the City's 2022 Notice of Funding Availability (RTC 22-0973). The City funded this award using Permanent Local Housing Allocation funds. These funds were used to begin architectural plans for planning entitlements.

In 2024, the City Council approved an additional funding award to purchase the 1.3-acre 1171 Sonora Court property for \$12,500,000 and to provide additional predevelopment funds of \$1,533,000 as part of the City's 2024 Notice of Funding Availability (RTC 24-0863). The City will purchase the property from MidPen and enter into a long-term ground lease with MidPen upon commencement of construction. Predevelopment funds will be used to complete architectural and design drawings and to fund property holding costs. These funds will allow MidPen to pursue additional financing for the project and secure planning entitlements.

Fee Description: Fee assessed on certain residential subdivisions to purchase land, buy equipment, or construct improvements in neighborhood and district parks and recreational facilities serving the subdivision. (Sunnyvale Municipal Code, Chapter 19.74 — Non-exempt from Mitigation Fee Act reporting requirements.)

Purpose of Fee: Park dedication fees are collected pursuant to Chapters 18.10 and 19.74 of the Sunnyvale Municipal Code to mitigate increased demands for park and recreational facilities due to new residential development. Park dedication fee revenues are expended to develop new or rehabilitate existing neighborhood or community parks or recreational facilities, to purchase land, buy equipment, or construct improvements in neighborhood and community parks. Ongoing operational or maintenance costs are excluded.

Amount of Fee: \$151.00 per square foot.

Fund: Park Dedication Fund – Multi-Family Residential (2103)

FY 2024/25 Receipt and Use:

The City of Sunnyvale collects two different types of Park Dedication Fees. Fees authorized by the Quimby Act (California Government Code §66477) (part of the Subdivision Map Act) are codified in Sunnyvale Municipal Code, Chapter 18.10. Quimby Fees are imposed on developers of residential subdivisions and may be used to purchase land, buy equipment, or construct improvements in neighborhood parks, district parks, and recreational facilities serving the residential subdivision. The fees collected for this type of development are exempt from reporting requirements, and details are not included in this report.

The second type of Park Dedication Fee was established pursuant to the Mitigation Fee Act (California Government Code §66000(b)) and codified in Sunnyvale Municipal Code, Chapter 19.74. These Park Dedication Fees are assessed on developers of multi-family residential rental housing projects and may be used to purchase land, buy equipment, or construct improvements in neighborhood parks, district parks, and recreational facilities serving the multi-family residential unit. The fees collected for this type of development are subject to the reporting requirements included in the Mitigation Fee Act.

Description of Projects:

820130 - Routine Resurfacing of City Owned Parking Lots

This project funds resurfacing (including preparation, patching, slurry seal, curb painting and striping) of City-owned parking lots. Lots are resurveyed by staff every two years to update condition, scheduling, and estimated cost. Estimates are based on past costs, current conditions, and projected material costs. Changes in material prices, related projects, and delays can result in cost and timing changes. The resurfacing of parking lots follows a seven-year cycle.

Scheduled resurfacing includes the following:

- FY 2024/25 - Community Center Lots
- FY 2025/26 - Library Parking Lot
- FY 2026/27 - Corp Yard
- FY 2027/28 - Various Park parking lots (To be determined based on current conditions, budget, and department needs)
- FY 2030/31 - Civic Center Parking Lot
- FY 2031/32 - Community Center Parking Lot

This project also covers all remaining parking lots within the Civic Center and will be updated after the new Civic Center is completed. Funding in other years serves as a placeholder for resurfacing that has yet to be determined. Additionally, beginning in FY 2023/31, \$40,000 will be programmed every five years for minor work.

820240 - Park Tennis/Basketball Court Reconstruction

This project provides for the reconstruction of 41 City-owned tennis and basketball courts and does not include the 16 tennis courts at the Sunnyvale Tennis Center, which are included in a separate project. Based on historical data, usage, and current surveys, major reconstruction and repair for each court is required approximately every 30 years. Reconstruction will include rehabilitation via milling, crack sealing, overlay with asphalt resurfacing, fencing, and hardware, as appropriate.

The relocation of basketball courts at Orchard Gardens Park will be revisited under 830400 Orchard Gardens Park Renovation and Enhancement as allowed by the San Francisco Public Utilities Commission. FY 2024/25 funds are for six tennis courts at Sunnyvale Middle School.

Funds in FY 2025/26 will be used to restripe up to three existing basketball and/or tennis courts to accommodate pickleball. The Library and Recreational Services Department will do community outreach to determine locations.

FY 2031/32 and FY 2032/33 are for the design and reconstruction of one tennis court and a half basketball court at Seven Seas Park. Funds in FY 2036/37 and FY 2037/38 are for the design and reconstruction of a half basketball court at Wiser Park.

820270 Playground Equipment Replacement

This project provides for the replacement of park playground equipment, resilient surfacing, and related site work. Replacement priorities are determined by an annual survey of all park playgrounds by staff who are Certified Playground Safety Inspectors, and the replacement schedule is coordinated with other major park rehabilitation projects. This project was delayed to August 8, 2023, because it had to be rebid due to a certification technicality.

820280 Park Furniture and Fixtures Replacement

This project provides for the replacement of picnic tables, benches, bollards, bleachers, backstops, fencing, barbecues, pathway and parking lot lights/poles, drinking fountains, trash containers, retaining walls, and other fixtures. These fixtures require replacement as needed to address wear and tear and other conditions of use. This project is ongoing and has no specific start/end date.

825850 Swim Pools Infrastructure

This project provides for the replacement and/or repair of pool infrastructure and related components as necessary, based upon annual inspections by City staff. This project's scope includes equipment replacement for diving boards, pumps, and other miscellaneous items, as well as renovations such as pool relining, pool deck resurfacing, and replacement of the pool boiler heater for the joint-use agreement pool at Columbia Middle School and the joint-use agreement pool at Sunnyvale Middle School. This project is ongoing and has no specific start/end date.

827160 - Sunnyvale Tennis Center Court Rehabilitation

The Sunnyvale Municipal Tennis Center has 16 tennis courts, with a convenient on-site tennis pro shop open seven days a week. This project provides for epoxy sealing and line painting of sixteen courts at the Sunnyvale Tennis Center every five years. The project was awarded in FY 2024/25, with work starting in April 2025 and completing in May 2025.

830310 Community Center Grounds Renovation and Enhancement

This project will provide a major renovation of the Community Center Grounds, initially built in 1973, to ensure its sustainability by enhancing recreational usability, increasing attractiveness, and reducing utility use. Based on community input, the scope may include a new restroom; replacement of pathway and parking lot lighting systems with energy efficient fixtures; replacement of the ornamental pond; construction of playground and picnic areas; replacement of portions of landscaped and ornamental grass areas and the associated irrigation/pump system; replacement of park fixtures, including benches and tables, with recycled plastic equipment; replacement of portions of drainage systems; replacement of portions of concrete pathways; and additional work required to connect interlinking areas. This project started on time on October 30, 2024, and is anticipated to be completed in FY 2025/26.

830380 - Las Palmas Park Renovation and Enhancement

This project will provide a major renovation of the facility, originally built in 1971, to ensure its sustainability by enhancing recreational usability, increasing attractiveness, and reducing utility use. Public input meetings will be held during the design phase to gather feedback from neighbors, park users, and other stakeholders. The input will help determine the scope of work.

The current scope includes replacement of the athletic field and bleachers/fencing; renovation of recreation buildings; new maintenance building; replacement of park lighting systems with energy efficient fixtures; renovation of ornamental pond and water play features; the addition of an auxiliary restroom, renovation of dog park; replacement of portions of landscaped and ornamental grass areas and the replacement of the irrigation/pump system; replacement of park fixtures, including benches and tables, with recycled plastic equipment; and replacement of portions of drainage systems. Proposed enhancements are in accordance with approved design and development guidelines for parks. Some features will have been renovated before the commencement of this project, within the scope of other capital projects, upon completion of their expected life-cycle, and in accordance with an established replacement schedule. As a result, they will not need to be included in the scope of this project. The current cost estimates were based on recent construction; the actual costs and scope could change pending public input during the design process. Funds in FY 2024/25 are for design (anticipated to take two years), and funds in FY 2026/27 are for construction.

830510 Plaza del Sol Phase II

Plaza del Sol is being constructed in phases, as approved by the Council in FY 2002/03. Phase I, which included construction of the basic plaza design, concrete paving, young trees, other screening, and selective decorative features, was completed in June 2004. Phase II includes enhancements to the basic plaza. The approved design consists of a garage roof ramp with a walkable/useable mound, play equipment, overhead lighting, misters, enhanced labyrinth, additional landscaping, vegetated shade, and planters/seat walls. A design consultant was selected in September 2021 to further develop the approved conceptual design and prepare bid and construction documents for Phase II Design. Construction was anticipated to begin in mid-2023 with completion in late summer 2024. However, the project was delayed until 2026 to allow redesign and fee negotiation to include Wi-Fi at the park and a replacement for the planned synthetic turf, per recent direction from the City Council.

830600 Lakewood Branch Library Facility

This project funds the construction of a branch library in the Lakewood Village neighborhood to increase access to library services for residents of north Sunnyvale. The estimated 20,000-square-foot library will

be a collaboration among the city, Sunnyvale School District (SSD), and Fremont Union High School District (FUHSD). Construction was delayed until August 5, 2024, due to a permitting delay with the state and PG&E application for service and anticipated to be completed in FY 2025/26.

831340 Civic Center Modernization

On September 2, 2014, City Council made improvements to the Civic Center one of its strategic priorities. Council direction called for comprehensive community engagement to plan the Civic Center project prior to determining next steps.

In 2015 the City completed a feasibility study and conducted extensive community outreach on the project. Key outcomes included direction from Council to retain ownership of all land at the Civic Center and adoption of a Needs Assessment, Vision Statement, and Success Criteria. In 2016 the City developed a preliminary financing strategy and conducted a community survey to test the viability of a bond measure to fund the project. Falling short of the two-thirds majority to pass a bond, Council directed staff to pursue the project using a phased approach with Phase 1 focused on replacing City Hall and making improvements to the Public Safety Building. In FY 2017/18 a campus-wide Master Plan was adopted, which created a long-term vision for the campus and further defined planned improvements in the first phase of construction.

Design services for Phase I of the Civic Center Master Plan was approved by Council FY 2018/19. In August 2019, Council approved the schematic design and directed staff to proceed with design and construction procurement for Civic Center Phase I. In October 2020, Council awarded the construction contact of a new 119,874 square foot, four story, LEED Platinum, Net Zero Energy City Hall, a new 17,450 square foot, two story, LEED Gold Equivalent Emergency Operation Center, 17,450 square foot renovation of the existing Public Safety Building and site improvements that include 6 acres of open space, an outdoor amphitheater and Civic Plaza for \$174,117,000. Construction conclusion was extended from FY 2023/24 to FY 2025/26 to complete commissioning of an occupied building and microgrid approval with PG&E. Ongoing efforts on site and demolition work were completed after occupancy March 2023 which include completion Public Safety headquarters tenant improvements, construction of the utility yard, and programming of the microgrid.

831880 - Preschool Outdoor Play Area

This project provides dedicated outdoor programming space and storage at the exterior of the buildings that house the existing preschool programs at Murphy and Serra Parks. The improvements include a new non-slip surface for outdoor play, fencing with a lockable entry gate, and educational learning stations. The project began in February 2025 and is projected to be complete in FY 25/26.

832720 Washington Pool Infrastructure Replacement and Renovation

This project provides for the replacement and/or repair of pool infrastructure and related components as necessary, based upon annual inspections by City staff at the Washington Community Swim Center Pool. This project is ongoing and has no specific start/end date.

834330 Corn Palace Park Development

This project included design and construction of a new 2-acre public park at the Corn Palace II development site (1142 Dahlia Court). The park property is located at the northeast corner of Toyon

Avenue and Lily Avenue and extends east to the Lawrence Expressway. Public Street improvements along Toyon Avenue and Lily Avenue were installed as part of the Corn Palace II development owned by a developer. Features include a shade structure, play equipment, open turf, picnic areas and fitness equipment. Construction started October 28, 2024, slightly delayed due to an extended lead time needed to receive the playground equipment. Construction is complete and park grand opening was June 27, 2025.

834680 Las Palmas Tennis Center Needs Assessment

This project commissioned an assessment study of the existing buildings at the Las Palmas Tennis Center. The purpose of the study was to evaluate the current condition of the buildings and determine the need for renovation or replacement. The study was also intended to assess the size and type of buildings to ensure the City is providing appropriate levels of service to the Sunnyvale tennis community. The assessment was completed in FY 24/25, but construction is anticipated in 2029 due to funding gaps. A new capital project is needed for the design and construction phase of this project.

834770 Lakewood Park Renovation and Enhancement

This project will provide a major renovation of the facility, originally built in 1964, to ensure its sustainability by enhancing recreational usability, increasing attractiveness, and reducing utility use. The current scope includes replacement of the athletic field with synthetic turf and bleachers/fencing; addition of a dog park, renovation of recreation, maintenance, and restroom buildings; replacement of the concession shack with a modular restroom/concession structure; replacement of park and building lighting systems with energy efficient fixtures; replacement of playgrounds; replacement of portions of landscaped and ornamental grass areas and the associated irrigation/pump system; replacement of park fixtures, including benches and tables, with recycled plastic equipment; replacement of portions of drainage systems; replacement of portions of concrete pathways; overlay of the asphalt parking lot; and the additional work required to connect interlinking areas. Construction is anticipated to start in 2026, which was delayed due to the redesign of synthetic turf to natural grass

Fee: **Sense of Place Fee**

Fee Description: Fees paid by developers in areas where planned public improvements exceed the requirements of other areas of the City, including those with special land use or public improvement plans.

Purpose of Fee: The City Council has adopted Sense of Place Fees for certain geographic regions of the City to fund streetscape and other improvements that will encourage pedestrian, bicycle, and public transit use. These improvements are necessary to mitigate the impact of higher intensity development on the surrounding environment that results from increased population and traffic. The funds are used for improvements such as bike lanes, pedestrian crossings, area markers, and other elements identified in the applicable Sense of Place plan adopted by the City Council. The geographic areas subject to Sense of Place fees are the Tasman/Fair Oaks Area, the Duane/Lawrence Expressway Industrial-to-Residential area, the Fair Oaks Junction area, the Peery Park Area, and the Lawrence Station Area (LSAP).

<u>Amount of Fee:</u>	Tasman Crossing/Fair Oaks Junction	\$ 1,901 per unit in the applicable areas

Fee: **Transportation Impact Fee**

Fee Description: Fees adopted pursuant to the Transportation Strategic Program to fund major transportation projects necessary to support land use plans. (Sunnyvale Municipal Code, Chapter 3.50)

Purpose of Fee: Transportation impact fees are collected from developers of projects that contribute to traffic to the local roadway system at levels defined as significant per the criteria of the City of Sunnyvale General Plan and the Santa Clara Valley Transportation Authority Congestion Management Program Transportation Impact Analysis Program. Funds are used for projects identified in the Sunnyvale General Plan Land Use and Transportation Element, adopted November 11, 1997, as required to maintain roadway intersection levels of service per City General Plan policy. Projects to improve the regional transportation system are identified through the City’s *Resource Allocation Plan* process and are listed in the *Resource Allocation Plan*. These public improvements require various funding sources in addition to development impact fees, including federal, state, and regional apportionments and/or grant funding. Such funds are budgeted to the extent they can be reasonably projected. Sunnyvale has adopted a Capital Improvement Program (CIP) that provides the approximate location, estimated cost, and status of each proposed capital project, which is available to the public upon request and posted on the City's website. In addition, the City adopts the CIP as a component of its annual budget process, which is subject to extensive public input and public hearings. All transportation system improvements to support General Plan land use are anticipated to be completed by 2030.

Description of Projects:

823911 Bernardo Avenue Caltrain Under-crossing

This project provides funding for the design and construction of the Bernardo Avenue Caltrain Undercrossing. The undercrossing will provide a bicycle and pedestrian connection on Bernardo Avenue, near Evelyn Avenue and Central Expressway, under the Caltrain tracks. The undercrossing will be important for bicycle and pedestrian circulation, which needs improvement in the western part of the city, and will also provide a viable connection to the northern part of the City, where many employers and high-density residential developments are located. This project is a partnership with the City of Mountain View. The City’s Environmental phase is complete; however, Caltrain is on hold due to the government shutdown. Construction is planned in 2027.

832440 - Mary Avenue Overcrossing Environmental Impact Report

The project will complete the environmental impact report (EIR) for the Mary Avenue Overcrossing between the intersection of Mary Avenue and Almanor Avenue to the intersection of 11th Avenue and E Street. The overcrossing will span Routes 101 and 237. The project provides multimodal connectivity to support the level and type of development envisioned in the Moffett Park Specific Plan. The project will complete traffic analyses and environmental impact review associated with four project options including:

- A four-lane Mary Avenue with dedicated bike lanes and sidewalks
- A two-lane Mary Avenue with enhanced bike lanes and sidewalks
- A bicycle and pedestrian crossing
- Removal of the Mary Avenue overcrossing from the General Plan

Funds for this project are being used for the Environmental Clearance Phase and are expected to be completed in FY 2025/26. Construction is included in a different project.

832910 - Bernardo Avenue Bicycle Undercrossing Environmental Analysis

The Bernardo Avenue Undercrossing environmental analysis project will provide environmental clearance to allow construction of the undercrossing at a later date. The undercrossing will provide a bicycle and pedestrian connection on Bernardo Avenue, near Evelyn Avenue and Central Expressway, under the Caltrain tracks and Central Expressway. The City’s environmental review is complete, and Caltrain is delayed due to the government shutdown. The project is expected to be completed in FY 2025/26. Construction is included in a different project.

832920 East Sunnyvale Area Transportation Improvements

The East Sunnyvale Area Transportation Improvements project includes improvements in the East Sunnyvale Area Sense of Place (south of Highway 101 and west of Lawrence Expressway). All improvements are located in the East Sunnyvale Area as defined in the plan and include bicycle lanes and enhancements, transit stop upgrades, crosswalk installation and enhancements, Americans with Disabilities Act (ADA) compliant curb ramps, reduced curb radii at intersections, and bike box signal modifications. The project was necessary to advance the goals of the East Sunnyvale Area Sense of Place Plan and will encourage re-development as described in the plan. This project further provided the transportation upgrades listed in the plan for a synergistic transportation system for the area. The project began May 2023 and was completed in June 2025.

832970 Peery Park Area Transportation Improvements

The project scope has narrowed to include new sidewalks, Americans with Disabilities Act (ADA)-compliant curb ramps, and improvements to streetlighting, landscaping, and streets in the Peery Park Specific Plan for Potrero Avenue between Central Expressway and Maude Avenue. Since the plan was recently adopted, a few improvements have been implemented. However, new developments in the area will include improvements in compliance with the plan. This project will also provide the transportation upgrades listed in the plan to create a synergistic transportation system in the plan area. Bike lanes will be installed with buffers where possible and will also feature colored pavement at conflict areas. Transit stops will be upgraded to provide more amenities for existing transit users and attract new transit riders. Sidewalks will be installed along two main corridors in the area to provide a safer walking route for pedestrians. Curb ramps and traffic signals will be upgraded to ADA standards and facilitate safe and efficient movement of all modes of transportation.

The project design was completed in mid-2023. Construction is underway and will be completed in FY 2025/26.

833000 - Sunnyvale SNAIL Neighborhood Improvements – ATP

In 2016, Sunnyvale was awarded an Active Transportation Program (ATP) grant in the amount of \$4,847,000 for the environmental, design, and construction phases for implementing Active Transportation Improvements in the Sunnyvale's Sunnyvale Neighbors of Arbor including La Linda (SNAIL) and San Miguel neighborhoods. The original scope focused on improvements that are on the perimeters of Sunnyvale's SNAIL and San Miguel neighborhoods and intended to improve safety and expand connectivity to nearby schools and other destinations. However, after engaging with the community, and performing various studies, the City decided to prioritize providing active transportation improvements closer to the schools.

In March 2020, City submitted a Request of Scope Change to the Metropolitan Transportation Commission (MTC), Caltrans and California Transportation Commission (CTC) to revise the scope to include improvements in the immediate vicinity of the two schools. The City believed that these improvements would benefit more active transportation users. The request was reviewed and approved by CTC at its December 2020 meeting. The revised project installed curb extensions, high visibility crosswalks, advance yield markings, raised crosswalks, speed feedback signs and HAWK (High-Intensity Activated crosswalk) beacons, upgraded school path to current standards, enhanced bike lanes, and created new bike routes within SNAIL and San Miguel neighborhoods. Design was

Annual Status Report on Receipt and Use of Development Impact Fees
FY 2024/25

completed in FY 2022/23, and construction began FY 2023/24. Project completion is expected in Fall 2025.

833010 – Bicycle and Pedestrian Safety Improvements

The project will implement bike and pedestrian improvements at selected locations throughout the City in accordance with the City's Active Transportation Plan, which was adopted in 2020. The project will install improvements such as bicycle facilities, crosswalks, quick-build safety projects, green bike lanes, bike boxes, curb extensions, and ADA-compliant curb ramps throughout the city. This project is ongoing and has no specific start/end date.

833020 - Future Traffic Signal Construction

This project provides funding for new traffic signals and their communications systems. The locations of these signal improvements are often determined by safety and operational analyses of the intersections, community input, or changes in traffic conditions. This project is ongoing and has no specific start/end date.

833850 - Sunnyvale Safe Routes to School Improvements

At selected locations near Bishop Elementary School, the project installed bike lanes, high-visibility crosswalks, raised or paved crosswalks, and curb extensions. New bike lanes on Maude Avenue between Pastoria Avenue and Wolfe Road will improve safety and connect surrounding neighborhoods to Bishop Elementary School and other destinations like Fair Oaks Park, Sunnyvale High, and the commercial corridor on Mathilda Avenue. Despite this, new bikeway barriers will remain for students travelling along Sunnyvale Avenue. Therefore, this project considered a variety of improvements including removing slip lanes where possible to eliminate conflicts and reducing crossing distances, upgrading traffic signals, and installing ADA-compliant pedestrian signals, infrared bike detection systems, green bike boxes, high visibility crosswalks, and installation of a raised crosswalk in front of the school. In addition to the improvements, the project provided bicycle and pedestrian education programs. Construction started in March 1, 2023 and was completed June 2025.

835630 - Stevens Creek Trail Extension (W. Remington Ave to W. Fremont Ave)

The Stevens Creek Trail was originally planned to extend approximately five miles from the Bay Trail at Shoreline Park to McClellan Ranch Preserve in Cupertino. There is an existing gap from Dale Avenue/Heatherstone Way in Mountain View to McClellan Road in Cupertino. This gap is within the City of Sunnyvale from Remington Drive to Homestead Road. The project will perform environmental studies and preliminary design for the trail extension from Remington Drive to Fremont Avenue. At the end of this project scope, the trail extension will be environmentally cleared and enter into final design. The project has been on hold due to a budget shortfall. After a budget solution is identified and reviewed by Council, design is anticipated to restart in early 2026. Construction is expected to start in 2029, and the planned completion has been pushed out to FY 30/31.

836040 - East Channel Trail Study

The East Channel Trail Study will evaluate a multi-use trail along the length of the East Channel within Sunnyvale from Homestead Road to the Bay Trail. This study will evaluate existing

City of Sunnyvale
Annual Status Report on Receipt and Use of Development Impact Fees
FY 2024/25

conditions, identify design constraints, determine trail alignment options, and evaluate alternatives at the crossings of local roadways. The project recommendations will include safety improvements for bicycles and pedestrians along the length of the trail. This project will provide a guidance document that staff can build upon for the application of grants and inclusion into future design and construction projects. Upon completion, the East Channel Trail will enhance the walkability within the City and expand active transportation opportunities.

Agenda Item

25-1090

Agenda Date: 12/9/2025

REPORT TO COUNCIL

SUBJECT

Receive and File the City of Sunnyvale Investment Report for Third Quarter 2025

BACKGROUND

In accordance with California Government Code Section 53646, staff is submitting the attached investment report for City Council review. The report includes all investments held by the City of Sunnyvale. Chandler Asset Management (Chandler), the City's investment adviser, manages the long-term portion of the City's portfolio, while staff manages the liquid/short-term portion.

Funds for the City's Deferred Compensation Plan, the City's Retirement Plan, the City's Pension Trust, Other Post-Employment Benefits Trust, and any unspent proceeds from debt issuance are not included in this report. Third-party administrators and trustee custodial banks manage and hold these funds.

EXISTING POLICY

California Government Code Section 53600 et seq. strictly governs which investments public agencies can hold. In some cases, state law also governs the percentage of the portfolio that can be invested in certain security types, the maximum maturities, and the minimum credit ratings assigned by major rating agencies (Standard & Poor's and Moody's Investors Service). Public agencies can invest only in fixed-income securities, and stock purchases are prohibited. Therefore, the City primarily invests in highly rated securities such as U.S. Treasuries, federal agencies, government-sponsored enterprise debt, and high credit quality, non-governmental debt securities.

The California Government Code also requires investment objectives of safety, liquidity, and return, in that order. As such, the safety of principal is the foremost objective of the City's investment program. The portfolio must remain sufficiently liquid to enable the City to meet all cash requirements.

The City Council first adopted a policy (Council Policy 7.1.2, Investment and Cash Management) governing the investment of City funds on July 30, 1985. The City Council reviews and adopts this policy annually, and the Council last adopted an updated policy (for FY 2025/26) at its September 30, 2025, meeting (RTC No. 25-0853). The City's investment policy follows the Government Code and includes additional restrictions beyond state law on certain investments, such as lower allowable percentages per investment type or issuer.

ENVIRONMENTAL REVIEW

This action does not require environmental review because it is not a project that has the potential for causing a significant impact on the environment. (CEQA Guideline 15061(b)(3).) Furthermore, the action being considered does not constitute a “project” with the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines Section 15378(b)(4) in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

DISCUSSION

This report provides information on the values (par, book, and market), the type of investment, issuer, maturity date, and yield of each investment. The par value of a bond is the amount that the issuer agrees to repay the City by the maturity date. The book value is the amount the City initially paid for the bond, which changes over time if a premium or discount is amortized. The market value is the bond's value as of the report date.

Investment Portfolio

Most of the City's funds are actively managed by its investment advisor, with maturities ranging from 0 to 7 years. The City's main investment portfolio of securities has a target duration of 2.48 years as measured by its risk and performance measuring benchmark. As of quarter-end, the portfolio had a duration of 2.56 years, slightly longer than its target, as market interest rates have fallen and are expected to remain lower later in the year. The longer duration stance allows the City to preserve its income for a longer period of time and will cause the City's investments to appreciate in value if market rates indeed fall.

New purchases focused on highly liquid U.S. Treasury obligations and a high credit quality medium-term corporate note. The average yield to maturity of the main portfolio of securities alone was 3.98%, on top of the 3.98% three months prior. The market yield, which can be inferred as a reinvestment rate, was 3.86%, slightly lower than last quarter's 3.99%, reflecting the recent drop in rates. The total market value of Chandler's main portfolio of securities was \$818,490,831 as of September 30, 2025, with income of \$7,593,916 and realized gains of \$35,505. This includes investments totaling \$756,227,866 and a subaccount totaling \$62,262,965. Staff recently took steps to move some investments previously held in the City's main portfolio into a managed subaccount created for liquidity purposes to facilitate large payments for major capital improvement projects currently in progress.

Local Agency Investment Fund

The City holds funds in the Local Agency Investment Fund (LAIF) which it can easily access to meet short-term cash needs. The City's LAIF balance totaled \$31,467,718 as of September 30, 2025, and earned interest of \$343,843 for the quarter, which is included in the market value of the total portfolio. LAIF is a program created by statute as an investment alternative for California's local governments and special districts.

CalTRUST

The City opened a CalTRUST account in July 2025. CalTRUST is a Joint Powers Authority created by public agencies in 2003 to provide a convenient method for pooling public agency assets for investment purposes and offers an additional highly liquid investment option for the City. As of September 30, 2025, the CalTRUST account totaled \$10,035,608 and earned interest of \$35,508 for the quarter, which is included in the market value of the total portfolio.

US Bank Sweep Account

The City's sweep account with US Bank is an interest-bearing account to which any excess funds are automatically swept daily from the US Bank operating bank account. The sweep account balance was \$16,585,509 as of September 30, 2025, with an average rate of return of 3.82% and earnings of \$211,038 for the quarter.

Summary of Total City Investments

Attachment 1 to this report provides a summary and detailed information on each security. Also included is an activity report of sales, purchases, and maturities for the three-month accounting period as required by Government Code Section 53607. The City's total investments (Investment Portfolio, Caltrust, and LAIF) were \$859,994,157 as of September 30, 2025. This amount does not include \$4,542,447 of accrued interest, which has been earned but not yet received.

The investment program's average yield to maturity (the income expected to be earned over the next twelve months if portfolio holdings do not change) was 3.79% as of September 30, 2025. This yield includes the yield earned on assets invested in LAIF and CalTrust. The investment program's market yield was 3.89%, up from 3.87% at the end of the prior quarter.

Market forces, such as interest rate movements, credit quality, fiscal policy, and economic growth, affect the portfolio's value. It is also affected by the volume and timing of the City's available revenues after maintaining sufficient liquidity to meet operational needs. Some revenue sources include property tax revenues, development-related activities such as park impact fees, housing impact fees, traffic mitigation fees, developer contributions, building and planning fees, utility enterprise funds revenues, and other City revenues or financial activities. The portfolio manager primarily focuses on following the long-term duration investment strategy for the City's main portfolio. Staff continue to monitor available cash balances, regularly assess cash flow needs, and communicate with the portfolio manager regarding operational and capital project funding needs.

Economic Conditions

The Federal Government shutdown that began on October 1, 2025, halted the release of key economic data. At the same time, heightened trade policy uncertainty has added to market volatility. Core levels of inflation remain above the Federal Reserve's target, while tariffs continue to cloud forecasts. Signs of a softer labor market are emerging, prompting expectations that the Federal Government will move cautiously toward policy normalization. Given the economic outlook, gradual normalization of monetary policy and a steepening yield curve are expected.

The Federal Reserve lowered the Federal Funds Rate by a quarter percentage point to the range of 3.75-4.00% at the October 2025 Federal Open Market Committee meeting. Chair Jerome Powell referenced the weakening labor market despite some inflationary pressures and moderate economic growth.

The U.S. Treasury yield curve flattened in October 2025, as the 2-year Treasury yield declined 3 basis points to 3.58%, the 5-year Treasury yield declined 5 basis points to 3.69%, and the 10-year Treasury yield declined 14 basis points to 4.08%. The spread between the 2-year and 10-year Treasury yield points on the curve decreased to +50 basis points at October month-end, versus +54 basis points at September month-end.

For comparison, the spread between the 2-year and 10-year Treasury yields was +11 basis points one year ago. The spread between the 3-month and 10-year Treasury yield points on the curve was +26 basis points in October versus +21 basis points in September.

FISCAL IMPACT

Overall, the City’s investment income remained strong for the first quarter, totaling \$8,184,302. In comparison, investment income for the same period of the prior year was \$7,248,828.

Although money market mutual funds seek to preserve the value of your investment, it is possible to lose money by investing in a money market mutual fund. Past performance does not guarantee future results.

You may obtain a prospectus for available money market mutual funds which contains more complete information, (including investment policy, fees, and expenses) from your client team. Read the prospectus carefully before you invest. For certain mutual funds, the mutual fund's investment adviser may have elected to waive or absorb all or a portion of fees during a given period. This waiver or absorption would have the effect of increasing a mutual fund's reported yields. Information about any waivers can be found in the fund's prospectus.

IMPORTANT DISCLOSURES

City of Sunnyvale Managed Cons | Account #10622 | As of September 30, 2025

Chandler Asset Management, Inc. (“Chandler”) is an SEC registered investment adviser. For additional information about our firm, please see our current disclosures (Form ADV). To obtain a copy of our current disclosures, you may contact your client service representative by calling the number on the front of this statement or you may visit our website at www.chandlerasset.com.

Information contained in this monthly statement is confidential and is provided for informational purposes only and should not be construed as specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of this statement, but may become outdated or superseded at any time without notice.

Custody: Your qualified custodian bank maintains control of all assets reflected in this statement and we urge you to compare this statement to the one you receive from your qualified custodian. Chandler does not have any authority to withdraw or deposit funds from/to the custodian account.

Valuation: Prices are provided by IDC, an independent pricing source. In the event IDC does not provide a price or if the price provided is not reflective of fair market value, Chandler will obtain pricing from an alternative approved third party pricing source in accordance with our written valuation policy and procedures. Our valuation procedures are also disclosed in Item 5 of our Form ADV Part 2A.

Performance: Performance results are presented gross-of-advisory fees and represent the client’s Total Return. The deduction of advisory fees lowers performance results. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, clients should not assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Source ICE Data Indices, LLC (“ICE”), used with permission. ICE PERMITS USE OF THE ICE INDICES AND RELATED DATA ON AN “AS IS” BASIS; ICE, ITS AFFILIATES AND THEIR RESPECTIVE THIRD PARTY SUPPLIERS DISCLAIM ANY AND ALL WARRANTIES AND REPRESENTATIONS, EXPRESS AND/OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, INCLUDING THE INDICES, INDEX DATA AND ANY DATA INCLUDED IN, RELATED TO, OR DERIVED THEREFROM. NEITHER ICE DATA, ITS AFFILIATES OR THEIR RESPECTIVE THIRD PARTY PROVIDERS GUARANTEE THE QUALITY, ADEQUACY, ACCURACY, TIMELINESS OR COMPLETENESS OF THE INDICES OR THE INDEX DATA OR ANY COMPONENT THEREOF, AND THE INDICES AND INDEX DATA AND ALL COMPONENTS THEREOF ARE PROVIDED ON AN “AS IS” BASIS AND LICENSEE’S USE IS AT LICENSEE’S OWN RISK. ICE DATA, ITS AFFILIATES AND THEIR RESPECTIVE THIRD PARTY DO NOT SPONSOR, ENDORSE, OR RECOMMEND CHANDLER, OR ANY OF ITS PRODUCTS OR SERVICES.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Ratings: Ratings information have been provided by Moody’s, S&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities (“MBS”) reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest.

This amendment will allow the Senior Center Lunch Program to continue without interruption while staff develops a new competitive solicitation for the next multi-year agreement.

EXISTING POLICY

Pursuant to Chapter 2.08 of the Sunnyvale Municipal Code, contracts for this type of service are awarded pursuant to a Request for Proposals (RFP) best value process, unless otherwise exempt from the competitive bidding process. Additionally, City Council approval is required for the procurement of goods and/or services exceeding \$250,000 in any one transaction.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonable foreseeable indirect physical change in the environment.

BACKGROUND AND DISCUSSION

The Sunnyvale Senior Center is a 23,000-square-foot facility that includes a multi-purpose room, kitchen, lounge, fitness area, health counseling rooms, multi-use activity rooms, and administrative offices. The facility serves as a central gathering place for Sunnyvale seniors and hosts ongoing programs, special events, and community activities.

For many years, the City has provided a nutritious lunch program at the Senior Center, offering both nutritional and social benefits for older adults. Participants rely on this program as an affordable and consistent source of balanced meals and social connection.

In January 2024, the City entered into an agreement with Haute Cuisine, Inc. to provide food services for the Senior Center under IRFP I24-008 (Senior Center Lunch Program). The program supports the City's goal of promoting community wellness and engagement among seniors.

In March 2025, the City approved a First Amendment under the City Manager's authority, extending the term for one year, adding an option for an additional year, and increasing compensation to a not-to-exceed amount of \$198,000.

Haute Cuisine has consistently delivered high-quality service, receiving positive feedback from participants and staff. In addition to providing daily lunches, the vendor caters paid Senior Center events and City-sponsored gatherings, demonstrating flexibility and responsiveness to community needs.

This extension will maintain service continuity and provide adequate time for a new solicitation process for the next multi-year agreement. Because the contract expires in January, there is insufficient time to conduct and complete a new solicitation. To maintain service with the current vendor beyond January 2026, it is necessary to exercise the option to extend the agreement for an additional one-year period. This Second Amendment to the contract increases the not-to-exceed amount to \$297,000 and requires Council approval.

FISCAL IMPACT

Funding for the Senior Center Lunch Program is appropriated in Program 12000 - Recreation Services. The Senior Center Lunch Program operates on a cost-recovery basis. Participants pay the City directly for meals, and those revenues are used to reimburse the vendor, Haute Cuisine, Inc., for meals served. The City receives credit for the first 15 meals per day at no cost, which slightly offsets the program's administrative expenses. There is no net cost to the City to offer this program.

PUBLIC CONTACT

Public contact was made by posting the Council meeting agenda on the City's official-notice bulletin board at City Hall, at the Sunnyvale Public Library and in the Department of Public Safety Lobby. In addition, the agenda and this report are available at the City Hall reception desk located on the first floor of City Hall at 456 W. Olive Avenue (during normal business hours), and on the City's website.

RECOMMENDATION

Take the following actions:

- Approve Second Amendment to the Services Agreement with Haute Cuisine, Inc., increasing the contract by \$99,000 to a new not-to-exceed total of \$297,000 and extending the agreement term through January 25, 2027;
- Authorize the City Manager to execute the amendment in substantially the form attached to this report when all necessary conditions have been met; and
- Authorize the City Manager to increase compensation subject to budget availability through January 25, 2027 if pricing and services remain acceptable to the City.

REPORT TO COUNCIL

SUBJECT

Award Contract to Western Water Constructors, Inc. in the Amount of \$2,317,000 for Water Pollution Control Plant (WPCP) Digester No. 3 Improvement Project and Finding of California Environmental Quality Act (CEQA) Categorical Exemption Pursuant to CEQA Guidelines Section 15301(b) (PW26-05)

STAFF RECOMMENDATION

Take the following actions:

- Award a contract in substantially the same form as Attachment 2 to the report in the amount of \$2,317,000 to Western Water Constructors, Inc. of Santa Rosa, CA;
- Make a finding of categorical exemption from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301(b);
- Authorize the City Manager to execute the contract when all necessary conditions have been met; and
- Approve a 10% contingency in the amount of \$231,700.

BASIS FOR RECOMMENDATION

The WPCP Digester No.3 Improvement project will repair the failed interior and exterior tank lid seal. This seal prevents methane gas collected at the top of the tank from leaking into the atmosphere. To extend the life of the epoxy seal, the tank lid skirt, which extends into the tank, will be lengthened to prevent exposure to methane gas. In addition, a new, larger side hatch will be installed, similar to Digesters 1 and 2. Removing the tank lid will facilitate the installation of the hatch. The larger hatch will facilitate safer entries into the tank by plant staff and contractors. This digester is currently operating under a very constrained operating level due to the failed seal.

The WPCP Digester No.3 Improvement Project (Project No. UY-24-10) was advertised on PlanetBids on October 3, 2025. Thirty (30) contractors requested bid documents. Sealed bids were opened on October 29, 2025, with two (2) responsive bids received. Western Water Constructors, Inc. submitted the lowest responsive and responsible bid of \$2,317,000 (Attachment 1 - Bids Summary).

ENVIRONMENTAL REVIEW

This project is exempt under the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301(b) which applies to the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing facilities of both investor and publicly-owned utilities used to provide electric power, natural gas, sewerage, or other public utility services, involving negligible or no expansion of existing or former use.

FISCAL IMPACT

Budgeted funds are allocated in Fund 6080 - Wastewater Management under Project 836380 - WPCP Digester No. 3 Improvement Project. A project budget summary is included as Attachment 3 to the report.

PUBLIC CONTACT

Public contact was made by posting the Council meeting agenda on the City's official-notice bulletin board at City Hall, at the Sunnyvale Public Library and in the Department of Public Safety Lobby. one calendar week shall constitute the maximum hours of service upon all work done hereunder, and it is expressly stipulated that no laborer, worker, or mechanic employed at any time by the Contractor or by any subcontractor or subcontractors under this Contract, upon the work or upon any part of the work contemplated by this Contract, shall be required or permitted to work thereon more than eight hours during any one calendar day and forty hours during any one calendar week, except, as provided by Section 1815 of the Labor Code of the State of California, work performed by employees of contractors in excess of eight hours per day and forty hours during any one week shall be permitted upon public work upon compensation for all hours worked more than eight hours per day at not less than one and one-half times the basic rate of pay. 18. Wage Rates. Pursuant to the Labor Code of the State of California, or any applicable local law, Owner has ascertained the general prevailing rate per diem wages and rates for holidays, and overtime work in the city, for each craft, classification or type of laborer, worker, or mechanic needed to execute this Contract. Owner has adopted, by reference, the general prevailing rate of wages applicable to the work to be done under the Contract, as adopted, and published by the Division of Labor Standards Enforcement and Labor Statistics and Research of the State of California, Department of Industrial Relations, to which reference is hereby made for a full and detailed description. A copy of the prevailing wage rates may be reviewed in the office of the Director of Public Works, City of Sunnyvale, 456 West Olive Avenue, Sunnyvale, California. Wage rates can also be obtained through the California Department of Industrial Relations website at: <http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm>

Neither the notice inviting bids, nor this Contract, shall constitute a representation of fact as to the prevailing wage rates upon which the Contractor or any subcontractor may base any claim against Owner.

It shall be mandatory upon Contractor and upon any subcontractor to pay not less than the specified rates to all laborers, workers, and mechanics employed in the execution of the Contract. It is further expressly stipulated that Contractor shall, as a penalty to Owner, forfeit two hundred dollars (\$200.00) for each calendar day, or portion thereof, for each laborer, worker, or mechanic paid less than the stipulated prevailing rates for any work done under this Contract by Contractor or by any subcontractor; and Contractor agrees to comply with all provisions of Section 1775 of the Labor Code.

In case it becomes necessary for Contractor or any subcontractor to employ on the project under this Contract any person in a trade or occupation (except executives, supervisory, administrative, clerical, or other non-manual workers as such) for which no minimum wage rate is herein specified, Contractor shall immediately notify Owner who will promptly thereafter determine the prevailing rate for such additional trade

or occupation and shall furnish Contractor with the minimum rate based thereon. The minimum rate thus furnished shall be applicable as a minimum for such trade or occupation from the time of the initial employment of the person affected and during the continuance of such employment.

19. Accident Prevention. Precaution shall be always exercised for the protection of persons (including employees) and property. The safety provisions of applicable laws, building and construction codes shall be observed. Machinery, equipment, and other hazards shall be guarded or eliminated in accordance with the safety provisions of the Construction Safety Orders issued by the Industrial Accident Commission of the State of California.

20. Contractor's Guarantee. Owner shall not, in any way or manner, be answerable or suffer loss, damage, expense or liability for any loss or damage that may happen to the building, work, or equipment or any part thereof, or in, on, or about the same during its construction and before acceptance. Contractor unqualifiedly guarantees the first-class quality of all workmanship and of all materials, apparatus, and equipment used or installed by Contractor or by any subcontractor or supplier in the project which is the subject of this Contract, unless a lesser quality is expressly authorized in the Plans and Specifications, in which event Contractor unqualifiedly guarantees such lesser quality; and that the work as performed by Contractor will conform with the Plans and Specifications or any written authorized deviations therefrom. In case of any defect in work, materials, apparatus, or equipment, whether latent or patent, revealed to Owner within one (1) year of the date of acceptance of completion of this Contract by Owner, Contractor will forthwith remedy such defect or defects without cost to Owner.

21. Liquidated Damages. Time shall be the essence of this Contract. If Contractor fails to complete, within the time fixed for such completion, the entire work mentioned and described and contracted to be done and performed, Contractor shall become liable to Owner for liquidated damages in the sum of one thousand dollars (\$1,000.00), for every calendar day during which work shall remain uncompleted beyond such time fixed for completion or any lawful extension thereof. The amount specified as liquidated damages is presumed to be the amount of damage sustained by Owner since it would be impracticable or extremely difficult to fix the actual damage; and the amount of liquidated damages may be deducted by Owner from moneys due Contractor hereunder, or its assigns and successors at the time of completion, and Contractor, or its assigns and successors at the time of completion, and its sureties shall be liable to Owner for any excess.

22. Governing Law, Jurisdiction and Venue. This Agreement shall be governed by and construed in accordance with the laws of the State of California, without regard to conflict of law or choice of law principles. Proper venue for legal actions will be exclusively vested in a state court in the County of Santa Clara. The parties agree that subject matter and personal jurisdiction are proper in state court in the County of Santa Clara and waive all venue objections.

23. Severability Clause. In case any one or more of the provisions contained herein shall, for any reason, be held invalid, illegal, or unenforceable in any respect, it shall not affect the validity of the other provisions which shall remain in full force and effect.

24. Entire Agreement; Amendment. This writing constitutes the entire agreement between the parties relating to the services to be performed or materials to be furnished hereunder. No modification of this Agreement shall be effective unless and until such modification is evidenced by writing signed by all parties.

25. Execution and Counterparts. This Agreement may be executed in multiple counterparts and/or with the signatures of the Parties set forth on different signature sheets and all such counterparts, when taken together, shall be deemed one original.

IN WITNESS WHEREOF, two identical counterparts of this contract, each of which shall for all purposes be deemed an original thereof, have been duly executed by the parties.

836380 - WPCP Digester No. 3 Improvement Project

Originating Year:	2023	Project Type:	Wastewater	Department:	270 - Environmental Services
Planned Completion Year:	2024/25	Category:	Infrastructure	Project Manager:	Richard Chen

Project Description/Scope/Purpose

The Digester No.3 Improvement project will repair the failed interior and exterior annular tank lid seal. This seal prevents methane gas which is collected at the top of the tank from leaking out to atmosphere. In order to increase the life of the epoxy seal the tank lid skirt which extends into the tank will be lengthened to prevent exposure to the methane gas. In addition, a new larger side hatch will be installed similar to the Digester 1 and 2. The removal of the tank lid will facilitate the hatch installation. The larger hatch will facilitate safer entries into the tank by plant staff and contractors.

Project Evaluation and Analysis

This project was initially developed for construction under the plant Maintenance program. However, due to the scale of the project it has been determined that a Public Works project is needed to complete the project. The design and construction estimate has been completed by an outside engineering firm. This digester is currently operating under a very constrained operating level due to the failed seal. The start of construction will be coordinated with the Water Pollution Control Plant (WPCP) construction around the Digester No.3 due to limited space.

Fiscal Impact

This project is funded by Wastewater Fund utility rates. Rates are set to cover the cost of operations and capital projects required to maintain the system and provide Wastewater service. Funds from project 836390 - WPCP Chemical Tank Storage Facility - were moved into this project.

REPORT TO COUNCIL

SUBJECT

Authorize the Issuance of Purchase Orders to Pivot Interiors in the Amount of \$647,023.38 for Lakewood Branch Library and Learning Center Furniture (F26-254)

REPORT IN BRIEF

Approval is requested to authorize the issuance of purchase orders to Pivot Interiors of Santa Clara in a not-to-exceed amount of \$647,023.38 for the purchase, delivery, and installation of furniture for the Lakewood Branch Library and Learning Center. Staff also requests approval of a 10% contingency in the amount of \$64,702 to account for potential storage needs and any unforeseen cost changes related to supply chain impacts or installation labor.

EXISTING POLICY

Pursuant to Section 2.08.040(d) of the Sunnyvale Municipal Code (SMC), Council approval is required for the procurement of goods and/or services greater than \$250,000 in any one transaction.

Section 2.08.070(b)(3) authorizes the purchase of goods and/or services to be exempted from the competitive bidding requirements when the solicitations of bids or proposals would be impractical, unavailing, or impossible.

Pursuant to Section 2.08.220(a), the purchasing officer may authorize the City’s participation with one or more other governmental, public, or quasi-public agencies in a cooperative agreement for the procurement of goods and/or services, provided that at least one of the agencies has solicited bids using methods similar to those set forth in Section 2.08.060.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

BACKGROUND AND DISCUSSION

The design contract with Anderson Brule Architects (“ABA”) for the Lakewood Branch Library and Learning Center project (“Lakewood Library Project”) included a task for interior design services. (RTC No. 20-0377.) The design team and City staff sought furniture from vendors with current contracts through OMNIA Partners, a national cooperative procurement organization that offers publicly solicited contracts to government entities nationwide. After reviewing several options and evaluating samples, staff selected MillerKnoll as the primary furniture vendor based on project requirements, furniture selection, and quality.

Subsequently, Pivot Interiors, an authorized dealer for MillerKnoll, was selected to further develop the furniture design package for the new building and to create shop drawings for custom pieces, such as the circulation desk.

In 2021 and 2022, contracts were issued to Pivot Interiors, under either the City Manager's authority or Council's authority (RTC No. 22-0366), to provide workstations, office furniture, and ancillary furniture and chairs for the DPS Emergency Operation Center (EOC) and for furniture for the new City Hall building through a national cooperative contract with OMNIA Partners. As a result of these recent contracts, City staff is familiar with Pivot Interiors and satisfied with the quality and durability of the MillerKnoll furniture in use at these facilities.

The Pivot Interiors team worked with ABA and City staff to finalize the selection of furniture pieces, materials, and finishes for the Lakewood Library Project. The furniture selection process involved viewing samples of furniture features, fabric finishes, and furniture style for staff work areas, public spaces, conference rooms, school district partner community rooms, the children's library, the teen space, and other public interior seating areas. Staff from the Library and Recreation Services Department were involved throughout the process to ensure that the furniture selections reflect the project's vision and comply with the City's goals for the facility's operation. Pivot Interiors then finalized their portion of the furniture package, and shop drawings for the circulation desk were provided for final staff review and approval.

This contract with Pivot Interiors includes furniture items from nine (9) OMNIA Partners' cooperative contracts (see Attachments 1-9 to the report). While MillerKnoll is the primary furniture vendor, additional vendors were required since the cooperative contract with MillerKnoll, dba Herman Miller, Inc., could not fulfill all project requirements. The OMNIA Partners cooperative contracts provided an initial discount on a majority of the selected furniture. During negotiations for the EOC and City Hall furniture contracts, staff was able to secure deeper discounts than what was listed within the cooperative contracts due to the volume of furniture being purchased. Pivot Interiors has agreed to extend the same discounts for the current contract for the Lakewood Library Project.

In addition, the vendor has extended the same pricing discount to furniture items selected but not listed in the cooperative contracts (see Attachment 11 to the report). These purchases are exempt from competitive bidding pursuant to SMC Section 2.08.070(b)(3) which authorizes the purchase of goods and/or services to be exempted from the competitive bidding requirements when the solicitations of bids or proposals would be impractical, as it would be impractical to coordinate delivery of these furniture items from multiple vendors.

Staff recommends issuing a purchase agreement to Pivot Interiors in a not-to-exceed amount of \$647,023.38. These costs include the furniture, shipping, delivery and installation, management services and taxes. Staff also requests a 10% contingency of \$64,702 for the agreement to account for potential product storage costs (if necessary) and any changes due to supply chain issues or installation labor rates.

FISCAL IMPACT

The funding for the fixtures, furniture and equipment (FF&E) is available in Fund 3101 - Capital Projects Fund - General Fund Assets under Project 830600 - Lakewood Branch Library Facility (Attachment 13 to the Report). The funding for the Lakewood Branch Library and Learning Center comes, in part, from a donation from the Friends of the Sunnyvale Public Library as well as the General Fund, the Park Dedication Fund, and contributions from the two school district partners.

PUBLIC CONTACT

Public contact was made by posting the Council meeting agenda on the City's official-notice bulletin board at City Hall, at the Sunnyvale Public Library and in the Department of Public Safety Lobby. In addition, the agenda and this report are available at the City Hall reception desk located on the first floor of City Hall at 456 W. Olive Avenue (during normal business hours), and on the City's website.

RECOMMENDATION

Take the following actions:

- Authorize the issuance of purchase orders to Pivot Interiors in a not-to-exceed amount of \$647,023.38 for Lakewood Branch Library and Learning Center furniture; and
- Approve a 10% contingency in the amount of \$64,702 for unexpected furniture needs.

Such notice shall consist of a duly completed Warranty Claim Form (available from Framery's After Sales and Services) and any additional information the Purchaser and/or Framery may deem relevant. Upon Framery's acceptance of the validity of a warranty claim, it shall issue to the Purchaser a Warranty Acceptance Form. <p><u>Recycled Content.</u> Products must contain a certain percentage of recycled content. Please include the amount of recycled content, both pre- and post-consumer, included in your product.</p>	<p>Herman Miller’s Design for Environment protocol focuses on maintaining our high standards while incorporating increasingly more environmentally sustainable materials into our new product designs. Our goal is to maximize the amount of recycled content and recyclability of a product at the end of its useful life.</p> <p>For more information on recycled content for products, please refer to please refer to the “Environmental Calculator” (ecomedes) on our website: hermanmiller.ecomedes.com.</p>
<p><u>Recyclability.</u> Please include the types of materials included in your product, and if they are considered recyclable in typical municipal recycling streams.</p>	<p>For recyclability percentages of specific products, please refer to please refer to the “Environmental Calculator” (ecomedes) on our website: hermanmiller.ecomedes.com.</p>
<p><u>Biodegradability.</u> Products must be capable of decomposing under natural conditions. Please state whether each Product offered in your proposal is biodegradable.</p>	<p>Our products are not biodegradable.</p>
<p><u>Compostability.</u> Products must be capable of composting at a commercial composting facility. Please state whether each product offered in your proposal is compostable.</p>	<p>Not Applicable to our products.</p> <p>For many years, we have reported to the EPA WasteWise program with a focus on diverting materials from a landfill----including composting. Our most current 2019 reporting indicated 387.75 tons (775,504 pounds) of material composted. This includes paper towels from bathrooms along with utensils/plates/food waste from our on-site cafeterias.</p>
<p><u>Energy Consumption.</u> Please include the total amount of energy consumed for product or service manufacture, use and disposal. Different sources of energy are associated with different environmental impacts.</p>	<p>We use processes that eliminate waste from our facilities, borrow the water we need and manage it well, reduce energy intensity, and use renewable forms of energy.</p> <p>In FY2017, Herman Miller consumed 96,600 Megawatt hours or \$42.2 Megawatt hours/\$ million sales</p>

<p><u>Energy Efficiency.</u> Products must meet or exceed the Department of Energy (DOE) and Environmental Protection Agency criteria for use of the ENERGY STAR trademark label; or is in the upper 25% of efficiency for all similar products as designated by the U.S. Department of Energy’s Federal Energy Management Program.</p>	<p>Not Applicable to our products.</p>
<p><u>Water Efficiency.</u> Eligible products must meet or exceed the Environmental Protection Agency’s WaterSense program or be water-efficient or low-flow fixtures.</p>	<p>Not Applicable to our products.</p>
<p><u>Low VOCs.</u> Products should contain low or no volatile organic compounds (VOCs). Please indicate any VOC content in each applicable product offered in your proposal.</p>	<p>For VOC content information of specific products, please refer to please refer to the “Environmental Calculator” (ecomedes) on our website: hermanmiller.ecomedes.com.</p>
<p><u>Reduced Packaging.</u> Please include any efforts made to reduce the packaging of the products included in this proposal.</p>	<p>Larger scale domestic orders allow the use of minimal packaging, such as bulk packaging and blanket wrapping. Bulk packaging examples include stretch wrapping up to 40 worksurfaces or screens to a pallet, thus eliminating an individual box and multiple pieces of protective foam for each product. Another common bulk pack example includes placing up to 48 pieces of cladding in a single box with pallet truck access and a “zip-line” opening to allow easy access at the point of delivery.</p> <p>Blanket wrapping typically involves seating and metal storage products. In this scenario we wrap products in reusable blankets and ship them directly from the plant to the installation site. The transit company brings the blankets back to Herman Miller for a closed-loop packaging reuse system. Bulk packaging and blanket wrapping not only eliminate the need for corrugated boxes, foams and plastics, but typically increase unloading time by 25% or more, with similar savings in disposal reduction and transit efficiency.</p>
<p><u>Pollution Prevention.</u> Please state your company’s policy on source reduction. The Pollution Prevention Act defines source reduction to mean any practice that: (1) Reduces the amount of any hazardous substance, pollutant or contaminant entering any waste stream or</p>	<p>Herman Miller Safety and Sustainability Policy At Herman Miller, we approach safety and sustainability two ways.</p> <p>From the top down, we set goals for safety and sustainability and make performance to these goals part of our CEO’s scorecard.</p>

<p>otherwise released into the environment (including fugitive emissions) prior to recycling, treatment or disposal, and (2) Reduces the hazards to public health and the environment associated with the release of such substances, pollutants or contaminants. The term includes: equipment or technology modifications, process or procedure modifications, reformulation or redesign of products, substitution of raw materials, and improvements in housekeeping, maintenance, training or inventory control.</p>	<p>From the bottom up, we empower people with a passion for wellness and responsibility to lead by example and through organized programs.</p> <p>These approaches meet in the middle, always striving to improve through commitments to:</p> <p>Living, Working, and Being Safe Promoting safety knowledge, well-being both at work and at home, and the prevention of injuries and ill health.</p> <p>Being Resource Smart Acting on the prevention of pollution, the elimination of all forms of waste, and the efficient use of all resources.</p> <p>Being Eco Inspired Advocating for better, more sustainable products with safer material chemistry.</p> <p>Being Community Driven Sharing best practices with all stakeholders and going beyond compliance with regulations and other requirements.</p>
<p><u>Life Cycle Management.</u> Please state how many times your product may be reused. (Since reusable products generally require more upfront costs than disposable products, they are often subjected to a cost/benefit analysis in order to determine the life cycle cost).</p>	<p>As part of our Design for the Environment process, life cycle impacts are considered when making material choices. Additionally, full life cycle assessments (LCAs) have been conducted for major product categories/product lines.</p> <p>Herman Miller has been using LCAs since 2006 to identify the potential environmental impacts of our products. We perform life cycle analysis specifically according to ISO documents 14040 and 14044 and we conform to the most recent respective Product Category Rules for Environmental Product Declarations (EPDs). EPDs are now available for the majority of our performance seating products.</p>
<p><u>End of Life Management.</u> Will the manufacturer or designee accept the product back at the end-of-life? (who pays for the transportation of the product may be situation-specific).</p>	<p>The Herman Miller rePurpose program is an industry-leading resource for managing surplus corporate assets, including furniture, equipment, and supplies. By employing a thoughtful combination of resale, recycling, and donation on each project, rePurpose ensures assets reach their best destination. The rePurpose program is a single-source approach, which saves time and money, eliminates liability, and keeps 99 percent of product out of landfills. Fees for rePurpose vary based on size and scope.</p>

Currently sub-tops are constructed from engineered Russian plywood, which have incurred tremendous price increases over the past few years. Future meeting table sub-tops will be constructed from MDF (medium density fiberboard) which will lower costs as well as maintain the structure of the tables, just as the current engineered Russian plywood.
 2. Arcadia Chair Company is also in the early stages of changing a number of our seating solutions from the use of wood interior structure to metal interior structure. This changes will increase the unit's recyclability content for a friendlier environmental solution.

Contractor agrees that a breach of this certification will be a violation of this Civil Rights clause.
- 3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment. In all solicitations, either by competitive bidding or negotiation, made by Contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by Contractor of Contractor's obligations under this Contract and the regulations relative to non-discrimination on the grounds of race, color, creed, sex, disability, age or national origin.
 - 4) Sanctions of Non-Compliance. In the event of Contractor's non-compliance with the non-discrimination provisions of this Contract, Public Agency shall impose such Contract sanctions as it or the FTA may determine to be appropriate, including, but not limited to: 1) Withholding of payments to Contractor under the Contract until Contractor complies, and/or; 2) Cancellation, termination or suspension of the Contract, in whole or in part.

Contractor agrees to include the requirements of this clause in each subcontract financed in whole or in part with Federal assistance provided by FTA, modified only if necessary to identify the affected parties.

DISADVANTAGED BUSINESS PARTICIPATION

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*", therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

1) Non-Discrimination Assurances. Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. Contractor shall carry out all applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or other such remedy as public agency deems appropriate. Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph. (See 49 CFR 26.13(b)).

2) Prompt Payment. Contractor is required to pay each subcontractor performing Work under this prime Contract for satisfactory performance of that work no later than thirty (30) days after Contractor's receipt of payment for that Work from public agency. In addition, Contractor is required to return any retainage payments to those subcontractors within thirty (30) days after the subcontractor's work related to this Contract is satisfactorily completed and any liens have been secured. Any delay or postponement of payment from the above time frames may occur only for good cause following written approval of public agency. This clause applies to both DBE and non-DBE subcontractors. Contractor must promptly notify public agency whenever a DBE subcontractor performing Work related to this Contract is terminated or fails to complete its Work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Contractor may not terminate any DBE subcontractor and perform that Work through its own forces, or those of an affiliate, without prior written consent of public agency.

3) DBE Program. In connection with the performance of this Contract, Contractor will cooperate with public agency in meeting its commitments and goals to ensure that DBEs shall have the maximum practicable opportunity to compete for subcontract work, regardless of whether a contract goal is set for this Contract. Contractor agrees to use good faith efforts to carry out a policy in the award of its subcontracts, agent agreements, and procurement contracts which will, to the fullest extent, utilize DBEs consistent with the efficient performance of the Contract.

ENERGY CONSERVATION REQUIREMENTS

Contractor agrees to comply with mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plans issued under the Energy Policy and Conservation Act, as amended, 42 U.S.C. Sections 6321 *et seq.* and 41 CFR Part 301-10.

FEDERAL CHANGES

Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, listed directly or by reference in the Contract between Public Agency and the FTA, and those applicable regulatory and procedural updates that are communicated to Contractor by Public Agency, as they may be amended or promulgated from time to time during the term of this contract. Contractor's failure to so comply shall constitute a material breach of this Contract.

INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS

The provisions include, in part, certain Standard Terms and Conditions required by the U.S. Department of Transportation (DOT), whether or not expressly set forth in the preceding Contract provisions. All contractual provisions required by the DOT and applicable to the scope of a particular Contract awarded to Contractor by a Public Agency as a result of solicitation, as set forth in the most current FTA Circular 4220.1F, published February 8th, 2016, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. Contractor agrees not to knowingly perform any act, knowingly fail to perform any act, or refuse to comply with any reasonable public agency requests that would directly cause public agency to be in violation of the FTA terms and conditions.

NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES

Agency and Contractor acknowledge and agree that, absent the Federal Government's express written consent and notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to agency, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract.

Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS

Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq. and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms, to the best of its knowledge, the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the

ENVIRONMENTAL PRACTICES

As a matter of corporate philosophy, Arcadia and Encore are committed to intelligent environmental policies and practices. Standard recycling procedures and ecologically sensible policies and practices have been implemented throughout all aspects of our operations, as well as facilities, and as it relates to new product development and project management. Furthermore, we insist on a similar operational philosophy from our vendor-partners.

In accordance with our ongoing efforts to develop and manufacture products that positively contribute to healthy environments, we have completed testing for Indoor Air Quality certification across several product categories, achieving SCS Indoor Advantage Gold (highest certification available for Indoor Air Quality) for the majority of our products.

With SCS Indoor Advantage Gold certification, we not only meet the criteria of BIFMA M-7.1 and X-7.1 (low-emitting office furniture systems and seating) but also the LEED-Commercial Interiors EQ 4.5 credit for Indoor Air Quality of office furniture.

We will continue to strive towards certification for all our products, in addition to making sustainable improvements in all areas of business. A representative example of other in-force measures we employ to support intelligent environmental policies include:

- Ensure product life-cycle longevity and non-obsolescence via the design, engineering, and manufacturing processes and subsequent product refurbishment and re-use potential.
- Design products, and/or re-engineer existing products, to maximize the use and or re-use of recycled and/or recyclable components and sub-parts.
- Utilize raw materials (such as wood products) only from renewable, sustainable sources.
- Design and implement optimized manufacturing efficiencies so as to reduce scrap waste throughout production sequences.
- Minimize the generation, emission or discharge of waste and harmful or regulated substances and pollutants from manufacturing operations commensurate with current government codes, laws and/or industry regulations.
- Specify, and utilize engineered pre-cut foam, which eliminates virtually all on-site scrap foam waste.
- Increase the use of recyclable materials as appropriate for all general office, marketing, manufacturing, and shipping applications.

- Eliminate use of any non-recyclable packaging materials as well as utilize alternative shipping methods such as 'blanket wrapped delivery'.
- Utilize remnant 'COM' materials previously destined to landfills as interior spring-to-foam barrier cloth on upholstered goods.
- Contract for the external reuse of scrap woodchip materials and sawdust which are recycled and used for the following: soil enhancement in nurseries, MDF particle board manufacturing and fueling co-generation factories which simultaneously generate both electricity and useful heat.
- Contract for the external use of scrap leather cutting remnants.
- Minimize the generation of, recycle, and/or ensure the proper disposal of all office generated waste materials.
- Donate outdated product marketing and collateral materials to college and university design programs for educational purposes.

We engage all our employees in these processes and encourage new ideas at every turn. Together, we remain committed to protecting the environment and will continue to pursue effective means for securing a brighter, and healthier future, for all.

Re: Arcadia Chair Company Tariff Notification & Cost Jurisdiction
Contract # 07-78

Dear George:

Arcadia Chair Company has been greatly impacted on the tariffs from our imported goods overseas suppliers. We have done our best to absorb these costs, however we are unable to sustain the increases alone. With this said, Arcadia Chair Company respectfully requests a 4.5% tariff surcharge added to Arcadia' & Encore's current June 1, 2024 pricelists. The 4.5% tariff surcharge will be calculated based on the net price of each OMNIA Contact order, and will be shown as a separate line item on Arcadia | Encore acknowledgements. This surcharge went into effect April 1, 2025 on all Arcadia | Encore commercial orders, however the tariff surcharge will not go into effect on OMNIA Contract orders until we receive written approval from OMNIA. Arcadia Chair Company will also be monitoring this tariff situation very closely and will eliminate the surcharge as soon as possible. Arcadia Chair Company will provide OMNIA written notification once the tariff surcharge has been eliminated.

To further support this request, enclosed are copies of numerous tariff notifications Arcadia Chair Company has received from our suppliers.

Thank you for your support and please reach out to Pamela Angeles at pam@arcadiacontact.com or myself at kimp@arcadiacontract.com with any questions or need for additional information.

Sincerely,

Kimberlee Pichler – Girard

Re: Notification of Price Adjustment Due to U.S. Tariff Announcement

Dear Valued Partner,

Yesterday, March 3, 2025, President Donald Trump confirmed the imposition of an additional 10% tariff on imports from China, effective March 4, 2025. In addition, he confirmed a 25% tariff on all products imported from both Mexico and Canada, also effective March 4, 2025.

Because of Byrne’s long-term commitment to local manufacturing, we’ve been able to minimize the impact of recent tariff increases to our customers as much as possible. And, as promised, we’ll continue to do all we can to maintain this minimal impact. The majority of our supply chain partners are domestic, and we take pride in the fact that 85% of what we make is made here in the U.S. But we wouldn’t be here, building things in West Michigan today, without the support of our global partnerships too.

These most recent changes to U.S. trade policy have directly impacted the cost of materials essential to our products. And, as such, we’re writing to inform you of upcoming adjustments to our pricing:

Average impact:

**All products with technology from China
(in addition to letter dated 2/24/25)** **1-4%**

All products from Mexico & Canada **10-18%**

In addition, we are evaluating the imposition of a new 25% aluminum tariff to go into effect March 12, 2025. This tariff, if applicable, will also be effective March 26, 2025. The above averages do not include this aluminum tariff.

Effective **March 26, 2025**, the prices of affected products will increase. This adjustment is necessary to maintain our commitment to delivering high-quality products, short lead-times and reliable delivery. We can provide updated quotes and product options that are not affected. New orders on impacted products, placed prior to March 26, will need to ship by **May 2, 2025**.

We understand the challenges that price adjustments can present and assure you that this decision was made after careful consideration. Our team is dedicated to supporting you and we are available to discuss any questions you may have. Byrne will continue to monitor any additional changes to US policy and will notify you of any impact or adjustments needed.

Thank you for your continued partnership and understanding.

Sincerely,
Terry Sullivan

Subject: Select Product Price Increase Due to Tariff Impacts

Dear Valued Partner,

I hope this message finds you well. We greatly value our partnership and appreciate your continued support of Designtex products. I am writing to inform you of a price change that will impact some of our textiles.

As you are aware, the tariffs imposed on February 3 and March 4 by the Trump administration on imported textiles from China have affected the cost of materials. Due to the added costs associated with these tariffs, we find it necessary to adjust our pricing on a limited number of patterns. The attached price list on the impacted patterns will go into effect **Monday, April 7, 2025**. Orders received no later than Friday, April 4 will receive the current pricing.

When we released our 2025 price list in January, the tariffs hadn't been imposed yet. We planned to update prices on March 4 to reflect the February tariff, but the additional 10% tariff that day forced us to renegotiate with our mills and adjust prices. While the total tariffs are 20%, our product prices range from an additional 4% to 13% with an average of 7% increase.

This decision was not made lightly. We have made every effort to absorb the additional costs, but the ongoing economic environment has made it unsustainable.

Thank you for your understanding and continued partnership during this period of change. If you have any questions or concerns regarding the new pricing or how it may affect your orders, please do not hesitate to reach out. We are here to assist you and ensure a smooth continuation of our business relationship.

We are confident that together we can navigate these challenges successfully.

Best Regards,

Tim Butt

Subject: Gross Stabil Corp. – Implementing Tariff Surcharge (Goods from China)

Dear Gabe,

We want to bring an important update to your attention regarding recent trade policy changes.

On February 11, 2025, the Federal Government announced the immediate implementation of an additional 25% tariff for **Section 232** of the Trade Expansion Act of 1962 (derivatives of steel and aluminum), our only product affected is the aluminum bases. At this time, the casters, glides, fixings, etc. are not currently included.

On March 3, 2025, the Federal Government announced the immediate implementation of an additional 20% tariff on **all goods** from China.

As we strive to keep our prices as low as possible, it is not feasible for us to absorb these tariff charges. Instead, as we have done previously, we will continue to apply tariff surcharges as a separate line item rather than increasing our base prices. **Effective May 1, 2025, we will impose a surcharge of \$0.096 per item** for products with China as the country of origin, in addition to the existing tariffs implemented in 2018.

For customers who have a **stocking agreement or blanket order currently in place**, this additional tariff surcharge **will not take effect until June 1, 2025**.

We understand that these changes may impact your purchasing decisions, and we regret any inconvenience this may cause. To help mitigate these additional costs, we want to remind you that **casters sourced from Germany and other places of origin are currently tariff-free**. If you are interested in exploring these **tariff-free** alternatives, we would be happy to recommend suitable options.

We appreciate your understanding and continued support as we navigate these evolving trade policies. Please feel free to reach out to your account representative or our customer service team if you have any questions or would like assistance in exploring alternative products.

Best regards,

Dear Valued Customer,

Thank you for allowing Stafast Products the opportunity to serve your fastener needs. We deeply value your partnership and are committed to providing the highest quality fasteners and automation that you have come to expect.

As you may be aware, on March 12, 2025 the U.S. government reinstated Section 232 tariffs, removing previous exemptions and imposing an additional 25% tariff on many fastener categories. Additionally, the U.S. implemented further trade measures under the International Emergency Economic Powers Act (IEEPA). This resulted in an additional 10% tariff on all imports from China starting February 4, 2025, and increased to 20% as of March 4, 2025. These changes are in addition to the original Section 301 tariffs announced back in 2018.

These policies aim to counter unfair trade practices and strengthen domestic manufacturing. Unfortunately, the increased cost burden associated with these tariffs will have a direct impact on our pricing.

To continue delivering the products your company needs while maintaining our standards of service, we will be adjusting our prices by 15% on products manufactured in our affected locations, effective April 1, 2025. As we implement this price increase, we will **remove** the current 5% tariff charge previously applied to invoices for tariff-impacted products. We will continue to monitor developments and make further adjustments if tariff policies change. We understand that price adjustments are never easy, and we want to assure you that this decision was made after careful consideration.

If you have any questions or would like to discuss this further, please don't hesitate to reach out to us. We thank you for your continued support and want to ensure that your experience with Stafast remains seamless and positive. We look forward to serving you for many years to come!

Sincerely,
Stafast Management Team

Subject: Pallas - Tariff Surcharge

Dear Pallas Textiles Sales Team,

Over the past several weeks, we have been closely monitoring the evolving U.S. trade and tariff policies impacting textiles imported from China and Canada. Pallas Textiles' strategy of prioritizing domestic sourcing has provided us with some flexibility to assess the full impact of these tariffs. While certain tariffs have been postponed and new reciprocal tariffs are under consideration, the current trade environment continues to drive sustained increases in costs.

Key Updates Impacting Pallas Textiles:

- The original 25% tariff on Chinese textile imports remains in place, with no indication of repeal. Recently, an additional 10% tariff was imposed, followed by another 10% tariff, further driving up costs for imported textiles.
- The potential 25% tariff on goods from Canada has increased demand for domestically sourced materials, particularly in textile production, further pushing up costs.

We've taken proactive steps to mitigate these cost increases through supply chain diversification, strategic purchasing, and cost-containment efforts. However, the cumulative effect of these tariffs has reached a point where we must introduce a surcharge of 2.48%, effective March 31, 2025.

Key Details of the Surcharge:

- The surcharge will be calculated as a percentage of the net price.
- All new quotes will be subject to the surcharge, starting immediately.
- Orders received on or after March 31st will incur the surcharge.
- Orders placed prior to March 31st will not be subject to the surcharge.
- The surcharge will appear as a separate line item on customer acknowledgments and invoices.
- This surcharge will apply across all Pallas Textiles product categories.

We will continue to monitor global trade developments and take a thoughtful approach to minimize the impact on our customers.

Thank you for your continued partnership, flexibility, and trust as we navigate this challenging landscape together. Should you have any questions or concerns, please reach out to your point of contact at Pallas.

Sincerely,

In February and March, the U.S. government implemented a 20% tariff on all goods imported from China.

Due to the increased costs associated with these tariffs, we must adjust our pricing structure accordingly. While we are actively working to minimize the impact on our customers, affected products will reflect a price adjustment beginning March 28th, 2025.

Please let me know you received your updated price list on Friday.

CF Stinson and Anzea Import Tariff Related Surcharges

Date: March 18, 2025

As all of us are aware, the United States and other countries are currently engaged in trade disputes that are impacting our industry. Several of the products offered by CF Stinson and Anzea are included on the list of goods that now incur increasing Tariffs.

Knowing the impact of this to our customers, we have made every effort to both limit and delay installing tariff surcharges on the products affected.

As a result of the fact we do not know with certainty the percentage or duration of these tariffs, we believe it is not advisable to build these additional costs into the product price.

Understanding the above, effective April 7, 2025, all shipments of the products listed below will incur a Tariff Related Surcharge in the amount of 14%. This surcharge will appear as a separate line-item on the corresponding invoices for the shipments.

In the event these trade disputes are resolved, the surcharges will be eliminated.

It is regrettable we have to implement these surcharges. We remain hopeful negotiated settlements will resolve these trade disputes and these Tariff Related Surcharges will be reduced or eliminated.

Thank you for your understanding and for your continued business and support.

Subject: ArcCom Tariff Surcharge

As you have all heard by now, the Federal government has placed an additional tariff on all goods imported from China, bringing the total tariff to 35%.

When our price list was released for 2025 (effective 2/1/2025), many of our sources had not factored in the increase from these tariffs, and certain sources had been subsidizing the tariffs that had been enacted in 2018 and maintained throughout the most recent administration. We do not expect the current tariffs to be eliminated, and many of our sources have put through **significant** increases to offset increased costs caused by these tariffs. While we had incorporated some allowance for tariffs in the 2/1 pricelist, in most cases, it was not sufficient and we must take the unusual step to change our UPHOLSTERY pricing (US\$ and CND\$ off cycle) on certain patterns. Please see the attached price list—patterns with price changes are highlighted.

Effective March 1, 2025, the Arc-Com website will have revised pricing on patterns that are affected. Pricing from the February 1, 2025, price list will be honored on the patterns that increased through March 31, 2025. Effective April 1, 2025, the new price list with the affected changes will be used. Unfortunately, there are no exceptions.

Please let us know if there are possible grade changes on the prices that increased.

Thank you.

Regards,

Nadia

Tab 4 – Vendor Profile

Please provide the following information about your company:

◆ **Company's official registered name.**

Davis Furniture Industries, Inc.

◆ **Brief history of your company, including the year it was established.**

The Davis Furniture story reflects the "spirit of enterprise" so common in the early development of the furniture industry in High Point, North Carolina. During World War II, John Turner Davis, Sr. recognized what many enterprising High Pointers had already seen during sixty years of furniture manufacturing in the area. Starting a family business was a way to establish future prosperity for him and his family and in 1944 the Davis Upholstery Company was founded. Located in a small shop at 1315 South Main Street, John and Dorothy's first focus was on upholstery repair work. By the mid-1950s the days of reupholstery work were a thing of the past, so the business refocused its efforts on the manufacturing of new occasional chairs and living room furniture.

Upon the death of his father in 1967, John T. Davis, Jr., became president and the company was renamed Davis Furniture Industries, Incorporated. During the 1970s, a new approach toward manufacturing office and executive furniture began to take shape, and the corporation progressed to the third generation. Danny Davis, the current president, joined the company in 1977. Ashley Davis Williams and Brian Davis, Danny's daughter and son, are the fourth generation of Davises to carry on the tradition.

A new direction in product design and development took place in the late 70s through licensing European designs. Davis forged a licensing agreement by which the company was to manufacture German products in North America. This new approach was instituted as a means to find better contemporary designs which would combine both quality and function. To date, Davis has had licensee agreements with many different European manufacturers. In turn, Davis has licensed their designs to other manufacturers in Europe, Italy, Australia, Japan, and Switzerland. Davis's new image that has emerged from carefully selected furniture offerings has been one of an industry leader in design. As part of the modernization of Davis, a corporate slogan emerged that continues to signify our marketing and product strategy..."design is a choice."

Allemuir, Andreu World, Bernhardt, Coalesse, Nucraft, OFS Brands, Stylex

◆ **What differentiates your company from competitors?**

Davis began licensing European designs starting in the late 1970's and we continue this practice to this day. This approach was instituted as a means to find better contemporary designs which would combine both quality and function. This approach to always lead with design as our guiding principal is our biggest differentiator.

Danny Davis, the current President of Davis Furniture Industries, best explains this philosophy; "We have a saying here at Davis, 'It's all about the product, and the product is about design.' At Davis, with every product we bring to the drawing

table...the focus is always about design...the aesthetics of the design...the function of the design...and the value of the design. This is what our customers look to Davis to offer them."

◆ **Describe how your company will market this contract if awarded.**

Our sales team will continue work with local agencies who have access to the NCPA Contract to ensure they are aware that Davis has been awarded this contract.

◆ **Describe how you intend to introduce NCPA to your company.**

Davis has been on the NCPA contract since September 2017, however we will continue to educate our sales representatives on the benefits of using NCPA.

◆ **Describe your firm's capabilities and functionality of your on-line catalog / ordering website.**

Our website, www.davisfurniture.com, includes a product section broken out by category, i.e. chairs, lounge, tables, storage, elements and new product introductions. These categories are then broken down further into subcategories based on function, for example: "Chairs" includes the following sub categories; barstools, executive/conference, guest/side, multi-use/café. Once a product is selected that page supplies all of the related info to that product including a pricelist, SCS & Level certificates, 2D CAD, 3D CAD, Revit and SketchUp symbols, a statement of line and a photo library.

Orders cannot be placed through our website at this time. Orders should be sent via e-mail, whenever possible, to expedite the entry process. Send to orders@davisfurniture.com. If this is not possible then fax orders to (336) 889-0031.

Davis's energy policy encourages the minimization of its greenhouse gas and carbon footprint through the implementation of energy conservation and efficiency improvements. Our goal is to reduce impacts to human and ecosystem health by inventory tracking, evaluation and control of chemicals of concern in our processes and facilities.

Environmental considerations are also integrated into our product design and development process. Raw materials containing recycled content are sourced for our products and we continually pursue and prioritize materials with higher recycled content while maintaining our quality requirements.

All of the following terms and conditions shall apply to all purchases of any Davis Furniture Industries, Inc. products (also sometimes referred to as goods), and shall be deemed essential and material parts of and incorporated into any and all quotes, orders, or other documents concerning the purchase of any products of Davis Furniture Industries, Inc. As a condition and part of any request for quote, order, or purchase of any such products, the buyer ("Buyer") hereby agrees to all of the terms and conditions set forth below.

1. Agreement. These Terms of Sale and Delivery ("Terms") shall apply to and govern all transactions between Davis Furniture Industries, Inc. ("Davis") and any Buyer ("Buyer"), notwithstanding any additional and/or differing terms or conditions set forth on or in any documentation of Buyer. As to any particular transaction between Davis and Buyer, these Terms shall govern, along with the Davis quote, sales order acknowledgment, and invoice applicable to that transaction, notwithstanding any additional and/or differing terms or conditions set forth on or in any documentation of Buyer. These Terms may not be amended or modified except by written instrument signed by Davis. Davis does not agree to and shall not be bound by any terms, conditions, or instructions not appearing in the Terms, or any items, conditions or instructions contrary to, inconsistent with, additional to or different than the Terms (whether appearing on or in Buyer's request for quote, purchase order, or any other document or communication whatsoever), all of such terms are deemed material and are hereby expressly rejected unless specifically agreed to by Davis in a signed writing. Nothing from Davis, including but not limited to any quotes, acknowledgements, confirmations, or invoices (whether preliminary or final), shall constitute an acceptance of any provision in any purchase order or other document or transmission of Buyer that conflicts with any of these Terms. Buyer's acceptance of and agreement to the Terms shall be conclusively presumed from and established by any of the following (upon which Davis may rely): (a) Buyer's request for, order for or of, or purchase of, any Products; (b) Buyer's receipt of any Davis acknowledgement of an order for any Products without written objection sent to Davis within five (5) days after receipt of the acknowledgement; (c) Buyer's request or instruction for Davis to ship any Products; (d) Buyer's acceptance of, use of, or payment for, any Products; or (e) Buyer's taking any other action, or inaction, evidencing Buyer's acceptance of any Products.

2. Credit Evaluations; Quotes; Orders. Any provided quotes are contingent upon Davis's approval of Buyer's credit. For Buyer to apply for open account status with Davis, Davis may require one or more of the following for evaluation: credit reports as to Buyer from five supplied trade references, Buyer's current financial statement (if available), and/or current Dun & Bradstreet rating of Buyer. All credit evaluations are made at the sole discretion of Davis, and can only be made by authorized Davis personnel at Davis's corporate office. Davis may re-evaluate Buyer's credit status at any time as it deems fit in its sole discretion. In certain instances (such as for large orders, or where Buyer does not qualify for open credit), as an additional condition of Davis's acceptance of an order, Buyer may be required to provide a 50% cash deposit at the time of order and/or remit the balance before the shipment is released. No Buyer order shall be deemed accepted unless Davis provides Buyer with a written acknowledgment of such order, which order (as stated above) shall be subject to all of, and shall not vary in any way from any of, the Terms and the terms and conditions set forth in Davis's acknowledgment. Final production specifications for any order shall be as set forth in Davis's written acknowledgment as to such order. Buyer is responsible to review each acknowledgment to be sure that all order details are correct. Orders will not be acknowledged or entered for production by Davis until all specification information is complete and credit terms acceptable to Davis have been established.

3. Price. Any prices listed in any Davis price list or other informational materials are subject to change without notice. Any prices quoted by Davis in a written quote are firm only if written unqualified acceptance of the quote is received from Buyer by Davis at its office within 90 days of the date of that quote. In the event Davis includes any such charges in any price, Davis may adjust such charges at any time prior to payment thereof by Davis on Buyer's behalf in respect of any applicable changes in governing laws or regulations; and Buyer agrees to pay any additional charges incurred as a result of any such adjustment. Davis charges customers a credit card usage fee of 2.5% of the transaction amount on credit card purchases, which amount is not greater than Davis's cost of credit card acceptance. Such expenses may include, at Davis's sole discretion, warehousing charges according to the following schedule (which with a minimum of \$50 per week): Side Chairs & Ottomans, \$4.00 NET per week per boxed unit; Caster Base Chairs, \$5.00 NET per week per boxed unit; Lounge Chairs, \$6.00 NET per week per boxed unit; Sofas, Modular/Tandem Seating, \$8.00 NET per week per boxed unit; Case Goods, Desks, Tables, \$8.00 NET per week per boxed unit. (Note: If Buyer has requested and Davis has agreed to an extended delivery date at the time the order/acknowledgment, warehousing charges will not be made until after that agreed date.) Buyer agrees to pay interest on any payment due at a rate of 1.5% per month, to accrue from the date such payment is due until paid in full; provided, however, that if such rate exceeds the maximum rate permitted under applicable law, then interest shall be charged at the maximum rate permitted under such law. In addition, Buyer agrees to pay all costs, including collection agency costs and fees, court costs, and reasonable attorneys' fees, incurred by Davis in collecting and/or seeking to collect all amounts due from Buyer. Checks or payments, whether full or partial, received from or for the account of Buyer, regardless of writings, legends, or notations upon such checks or payments, or regardless of other writings, statements or documents, shall be applied by Davis against the amount owing by Buyer with full reservation of all of Davis's rights, and without an accord and satisfaction of Buyer's liability.

5. Delivery; Shipments; Claims. Estimated delivery dates are approximate and shall not be deemed to represent a fixed guaranteed delivery date. Davis will attempt in good faith, but does not guarantee or covenant, to deliver the goods by any estimated delivery date. Davis shall not be obligated to take any extraordinary steps to meet such delivery date (including the use of overtime labor), nor shall Davis be liable for any damages (including but not limited to any incidental or consequential damages of any kind) suffered by Buyer as a result of Davis's inability to meet any estimated delivery date. All shipments will be separately invoiced and the full balance of the purchase price shall be paid when due, without regard to subsequent or preceding shipments. Merchandise may be delivered at one time or in partial shipments from time-to-time as Davis deems appropriate. Goods are sold F.O.B. Davis factory or plant. Unless otherwise agreed in writing, Davis may select the method of, and arrange for, transportation to the final destination. Freight shipments with commercial carriers as well as non-commercial carriers will include the carrier's standard insurance and will not be insured for the product's commercial value unless otherwise agreed in writing. Davis offers an optional guaranteed shipping and handling program. Under this program, delivery is determined by Davis (shipper's choice), and shipping and handling charges are pre-calculated and prepaid by Davis, and added to the original invoice at the time of acknowledgment. This optional guaranteed shipping and handling program enables the purchaser to determine shipping and handling charges when ordering and provides the purchaser with one invoice for both shipping and handling charges, and the Davis product. If Buyer elects not to utilize this program as to a product order, freight, insurance, customs, brokerage, and duty charges will be paid by Buyer through Buyer's shipping account or on a COD basis. In the absence of these two previously-mentioned options, freight, insurance, customs, brokerage, and all duty fees plus handling charges will be added and billed on the final invoice. Davis reserves the right to ship orders when completed even if before the scheduled ship date.

6. Passage of Title and Security Agreement. Title to goods delivered shall pass to Buyer at the time of F.O.B. delivery to carrier, and Buyer agrees to assume all risk of loss of or damage to the goods at that time. Buyer hereby grants to Davis a security interest in all such goods to secure payment of all sums due Davis. Buyer agrees to execute promptly any financing statements or further documents Davis deems necessary to perfect its security interest, and to perform all other acts necessary for its perfection and preservation of such security interest. So long as any sum payable by Buyer on an order is outstanding, Buyer shall be in default hereunder upon (i) failure to pay any sum due thereon when due, or (ii) the commencement of any insolvency or bankruptcy proceeding by or against Buyer or any guarantor of Buyer's obligations to Davis. Upon default by Buyer, Davis shall have all the rights and remedies of a secured party under the Uniform Commercial Code and as otherwise provided by law. Davis shall have the right to apply any and all proceeds from the disposition of goods to Buyer's obligations in such order as Davis shall elect, and in addition to the expenses incurred by Davis in enforcing its rights hereunder, including reasonable attorneys' fees. In the event of default, Davis may require Buyer to assemble and make the goods reasonably available to Davis at one or more places designated by Davis and reasonably convenient to the parties.

7. Packaging/Crating. For shipments within the continental United States, all Davis product is packaged for shipping on Davis Trucks or commercial carriers. For products to be shipped outside of the continental United States should be specified with special cartoning and/or crating for export. A 5% upcharge to net prices will be assessed. Buyer shall contact a Davis customer service representative to verify quotes for exported products. All seating units are boxed but may require additional crating reinforcement for exported shipments. Contact Factory for specific information. All modular seating units and tables must be crated, resulting in assessment to Buyer of a 5% crating fee upcharge on all such items.

8. Returns; Cancellation. Returns are not allowed except upon prior written authorization by Davis. Any items approved by Davis for return and repair must have a Davis-assigned RMA Number clearly indicated on the returned item. Buyer may not cancel its purchase of any goods without Davis's written consent. If Buyer attempts to cancel an order or otherwise fails to perform its obligations with respect to the same without Davis's written consent, Buyer shall be liable for all of the expenses/damages incurred by Davis in connection herewith, including: (i) direct costs in connection with the ordering or purchase of materials or parts; (ii) engineering and labor costs; (iii) administrative and overhead costs allocable to work already performed; and (iv) all lost profits and all consequential and incidental expenses incurred by Davis. The amount payable by Buyer as set forth above shall be reduced by the amount of any payments made by Buyer in respect of the goods ordered prior to the date of cancellation, in addition to the above. All sums owing pursuant to this paragraph shall be payable in full immediately upon Buyer's receipt of written notice thereof from Davis. In the event Buyer attempts to cancel any order or otherwise fails to perform its obligations without Davis's written consent, Buyer agrees that Davis shall have the unrestricted right, and Buyer hereby authorizes Davis, to sell to any third party all goods subject to the order.

9. Inspection; Acceptance. Davis's liability ends when the carrier issues a clear receipt to Davis, which is an acknowledgement by the transportation company that the shipment has been received by them in good condition. Buyer shall examine merchandise carefully before giving the transportation company a clear receipt. If the shipment is not delivered in good condition and in accordance with quantity called for by the bill of lading, Buyer shall insist on the carrier making notations on the delivery receipt and the original freight bill as to any damage or shortage before accepting shipment. If the shipment is in apparent good condition but upon opening any contents are found damaged, Buyer shall stop unpacking and shall contact an inspector of the transportation company to examine the shipment and indicate on the delivery receipt the exact condition of the contents. Buyer shall not give the carrier a clear receipt for cartons appearing to be damaged. Buyer's failure to make any claim against Davis within 10 days shall constitute acceptance of the goods and shall constitute a waiver of any defects, errors, or shortages ascertained upon inspection. Buyer shall not refuse goods damaged in transit but rather should keep product in original shipping box or container for inspection by carrier and enter a claim with the transportation company. All shipments are delivered to the transportation company in good condition. (Davis's liability ceases at that time.) If shipment arrives damaged or short, Buyer is advised to immediately file a claim with the delivery carrier. No claims of, rejections of, or returns for non-conforming goods will be permitted unless Buyer cooperates in full with Davis's technical personnel to determine the cause of the non-conformance.

10. Goods Made to Buyer Specifications; Indemnification. Ordered items shall not be subject to any specifications, express or implied, except as specifically set forth in a Davis quotation or in a Davis order acknowledgement or an agreement signed by Davis. Where goods are made to any Buyer specifications, Buyer represents and warrants that no patent or other intellectual property right or other property right has been or will be infringed by the manufacture, sale, distribution or use of any such goods. Buyer agrees to indemnify, defend, and hold harmless Davis and all of its directors, officers, employees, agents, successors, and assigns from and against any and all damages, losses, expenses, costs (including without limitation reasonable attorney's and accountant's fees), claims, suits, actions, judgments or other liability asserted against or incurred by Davis arising out of or related to any claim of infringement or violation of any such right or any breach of Buyer's warranties or representations herein.

11. Limited Warranty; Limitation of Liability and Damages.

a. Subject to the limitations, exclusions, exceptions, and disclaimers set forth below, Davis (a) warrants its products other than gas cylinders to be free from defects in workmanship and materials for a period of five (5) years after the date of original shipment, and warrants its gas cylinders to be free from defects in workmanship and materials for a period of one (1) year (said periods referred to, as applicable, as the "Warranty Period"), provided the product is used in the manner and under the conditions for which it is designed.

b. This limited warranty shall apply only if (i) Buyer discovers the claimed defect within the Warranty Period; (ii) Buyer notifies Davis in writing of the claimed defect (with details of such defect(s)) within 30 days after first discovery of the claimed defect; (iii) Buyer allows Davis to inspect the good(s) claimed to be defective; and (iv) Davis or its representative confirms the defect in writing to Buyer.

c. This limited warranty extends only to defects in materials and workmanship which occur during "normal use and service" as defined below. "Normal use and service" means that the product will be used in a typical office environment for 40-45 hours per week.

d. Davis offers no warranty, either express or implied, on any fabrics or leathers, and it only warrants that the non-fabric/non-leather portions of upholstered products will be free from defects and upholstery is tailored according to product specifications. Fabrics and leathers may carry warranties from their manufacturer or reseller; Buyer is advised to refer to each such potential warranty. Because every leather/fabric specification is different and application for use must be taken into consideration, Davis shall not be held responsible in any manner for wrong specification of fabric, and Davis does not warrant specified fabric for wear, durability, or light fastness.

e. Davis makes no warranty of any kind with respect to customer's own materials (COM), customer's own leathers (COL), or non-standard materials selected by and/or used at the request of Buyer.

f. Variations in grain, color, marks, scars, texture, and pattern of wood, leather and textiles may occur as a result of nature, dye lot, exposure to light, and aging. Davis makes no warranty with respect to matching of grain, textures, pattern, or colors of such materials, including an exact match to wood chips, color samples, or swatch cards.

g. Only products specifically designated "for outdoor use" by Davis have been approved for outdoor use. The formation of rust and/or corrosion on these products (or other products) due to outdoor use does not constitute a defect in materials or workmanship and is not covered under this limited warranty.

h. This limited warranty shall not apply and shall be void: (i) as to goods that have not been maintained in accordance with instructions or that have been accidentally damaged; (ii) as to any damages or defects to goods attributable in any way to installation, modification, cleaning, mishandling, accident, fire, lightning, other hazards whether natural or man-made, shipment, or repair made by any party other than Davis; (iii) if Buyer or a third party alters, modifies, or repairs the goods in any manner without Davis's prior express written approval; (iv) if, after discovery of a defect, Buyer fails to take prompt and reasonable steps to prevent the defect from becoming more serious; or (v) Buyer or anyone else fails to follow any recommended maintenance or use procedures described in the documentation for the goods.

i. Buyer's sole and exclusive remedy against Davis arising out of or in connection with any claimed defect in any goods during the applicable Warranty Period, whether for apparent or hidden defects or otherwise, whether based upon contract, strict liability, negligence, or otherwise, and whether for personal injury, commercial loss or other monetary loss, or otherwise, shall be, at Davis's sole option and in Davis's sole discretion: (a) the reconditioning, repair, or replacement of such specific individual good as Davis determines in its sole judgment and upon inspection to be defective, provided that Buyer has given written notice to Davis promptly upon detection of the defects claimed, with details of such defects, or (b) the issuance to Buyer of a credit or refund in the amount of the purchase price of such specific individual good. This limited warranty applies only to Buyer.

j. THE FOREGOING LIMITED WARRANTY AND REMEDY ARE EXCLUSIVE AND MADE ONLY TO BUYER, AS THE ORIGINAL PURCHASER. THIS WARRANTY GIVES BUYER SPECIFIC LEGAL RIGHTS, AND BUYER MAY HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE. THERE IS NO WARRANTY FOR INTERNATIONAL USE OR PURCHASES. DAVIS SHALL IN NO EVENT BE LIABLE TO ANY PERSON OR FIRM (INCLUDING ANY ASSIGNEE OF BUYER) EXCEPT BUYER, AS THE ORIGINAL PURCHASER. ANY WARRANTIES AND REMEDIES PROVIDED BY DAVIS HEREIN ARE EXCLUSIVE AND, TO THE EXTENT ALLOWED BY APPLICABLE LAW, ARE IN LIEU OF ALL OTHER REMEDIES, WARRANTIES, OR REPRESENTATIONS BY DAVIS, WHETHER SUCH ARE EXPRESS, IMPLIED, OR STATUTORY, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND ANY AND ALL OTHER OBLIGATIONS AND/OR LIABILITIES, WHETHER IN CONTRACT, IN TORT, OR OTHERWISE, ALL OF WHICH ARE EXPRESSLY DISCLAIMED. IN NO EVENT SHALL DAVIS BE LIABLE FOR ANY LOSS OF USE OR DELAY IN USE OF GOODS, LOSS OF PROFITS, SALES, REVENUE, OR OTHER FINANCIAL LOSS, OR FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, INDIRECT, OR PUNITIVE DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO DAMAGES TO OTHER PROPERTY, INCONVENIENCE, LOSS OF GOODWILL, LOSS OF PROFITS, LOSS OF SALES, LOSS OF REVENUE OR OTHER FINANCIAL LOSS, DEMURRAGE CHARGES, COST OF SHIPMENT, DOWNTIME, MANUFACTURING DELAYS, ANY OTHER DAMAGES RESULTING FROM DELAY IN DELIVERY, LOSS OF USE OR DELAY IN USE OF GOODS, OR ANY CLAIMS FOR DAMAGES TO PERSON OR PROPERTY. THE ESSENTIAL PURPOSE OF THIS PROVISION AND THE LIMITATIONS OF WARRANTY ABOVE IS TO LIMIT THE LIABILITY OF DAVIS IN ANY WAY ARISING OUT OF DAVIS'S PROVISION OF GOODS TO BUYER. THE PARTIES ACKNOWLEDGE THAT SUCH LIMITATIONS ARE INTEGRAL TO THE AMOUNT OF CONSIDERATION LEVIED IN CONNECTION WITH THE SALE OF THE GOODS, AND THAT IN THE ABSENCE OF SUCH LIMITATIONS, SUCH CONSIDERATION WOULD OF NECESSITY BE SET SUBSTANTIALLY HIGHER. IF BUYER IS A CALIFORNIA RESIDENT, BUYER WAIVES CALIFORNIA CIVIL CODE §1542, WHICH SAYS: "A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR." IF BUYER IS A RESIDENT OF A STATE WITH A PROVISION SIMILAR TO CALIFORNIA CIVIL CODE §1542 WHICH LIMITS THE EXTENT OF A GENERAL RELEASE, BUYER HEREBY WAIVES SUCH PROVISION. SOME STATES MAY NOT RECOGNIZE A DISCLAIMER OR LIMITATION OF WARRANTIES AND/OR LIMITATION OF LIABILITY, SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO BUYER IN SUCH EVENT. BUYER MAY ALSO HAVE DIFFERENT AND/OR ADDITIONAL RIGHTS AND REMEDIES THAT VARY FROM STATE TO STATE. IF ANY IMPLIED WARRANTIES APPLY AS A MATTER OF LAW, THEY ARE LIMITED IN DURATION TO THE MINIMUM LENGTH ALLOWED BY LAW. NO REPRESENTATIVE OF DAVIS IS AUTHORIZED TO GIVE ANY WARRANTIES ON DAVIS'S BEHALF OR TO ASSUME FOR DAVIS ANY OTHER LIABILITY IN CONNECTION HERewith.

12. Defaults; Davis's Rights and Remedies upon Default. Each of the following shall constitute a "Default" under these Terms: (a) Buyer's failure to pay in full when due any sum due to Davis under any order or other agreement with Davis; or (b) Buyer's breach of any of terms of any contract, including these Terms; or (c) Buyer's breach of any provision of any agreement with Davis; or (d) Buyer's attempted cancellation of any accepted order for goods; (f) Buyer's insolvency; (g) the commencement of any insolvency or bankruptcy proceeding or reorganization (whether voluntary or involuntary) by or against Buyer or any guarantor of Buyer's obligations owed to Davis; (h) the appointment of a receiver or trustee for Buyer; and/or (i) Buyer's failure to provide, upon request, adequate assurances of Buyer's complete and timely performance by Buyer of any and all of its obligations under any agreement with Davis. Buyer shall be liable to Davis for all expenses incurred and/or damages suffered by Davis in connection with any Default by Buyer. In the event of a Default by Buyer, Davis shall have the right, in its sole discretion and without prejudice to any other rights or remedies available to it, to do any one or more of the following: (a) immediately suspend performance and/or cancel any unfinished portion of any outstanding contracts or orders with Buyer; (b) terminate or cancel any contract or order, modify any payment terms, or withhold further delivery of any goods that are not paid for in full; (c) declare immediately due and payable all unpaid amounts for all goods and/or services provided under any agreements or orders with Buyer; (d) provide goods exclusively upon Buyer's advance payment or upon Buyer's furnishing of security; (e) retain for its sole benefit any advance payment or deposit provided by Buyer to Davis, which advance/deposit Buyer shall conclusively be deemed to have forfeited to Davis; (f) commence any and all suits or proceedings against Buyer to recover all sums due to Davis and/or any and all damages suffered by Davis, which damages may specifically include any and all lost profits and consequential and/or incidental expenses or damages incurred or suffered by Davis; (g) as to any Collateral, exercise any and all of the rights and remedies of a secured party under the Uniform Commercial Code or as otherwise provided by law, including but not limited to requiring Buyer to assemble and make any Collateral reasonably available to Davis at one or more places designated by Davis and reasonably convenient to the parties in connection with the same, and applying any and all proceeds from the disposition of any Collateral to Buyer's obligations in such order as Davis shall elect, and/or (h) pursue any or all other available remedies as allowed by law. Additionally, if Buyer refuses or fails to accept delivery of any goods tendered for delivery, then Davis, without prejudice to Davis's other lawful remedies, may either store such goods or cause them to be stored in a warehouse, for Buyer's account and at Buyer's cost, risk, and expense, or sell such goods, without notice, to any buyer at public or private sale, and hold Buyer liable for any difference between (a) the contract price for such goods (and any other unpaid amounts to which Davis is entitled), and (b) the price at which such goods are resold less the costs and expenses of such resale, including but not limited to any brokerage commissions. Buyer further agrees that any institution(s) of suit by Davis for any unpaid balance due and owing shall not terminate any security interest of Davis. Buyer will pay as part of the debt secured by the Collateral all amounts incurred by Davis to maintain, repair, and otherwise protect the value of the Collateral and/or in taking possession of, disposing of, or preserving the Collateral after any default of any of Buyer's obligations to Davis. Buyer agrees to pay all costs, fees and expenses incurred by Davis, including reasonable attorneys' fees and court costs, associated with the collection or recovery of any amounts owed by Buyer to Davis. The remedies of Davis provided herein are cumulative and not alternative, and Davis shall have the right to enforce one or more of said remedies or any other remedy Davis may have in whole or in part successively or concurrently. Davis's rights and remedies set forth herein are in addition to all legal and equitable rights and remedies available to Davis, under any applicable law.

13. Force Majeure. Davis shall be excused from the duty to render timely performance of any obligation hereunder if such inability to perform is caused directly or indirectly by act of God, flood, war, riot, fire, accident, explosion, strikes or labor trouble, act of government, delay or default by a subcontractor or supplier of materials or services, transportation difficulty or delay, the existence of any circumstance making performance commercially impracticable or any other cause beyond Davis's reasonable control. Buyer's obligation to make any payment due and owing to Davis shall not be excused for any reason whatsoever.

14. Intellectual Property; Designs. Except to the extent expressly stated to the contrary in a writing signed by Davis, nothing shall be construed as a grant or conveyance to Buyer of any license or other right as to any of Davis's or its affiliates' or any third party's intellectual property rights, whether patent, trademark, trade secret, copyright, or otherwise. Certain Davis design and mechanical features are protected under patents, either obtained or pending. The products shown in our catalogs and price lists are, and remain, Davis' property. We reserve the exclusive right to manufacture the models shown. All dimensions and weights shown are to be considered approximate. We reserve the right to make changes in price, dimensions, design and/or construction without prior notice. Products that Davis has licensed from European manufacturers are restricted to distribution in North America and South America. Some of Davis' original designs also have been licensed to manufacturers that will have Europe, Asia, Pacific Rim, or Middle East distribution. Due to licensed product agreements, these items may not be shipped out of agreed territories. Please contact factory before specifying product for shipments to Europe, Asia, Pacific Rim, or Middle East. Davis will provide the source for the territory in which the product is being shipped.

15. Waiver; Severability. The failure of Davis to enforce any of these Terms or the provisions of any other agreement or document shall not be construed as or constitute a waiver of Davis's right to enforce each and every provision hereof and thereof. If any provision or part of a provision of these Terms is declared invalid, illegal, or unenforceable under applicable law, the affected provision will be considered omitted or modified to conform to applicable law. The validity, legality, and enforceability of all other remaining provisions or parts of provisions will remain in full force and effect.

16. Governing Law; Jurisdiction. All orders, transactions, and/or agreements between Buyer and Davis, all purchases of goods from Davis, and any and all claims or disputes between the parties shall be governed by and construed under the laws of the State of North Carolina, without regard to its conflict of laws principles. Buyer and Davis agree that the proper and exclusive venue and jurisdiction for any actions, claims, or disputes between or concerning Buyer and Davis (including but not limited to those in any way arising out of or related to any orders, transactions, or agreements between Buyer and Davis or any purchases of goods from Davis) shall be in the state and/or federal courts located in Guilford County, North Carolina, and Buyer and Davis each waives any objections or defenses to such venue and/or such courts' exercise of personal jurisdiction over them and hereby submits to such courts' exercise of personal jurisdiction over them.

DAVIS SHALL IN NO EVENT BE LIABLE TO ANY PERSON OR FIRM (INCLUDING ANY ASSIGNEE OF BUYER) EXCEPT BUYER, AS THE ORIGINAL PURCHASER. ANY WARRANTIES AND REMEDIES PROVIDED BY DAVIS HEREIN ARE EXCLUSIVE AND, TO THE EXTENT ALLOWED BY APPLICABLE LAW, ARE IN LIEU OF ALL OTHER REMEDIES, WARRANTIES, OR REPRESENTATIONS BY DAVIS, WHETHER SUCH ARE EXPRESS, IMPLIED, OR STATUTORY, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND ANY AND ALL OTHER OBLIGATIONS AND/OR LIABILITIES, WHETHER IN CONTRACT, IN TORT, OR OTHERWISE, ALL OF WHICH ARE EXPRESSLY DISCLAIMED. IN NO EVENT SHALL DAVIS BE LIABLE FOR ANY LOSS OF USE OR DELAY IN USE OF GOODS, LOSS OF PROFITS, SALES, REVENUE, OR OTHER FINANCIAL LOSS, OR FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, INDIRECT, OR PUNITIVE DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO DAMAGES TO OTHER PROPERTY, INCONVENIENCE, LOSS OF GOODWILL, LOSS OF PROFITS, LOSS OF SALES, LOSS OF REVENUE OR OTHER FINANCIAL LOSS, DEMURRAGE CHARGES, COST OF SHIPMENT, DOWNTIME, MANUFACTURING DELAYS, ANY OTHER DAMAGES RESULTING FROM DELAY IN DELIVERY, LOSS OF USE OR DELAY IN USE OF GOODS, OR ANY CLAIMS FOR DAMAGES TO PERSON OR PROPERTY. THE ESSENTIAL PURPOSE OF THIS PROVISION AND THE LIMITATIONS OF WARRANTY ABOVE IS TO LIMIT THE LIABILITY OF DAVIS IN ANY WAY ARISING OUT OF DAVIS'S PROVISION OF GOODS TO BUYER. THE PARTIES ACKNOWLEDGE THAT SUCH LIMITATIONS ARE INTEGRAL TO THE AMOUNT OF CONSIDERATION LEVIED IN CONNECTION WITH THE SALE OF THE GOODS, AND THAT IN THE ABSENCE OF SUCH LIMITATIONS, SUCH CONSIDERATION WOULD OF NECESSITY BE SET SUBSTANTIALLY HIGHER. IF BUYER IS A CALIFORNIA RESIDENT, BUYER WAIVES CALIFORNIA CIVIL CODE §1542, WHICH SAYS: "A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR." IF BUYER IS A RESIDENT OF A STATE WITH A PROVISION SIMILAR TO CALIFORNIA CIVIL CODE §1542 WHICH LIMITS THE EXTENT OF A GENERAL RELEASE, BUYER HEREBY WAIVES SUCH PROVISION. SOME STATES MAY NOT RECOGNIZE A DISCLAIMER OR LIMITATION OF WARRANTIES AND/OR LIMITATION OF LIABILITY, SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO BUYER IN SUCH EVENT. BUYER MAY ALSO HAVE DIFFERENT AND/OR ADDITIONAL RIGHTS AND REMEDIES THAT VARY FROM STATE TO STATE. IF ANY IMPLIED WARRANTIES APPLY AS A MATTER OF LAW, THEY ARE LIMITED IN DURATION TO THE MINIMUM LENGTH ALLOWED BY LAW. NO REPRESENTATIVE OF DAVIS IS AUTHORIZED TO GIVE ANY WARRANTIES ON DAVIS'S BEHALF OR TO ASSUME FOR DAVIS ANY OTHER LIABILITY IN CONNECTION HEREWITH.

EXHIBIT A: PRICE SCHEDULE

EXHIBIT B: SCOPE OF WORK

EXHIBIT C: PROPOSAL RESPONSE FORMS

EXHIBIT D: FEDERAL CONTRACT TERMS AND CONDITIONS

2. DEFINITIONS. This section may include, but not be limited to, terms defined in Section 2 of the RFP.

3. DESCRIPTION OF PRODUCTS AND SERVICES.

3.1. The Company shall be responsible for providing the Products and Services described in Exhibit B attached to this Contract and incorporated herein by reference. Without limiting the foregoing, the Company will perform the Services and meet the requirements as set forth in Exhibit B. However, the Company shall not be responsible for tasks specifically assigned to the City in this Contract or in Exhibit B.

3.2. The Company shall perform the Services on site at the City's facility in Charlotte, North Carolina, except as mutually agreed upon in writing in specific instances by the City.

4. COMPENSATION.

4.1. TOTAL FEES AND CHARGES.

The City agrees to pay the Company a fixed price (the "Purchase Price") as full and complete consideration for the satisfactory performance of all the requirements of this Contract. This amount constitutes the maximum total fees and charges payable to the Company under this Contract including Expenses and will not be increased except by a written instrument duly executed by both parties, which expressly states that it amends this Section of the Contract.

4.2. NO EXPENSES CHARGEABLE.

The Company shall not be entitled to charge the City for any travel, mileage, meals, materials or other costs or expenses associated with this Contract.

4.3. EMPLOYMENT TAXES AND EMPLOYEE BENEFITS. The City shall pay its own expenses, relating to such audits, but shall not have to pay any expenses or additional costs of the Company. However, if non-compliance is found that would have cost the City in excess of \$10,000 but for the audit, then the Company shall be required to reimburse the City for the cost of the audit.

5. **TIME IS OF THE ESSENCE.** Time is of the essence in having the Company provide Products and perform all Services and deliver all Deliverables within the time frames provided by this Contract and Exhibit B, including all completion dates, response times and resolution times (the "Completion Dates"). Except as specifically stated in this Contract, there shall be no extensions of the Completion Dates. All references to days in this Contract (including the Exhibits) shall refer to calendar days rather than business days, unless this Contract provides otherwise for a specific situation.
6. **NON-APPROPRIATION OF FUNDS.** If the Charlotte City Council does not appropriate the funding needed by the City to make payments under this Contract for any given fiscal year, the City will not be obligated to pay amounts due beyond the end of the last fiscal year for which funds were appropriated. In such event, the City will promptly notify the Company of the non-appropriation and this Contract will be terminated at the end of the fiscal year for which the funds were appropriated. No act or omission by the City, which is attributable to non-appropriation of funds shall constitute a breach of or default under this Contract.

 - 7.1. Coordination of Project schedules and the Company's resource assignment based upon the City's requirements and schedule constraints;
 - 7.2.  - 7.4. Acting as the Company's point of contact for all aspects of contract administration, including invoicing for Products/Services, and status reporting;
 - 7.5. Facilitation of review meetings and conferences between the City and the Company's executives when scheduled or requested by the City;
 - 7.6. Communication among and between the City and the Company's staff;
 - 7.7. Promptly responding to the City Project Manager when consulted in writing or by E-mail with respect to Project deviations and necessary documentation;

 - 7.9. Ensuring that adequate quality assurance procedures are in place throughout the Contract; and
 - 7.10. Meeting with other service providers working on City projects that relate to this effort as necessary to resolve problems and coordinate the Products/Services.

- 8. The City shall be allowed to change staffing for the City Project Manager position on one (1) business day's notice to the Company.
- 9. DUTY OF COMPANY TO IDENTIFY AND REQUEST INFORMATION, PERSONNEL AND FACILITIES.** The Company shall identify and request in writing from the City in a timely manner: (i) all information reasonably required by the Company to perform each task comprising the Services, (ii) the City's personnel whose presence or assistance reasonably may be required by the Company to perform each task comprising the Services, and (iii) any other equipment, facility or resource reasonably required by the Company to perform the Services. Notwithstanding the foregoing, the Company shall not be entitled to request that the City provide information, personnel or facilities other than those that Exhibit B specifically requires the City to provide, unless the City can do so at no significant cost. The Company shall not be relieved of any failure to perform under this Contract by virtue of the City's failure to provide any information, personnel, equipment, facilities or resources: (i) that the Company failed to identify and request in writing from the City pursuant to this Section; or (ii) that the City is not required to provide pursuant to this Contract. In the event the City fails to provide any information, personnel, facility or resource that it is required to provide under this Section, the Company shall notify the City in writing immediately in accordance with the notice provision of this Contract. Failure to do so shall constitute a waiver by Company of any claim or defense it may otherwise have based on the City's failure to provide such information, personnel, facility or resource.

10. COMPANY PERSONNEL REMOVAL, REPLACEMENT, PROMOTION, ETC.

10.1. The City will have the right to require the removal and replacement of any personnel of the Company or the Company's subcontractors who are assigned to provide Products/Services to the City based on experience, qualifications, performance, conduct, compatibility, and violation of City policy or any other reasonable grounds. The addition or promotion of any personnel to key positions within the Project must be approved by the City in writing. The Company will replace any personnel that leave the Project, with persons having at least equivalent qualifications who are approved by the City in writing. As used in this Contract, the "personnel" includes all staff provided by the Company or its subcontractors.

- 11. BACKGROUND CHECKS.** Prior to starting work under this Contract, the Company is required to conduct a background check on each Company employee assigned to work under this Contract, and shall require its subcontractors (if any) to perform a background check on each of their employees assigned to work under this Contract (collectively, the "Background Checks"). Each Background Check must include: (i) the person's criminal conviction record from the states and counties where the person lives or has lived in the past seven (7) years; and (ii) a reference check.

After starting work under this Contract, the Company is required to perform a Background Check for each new Company employee assigned to work under this Contract during that year, and shall require its subcontractors (if any) to do the same for each of their employees. If the Company undertakes a new project under this Contract, then prior to commencing performance of the project the Company shall perform a Background Check for each Company employee assigned to work on the project, and shall require its subcontractors (if any) to do the same for each of their employees.

If a person's duties under this Contract fall within the categories described below, the Background Checks that the Company will be required to perform (and to have its subcontractors perform) shall also include the following additional investigation:

- If the job duties require driving: A motor vehicle records check.

- If the job duties include responsibility for initiating or affecting financial transactions: A credit history check.
- If job duties include entering a private household or interaction with children: A sexual offender registry check.

The Company must follow all State and Federal laws when conducting Background Checks, including but not limited to the Fair Credit Reporting Act requirements, and shall require its subcontractors to do the same.

The Company shall notify the City of any information discovered in the Background Checks that may be of potential concern for any reason.

The City may conduct its own background checks on principals of the Company as the City deems appropriate. By operation of the public records law, background checks conducted by the City are subject to public review upon request.

- 12. ACCEPTANCE OF TASKS AND DELIVERABLES.** Within a reasonable time after a particular Deliverable has been completed (or such specific time as may be set forth in Exhibit B), the Company shall submit a written notice to the City's Project Manager stating the Deliverable(s) that have been met. This notice shall include a signature page for sign-off by the City Project Manager indicating acceptance of such Deliverable(s).

If the City Project Manager is not satisfied that the Deliverable(s) has been met, a notice of rejection (a "Rejection Notice") shall be submitted to the Company by the City Project Manager that specifies the nature and scope of the deficiencies that the City wants corrected. Upon receipt of a Rejection Notice, the Company shall: (i) act diligently and promptly to correct all deficiencies identified in the Rejection Notice, and (ii) immediately upon completing such corrections give the City a written, dated certification that all deficiencies have been corrected (the "Certification"). In the event the Company fails to correct all deficiencies identified in the Rejection Notice and provide a Certification within thirty (30) days after receipt of the Rejection Notice, the City shall be entitled to terminate this Contract for default without further obligation to the Company and without obligation to pay for the defective work.

Upon receipt of the corrected Deliverable(s), or a Certification, whichever is later, the above-described Acceptance procedure shall recommence. The City shall not be obligated to allow the Company to recommence curative action with respect to any deficiency previously identified in a Rejection Notice, or more than once for any given Deliverable (and shall be entitled to terminate this Contract for default if the Company does not meet this time frame).

- 13. NON-EXCLUSIVITY.** The Company acknowledges that it is one of several providers of Furniture, Installation, and Related Products and Services to the City and the City does not represent that it is obligated to contract with the Company for any particular project.

- 14. EACH PARTY TO BEAR ITS OWN NEGOTIATION COSTS.** Each party shall bear its own cost of negotiating this Contract and developing the exhibits. The City shall not be charged for any Products/Services or other work performed by the Company prior to the Effective Date.

<p><u>Recycled Content.</u> Products must contain a certain percentage of recycled content. Please include the amount of recycled content, both pre- and post-consumer, included in your product.</p>	<p>The Exemplis LLC Supply Chain team has built-in goals and incentives to source components with higher recycled content and from regional partners. On average, SitOnIt Seating, IDEON Soft Seating, and Symmetry Office products have anywhere from 10% - 20% recycled content in the finished product. Our fabric selection includes a variety of choices made of 100% recycled material.</p> <p>With any component we buy, besides the percentage of recycled content, our greatest priority is the quality and craftsmanship of the component.</p>
<p><u>Recyclability.</u> Please include the types of materials included in your product, and if they are considered recyclable in typical municipal recycling streams.</p>	<p>Exemplis LLC’s design and material selection process supports sustainability and recyclability for all of our products. Our products consist of plastics, aluminum, steel, wood, and fabric.</p>
<p><u>Biodegradability.</u> Products must be capable of decomposing under natural conditions. Please state whether each Product offered in your proposal is biodegradable.</p>	<p>Reducing the environmental impacts of our products begins with our new product development process. All new products or major design modifications on existing products go through our Design for Environment process, which seeks to incorporate energy and water efficiency, renewable, recycled, recyclable and biodegradable materials and to account for end-of-life impacts.</p>
<p><u>Composability.</u> Products must be capable of composting at a commercial composting facility. Please state whether each product offered in your proposal is compostable.</p>	<p>Exemplis LLC’s textile selection includes a variety of choices made of 100% post-consumer and/or pre-consumer fiber.</p> <p>We are currently working with a United States-based textile manufacturer who is able to extrude yarns that will be compostable. This textile will be available to our customers starting in 2020.</p>
<p><u>Energy Consumption.</u> Please include the total amount of energy consumed for product or service manufacture, use and disposal. Different sources of energy are associated with different environmental impacts.</p>	<p>Exemplis LLC has set a 40% reduction goal for normalized energy consumption at our facilities. We are hopeful we will reach this target by the year 2025. In order to achieve this, we have begun, and will continue, to implement energy savings projects to reduce our energy consumption.</p> <p>In addition, Exemplis LLC has committed to purchase Renewable Energy Certificates (RECs) to offset a portion of the energy consumed from our manufacturing operations on an annual basis.</p>

	<p>The normalized reductions we achieved from our 2008-2010 established baseline for energy consumption and greenhouse gas emissions for the 2018 reporting year were 27.8% and 16.8%, respectively.</p>

<p><u>Low VOCs.</u> Products should contain low or no volatile organic compounds (VOCs). Please indicate any VOC content in each applicable product offered in your proposal.</p>	<p>All SitOnIt Seating and IDEON Soft Seating products have been tested and certified by the GREENGUARD Environmental Institute for meeting safe indoor air quality emissions recognized by the USGBC LEED rating system. Furthermore, all products have been certified to the even more stringent levels required by the GREENGUARD Children & Schools in accordance with the Collaborative for High Performance Schools (CHPS). We also demand all of our textile vendors to be GREENGUARD certified, to ensure that our products will have no or low VOCs.</p> <p>Please visit the GREENGUARD website for third party verification for our GREENGUARD and GREENGUARD Gold certifications. www.greenguard.org</p>
<p><u>Reduced Packaging.</u> Please include any efforts made to reduce the packaging of the products included in this proposal.</p>	<p>Exemplis LLC can ship a few different ways, blanket wrapped, KD (knocked down in a small box), partially assembled or fully assembled. We prefer blanket wrapping as the most environmentally and economically friendly option, but if that is not possible, the KD or partially assembled box is going to be significantly smaller than what most other manufacturers are able to achieve with their cartons.</p>
<p><u>Pollution Prevention.</u> Please state your company's policy on source reduction. The Pollution Prevention Act defines source reduction to mean any practice that: (1) Reduces the amount of any hazardous substance, pollutant or contaminant entering any waste stream or otherwise released into the environment (including fugitive emissions) prior to</p>	<p>Exemplis is committed to environmental leadership. The term includes: equipment or technology modifications, process or procedure modifications, reformulation or redesign of products, substitution of raw materials, and improvements in housekeeping, maintenance, training or inventory control.</p>	<p>During assembly, our team uses environmentally-friendly water-based adhesives. Our precision design and state-of-the-art cutting machines minimize waste during production.</p> <p>Each month, we collect material waste like leather and fabric scraps, plastic drums, carboard and metal and recycle them at local recycling centers.</p> <p>We are committed to reducing the human and ecosystem health impacts of our products and processes through regularly evaluating our chemical management and hazard communication plans. We will continuously evaluate and monitor the chemicals used in our facility and maintain current Safety Data Sheets through an electronic filing system. Using this process, we will build a chemical inventory system to identify and track all existing chemicals within and leaving our facility, as well as all future purchased chemicals that are not currently in our system.</p> <p>Reducing the environmental impacts of our products begins with our new product development process. All new products or major design modifications on existing products go through our Design for Environment process, which seeks to incorporate energy and water efficiency, renewable, recycled, recyclable and biodegradable materials and to account for end-of-life impacts.</p>
<p><u>Life Cycle Management.</u> Please state how many times your product may be reused. (Since reusable products generally require more upfront costs than disposable products, they are often subjected to a cost/benefit analysis to determine the life cycle cost).</p>	<p>Exemplis LLC's products are brand new, custom built-to-order. Our lifetime warranty (excluding any exceptions) provides multi-year coverage for our products which encourages our customers to maximize its use over a period of time.</p>

Our Approach

1 Engage

Our first step is to simply become immersed in your organization's current needs and challenges. Together we engage key stakeholders, elevate awareness of best practices and outline a framework for the implementation of a sustainable ergonomics program.

2 Evaluate

Next, we investigate key areas of concern. Our team of board certified ergonomists will document and analyze site trends, evaluate existing design standards and review your current program. From there, we will work to develop a cost effective strategy to reduce risk and improve employee comfort and health.

3 Plan

Successful action plans require realistic program objectives and timelines. Together we formulate an approach by defining short and long-term goals, leveraging available resources and outlining stakeholder responsibilities.

4 Implement

Employee training, assessment, and workstation enhancement form the core of our implementation process. Interactive group training sessions and individualized assessments elevate awareness of proper workstation configuration, improve posture and reduce employee discomfort. Our certification program in office ergonomics builds in-house expertise of the assessment process and becomes a first line of defense for preventing workplace injuries.

5 Measure

In an effort to gauge the effectiveness of specific program components, we track and analyze a variety of data sets and performance indicators. This process enables our team to make informed program suggestions that will lead to further process improvements.

6 Support

Program maintenance is critical for continued success. In this phase, our team is a resource for recurring training, assessment support and program guidance. As your organization shifts employees between facilities or acquires additional facilities, we work to ensure that consistent workstation design and training strategies are implemented throughout.

Founded in 1983 by CEO Robert King with a focus on high-performance tools that support a healthy, more active way of working, Humanscale is now the global ergonomics leader with a reputation for designing intuitive products which improve the comfort and health of office workers.

The company, headquartered in New York, made its first mark as a workplace ergonomics pioneer in the 1990s with the introduction of revolutionary articulating keyboard systems. Humanscale solidified its status as a true market leader with the introduction of the Freedom chair in 1999, created by renowned ergonomics designer Niels Diffrient. The innovative executive task chair broke new ground by combining unprecedented functionality with minimal manual controls. Humanscale followed suit with a series of Diffrient seating designs including Liberty, Diffrient World, and Smart chairs. In 2009, Humanscale sold its millionth Freedom chair. Diffrient's design for the Liberty chair—a unique mesh seating solution introduced in 2004—continued Freedom's legacy.

Humanscale's latest products continue the company's legacy as a leader in innovative, award-winning, user-focused design and include the groundbreaking Element Disc LED task light, the Ballo stool, and the QuickStand height adjustable workstation. We are the leading designer and manufacturer of ergonomic products that improve the health and comfort of work life. Our philosophy that good design achieves more with less. Function, simplicity, longevity, and sustainability are at the core of all our designs. When thinking through the design and manufacturing of each product, we carefully consider the materials and resources used, in aim of creating an overall Net Positive Impact. E. Describe any green or environmental initiatives or policies.

We are proud to be the first company ever to offer any product that is certified climate, energy and water positive. Twenty six (26) of our products have been certified net positive – meaning any time they are made the planet is measurably better off.

As an organization, we are committed to using healthy materials.

Understanding and being transparent about what's in our materials is the first step to driving change. We are taking a proactive role in identifying all of the ingredients in our products. We are working with our suppliers at all levels to identify and evaluate the ingredients in our products, packaging, manufacturing processes, and key partners in our supply chain.

It is our mission to publish thorough and accurate lists of material ingredients for all of our products. Like nutritional labels on food, we use standard formats to publish the ingredients: Health Product Declarations (HPDs) and Declare labels. We are committed to informing and educating our customers about the contents of our products, so they can make the best decisions possible.

Once the ingredients are identified, we evaluate each one for its impact on people and the environment. We systematically replace chemicals of high concern with safer alternatives.

You can find in-depth information on all of Humanscale's Health Product Declarations in the [**HPD Public Repository**](#) or [**Declare Product Database**](#).

To better understand Humanscale's commitment and approach to material transparency, read our report, titled "[**Transparency: The Essential Ingredient to a Healthy Workplace.**](#)"

As of January 2021, Humanscale published one third of all Declare and HPD labels that exist in the entire furniture industry.

Response for National Cooperative Contract

1.0 Scope of National Cooperative Contract

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the Administration Agreement between Supplier and OMNIA Partners.

1.1 Requirement

The Region 4 ESC (hereinafter defined and referred to as “Principal Procurement Agency”), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector (“OMNIA Partners”), is requesting proposals for ergonomic workplace solutions. The intent of this Request for Proposal is any contract between Principal Procurement Agency and Supplier resulting from this Request for Proposal (“Master Agreement”) be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (“Public Agencies”), through OMNIA Partners’ cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners as a Participating Public Agency in OMNIA Partners’ cooperative purchasing program. Registration with OMNIA Partners as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C, and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of the Master Intergovernmental Purchasing Cooperative Agreement or as otherwise agreed to. The terms and pricing established in the resulting Master Agreement between the Supplier and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Supplier and each Participating Public Agency individually, and neither OMNIA Partners, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Supplier for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Supplier is responsible for knowing the tax laws in each state.

This Exhibit A defines the expectations for qualifying Suppliers based on OMNIA Partners’ requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Suppliers on a national level in order to serve Participating Public Agencies through OMNIA Partners.

These requirements are incorporated into and are considered an integral part of this RFP. OMNIA Partners reserves the right to determine whether to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this RFP acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners to make the Master Agreement available to Participating Procurement Agencies.

1.2 Marketing, Sales and Administrative Support

During the term of the Master Agreement OMNIA Partners intends to provide marketing, sales, partnership development and administrative support for Supplier pursuant to this section that directly promotes the Supplier's products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis.

OMNIA Partners will assign the Supplier a Director of Partner Development who will serve as the main point of contact for the Supplier and will be responsible for managing the overall relationship between the Supplier and OMNIA Partners. The Director of Partner Development will work with the Supplier to develop a comprehensive strategy to promote the Master Agreement and will connect the Supplier with appropriate stakeholders within OMNIA Partners including, Sales, Marketing, Contracting, Training, and Operations & Support.

The OMNIA Partners marketing team will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through channels that may include:

- A. Marketing collateral (print, electronic, email, presentations)
- B. Website
- C. Trade shows/conferences/meetings
- D. Advertising
- E. Social Media

The OMNIA Partners sales teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through initiatives that may include:

- A. Individual sales calls
- B. Joint sales calls
- C. Communications/customer service
- D. Training sessions for Public Agency teams
- E. Training sessions for Supplier teams

The OMNIA Partners contracting teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

- A. Serving as the subject matter expert for questions regarding joint powers authority and state statutes and regulations for cooperative purchasing
- B. Training sessions for Public Agency teams
- C. Training sessions for Supplier teams
- D. Regular business reviews to monitor program success
- E. General contract administration

Suppliers are required to pay an Administrative Fee of 3% of the greater of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Request for Proposal. Supplier will be required to execute the OMNIA Partners Administration Agreement (Exhibit B).

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately \$15 million annually. While no minimum volume is guaranteed to Supplier, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between Supplier and OMNIA Partners.

1.4 Award Basis

The basis of any contract award resulting from this RFP made by Principal Procurement Agency will, at OMNIA Partners' option, be the basis of award on a national level through OMNIA Partners. If multiple Suppliers are awarded by Principal Procurement Agency under the Master Agreement, those same Suppliers will be required to extend the Master Agreement to Participating Public Agencies through OMNIA Partners. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency (e.g., governing law) are subject to modification for each Participating Public Agency as Supplier and such Participating Public Agency may agree without being in conflict with the Master Agreement as a condition of the Participating Agency's purchase and not a modification of the Master Agreement applicable to all Participating Agencies. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement (e.g., governing law, invoice requirements, order requirements, specialized delivery, diversity requirements such as minority and woman owned businesses, historically underutilized business, etc.) ("Supplemental Agreement"). It shall be the

responsibility of the Supplier to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the Participating Agency. It shall further be the responsibility of the Supplier to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of the Master Agreement and adjust wage rates accordingly. In instances where supplemental terms and conditions create additional risk and cost for Supplier, Supplier and Participating Public Agency may negotiate additional pricing above and beyond the stated contract not-to-exceed pricing so long as the added price is commensurate with the additional cost incurred by the Supplier. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Supplier (Contract Sales are reported to OMNIA Partners).

All signed Supplemental Agreements and purchase orders issued and accepted by the Supplier may survive expiration or termination of the Master Agreement. Participating Agencies' purchase orders may exceed the term of the Master Agreement if the purchase order is issued prior to the expiration of the Master Agreement. Supplier is responsible for reporting all sales and paying the applicable Administrative Fee for sales that use the Master Agreement as the basis for the purchase order, even though Master Agreement may have expired.

1.5 Objectives of Cooperative Program

This RFP is intended to achieve the following objectives regarding availability through OMNIA Partners' cooperative program:

- A. Provide a comprehensive competitively solicited and awarded national agreement offering the Products covered by this solicitation to Participating Public Agencies;
- B. Establish the Master Agreement as the Supplier's primary go to market strategy to Public Agencies nationwide;
- C. Achieve cost savings for Supplier and Public Agencies through a single solicitation process that will reduce the Supplier's need to respond to multiple solicitations and Public Agencies need to conduct their own solicitation process;
- D. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.

2.0 REPRESENTATIONS AND COVENANTS

All Administrative Fees not paid when due shall bear interest at a rate equal to the lesser of one and one-half percent (1 1/2%) per month or the maximum rate permitted by law until paid in full.

15. Supplier shall maintain an accounting of all purchases made by Participating Public Agencies under the Master Agreement. OMNIA Partners, or its designee, in OMNIA Partners' sole discretion, reserves the right to compare Participating Public Agency records with Contract Sales Reports submitted by Supplier for a period of four (4) years from the date OMNIA Partners receives such report. In addition, OMNIA Partners may engage a third party to conduct an independent audit of Supplier's monthly reports. In the event of such an audit, Supplier shall provide all materials reasonably requested relating to such audit by OMNIA Partners at the location designated by OMNIA Partners. In the event an underreporting of Contract Sales and a resulting underpayment of

Administrative Fees is revealed, OMNIA Partners will notify the Supplier in writing. Supplier will have thirty (30) days from the date of such notice to resolve the discrepancy to OMNIA Partners' reasonable satisfaction, including payment of any Administrative Fees due and owing, together with interest thereon in accordance with Section 13, and reimbursement of OMNIA Partners' costs and expenses related to such audit.

RECITALS

WHEREAS, after a competitive solicitation and selection process by Principal Procurement Agencies, in compliance with their own policies, procedures, rules and regulations, a number of suppliers have entered into “**Master Agreements**” (herein so called) to provide a variety of goods, products and services (“**Products**”) to the applicable Principal Procurement Agency and the Participating Public Agencies;

WHEREAS, Master Agreements are made available by Principal Procurement Agencies through the OMNIA Partners Parties and provide that Participating Public Agencies may purchase Products on the same terms, conditions and pricing as the Principal Procurement Agency, subject to any applicable federal and/or local purchasing ordinances and the laws of the State of purchase; and

WHEREAS, in addition to Master Agreements, the OMNIA Partners Parties may from time to time offer Participating Public Agencies the opportunity to acquire Products through other group purchasing agreements.

NOW, THEREFORE, in consideration of the mutual promises contained in this Agreement, and of the mutual benefits to result, the parties hereby agree as follows:

1. Each party will facilitate the cooperative procurement of Products.
2. The Participating Public Agencies shall procure Products in accordance with and subject to the relevant federal, state and local statutes, ordinances, rules and regulations that govern Participating Public Agency’s procurement practices. The Participating Public Agencies hereby acknowledge and agree that it is the intent of the parties that all provisions of this Agreement and that Principal Procurement Agencies’ participation in the program described herein comply with all applicable laws, including but not limited to the requirements of 42 C.F.R. § 1001.952(j), as may be amended from time to time. The Participating Public Agencies further acknowledge and agree that they are solely responsible for their compliance with all applicable “safe harbor” regulations, including but not limited to any and all obligations to fully and accurately report discounts and incentives.

3. The Participating Public Agency represents and warrants that the Participating Public Agency is not a hospital or other healthcare provider and is not purchasing Products on behalf of a hospital or healthcare provider; provided that the foregoing shall not prohibit Participating Public Agency from furnishing health care services so long as the furnishing of healthcare services is not in furtherance of a primary purpose of the Participating Public Agency.

4. The cooperative use of Master Agreements shall be in accordance with the terms and conditions of the Master Agreements, except as modification of those terms and conditions is otherwise required by applicable federal, state or local law, policies or procedures.

5. The Principal Procurement Agencies will make available, upon reasonable request, Master Agreement information which may assist in improving the procurement of Products by the Participating Public Agencies.

6. The Participating Public Agency agrees the OMNIA Partners Parties may provide access to group purchasing organization (“**GPO**”) agreements directly or indirectly by enrolling the Participating Public Agency in another GPO’s purchasing program, provided that the purchase of Products through the OMNIA Partners Parties or any other GPO shall be at the Participating Public Agency’s sole discretion.

7. The Participating Public Agencies (each a “**Procuring Party**”) that procure Products through any Master Agreement or GPO Product supply agreement (each a “**GPO Contract**”) will make timely payments to the distributor, manufacturer or other vendor (collectively, “**Supplier**”) for Products received in accordance with the terms and conditions of the Master Agreement or GPO Contract, as applicable. Payment for Products and inspections and acceptance of Products ordered by the Procuring Party shall be the exclusive obligation of such Procuring Party. Disputes between Procuring Party and any Supplier shall be resolved in accordance with the law and venue rules of the State of purchase unless otherwise agreed to by the Procuring Party and Supplier.

8. The Procuring Party shall not use this Agreement as a method for obtaining additional concessions or reduced prices for purchase of similar products or services outside of the Master Agreement. Master Agreements may be structured with not-to-exceed pricing, in which cases the Supplier may offer the Procuring Party and the Procuring Party may accept lower pricing or additional concessions for purchase of Products through a Master Agreement.

9. The Procuring Party shall be responsible for the ordering of Products under this Agreement. A non-procuring party shall not be liable in any fashion for any violation by a Procuring Party, and, to the extent permitted by applicable law, the Procuring Party shall hold non-procuring party harmless from any liability that may arise from the acts or omissions of the Procuring Party.

10. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, THE OMNIA PARTNERS PARTIES EXPRESSLY DISCLAIM ALL EXPRESS OR IMPLIED REPRESENTATIONS AND WARRANTIES REGARDING ANY PRODUCT, MASTER AGREEMENT AND GPO CONTRACT. THE OMNIA PARTNERS PARTIES SHALL NOT BE LIABLE IN ANY WAY FOR ANY SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL, EXEMPLARY, PUNITIVE, OR RELIANCE DAMAGES, EVEN IF THE OMNIA PARTNERS PARTIES ARE ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. FURTHER, THE PROCURING PARTY ACKNOWLEDGES AND AGREES THAT THE OMNIA PARTNERS PARTIES SHALL HAVE NO LIABILITY FOR ANY ACT OR OMISSION BY A SUPPLIER OR OTHER PARTY UNDER A MASTER AGREEMENT OR GPO CONTRACT.

DEFINITIONS

Contract means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non-Federal entity that, consistent with 31 U.S.C. 6302-6305:

- (a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non-Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;
- (b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non-Federal entity in carrying out the activity contemplated by the Federal award.
- (c) The term does not include:
 - (1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or
 - (2) An agreement that provides only:
 - (i) Direct United States Government cash assistance to an individual;
 - (ii) A subsidy;
 - (iii) A loan;
 - (iv) A loan guarantee; or
 - (v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non-Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

- (a)(1) The Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or
- (2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.
- (b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.
- (c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).
- (d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non-Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

- (a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;
- (b) Is not organized primarily for profit; and
- (c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non-Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period.

Pass-through entity means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non-Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non-Federal entity may purchase property or services using small purchase methods. Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is \$250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

FEMA SPECIAL CONDITIONS

Awarded Supplier(s) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Supplier is accepted these FEMA Special Conditions required by the Federal Emergency Management Agency (FEMA).

“Contract” in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as the “Master Agreement”.

“Contractor” in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as “Supplier” or “Awarded Supplier”.

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a “financial interest” to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an “apparent” conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency (“NFE”) must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE’s may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE’s written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE’s employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security’s regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:

- a. Equal opportunity and nondiscrimination laws
- b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7
- c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

Version April 12, 2022

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. REMEDIES

- a. Standard. Contracts for more than the simplified acquisition threshold, currently set at \$250,000, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate. See 2 C.F.R. Part 200, Appendix II(A).
- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

2. TERMINATION FOR CAUSE AND CONVENIENCE

- a. Standard. All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).
- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

When applicable:

- a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R.

§ 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).

b. Key Definitions.

- i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a “federally assisted construction contract” as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.
- ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines “construction work” as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

c. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

d. Required Language. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4. DAVIS-BACON ACT

- a. Standard. All prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.
- b. Applicability. The Davis-Bacon Act applies to the Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program.
- c. Requirements. If applicable, the non-federal entity must do the following:
 - i. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
 - ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti-Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person

employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

- iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

Compliance with the Davis-Bacon Act.

- a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.
- b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.
- c. Additionally, contractors are required to pay wages not less than once a week.

5. COPELAND ANTI-KICKBACK ACT

- a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").
- b. Applicability. This requirement applies to all contracts for construction or repair work above \$2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.
- c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

- a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
- b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.
- c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

- a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.
- b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of \$100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
- c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in suchworkweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation

of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of \$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

- a. Standard. If the FEMA award meets the definition of “funding agreement” under 37C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).
- b. Applicability. This requirement applies to “*funding agreements*,” but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of “funding agreement.”
- c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines “funding agreement” as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

- a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).
- b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of \$150,000 under a federal grant.
- c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.
2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
3. The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.
2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
3. The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

- a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and*

Suspension (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.
- c. Requirements.
 - i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530.
 - ii. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.
 - iii. Specifically, a covered transaction includes the following contracts for goods or services:
 - 1. The contract is awarded by a recipient or subrecipient in the amount of at least \$25,000.
 - 2. The contract requires the approval of FEMA, regardless of amount.
 - 3. The contract is for federally-required auditservices.
 - 4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of \$25,000.
- d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

- (1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2

- (2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
- (3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at <http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12>. They will be updated from time-to-time as necessary.
 - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d. The form may be used “as-is”, subject to edits as described herein.
 - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

SUSTAINABILITY: MAKING A POSITIVE IMPACT

NET POSITIVE: LESS BAD IS NOT GOOD ENOUGH

As a global company, our approach focuses not only on minimizing our negative impacts but working to produce significant positive contributions.

For us, becoming Net Positive means incorporating manufacturing into our environmental and social solutions. It means finding ways to go beyond reducing our consumption—to give back, replenish, and continue making a positive environmental and social impact on the world.

Pioneers in Material Transparency

Our published and third-party audited ingredient lists show customers exactly what is in the products they're getting and allow buyers to make more informed choices.

Design with Healthy Materials

Humanscale has removed virtually all Red List chemicals commonly used in the industry from our products.

Sustainable Operations

Facilities in Piscataway (main plant) and Fresno have achieved TRUE Zero Waste Gold certification. Solar array provides 85% of the power needed for all production in Piscataway facility. Rainwater capture systems provide all water needed for our production globally. Waste diversion rate is greater than 90% globally.

Social – Supply Chain

Humanscale audits all of our major suppliers for environmental and social impacts including child labor, forced labor, and community impacts. For key suppliers, we conduct third-party, on-site audits.

SAVING THE PLANET, ONE PRODUCT AT A TIME

First published by the International Living Future Institute (ILFI) in 2015, the [Living Product Challenge](#) (LPC) is the most rigorous test of sustainability, requiring manufacturers to give back more to the planet than they use.

Humanscale is proud to be the first manufacturer in any industry to achieve the entire Living Product Challenge, offering our customers the opportunity to make a positive impact by simply buying our products. Currently, 26 of our products are climate, water, and energy positive – leaving the planet measurably better off every time they're made.

They are the designs of the future; products with a net positive impact.

Products Certified by Living Product Challenge

SUSTAINABILITY: MAKING A POSITIVE IMPACT

OUR CUSTOMERS MAKE IMPACTS

In addition to purchasing products that leave the world better off, customers can work with Humanscale to dispose of products in the most responsible way possible. Rather than sending them to landfills, we make it easier for our customers to repurpose their products with our [BEAM program](#).

CERTIFICATION

Humanscale products maintain a host of environmental certifications and can contribute towards valuable LEED credits. Click [here](#) to view certification details.

WWF PARTNERSHIP

We actively contribute to an organization that prioritizes the preservation of ecosystems – the World Wildlife Fund. Humanscale has partnered with WWF and the Cambodian government to preserve an important ecosystem of 1.5 million acres in the eastern plains of Cambodia that historically has been devastated by illegal logging and hunting.

Humanscale®

FROM OFFICE TO OCEAN: RECLAIMING OCEAN PLASTIC

Examples of our commitment to net positive products, Smart Ocean and Liberty Ocean chairs incorporate almost 2 pounds of reclaimed ocean fishing nets per chair. Path chairs incorporate 9.5 pounds of ocean plastic each.

Widely regarded as the most harmful type of ocean plastic, discarded fishing nets “ghost fish” for years, damaging delicate ecosystems and the marine life that inhabit them.

As the first chairs ever made from recycled fishing nets, our Path, Smart Ocean, and Liberty Ocean chairs not only help clean up our oceans, but also reflect our commitment to creating an overall positive impact on the Earth.

SUSTAINABILITY: MAKING A POSITIVE IMPACT

By demanding sustainable products and practices, you have the power to make positive change the world.

THE HUMANSCALE DIFFERENCE

1 – PIONEER IN ERGONOMICS

At our core, we are human centric, not product centric. Humanscale's ergonomic work tools, including the first ever self-reclining chair, support the human body and focus on function before all else.

2 – SUSTAINABILITY IS OUR MANTRA

At Humanscale, we focus not only on reducing our negative environmental impact, but also on making an overall net Positive impact. We are the first manufacturer to complete the rigorous Living Product Challenge. We have also become the clear leader in material transparency by publishing more than half of the Health Product Declarations and Declare labels that exist in the entire furniture industry.

3 – DESIGN PHILOSOPHY

At Humanscale, our design philosophy is “function first,” followed by the form of a product – the opposite of how our competitors think. Thus, the form that flows out of function becomes honest, timeless and as relevant in New York as it is in Singapore or London.

4 – MANUFACTURER AND SERVICE PROVIDER

While other products may be created with ergonomic principles, Humanscale is the only manufacturer with an ergonomic consulting group. We are able to consult with any new occupiers on how their space can ergonomically adapt to them.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission made available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. This process is known as acknowledging the certificate. The commission will post the acknowledged Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency. The posted acknowledged form does not contain the declaration of signature information provided by the business.

A certificate will stay in the pending state until it is acknowledged by the governmental agency. Only acknowledged certificates are posted to the commission's website.

Re: Price Increase

To Whom it May Concern,

I'm reaching out to advise that we will be implementing a price increase across three product categories which includes Task Lighting, the Freedom Chair and eFloat Lite & eFloat Flex at an average of 8%-10%. No additional products are affected. This increase is due to long-term increases in operating costs, including raw material costs, labor and freight.

We are committed to continuing to offer you the quality you expect and deserve. We have found a way to minimize the price increase to a small number of products, while still sourcing the best possible materials.

Sincerely,

A handwritten signature in blue ink that reads "Katie Miglin".

For material changes, the awarded contract holder and/or subsequent assignee agrees to and understands the following principles:

i. **Contract holder reference.** If the contract holder undergoes a merger, acquisition, or partial assignment, in which case they still maintain the contract, then all transactions made under the existing contract number (including purchase orders) must reference the name of the awarded contract holder. The exception to this requirement is if the contract holder no longer holds the contract or if the company has been acquired by another company and undergone a name change. Notice of the authorized name change, to the existing contract, must be provided and approved by Region 4.

In instances where the contract holder has acquired a separate and distinct company, and it is necessary to designate those certain purchases facilitated by the non-contract holder, then this designation may be made if, and only if, the contract holder is also referenced on the transaction.

ii. **Maintenance of records.** Both the awarded contract holder and subsequent assignee agree to remain responsible for maintaining all auditable records, including documents kept in the ordinary course of business and sales invoices, related to OMNIA Partners, Public Sector and/or contract number pursuant to the statutory requirements identified in the vendor contract.

iii. **Payments.** Both the awarded contract holder and subsequent assignee agree that all payments made by participating entities must be made directly to the contract holder, unless otherwise approved by Region 4. Accordingly, both parties acknowledge that in instances where it is necessary to designate the purchases facilitated by assignee, that the contract holder must also be referenced on the purchase order.

iv. **Handling of Proprietary and/or Confidential Information.** In accord with the terms of the contract, both awarded vendor and assignee agree that at all times it will hold in strict confidence and not disclose to any third party Confidential and/or Proprietary information of Region 4, except as approved in writing by Region 4, and will use the Confidential Information for no purpose other than providing services under the contract. Both awarded vendor and assignee shall only permit access to Confidential Information to those of its employees or authorized representatives having a need to know and who have signed confidentiality agreements or are otherwise bound by confidentiality obligations at least as restrictive as those contained herein.

This document is to be construed in strict accordance with the terms and conditions outlined in the Region 4/vendor Master Agreement referenced herein. Both awarded vendor and assignee agree to uphold the vendor obligations set forth in the vendor agreement. This Agreement will become effective when signed by all parties.

 - Unless otherwise stated, all contracts are for a period of three (3) years with an option to renew for up to five (5) additional one-year terms or any combination of time equally not more than 5 years if agreed to by Region 14 ESC and the vendor.

- ◆ Permits
 - Since this is a national contract, knowing the permit laws in each state is the sole responsibility of the vendor.
- ◆ Indemnity
 - The awarded vendor shall protect, indemnify, and hold harmless Region 14 ESC and its participants, administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the vendor, vendor employees or vendor subcontractors in the preparation of the solicitation and the later execution of the contract.
- ◆ Franchise Tax
 - The respondent hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes.
- ◆ Supplemental Agreements
 - The entity participating in this contract and awarded vendor may enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in this contract i.e. invoice requirements, ordering requirements, specialized delivery, etc. Any supplemental agreement developed as a result of this contract is exclusively between the participating entity and awarded vendor.
- ◆ Certificates of Insurance
 - Certificates of insurance shall be delivered to the Public Agency prior to commencement of work. The insurance company shall be licensed in the applicable state in which work is being conducted. - ◆ Legal Obligations
 - It is the Respondent's responsibility to be aware of and comply with all local, state, and federal laws governing the sale of products/services identified in this RFP and any awarded contract and shall comply with all while fulfilling the RFP. Applicable laws and regulation must be followed even if not specifically identified herein.
- ◆ Protest
 - A protest of an award or proposed award must be filed in writing within ten (10) days from the date of the official award notification and must be received by 5:00 pm CST. Protests shall be filed with Region 14 ESC and shall include the following:

◆ Force Majeure

- If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.
- The term Force Majeure as employed herein, shall mean acts of God, strikes, lockouts, or other industrial disturbances, act of public enemy, orders and regulation of any kind of government of the United States or any civil or military authority; insurrections; riots; epidemics; pandemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty

◆ Prevailing Wage

- It shall be the responsibility of the Vendor to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the purchaser. It shall further be the responsibility of the Vendor to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of this contract and adjust wage rates accordingly.

◆ Termination

- Either party may cancel this contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order.

◆ Open Records Policy

- Because Region 14 ESC is a governmental entity responses submitted are subject to release as public information after contracts are executed. If a vendor believes that its response, or parts of its response, may be exempted from disclosure, the vendor must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition,

the respondent must specify which exception(s) are applicable and provide detailed reasons to substantiate the exception(s).

- The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 14 ESC must provide the OAG sufficient information to render an opinion and therefore, vague and general claims to confidentiality by the respondent are not acceptable. - **Who is your competition in the marketplace?**
Keilhauer, Hightower, Source Seating, Arper, Grand Rapids Chair

- **What differentiates your company from competitors?**

As makers, Leland views furniture as ‘tools’ to enhance people’s lives. For 30 years Leland has studied the emerging intelligence about the workplace, about educational environments and changing needs and habits, and responded with innovative designs. In the forefront of driving the benefits of ancillary furniture into new space types Leland supplies very adaptable and flexible furniture. Our pieces afford autonomy, recognizing that people want choice and control over how, when and where they work. Besides the innovation of new product types, Leland stands out from its many competitors by pushing manufacturing methods and technologies to achieve shapes, forms and details not previously seen in the contract furniture marketplace. Our latest Gemma Collection stretches the capabilities of two-dimensional plywood, while at the same time managing to meet our 500lb. test for our seating. This 500 lb. test alone is a unique distinguishing feature of Leland and is key to the durability and longevity of our furniture.

Recognizing that furniture is not just a commodity, but especially now is a critical part of creating spaces where people want to work and be present-spaces that evoke a strong sense of well-being - Leland has always stood apart from its competitors by its commitment to color and to warm residential finishes : the extensive use of wood and a color palette that also draws on nature and the outdoors.

As a US manufacturer which aims to source its entire supply chain domestically, Leland also maintains a competitive advantage over foreign vendors as well as local ones who rely heavily on imported components. We are renowned for our comparatively short lead-times which range typically from 4 – 8 weeks from our factory in Michigan.

- **Describe how your company will market this contract if awarded.**
If awarded, Leland will create a page dedicated to NCPA on our website. We only have two contracts with pages like this, GSA and TIPS. You can view those examples here:
<https://lelandfurniture.com/gsa/>
<https://lelandfurniture.com/tips/>
From there, our independent sales reps will be marketing the contract by getting the word out to the dealers, designers, and end users that we are now on contract for NCPA.
- **Describe how you intend to introduce NCPA to your company.**
Leland will announce to all of our independent sales reps about the addition of NCPA to our contract offering and provide them with the contract information sheets we create that details the contract information. As always, we will be available to answer any questions they have and will be in touch with our NCPA contact for anything we may need clarification on. Additionally, we will provide training to our customer service team on any information they will need to know for quoting, order placement, etc.
- **Describe your firm's capabilities and functionality of your on-line catalog / ordering website.**
All Leland products can be found online. We have a website for Leland Furniture and another for FreshCoast furniture (our children's furniture offerings). We do not offer online ordering, rather, PO's must be submitted in to our Customer Service email, hello@lelandfurniture.com.

We have an outstanding customer service team to assist with quotes, purchase orders, finish sample requests, warranty claims, order updates, and any other miscellaneous questions that our reps, dealers, or end users may have. We are consistently receiving feedback on how wonderful this team is to work with.

ORGANIZATIONAL CHART

Ability to Provide and Perform the Required Services for the Contract

Having manufactured and supplied furniture to the institutional and corporate market for 30 years, Leland has a firmly established reputation among both end-users and the design community. We have salespeople covering every state in the US and some of them have been with us for almost 30 years. Since Leland is an open line, most dealers have purchased from us at some point in time and all have access to our product line. However, there are many dealers who use Leland as a 'go to' resource for the following reasons:

1. The unique personality of our designs which reflect Leland's commitment to colors and materials, as evidenced by the extensive use of wood for its sustainability as a fast renewable resource, and the unique methods of applying color while preserving the texture and grain of different woods;
2. As a domestic manufacturer we dual-source our supply-chain which enables us to offer lead-times as short as 4-6 weeks, so furniture dealers come to us knowing we can fulfil many orders where our competitors cannot, and that Leland will have the highest success rate in delivering all line items as a single complete order;
3. Additionally, as the actual factory for our products Leland is able to customize products to meet the desired specifications;
4. Agencies want Leland's products because of their quality and durability: our volume in Higher Education, K12, Libraries and Healthcare exceeds our volume in the corporate and hospitality segments because we are a known heavy-duty institutional provider;
5. Leland's product range affords an almost 'one-stop shop' as we can supply everything from a small plastic stacking stool through ganged auditorium seating and large-scale site furniture, both indoors and out, for transit and airport facilities.

Administrative

Leland's administrative office has implemented an extensive recycling policy for all materials used in the administrative process including paper, plastic, glass and metal. We furthermore require that our administrative staff print only those e-mails, quotes, etc., which are required for hard copy records. All other correspondence is only kept as e-documents.

Design

At Leland, protecting the environment starts with product design. Before being considered for product development, each new design concept submitted by our design partners is evaluated for its environmental impact throughout the life cycle of the product. Leland products are of exceptional quality, highly durable and designed for longevity. Products with a long useful life simply do not need to be replaced as often.

Manufacturing

Our manufacturing philosophy is based on lean manufacturing principles including perfect first-time quality, minimizing waste, maximizing use of available resources, and continuous process improvement. Leland has implemented standard operating procedures for recycling of cardboard, paper, aluminum, steel, PVC table edging, and scrap wood. Electrostatically applied VOC free powder coatings are applied to all of our painted metal surfaces. All exposed wood surfaces are finished with a high solid, low VOC finish that is formulated to maximize durability and minimize environmental impact. Our wood finishing facility features a state of the art ventilation and filtering system. We routinely change spray booth filters and reclaim our wood stains and solvents. All of these efforts contribute to our record of emission levels that are far below current strict federal and state mandated emission standards. Our upholstery foam material is formaldehyde free and made without chlorofluorocarbons (CFC's). Foam scraps from Leland products are recycled by our vendor to make carpet pads.

Materials

We are committed to selecting raw materials and components that are sustainable and processed in an environmentally responsible manner. For example, many Leland designs feature curved hardwood plywood. Plywood utilizes timber 8 to 10 times more efficiently than solid wood. The veneers used in our curved plywood furniture are from professionally managed forests. Leland currently uses steel for the frames of all its metal chairs and tables. This contains a minimum of 25% recycled steel and can be up to 100%, given daily supply fluctuation.

SCS Indoor Advantage Gold Certification

Leland products are SCS Indoor Advantage Gold Certified. Indoor Advantage Gold certification is SCS Global Services' highest level of indoor air quality performance for furniture. The certification assures that furniture products support a healthy indoor environment by meeting strict chemical emission limits for volatile organic compounds (VOCs). To be certified, products must be tested by independent labs for compliance with the ANSI/BIFMA X7.1, and either ANSI/BIFMA e.3 or CDPH/EHLB Standard Method V1-1 for VOC emissions of concerns. It is recognized by EPA and GSA, aligns with CA01350, and also qualifies for building rating systems such as LEED v4, BREEAM, WELL Building, CHPS (Collaborative for High Performance Schools), Living Building Challenge, and more.

Shipping

We have recently initiated a program to receive parts from vendors in returnable and reusable packaging. Every effort is made to ship our furniture in full trucks and receive parts from vendors in the same manner. To minimize the use of packaging materials we have developed high density packing configurations for many of our products. For example, as many as 30 Marquette chairs can be shipped in one package. Whenever possible, Leland eliminates the use of corrugated packaging and ships products blanket wrapped which can be reused indefinitely.

Vendors

Leland recognizes that our conscious choice of vendors and an understanding of their own commitments to preserving the environment is a key component to our products. This is why we strive to use vendors that have made environmental commitments with their products, places of work, and responsible habits both administratively and in manufacturing. Furthermore, Leland selects local vendors whenever possible to eliminate long transit times which can add to unnecessary fuel use.

Equal Employment Opportunity

Our company is committed to equal employment opportunity. We will not discriminate against employees or applicants for employment on any legally-recognized basis ["protected class"] including, but not limited to: race; color; religion; genetic information; national origin; sex; pregnancy, childbirth, or related medical conditions; age; disability; citizenship status; uniform servicemember status; or any other protected class under federal, state, or local law.

In Michigan, the following also are a protected class: disability; religion; race; color; national origin; age; sex; pregnancy, childbirth or related medical condition [that does not include nontherapeutic abortion not intended to save the life of the mother]; height; weight; marital status; and genetic information.

In New York, the following also are a protected class: age [18 and over]; race; creed; color; national origin; sexual orientation; sex (including gender identity and transgendered status); disability (including gender dysphoria or use of a guide dog, hearing dog, or service dog); predisposing genetic characteristics; military status; familial status; marital status; victims of domestic violence or stalking; for displaying the American flag on the employee's person or work station, as long as the display does not substantially and materially interfere with the employee's job duties; legal use of consumable products or legal recreational activities off company premises during nonworking hours; previous conviction of criminal offenses, unless directly related to employment or would involve an unreasonable risk to property, or to the safety or welfare of specific individuals, or the general public; or based on an individual's status as having a known relationship or

association with a member or members of a protected category under New York Human Rights Law.

You may discuss equal employment opportunity related questions with the contract administrator or any other designated member of management.

Pregnancy Accommodation

The company will provide reasonable accommodations to female employees related to pregnancy, childbirth, or related medical conditions, to the extent the accommodation can be made without imposing an undue hardship on the business.

When an employee requests a reasonable accommodation, the company will explore with the employee the possible means of providing the reasonable accommodation, which may include, but are not limited to:

- allowing more frequent breaks or periodic rest;
- assisting with manual labor;
- modifying job duties;
- modifying work hours/schedules;
- temporary transfer to a less strenuous or less hazardous position; or
- providing a leave of absence.

The company may require the employee to provide a certification in connection with a request for reasonable accommodation that includes the following:

- the date the reasonable accommodation became medically advisable;

- the probable duration of the reasonable accommodation; and
- an explanatory statement as to the medical advisability of the reasonable accommodation.

If leave is provided as a reasonable accommodation, such leave may run concurrently with any other leave where permitted by state and federal law.

For more information, or if you require an accommodation, please contact the contract administrator.

Americans with Disabilities Act

Our company is committed to providing equal employment opportunities to qualified individuals with disabilities. This may include providing reasonable accommodation where appropriate in order for an otherwise qualified individual to perform the essential functions of the job. It is your responsibility to notify your supervisor of the need for accommodation. Upon doing so, your supervisor may ask you for your input or the type of accommodation you believe may be necessary or the functional limitations caused by your disability. Also, when appropriate, we may need your permission to obtain additional information from your physician or other medical or rehabilitation professionals. The company will not seek genetic information in connection with requests for accommodation. All medical information received by the company in connection with a request for accommodation will be treated as confidential.

A Word About our Employee Relations Philosophy

We are committed to providing the best possible climate for maximum development and goal achievement for all employees. Our practice is to treat each employee as an individual. We seek to develop a spirit of teamwork; individuals working together to attain a common goal.

In order to maintain an atmosphere where these goals can be accomplished, we provide a comfortable and progressive workplace. Most importantly, we have a workplace where communication is open and problems can be discussed and resolved in a mutually respectful atmosphere. We take into account individual circumstances and the individual employee.

We firmly believe that with direct communication, we can continue to resolve any difficulties that may arise and develop a mutually beneficial relationship.

No Harassment

We prohibit harassment of one employee by another employee, supervisor or third party for any reason based upon an individual's race; color; religion; genetic information; national origin; sex (including same sex); pregnancy, childbirth, or related medical conditions; age; disability; or any other category protected under federal, state, or local law ("protected class").

In Michigan, the following also are a protected class: disability; religion; race; color; national origin; age; sex; pregnancy, childbirth or related medical condition [that does not include nontherapeutic abortion not intended to

save the life of the mother]; height; weight; marital status; and genetic information.

In New York, the following also are a protected class: age [18 and over]; race; creed; color; national origin; sexual orientation; sex (including gender identity and transgendered status); disability (including gender dysphoria or use of a guide dog, hearing dog, or service dog); predisposing genetic characteristics; military status; familial status; marital status; victims of domestic violence or stalking; for displaying the American flag on the employee's person or work station, as long as the display does not substantially and materially interfere with the employee's job duties; legal use of consumable products or legal recreational activities off company premises during nonworking hours; previous conviction of criminal offenses, unless directly related to employment or would involve an unreasonable risk to property, or to the safety or welfare of specific individuals, or the general public; or based on an individual's status as having a known relationship or association with a member or members of a protected category under New York Human Rights Law.

Violation of this policy will result in disciplinary action, up to and including immediate discharge.

If you have any questions about what constitutes harassing behavior or what conduct is prohibited by this policy, please discuss the questions with a member of management or one of the contacts listed in this policy. At a minimum, the term "harassment" as used in this policy includes any of the following activities pertaining to an individual's protected class:

- Offensive physical conduct, including touching and gestures, regardless of the gender of the individuals involved.

We also absolutely prohibit retaliation, which includes: threatening an individual or taking any adverse action against an individual for (1) reporting a possible violation of this policy, or (2) participating in an investigation conducted under this policy.

All members of management are covered by this policy and are prohibited from engaging in any form of harassing, discriminatory, or retaliatory conduct. No member of management has the authority to suggest to any applicant or employee that employment or advancement will be affected by the individual entering into (or refusing to enter into) a personal relationship with any member of management, or for tolerating (or refusing to tolerate) conduct or communication that might violate this policy. You should report any actions that you believe may violate our policy no matter how slight the actions may seem.

We will investigate the report and then take prompt, appropriate remedial action. The company will protect the confidentiality of employees reporting suspected violations to the extent possible consistent with our investigation.

You will not be penalized or retaliated against for reporting improper conduct, harassment,

discrimination, retaliation, or other actions that you believe may violate this policy.

We are serious about enforcing our policy against harassment. Persons who violate this or any other company policy are subject to discipline, up to and including discharge. We cannot resolve a potential policy violation unless we know about it. This creates benefits to the dealer:

- Reducing time spent on design iterations from hours to minutes
- Reduce specification and order-entry errors to practically zero
- Improving efficiencies and cutting lead times so your design and sales staff can propose more and sell more

We know the importance of having 3d models available for designers that work in these platforms. In order for the client to visualize furniture within the space, these types of models are crucial. Innovation

In its 30-year history Leland has been an innovator in both the larger conceptual details of furniture as well as in the small details such as finishes and manufacturing processes.

1. Innovations with materials:

With a commitment to wood as nature's most renewable resource as well as the most biodegradable resource Leland came to prominence with the offering of "color as a service". Semi-transparent stains were applied over wood in a vast range of colors that allowed the natural woodgrain to show through – this was a new way of looking at color on wood instead of the typical solid lacquers that historically were applied.

As the trend towards well-being in the workplace and biophilial design arose Leland went beyond the traditional expressions of wood in the expected finishes of cherry, oak, walnut etc. and introduced new natural finishes that reflect wood in its found state before any extensive finishing and polishing. A further development of this was to express the grain in a more obvious way, and so the Omena chair was designed with a horizontal run of the grain, opening it to reveal its depth, while finishing it with a unique brushing and filling technology to maintain the desired smooth surface in feel, if not in appearance.

Further investigations into color led to the understanding that colors in nature are not always consistent – the blue sky is often pink, water can be brown or green as well as blue, and rocks in the forest in the moonlight can appear almost white. So these ever-changing gradients found in nature were added to the color range as seen here on the Omena Gradient chair.

While adding new natural wood-tones and these gradient colors gave designers and customers a completely new and revolutionary palette to work with, they needed to be supported across the other materials in a space. The selection of Forbo furniture laminate colors was coordinated with the gradient colors, and a range of fabrics was created that coordinate with these new wood finishes and colors.

Plywood molding capabilities had advanced to a 3D technology which allowed for the most beautiful and complex wood shapes, as seen in Leland's Amadeus and Slam chairs. For the purposes of a more affordable product Leland worked to stretch the limits of molding 2D plywood to achieve an appearance with the same richness and complexity that comes from a 3D mold. The Gemma collection involves flared edges and curved shapes that evoke the elegance and sophistication needed for the most upscale environments but at a much lower price. The collection includes an unusual height-adjustable table in that it is not a sit/stand desk mechanism, but one that

enables a low coffee or occasional table surface to be raised to desk height as one shifts from a meeting or a moment of repose to a work mode.

2. Innovations in furniture concepts:

In the public seating arena, Leland offers a number of options. The most innovative at the time was the Ebb Bench, a system of benches that can be configured as spokes off a central hub with the option for power and data all the way through, and can be fixed in place to the floor. This outstanding product has been repeatedly specified by customers since 2014 such as the San Francisco Airport.

A unique concept in collapsible tables is the Fast Table. The clever folding table-base design allows one to place round, square and rectangular tops on the same base, so instead of inventorying three different tables a facility need only store three types of tops and just one set of table bases.

Another early innovation was our children's furniture collection, Freshcoast, which brought personality and fun to the K12 market, and innovated the Beachstones collection of ottoman-like seating. This addressed for the first time the informal group teaching and reading sessions away from a traditional desk/chair classroom, and

supported the trend towards discussion and break-out sessions in the classroom.

3. Innovations with the small details that are not always apparent: The Amadeus stacking chair has a ganging ‘mechanism’ built in: instead of using a separate accessory part, the design of the chair’s sled base is such that the chairs can be interlocked, if chosen, without any tools, additional parts or purchases ([View Video Here](#)). Another unique feature is the chair’s vertical stack position – this allows for two stacks of chairs to fit into the same footprint that is occupied by a single stack when chairs are typically tilted backwards onto a dolly.

Other less obvious design details include the hollow channel in all four legs of the Fixed table that enable one to channel power and data cables inside any of the legs without any clips, tools or cover brackets needed, or the simple Caddy that hangs on the table that affords the storage of 'work tools' at the table without being on the table itself.

Upcoming introductions:

To address the new hybrid office model where furniture needs to be more flexible and adaptable, and where the items will have multiple users in any day or week, Leland will be launching a 'light desking' series in the first quarter of next year. In the product development queue is also a simple intuitive task/meeting chair as well as soft-seating for collaborative lounge-work to complete this future office environment. A new plywood chair design with a unique passive ergonomic feature is in development testing right now, and new plastic chair products are being sourced in the highest ecologically sustainable materials currently available.

Over the past three decades Leland has won many awards for product innovation, and again this year received an award at Neocon in Chicago for the Gemma chair. We are known for inventive solutions and several exclusive product-types for which there are no competitors. Leland continues to push the design envelope as well as the engineering and durability component for which we are renowned.

RE: Region 14 Contract, Price List Update

Dear Region 14,

Leland Furniture would like to submit an update to the price lists that are currently offered on our Region 14 Contract. Leland Furniture has instated a price increase of 3% on all products, excluding Handy, Geode and Baraga on January 1, 2025. We also request to add the Driftwood. The letter that was sent out to our customers informing of the increases is below.

We would like to update to the latest commercial price list that is offered to our customers. These increases we have applied are due to the increases we have incurred from our vendors. We have done everything we can to keep the increases as low as possible for our customers.

You may find the proposed price lists at the links below:

- b) Termination for Cause. If, for any reason, Contractor fails to fulfill its obligation in a timely manner, or Contractor violates any of the covenants, agreements, or stipulations of this Contract Region 4 ESC reserves the right to terminate the Contract immediately and pursue all other applicable remedies afforded by law. In the event Region 4 ESC must purchase in an open market, Contractor agrees to reimburse Region 4 ESC, within a reasonable time period, for all expenses incurred.
- d) Force Majeure. If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.

The term Force Majeure as employed herein, shall mean acts of God, strikes, lockouts, or other industrial disturbances, act of public enemy, orders of any kind of government of the United States or the State of Texas or any civil or military authority; insurrections; riots; epidemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty.

- e) Standard Cancellation. Region 4 ESC may cancel this Contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. Region 4 ESC reserves the right to stop work and/or cancel the Contract if Contractor's license(s) expire, lapse, are suspended or terminated.
- 13) Survival Clause. All applicable software license agreements, warranties or service agreements that are entered into between Contractor and Region 4 ESC under the terms and conditions of the Contract shall survive the expiration or termination of the Contract. All Purchase Orders issued and accepted by Contractor shall survive expiration or termination of the Contract for a period of up to one year beyond the term of the Contract. Notwithstanding the foregoing, the term of the Contract, including any extension of the original term, shall be further extended until the expiration of any Purchase Order issued under the Contract for a period of up to one year beyond the Contract term.
- 14) Delivery. Conforming product shall be shipped within 7 days of receipt of Purchase Order. If delivery is not or cannot be made within this time period, the Contractor must receive authorization for the delayed delivery. The order may be canceled if the estimated shipping time is not acceptable. All deliveries shall be freight prepaid, F.O.B. Destination and shall be included in all pricing offered unless otherwise clearly stated in writing.
- Additional Delivery/Installation Charges: Contractor may enter into additional negotiations with a purchasing agency for additional delivery or installation charges based on onerous conditions. Additional delivery and/or installation charges may only be charged if mutually agreed upon by the purchasing agency and Contractor and can only be charged on a per individual project basis.
- 15) Inspection & Acceptance. If defective or incorrect material is delivered, Region 4 ESC may make the determination to return the material to the Contractor at no cost to Region 4 ESC. The Contractor agrees to pay all shipping costs for the return shipment. Contractor shall be responsible for arranging the return of the defective or incorrect material.
- 16) Payments. Payment shall be made after satisfactory performance, in accordance with all provisions thereof, and upon receipt of a properly completed invoice.
- 17) Price Adjustments. Should it become necessary or proper during the term of this Contract to make any change in design or any alterations that will increase price, Region 4 ESC must be notified immediately. Price increases must be approved by Region 4 ESC and no payment for additional materials or services, beyond the amount stipulated in the Contract shall be paid without prior approval. All price increases must be supported by manufacturer documentation, or a formal cost justification letter. Contractor must honor previous prices for thirty (30) days after approval and written notification from Region 4 ESC. It is the Contractor's responsibility to keep all pricing up to date and on file with Region 4 ESC. All price changes must be provided to Region 4 ESC, using the same format as was provided and accepted in the Contractor's proposal.

Price reductions may be offered at any time during Contract. Special, time-limited reductions are permissible under the following conditions: 1) reduction is available to all users equally; 2) reduction is for a specific period, normally not less than thirty (30) days; and 3) original price is not exceeded after the time-limit. Contractor shall offer Region 4 ESC any published price reduction during the Contract term.

- 18) Audit Rights. Contractor shall, at its sole expense, maintain appropriate due diligence of all purchases made by Region 4 ESC and any entity that utilizes this Contract. Region 4 ESC reserves the right to audit the accounting for a period of three (3) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. Region 4 ESC shall have the authority to conduct random audits of Contractor's pricing at Region 4 ESC's sole cost and expense. Notwithstanding the foregoing, in the event that Region 4 ESC is made aware of any pricing being offered that is materially inconsistent with the pricing under this agreement, Region 4 ESC shall have the ability to conduct an extensive audit of Contractor's pricing at Contractor's sole cost and expense. Region 4 ESC may conduct the audit internally or may engage a third-party auditing firm. In the event of an audit, the requested materials shall be provided in the format and at the location designated by Region 4 ESC.
- 19) Discontinued Products. If a product or model is discontinued by the manufacturer, Contractor may substitute a new product or model if the replacement product meets or exceeds the specifications and performance of the discontinued model and if the discount is the same or greater than the discontinued model.
- 20) New Products/Services. New products and/or services that meet the scope of work may be added to the Contract. Pricing shall be equivalent to the percentage discount for other products. Contractor may replace or add product lines if the line is replacing or supplementing products, is equal or superior to the original products, is discounted similarly or greater than the original discount, and if the products meet the requirements of the Contract. No products and/or services may be added to avoid competitive procurement requirements. Region 4 ESC may require additions to be submitted with documentation from Members demonstrating an interest in, or a potential requirement for, the new product or service. Region 4 ESC may reject any additions without cause.
- 21) Options. Optional equipment for products under Contract may be added to the Contract at the time they become available under the following conditions: 1) the option is priced at a discount similar to other options; 2) the option is an enhancement to the unit that improves performance or reliability.

- 25) Registered Sex Offender Restrictions. For work to be performed at schools, Contractor agrees no employee or employee of a subcontractor who has been adjudicated to be a registered sex offender will perform work at any time when students are or are reasonably expected to be present. Contractor agrees a violation of this condition shall be considered a material breach and may result in the cancellation of the purchase order at Region 4 ESC's discretion. Contractor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.
- 26) Safety measures. Contractor shall take all reasonable precautions for the safety of employees on the worksite and shall erect and properly maintain all necessary safeguards for protection of workers and the public. Contractor shall post warning signs against all hazards created by its operation and work in progress. Proper precautions shall be taken pursuant to state law and standard practices to protect workers, general public and existing structures from injury or damage.
- 27) Smoking. Persons working under the Contract shall adhere to local smoking policies. Smoking will only be permitted in posted areas or off premises.
- 28) Stored materials. Upon prior written agreement between the Contractor and Region 4 ESC, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. An inventory of the stored materials must be provided to Region 4 ESC prior to payment. Such materials must be stored and protected in a secure location and be insured for their full value by the Contractor against loss and damage. Contractor agrees to provide proof of coverage and additionally insured upon request. Additionally, if stored offsite, the materials must also be clearly identified as property of Region 4 ESC and be separated from other materials. Contractor warrants and guarantees that title for all work, materials and equipment shall pass to Region 4 ESC upon final acceptance.
- 29) Funding Out Clause. A Contract for the acquisition, including lease, of real or personal property is a commitment of Region 4 ESC's current revenue only. Region 4 ESC retains the right to terminate the Contract at the expiration of each budget period during the term of the Contract and is conditioned on a best effort attempt by Region 4 ESC to obtain appropriate funds for payment of the contract.
- 30) Indemnity. Contractor shall protect, indemnify, and hold harmless both Region 4 ESC and its administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the Contractor, Contractor employees or subcontractors in the preparation of the solicitation and the later execution of the Contract. Any litigation involving either Region 4 ESC, its administrators and employees and agents will be in Harris County, Texas.
- 31) Marketing. Contractor agrees to allow Region 4 ESC to use their name and logo within website, marketing materials and advertisement. Any use of Region 4 ESC name and logo

9 Custom or special orders

What is the ability to provide custom or special order furniture products? Include catalogs and any fees related to custom or special orders.

From its inception, OFS Brands has focused on the needs of the specifying designer. From something as simple as changing the arm detail of a sofa or adding technology to creating an authentic signature piece, our reputation for creating a completely custom look continues to provide customers with a broad spectrum of product solutions. While custom reception desks and uniquely sized desks, workstations, and modular casework are weekly occurrences, other more unique examples include the custom locker room solution for Louisiana State University (link:<https://ofs.com/node/34681?search=custom>). Another example is the custom furniture holes for Orange Theory to accommodate growing trees (link:<https://ofs.com/node/27367?search=custom>). Our highly competitive supply chain turns great ideas into great products and allows us to produce them efficiently with minimal additional cost.

10 Describe ordering methods, tracking, and reporting.

At OFS, we like to keep things simple. Orders by default are addressed to the proposer, which in 99% of the cases are our dealers. That ensures that the specifications are correct and have captured the latest conversations. It also helps the dealer installation team to have the paperwork in the format that facilitates a fast and thorough installation and project management process. If the member prefers to address their orders to us, they can. As an OMNIA member, OFS would not, in most cases, require a credit application or deposit. We would still engage the dealer and would provide them with a copy of the acknowledgement to review and to help with logistics and installations. Region 4 orders are given a unique identifier in our system, through that we are able to track and report orders easily. The Contract Administrator tracks and reports those sales on time and submits any required administrative fees.

5 **Verification of Contract Pricing**

Describe how customers verify they are receiving Contract pricing.

We ask that members include the contract number on all purchase orders to confirm they have selected a Region 4 contract. When orders are entered, our Order Entry department will review each order to ensure that it complies with the pricing and documentation requirements before accepting the order. At any time, a member may email OFS at Omnia@ofs.com to request a review of their pricing to ensure it is correct.

1
6 **Payment Methods**

Describe payment terms and methods offered. Indicate if payment will be accepted via credit card. If so, may credit card payment(s) be made online? Also state the Convenience Fee, if allowable, per the Visa Operating Regulations.

OFS standard payment terms are net 30 from the date of the invoice. OFS accepts Visa, MasterCard, Discover, and American Express. P-card payments are subject to a processing fee that may vary by state. Credit card payments made through our commercial online site will not receive contract pricing. However, we believe that Omnia's OPUS site can bridge that gap.

**1
7** **Frequency of Pricing Updates**

Propose the frequency of updates to the Offeror's pricing structure. Describe any proposed indices to guide price adjustments. If offering a catalog contract with discounts by category, while changes in individual pricing may change, the category discounts should not change over the term of the Contract. Updates may be no more frequently than quarterly.

Pricing will be based on a discount off the current list price at the time of order. We aim to provide members with the best price-to-design value in the industry and deliver it reliably and with the highest quality. We diligently monitor the global indexes and industry activity to remain competitive. List pricing is usually updated once yearly but no more than quarterly. On very rare occasions, we may request a fuel surcharge be applied. In some cases, the list price may be decreased instead of increased.

**1
8** **Future Product Introductions**

Describe how future product introductions will be priced and align with Contract pricing proposed. What is the proposed frequency for new product introductions?

New product introductions will be automatically included at the existing discount if the product is part of an existing product line. If a new product line is launched, OFS will present the product and proposed discount structure to Region 4 ESC for consideration. In all cases during our previous term, new products and product lines were added at the same discounts as found in the contract.

**1
9** **Are repurpose or end of life programs offered? If so, explain the process.**

OFS Brands does not accept products back at the end of their life; however, we partner with Green Standards Ltd., which specializes in office furniture donations, resale, and recycling. By combining donation, resale, and recycling strategies with turnkey project management, Green Standards maximizes asset recovery, streamlines community donations, and virtually eliminates waste. In most cases, our customers are serviced directly by our extensive dealer network. Services provided by our dealers may include local end of life or recycling programs.

**2
0** **Are product loaner programs available? If so, explain the requirements.**

Yes, loaner programs are available. Across the nation, our representatives and dealers keep samples of our most popular products available. The process is as simple as a phone call. After discussing the client's goals and objectives, a representative will recommend products. A conversation occurs about whether a sample is available at a showroom to evaluate or whether it's possible to deliver a demonstration sample to the client. Based on the project's scope and time frame, a sample or mockup of the desired product in the desired finishes may be ordered. The item may be considered a loan, or in some cases, the member may purchase the sample to keep.

**2
1** **Describe experience with Prevailing Wage and Bacon-Davis.**

Most of our contracts have provisions for Prevailing Wage and Bacon-Davis. It comes up most often in specific markets or with projects involving federal funding. Our authorized dealers perform services in their markets and are skilled at understanding the proper application of those rules and the wages required. OFS and our dealers comply with all laws regarding prevailing wage rates, including the Bacon-Davis Act, as applicable to the solicitation, Participating Public Agencies, and services being provided.

**2
2** **Not to Exceed Pricing**

Region 4 ESC requests pricing be submitted as not to exceed pricing. Unlike fixed pricing, the Contractor can adjust submitted pricing lower if needed but, cannot exceed original pricing submitted. Contractor must allow for lower pricing to be available for similar product and service purchases. Cost plus pricing as a primary structure is not acceptable.

**2
3** **Special Offers/Promotions**

In addition to decreasing prices for the balance of the Contract term due to a change in market conditions, Contractor may conduct sales promotions involving price reductions for a specified lesser period. Contractor may offer Participating Agencies competitive pricing which is lower than the no-to-exceed price set forth herein at any time during the Contract term and such lower pricing shall not be applied as a global price reduction under the Contract.

3 3 Describe Offeror's ability to meet service and warranty needs.

The majority of service work is performed by our 1200+ dealers. There is a designed overlap between sales and service. OFS sales usually provides training and education to the architecture and design community. Both OFS and servicing dealers can provide typicals and renderings of products. Sales and servicers are able to program solutions for and quote directly to members or as a team, while our dealer network handles the space planning, delivery and installation of the product. They work together to resolve any issues. The OFS Customer Service team processes any service claims submitted by our dealers on behalf of our clients. As mentioned in our warranty, there are times when OFS employees resolve warranty issues in the field. Our dealers in many cases are the sole point of contact for our customers and are therefore responsible for both the up-front sales direction and the after-sale service.

If needed, the local OFS representative is engaged to help expedite any replacements or to remove any obstacles to an efficient recovery. OFS has a comprehensive sales administration organization. 42 Provide example(s) of general guidance on executing strategies for successful adoption of new polices, processes and procedures.

At OFS, strategy starts with the leadership team. Before new strategies are launched, they are discussed and vetted with the leadership team to ensure that the approach will work nationally and with our diverse markets and dealers. With regards to contract launches, we have learned over the years how best to work with our teams and the type of questions to anticipate. After a thoughtful program has been designed, we ensure that the team leaders are comfortable and supportive of the program and are prepared to support it’s launch which occurs through a variety of training platforms. As evidenced by our two previous OMNIA Partners Region 4 agreements, we gather feedback and make adjustments to the program to ensure continued support. We continue to gain input from our order management and customer service teams to adjust procedures as needed to support the best client experience possible.

Background: We are a family-owned, community-driven company providing socially responsible furniture and logistics solutions in the office, healthcare, education, government, and home office markets. Established in 1937 in Huntingburg, Indiana, OFS has become a leader while staying true to its local roots and core values of sustainability and craftsmanship. We created this company to work together to build a better life. Creating jobs, building community, making quality products that become part of people's lives—these things are why we're here. While an honest company built on an honest purpose might not be the flashiest way to success, we now employ thousands, and hundreds of thousands use our products. Our work matters to the lives of more people than we will ever meet—and that's a legacy worth building. Related Services are offered by both OFS/Carolina and our dealers. We provide technology-based specification and budgeting tools designed to allow clients to quickly and easily create furniture budgets. Other services may include standards program development, e-commerce, dedicated web pages, Master Service Agreements, design and layout services, including fabric and color design services, delivery, installation, project management, reconfiguration, assessment tools, storage, asset lifecycle planning, and leasing. Our values are simple, and our actions are transparent. We are a company committed to one thing above all else: the people we serve every day. We don't pretend to have all the answers, nor do we want to prescribe what the next workplace should look like.

Cool Springs Property: Our 600-acre Cool Springs property serves as an educational preserve, reforestation effort, design retreat, and corporate meeting center. This unique space fosters connection, discovery, focus, and restoration while showcasing sustainable practices. Ecomedes Partnership: We've partnered with Ecomedes to simplify sustainable decision-making for customers, offering a platform for product analysis and reporting. Common Ground Sustainability Report: Our 2022 sustainability report outlines our commitment to sustainability and the communities we serve. We have attached a copy with this response. LEED-Certified Facilities: Operating LEED-certified showrooms and educational facilities, we practice what we preach, integrating sustainable practices into our operations. OFS Brands' dedication to sustainable excellence is validated by multiple third-party certifications: SCS Global Services: Indoor Advantage and Indoor Advantage Gold Certifications for all OFS Brands furniture products. SCS Global Services' highest level of indoor air quality performance for furniture. The certification assures that furniture products support a healthy indoor environment by meeting strict chemical emission limits for volatile organic compounds (VOCs). To be certified, products must be tested by independent labs for compliance with the ANSI/BIFMA X7.1, and either ANSI/BIFMA e.3 or CDPH/EHLB Standard Method V1-1 for VOC emissions of concerns. A complete list of certified products and our product certificates can be found on SCS Global Services website: http://www.scsglobalservices.com/certified-green-products-guide BIFMA Level Certifications: Level 1 and Level 2, conforming to ANSI/BIFMA e3-2014e furniture sustainability standards. GREENGUARD Environmental Institute: GREENGUARD Indoor Air Quality Certification for wood veneer casegoods, laminate casegoods, guest, lounge, and swivel seating collections. GREENGUARD certification deems these products as environmentally-friendly for indoor air applications, making a significant contribution to quality indoor air by meeting strict chemical and particle emission guidelines. Office furniture products meeting these allowable emission levels also meet the requirements of LEED credit 4.5 and the BIFMA X7.1 conformance standard. ANSI/BIFMA Furniture Emission Standards: Compliance with IAQ performance standards. Product Design & Development: OFS collaborates with interior and industrial designers to develop innovative furniture that exceeds the functionality requirements of the user while minimizing the amount of materials required for production. This Design for the Environment approach greatly reduces the amount of material required to produce our furniture products, while also incorporating some of the core principles of green building design. Considering functionality, aesthetics and environmental performance into each product design we are able to satisfy customer demand while offering products that meet strict 3rd party environmental certifications. OFS has also initiated research into Chemicals of Concern avoidance within our furniture products. Following both Government and Non-Government Organizations' determinations of hazardous substances, along with the BIFMA e3 Sustainability Standard's Chemicals of Concern listing, we have initiated work with our supply chain partners to identify potential hazards within the composition of our products. OFS intends to identify these chemicals, report on any inclusion into our products, and work to replace potential hazards with safer alternatives. See attached OFS Sustainability Report

6 4	<p>Diversity Programs</p> <p>Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.</p> <p>While OFS Brands doesn't hold these certifications, many of our dealer partners do. OFS relies on our dealer diversity partners to provide services. While OFS manufactures the products, the dealers provide an array of services including installation, design, reconfiguration, asset inventory management, project management, reupholstery and storage. We have strived to identify them for you and our members by adding a designation in our attached Dealer List. It should be noted that the services offered through these dealers will be available to all members at the same price as offered by OFS. Our dealer diversity partners nationally are all categorized as small businesses by the SBA. OFS actively searches for the best partners in the marketplace and support those dealers who may be minority, women-owned, or located in HUB zones. We do not require that those dealers seek certification but do our best to identify those who may be eligible and encourage them to register with public agencies. Public agencies occasionally contract with minority businesses to serve as project managers or purchasing agents on their behalf. This most often occurs with General Contractors and Design-Build projects. We support those initiatives. With the agencies' authorization, we will allow those partners to access the cooperative contract on their behalf and extend the same pricing structure. One significant update from our last RFP response is our investment in the creation of a Diversity, Equity, and Inclusion Committee. Formed in 2020 under the guidance of OFS Executive Leadership, the DEI committee was created with the charge to evaluate the company, listen to its people, take action on ways the organization can embrace & improve diversity, and find ways to be more equitable & inclusive. The ultimate mission of this committee is to provide for the betterment of OFS employees, their families, and local communities by building upon the OFS family culture and providing a holistic, professional, and inclusive experience. But we didn't stop there, OFS is the presenting sponsor of IIDA's Design Your World, an education initiative to advance equity in design. The program was created to provide early exposure to the value of design and helps bridge the disparities BIPOC students face when determining their education and career path. Oh...and we wrote a book! This heartwarming book shares the mission of IIDA's pipeline program of the same name (Design Your World), which aims to educate and inspire kids to see design as an accessible tool for both life and career and to make a positive impact on the world. A portion of the proceeds from each book directly supports IIDA's Design Your World program. The book is co-authored by our own Maria VanDeman, who is known for advocating for diversity and inclusion in the design profession, and the talented illustrator, Kenize Leon Perry, one of Miami's favorite artists and designers. 7 6 Describe how supplier differentiates itself from its competitors.

Privately, family-owned: As a privately owned, family-owned business, we support the needs of our customers and not quarterly results, as we have since our founding. Our conversations with our customers are about partnership, not quarterly spend estimates. Our president, Hank Menke, and his four children are all actively engaged in the business, including sales & marketing, finance, product development, operations, and logistics, which results in a high level of commitment for our customers. Each of them has worked in furniture dealerships giving them invaluable experience. With a lean management structure, our customers will not get lost through layers of management. Open Distribution Model: Our "open" distribution model ensures a vast network of dealers, offering OMNIA Partners members the flexibility to work with local dealers aligned with their preferences and diversity goals. This allows us to: Extend coverage to rural areas, Add or remove dealers based on performance, Meet the preferences of our customers, Add dealers to support local small or minority business goals. Styline Logistics- Logistics Excellence: Our end-to-end ownership of logistics guarantees flawless delivery using our extensive fleet of trucks (and 400 trailers). With a 99.98% damage-free rate and real-time tracking, members receive timely and intact deliveries. Healthcare Focus: Through our Carolina brand, we extend offerings beyond conventional workplace and education settings, delving into senior living and patient care solutions, including dining, waiting areas, recliners, sleepers, overbed tables, behavioral health, and mother/child items. Modular Casegoods Expertise: Our Mile Marker modular casework and cabinetry solutions provide versatile applications for healthcare, breakrooms, and dormitory kitchen/breakrooms. With customization, simplicity of installation, and sustainability, Mile Marker redefines modular solutions. Unlike millwork, Mile Marker ships fully assembled, offering simple installation. Components can be easily moved and reconfigured, should needs change. Mile Marker components are engineered to disassemble and reattach. While conventional contractor millwork is guaranteed for 1 year, Mile Marker comes with a limited lifetime warranty. Another benefit is delivery in 6-8 weeks. A full support team is available from specification through installation. Mile Marker lockers are available and can be customized for athletics or general student use. A link to the product website may offer more information: <https://carolina.ofs.com/products/casegoods/cabinetry/mile-marker?search=mile%20marker> Product durability - Test Lab Operations: OFS operates its own in-house testing lab. This test lab is A2LA accredited (Test Certificate No. 3337.01). The accreditation assures our customers that our test equipment is accurate and we are following all required procedures. Having an in-house testing lab has many benefits including the ability to quickly test new product developments or different aspects of a given furniture unit. This ensures that a unit will meet specific requirements before the product design is completely finished. This ability alone can potentially save hundreds of hours of design and engineering time and facilitate new product introductions. By presenting these attributes, OFS Brands delivers a unique blend of innovation, sustainability, customization, and logistics excellence tailored to the needs of OMNIA Partners' participating entities.

81 Distribution

Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including U.S. Territories and Outlying Areas.

We are a manufacturer with a primarily flexible distribution model of over 1200 independently owned and operated dealers across the world. This model will allow your members to work with local businesses in their community that they have grown to rely on and count on. In many cases, these dealers are representing other manufacturers as well so that they may serve as a single point of contact or resource for members who may benefit from a blended solution. Unlike some manufacturers, we don't limit ourselves to only one or two dealers in a market. We understand that dealers, like agencies, are unique, and while one may be ideally suited for commercial accounts, they may not be suited for education, government, or public agency members. In fact, we have found, more often than not, that it can take up to 20 dealers to adequately service one state from our clients' perspective. OFS Brands Inc. currently holds a Region 4 ESC Contract through OMNIA Partners. OFS proposes to utilize its existing national network of OFS representatives and small business dealers to actively promote the OMNIA Partners Contract to the Continental United States, Alaska, Hawaii, and U.S. Territories and Outlying Areas. Owning our logistics network allows us to take responsibility for every step along the way. We operate a fleet of 400 trailers to ensure a flawless delivery process with no hassles on your end. We have less than .002% damage rate and our online tracking system guarantees an exact delivery time, so you have everything you need when you need it.

2** **Distribution**

Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.

We ask that members include the contract number on all purchase orders to confirm they have selected a Region 4 contract. When orders are entered, our Order Entry department will review each order to ensure that it complies with the pricing and documentation requirements before accepting the order. Our dealers sign a dealer participation agreement indicating that they understand the commitments and pricing found in our master agreement. Upon award of the contract, the OFS representatives, leadership team, and dealers are required to attend OMNIA Partners contract training and participate in the OFS annual dealer performance review. A copy of the agency purchase order must accompany the dealer order. The customer has the option of issuing the order directly to OFS or placing an order with the local small business dealer. As a final step, customers and dealers can receive immediate answers and attention by emailing Omnia@ofs.com

**8
3** **Logistics**

Identify all other companies that will be involved in processing, handling or shipping the products/services to the end user.

Dealers would be the only other companies involved. Members may address their orders directly to OFS. Our representatives, order mgmt and customer service departments would engage with members. Most orders are entered by dealers who have a direct relationship with members. Please see the attached list of OFS Authorized OMNIA Partners dealers, which is unique from the balance of OFS dealers. The difference is that the OFS Authorized dealers have received training prior to sales activities to ensure they are aware of the contractual commitments and obligations. Dealers are each able to process orders and to provide all additional services, including receiving products and providing delivery and installation services. In addition to our hundreds of dealer partners, Styline Logistics has consistently provided quality transportation and logistical services for all our company's furniture manufacturing divisions.

**8
4** **Logistics**

Our employees and sales force will be awaiting the announcement of our new award and its term within the first 10 days of signing the contract. Our digital marketing team strategically uses social media to make our partners and clients aware of breaking developments. Further, we post an announcement to our team through our internal marketing site. OFS would continue with monthly meetings with the OMNIA Partners team to confirm key players and to share and discuss the collective effort of the OFS sales, marketing, and contract departments. Together, we routinely develop the curriculum for field training and exposure to ignite conversation and momentum. Within the first 90 days, we will launch the program through our monthly sales and marketing webinar, which includes the entire organization to share news and updates regarding the award. Our marketing team will develop new materials that are posted on the company intranet site, "MyOFS.com." Materials include fliers that include the benefits of the contract, eligible agencies, and pricing and compliance details. Our sales team will meet with representatives and dealers in states where Products and Services will be offered under the Master Agreement within the first 90 days to generate awareness of the contract and the scope, pricing, and compliance details. All training will be directed by OFS VP Specialty Markets Anna McClelland. Training will be offered periodically to keep new dealers updated. The training content will include Government 101 to ensure that dealers understand the essentials of working with public agencies, from the players to the policies. Training will also include contract details, features, requirements, compliance, product categories/applications, and pricing scenarios. Additionally, all dealers will have a list of people they can contact with questions as they arise regarding these or other topics.

Our organization is a private family-owned business with a lean, empowered leadership team and a dedicated group of OFS/Carolina/ROOM representatives nationwide and internationally. Our President/CEO is Hank Menke, while our Chief Revenue Officer is son Ryan Menke. Reporting to Ryan is Matt McCormick, National Sales Manager. Reporting to Matt are VPs of sales and marketing, including Anna McClelland, VP Specialty Markets, and four Regional VPs who manage sales and distribution throughout their geographies. We are organized in several ways. We have approximately 1750 employees, including 71 direct employee sales representatives and administrators, plus 89 independent representatives and associates across the country. We have dedicated showrooms in High Point, Atlanta, Huntingburg, Washington DC, New York, Chicago, Dallas, and Los Angeles, as well as representative showrooms in Boston, Columbus, Houston, Denver, San Francisco, and Seattle. We have a unique distribution model that, unlike many manufacturers, is flexible, with over 1200 independently owned and operated dealers across the world. This model will allow your members to work with local businesses in their community that they have grown to rely on and count on. We prefer this model as it allows for open competition and doesn't force our clients to work with dealers they might otherwise not choose. Our sales representatives and dealers are familiar with our OMNIA Partners contract and for those who are not yet dealers, we are willing to entertain and train dealers who have proven to be a value to your members. Ryan Menke is the highest-level executive in charge of the sales team. His contact information is: Ph: 812-630-4774 rmenke@ofs.com

3 Implementation**

Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

The initial steps will include reintroducing the two sales organizations and integrating the municipal, K-12, and higher education teams into the OFS sales teams. We welcome suggestions, but at a minimum, the following will occur: Each sales representative and dealer will participate in training to aid in implementing the new contract. We will use the OMNIA Connect and the OMNIA Partners managers to access membership information and use it to identify opportunities in an effort to grow sales. At a minimum, monthly contact between Anna McClelland and OMNIA Partners personnel to understand and share trends, legislation, challenges, and opportunities. In an effort to grow sales, there will be meetings between regional OFS teams and OMNIA Partners regional manager to design and align training, marketing, and sales activities, both to clients and to our dealer network. We invite the OMNIA Partners team to visit OFS showrooms at least yearly to learn about our latest designs and innovations so that they can speak to our value proposition when meeting directly with clients. To further grow and service the national program, the sales force will offer frequent feedback regarding challenges and opportunities in their market. In response, through contract administration, direct work with the OMNIA Partners regional directors, and the two marketing departments, OFS will adapt the program as needed to increase acceptance and use, meet the needs of public agencies, bring value to those agencies, and grow sales. The growth and servicing of the contract will be validated during monthly meetings between Anna McClelland, Andrea Whitworth and John Hunsche.

4 Program Management**

Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

Anna McClelland and Andrea Whitworth will continue to be the primary contacts between OFS and OMNIA Partners. They will continue to set a rhythm of communication not only with the OMNIA Partners leadership team but also with our Leadership Team and the regional leaders of OMNIA Partners. The management of the program will also include: The reintroduction of the two sales organizations' regional teams, including integrating the OMNIA Partners municipal, K-12, and higher education teams into the OFS sales teams. Anna and Andrea will continue with monthly communication with the Director of Partner Development to align our areas of focus. Monthly contact with OMNIA Partners marketing to coordinate trade show/summit activities as well as brainstorm new marketing materials and promotions. Use of OMNIA Connect to measure success. Andrea will work with the national sales force to add or update dealers to the authorized dealer list. We will continue to support new client inquiries and registrations through a dedicated OMNIA Partners email address. Andrea will continue to submit timely reporting and payment of administration fees. Anna will continue to be responsible for all facets of contract administration.

5 Supplier's Customer List**

State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

As a private company, we cannot divulge our segment sales, but public agency sales comprise approximately 13% of our overall sales. Our top 10 Public Agency customers for the same period are listed below along with contact information if available. In most cases, the largest clients consist of a single large project for a given period of time. Those orders are handled by our local representative or dealer, and OFS has no direct contact with the end-user. It should also be noted that in most cases, a contact may be a buyer who issued an order, but that person cannot speak to the project's success. If additional contacts are required, please let us know if you are interested in the project contact or the purchasing agent. 6 System Capabilities and Limitations**

Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

We have implemented automation software for Accounts Payable. Esker on Demand is utilized by AP to process invoices automatically into our operating system "Oracle" as well as offering an electronic workflow for invoice approvals. Regarding our customer interface, OFS currently uses both EDI protocols and website technologies as its main drivers for internet commerce capabilities. Through these technologies, we are able to handle purchase orders, acknowledgments, advanced shipping notices (ASN), and invoicing. Any additional needs would be accommodated by the in-house Information Technology team. We are currently working with OMNIA Partners to engage the Opus platform for e-commerce.

3.1 Company

A. Brief history and description of Supplier to include experience providing similar products and services.

OFS Brands Inc. (known simply as OFS) consists of the brands OFS, Carolina, and ROOM. We are a family-owned, community-driven company providing socially responsible furniture and logistics solutions in the office, healthcare, education, government, and home office markets. Established in 1937 in Huntingburg, Indiana, OFS has become a leader while staying true to its local roots and core values of sustainability and craftsmanship.

We created this company to work together in building a better life. Creating jobs, building community, making quality products that become part of people’s lives—these things are why we’re here. While an honest company built on an honest purpose might not be the flashiest way to success, we now employ thousands, and hundreds of thousands use our products. Our work matters to the lives of more people than we will ever meet—and that’s a legacy worth building

Our values are simple, and our actions are transparent. We are a company that is committed to one thing above all else, and it’s the people we serve each and every day. We don’t pretend to have all the answers, nor want to prescribe what the next workplace should look like.

OFS Brands Inc. Response to Appendix D, Exhibit A

Item 3.0 Supplier Response:

We start with focus areas. Simplicity - Meaning our straightforward approach allows us to simplify complexities, maintain authenticity, drive efficiencies, and build personal relationships. Empathy in that every solution created, relationship nurtured and service delivered shows our commitment to aligning our customer's goals with our own. Accountability: Every person has the responsibility to control the experience and the opportunity to change the circumstances to make a difference. Appreciation in that creating a diverse workplace centered around mutual respect and gratitude helps to boost morale, celebrate achievement, and promote a fun atmosphere that encourages personal growth. Teamwork: Our skills, talents, and passions unite in solidarity, with urgency and excellence, to accomplish our mission. Stewardship: Encouraging involvement in our communities to protect our assets enhances the quality of life, promotes optimism, and advances fellowship for all our colleagues.

Our business philosophy is best summed up in a quote from our Owner: "What you make people feel is as important as what you make."

How do we do it? By beginning with a Design Ethos to frame our product direction. Creating great products and experiences begins with understanding and caring about people. We do this by focusing on three big ideas in our design process. Simple: Creating a simple product is harder than a complex one. When you can find the root of what someone is looking for in a given setting, it clarifies the problem you're trying to solve and produces a simple, intuitive solution. In this way, simplicity helps us do more, by focusing on the details that really matter for people. Purposeful: We don't believe in designing products to fill a category or follow someone else's trend. Instead, our designs emerge from conversations and observations about the things people need from the places they occupy. Every piece we design offers a unique value. Personal: We put a personal touch in everything we do - design is no exception. It's one reason intentional craftsmanship is so important to our products. We believe the ergonomics and style of a product have the ability to support and inspire people in a personalized way.

OFS Brands Inc. Response to Appendix D, Exhibit A

Item 3.0 Supplier Response:

By working through the pandemic, we learned that our message was still strong. But to articulate it, we launched You+ to discuss the fact that life and work are changing as we know it. When we acknowledged that we didn't have all the answers, we also realized the solution - creating spaces that could adapt as our needs, both individually and as an organization, shifted. Finding flexibility through Soft Architecture, removing the boundaries that lock us into fixed situations, and fostering agile spaces that move along with our evolving needs are crucial to the success of our workplaces. We shared how our philosophy and products can help clients adapt as their facility footprint evolves.

We believe we are uniquely qualified to provide the products and services requested in this RFP. We offer many solutions designed to fulfill an entire facility or campus in a cohesive, one-stop solution. As a designer and manufacturer of furniture, we offer solutions in many categories used in office, learning, public spaces, healthcare, government, outdoor and more. We are a top supplier to the federal government and one of the most recognized brands in the country for healthcare. Categories include systems furniture, open plan, benching, soft architecture (space dividing), freestanding furniture including casegoods, space-defining, folding and mobile tables, mobile desks, height adjustable, reception, storage, and more. Seating includes solutions for office, outdoor, training, classroom, tandem seating, high task, stacking, and nesting. Lounge seating can include common areas, libraries, waiting areas, open spaces, and modular seating. Storage systems including filing, office, bookcases, kitchen, mailroom, healthcare, and pegboard. Wellness space products that support mothers' rooms, break/cafe areas, medication rooms, & respite areas. Accessories include planters, power/data accessories, easels, etc.

Related Services are offered by both OFS/Carolina and our dealers. We provide technology-based specification and budgeting tools designed to allow clients to quickly and easily create furniture budgets. Other services may include standards program development, e-commerce, dedicated web pages, Master Service Agreements, design and layout services, including fabric and color design services, delivery, installation, project management, reconfiguration, assessment tools, storage, asset lifecycle planning, and leasing.

OFS Brands Inc. Response to Appendix D, Exhibit A

Item 3.0 Supplier Response:

Circling back to our roots, we can't resist talking about how the Menke family Pioneered Environmentalism: Back in the 60s, when conservation was a foreign term, our second-generation leaders Phyllis and Bob Menke began to notice the effects of deforestation on southern Indiana. They took action with more sustainable production methods, established the Indiana Nature Conservancy, and began a quest to acquire and reforest thousands of eroded acres devastated by industry and agriculture. While our products no longer rely as heavily on wood materials, we are no less committed to Phyllis and Bob's early example of caring for the world around us. The 7,000 acres of FSC-certified forests we've reclaimed, and the tens of thousands of trees we have planted are vital to our legacy. To quote Emerson, "The creation of a thousand forests is in one acorn."

And today, in Indiana, North Carolina, and Kentucky we continue to celebrate generations of craft: While furniture has been our specialty for over 85 years, we draw our expertise from a much longer tradition of quality craftsmanship and fine woodworking. Some of our great, great-grandparents made wagons, and some of our great-grandparents manufactured Venetian blinds and basketball scoreboards, but furniture has stuck with us because it becomes an intimate part of people's lives in a way other products can't. It's a presence that deserves intentional craft. For many years, most people knew OFS primarily for wood casegoods and excellence in carpentry. While our portfolio has grown and we've added new sustainable materials to our designs and production process, wood remains a hallmark of our design heritage and one of the most carbon-positive. The patterns of grain and color unique to every tree bring an organic warmth and one-of-a-kind beauty. "Always" written in big letters on one of our factory walls, the word "always" serves as a simple reminder of the fact that every detail of our work matters. Craftsmanship starts with taking the time to do it right. Whether it's a button or a drawer or the direction of wood grain on a desk, we always pay attention, and we'll fix or replace anything that doesn't cut it. We believe that craft and design cannot be separated because a great product only results from excellence in both.

Item 3.0 Supplier Response:

Cool Springs Property: Our 600-acre Cool Springs property serves as an educational preserve, reforestation effort, design retreat, and corporate meeting center. This unique space fosters connection, discovery, focus, and restoration while showcasing sustainable practices.

Acanthus Row: Our community garden, Acanthus Row, cultivates local produce for employees, local non-profits, and food banks, promoting healthy choices and giving back to the community.

Ecomedes Partnership: We've partnered with Ecomedes to simplify sustainable decision-making for customers, offering a platform for product analysis and reporting.

Common Ground Sustainability Report: Our 2021 sustainability report outlines our commitment to sustainability and the communities we serve. We have attached a copy with this response.

LEED-Certified Facilities: We operate LEED-certified showrooms and educational facilities, practicing what we preach and integrating sustainable practices into our operations.

EPA SmartWay partnership: In 2004, Styline Logistics became the first company in Indiana to join the U.S. Environmental Protection Agency's SmartWay Transport Partnership. The partnership is a voluntary program with the U.S. EPA that shows how shippers and carriers can gain economic benefits while mitigating their environmental impact.

To meet the SmartWay challenge to eliminate unnecessary truck engine idling, Styline Logistics employed many different policies, procedures and technologies that included auxiliary power units (APU's), reduced maximum speeds, automatic engine shutdown, automatic tire inflation systems, bio-and low-sulfur diesel fuels and new incentive programs. Since our partnership began in 2004 we have reduced our Carbon Dioxide [CO₂] emissions by nearly 18,000 metric tons (32%), our particulate matter emissions by 3,000 metric tons (58%) and NO_x gases by 113 tons (82%). This is yet another story in the long line of success the partners have achieved to live and prosper in a clean environment while enjoying and preserving our natural resources.

Item 3.0 Supplier Response:

F. Describe any diversity programs or partners supplier does business with an how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.

While OFS Brands doesn't hold these certifications, many of our dealer partners do. We have strived to identify them for you and our members by adding a designation in our attached Dealer List.

It should be noted that the services offered through these dealers will be available to all members at the same price as offered by OFS.

Public agencies occasionally contract with minority businesses to serve as project managers or purchasing agents on their behalf. This most often occurs with General Contractors and Design-Build projects. We support those initiatives. With the agencies' authorization, we will allow those partners to access the cooperative contract on their behalf and extend the same pricing structure.

One significant update from our last RFP response is our investment in the creation of a Diversity, Equity, and Inclusion Committee. Formed in 2020 under the guidance of OFS Executive Leadership, the DEI committee was created with the charge to evaluate the company, listen to its people, take action on ways the organization can embrace & improve diversity, and find ways to be more equitable & inclusive. The ultimate mission of this committee is to provide for the betterment of OFS employees, their families, and local communities by building upon the OFS family culture and providing a holistic, professional, and inclusive experience. But we didn't stop there, OFS is the presenting sponsor of IIDA's Design Your World, an education initiative to advance equity in design. The program was created to provide early exposure to the value of design and helps bridge the disparities BIPOC students face when determining their education and career path. Oh...and we wrote a book! This heartwarming book shares the mission of IIDA's pipeline program of the same name (Design Your World), which aims to educate and inspire kids to see design as an accessible tool for both life and career and to make a positive impact on the world. A portion of the proceeds from each book directly supports IIDA's Design Your World program.

Item 3.0 Supplier Response:

The book is co-authored by our own Maria VanDeman, who is known for advocating for diversity and inclusion in the design profession, and the talented illustrator, Kenize Leon Perry, one of Miami's favorite artists and designers. Item 3.0 Supplier Response:

I. Describe how supplier differentiates itself from its competitors.

Privately, family-owned: As a privately owned, family-owned business, we support the needs of our customers and not quarterly results, as we have since our founding. Our conversations with our customers are about partnership, not quarterly spend estimates. Our president, Hank Menke, and his four children are all actively engaged in the business, including sales & marketing, finance, product development, operations, and logistics, which results in a high level of commitment for our customers. Each of them has worked in furniture dealerships giving them invaluable experience. With a lean management structure, our customers will not get lost through layers of management.

Open Distribution Model: Our "open" distribution model ensures a vast network of dealers, offering OMNIA Partners members the flexibility to work with local dealers aligned with their preferences and diversity goals.

This allows us to:

- Extend coverage to rural areas
- Add or remove dealers based on performance
- Meet the preferences of our customers
- Add dealers to support local small or minority business goals

Styline Logistics- Logistics Excellence: Our end-to-end ownership of logistics guarantees flawless delivery using our extensive fleet of trucks (and 392 trailers). With a 99.98% damage-free rate and real-time tracking, members receive timely and intact deliveries.

Healthcare Focus: Through our Carolina brand, we extend offerings beyond conventional workplace and education settings, delving into senior living and patient care solutions, including dining, waiting areas, recliners, sleepers, overbed tables, behavioral health, and mother/child items.

Modular Casegoods Expertise: Our Mile Marker modular casework and cabinetry solutions provide versatile options for applications such as healthcare, breakrooms, and dormitory kitchen/breakrooms. With customization, simplicity of installation, and sustainability, Mile Marker redefines modular solutions. Unlike millwork, Mile Marker ships fully assembled, offering simple installation. Components can be easily moved and reconfigured, should needs change. Mile Marker components are engineered to disassemble and reattach. While conventional contractor millwork is guaranteed for 1 year, Mile Marker comes with a limited lifetime warranty. Another benefit is delivery in 6-8 weeks. A full support team is available from specification through installation. Mile Marker lockers are available and can be customized for athletics or general student use. A link to the product website may offer more information:

<https://carolina.ofs.com/products/casegoods/cabinetry/mile-marker?search=mile%20marker>

Product durability - Test Lab Operations: OFS operates its own in-house testing lab. This test lab is A2LA accredited (Test Certificate No. 3337.01). The accreditation assures our customers that our test equipment is accurate and we are following all required procedures. Having an in-house testing lab has many benefits including the ability to quickly test new product developments or different aspects of a given furniture unit. This ensures us that a unit will meet specific requirements before the product design is completely finished. This ability alone can potentially save hundreds of hours of design and engineering time and facilitates new product introductions.

Custom furniture: OFS/Carolina has an exceptional reputation for custom solutions. Whether its a simple modification or a custom design, clients will receive contract pricing.

By presenting these attributes, OFS Brands delivers a unique blend of innovation, sustainability, customization, and logistics excellence, tailored to OMNIA Partners participating entities' needs.

OFS Brands Inc. Response to Appendix D, Exhibit A

OFS Brands Inc. Response to Appendix D, Exhibit A

Item 3.0 Supplier Response:

B. Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the master Agreement, including U.S. Territories and Outlying Areas.

We are a manufacturer with a primarily flexible distribution model of over 1200 independently owned and operated dealers across the world. This model will allow your members to work with local businesses in their community that they have grown to rely on and count on. In many cases, these dealers are representing other manufacturers as well so that they may serve as a single point of contact or resource for members who may benefit from a blended solution. Unlike some manufacturers, we don't limit ourselves to only one or two dealers in a market. We understand that dealers, like agencies, are unique, and while one may be ideally suited for commercial accounts, they may not be suited for education, government, or public agency members. In fact, we have found, more often than not, that it can take up to 20 dealers to adequately service one state from our clients' perspective.

OFS Brands Inc. currently holds a Region 4 ESC Contract through OMNIA Partners. OFS proposes to utilize its existing national network of OFS representatives and small business dealers to actively promote the OMNIA Partners Contract to the Continental United States, Alaska, Hawaii, and U.S. Territories and Outlying Areas.

Owning our logistics network allows us to take responsibility for every step along the way. We operate a fleet of 400 trailers to ensure a flawless delivery process with no hassles on your end. We have less than .002% damage rate and our online tracking system guarantees an exact delivery time, so you have everything you need when you need it.

C. Describe how Participating Agencies are ensured they will receive the master Agreement pricing; include all distribution channels such as direct ordering, retail r in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure their compliance with the Master Agreement.

OFS Brands Inc. Response to Appendix D, Exhibit A

Item 3.0 Supplier Response:

We ask that members include the contract number on all purchase orders to confirm they have selected a Region 4 contract. When orders are entered, our Order Entry department will review each order to ensure that it complies with the pricing and documentation requirement before accepting the order.

Our dealers sign a dealer participation agreement indicating that they understand the commitments and pricing found in our master agreement. Upon award of the contract, the OFS representatives, leadership team, and dealers are required to attend OMNIA Partners contract training and participate in the OFS annual dealer performance review.

A copy of the agency purchase order must accompany the dealer order. The customer has the option of issuing the order directly to OFS or placing an order with the local small business dealer.

As a final step, customers and dealers can receive immediate answers and attention by emailing omnia@ofs.com

D. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

Dealers would be the only other companies involved. Certain members may choose to address their orders directly to OFS. In that case, our order management department would process the order while customer service would send an acknowledgment of the order with the ship date to the member. Most orders are entered by dealers who have a direct relationship with members. OFS has hundreds of dealers who have participated in our OMNIA Partners contract. Please see the attached list of OFS Authorized OMNIA Partners dealers, which is unique from the balance of OFS dealers. The difference is that the OFS Authorized dealers have received training prior to sales activities to ensure they are aware of the contractual commitments and obligations.

OFS Brands Inc. Response to Appendix D, Exhibit A

Item 3.0 Supplier Response:

However, additional dealers are added monthly or as allowed and accepted by Region 4 ESC. Dealers are each able to process orders and to provide all additional services, including receiving products and providing delivery and installation services.

In addition to our hundreds of dealer partners, Styline Logistics has consistently provided quality transportation and logistical services for all our company's furniture manufacturing divisions. We have years of experience in providing specialized handling for various types of furniture, from seating to systems and everything in between.

E. Provide the number, size and location of Supplier's distribution facilities, warehouses and retail network as applicable.

OFS is a fourth-generation family-owned company that has been in business for over 85 years. As a large employer in multiple states, we have a strong impact on the local economy and are committed to workforce development.

We manufacture exclusively in the United States in Indiana, North Carolina, and Kentucky. In 2021, OFS operated under approximately 1,948,132 sq. ft. of manufacturing space within 17 different manufacturing, warehousing, and transportation facilities. Out of those 17 facilities, 13 are manufacturing facilities. We currently operate 4 as raw materials or supply factories. These 4 plants provide the cut veneer, dimensional lumber and cut core material used in the production of our products. One facility is an intermediate supply plant that receives multiple raw materials from our other supply plants and vendors, conducts veneer/laminate layup and edgbanding operations, machines components and ultimately supplies ready-to-assemble components to our finished goods facilities. Recently OFS completed a large state-of-the-art distribution facility (our largest capital project as of 2022) and in 2023 has invested in our largest capital project ever - a new robotics facility in Indiana. We have an online store available to service commercial clients who prefer to purchase day-to-day projects via credit card.

I. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Our organization is a private family-owned business with a lean, empowered leadership team and a dedicated group of OFS/Carolina/ROOM representatives nationwide and internationally. Our President/CEO is Hank Menke, while our Chief Revenue Officer is son Ryan Menke. Reporting to Ryan is Matt McCormick, National Sales Manager. Reporting to Matt are VPs of sales and marketing, including Anna McClelland, VP Specialty Markets, and four Regional VPs who manage sales and distribution throughout their geographies. We are organized in several ways.

We have approximately 1900 employees, including 71 direct employee sales representatives and administrators, plus 89 independent representatives and associates across the country. We have dedicated showrooms in High Point, Atlanta, Huntingburg, Washington DC, New York, Chicago, Dallas, and Los Angeles, as well as representative showrooms in Boston, Columbus, Houston, Denver, San Francisco, and Seattle.

We have a unique distribution model that, unlike many manufacturers, is flexible, with over 1200 independently owned and operated dealers across the world. This model will allow your members to work with local businesses in their community that they have grown to rely on and count on.

OFS Brands Inc. Response to Appendix D, Exhibit A

Item 3.0 Supplier Response:

We prefer this model as it allows for open competition and doesn't force our clients to work with dealers they might otherwise not choose. Our sales representatives and dealers are familiar with our OMNIA Partners contract and for those who are not yet dealers, we are willing to entertain and train dealers who have proven to be a value to your members.

Ryan Menke is the highest-level executive in charge of the sales team. His contact information is:

Ph: 812-630-4774

rmenke@ofs.com

I. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

The initial steps will include reintroducing the two sales organizations and integrating the municipal, K-12, and higher education teams into the OFS sales teams.

We welcome suggestions, but at a minimum, the following will occur:

- Each sales representative and dealer will participate in training to aid in implementing the new contract
- We will use the OMNIA Connect and the OMNIA Partners managers to access membership information and use it to identify opportunities in an effort to grow sales
- At a minimum monthly contact between Anna McClelland and OMNIA Partners personnel to understand and share trends, legislation, challenges, and opportunities
- In an effort to grow sales, there will be meetings between regional OFS teams and OMNIA Partners regional manager to design and align training, marketing, and sales activities, both to clients and to our dealer network
- We invite the OMNIA Partners team to visit OFS showrooms at least yearly to learn about our latest designs and innovations so that they can speak to our value proposition when meeting directly with clients

OFS Brands Inc. Response to Appendix D, Exhibit A

Item 3.0 Supplier Response:

- To further grow and service the national program, the sales force will offer frequent feedback regarding challenges and opportunities in their market. In response, through contract administration, direct work with the OMNIA Partners regional directors, and the two marketing departments, OFS will adapt the program as needed to increase acceptance and use, meet the needs of public agencies, bring value to those agencies, and grow sales. The growth and servicing of the contract will be validated during monthly meetings between Anna McClelland, Andrea Whitworth and John Hunsche.

J. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

Anna McClelland and Andrea Whitworth will continue to be the primary contacts between OFS and OMNIA Partners. They will continue to set a rhythm of communication not only with the OMNIA Partners leadership team but also with our Leadership Team and the regional leaders of OMNIA Partners.

The management of the program will also include:

- The reintroduction of the two sales organizations regional teams including integrating the OMNIA Partners municipal, K-12, and higher education teams into the OFS sales teams.
- Anna and Andrea will continue with monthly communication with the Director of Partner Development to align our areas of focus
- Monthly contact with OMNIA Partners marketing to coordinate trade show/summit activities as well as brainstorm new marketing materials and promotions
- Use of OMNIA Connect to measure success
- Andrea will work with the national sales force to add or update dealers to the authorized dealer list
- We will continue to support new client inquiries and registrations through a dedicated OMNIA Partners email address
- Andrea will continue to submit timely reporting and payment of administration fees
- Anna will continue to be responsible for all facets of contract administration

K. State the amount of Supplier’s Public Agency sales for the previous fiscal year. Provide a list of Supplier’s top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

As a private company, we cannot divulge our segment sales but public agency sales were approximately 13% of our overall sales. Our top 10 Public Agency customers for the same period are listed below along with contact information if available. In most cases, the largest clients consist of a single large project for a given period of time. Those orders are handled by our local representative or dealer and OFS has no direct contact with the end-user. It should also be noted that in most cases a contact may be a buyer who issued an order but that person cannot speak to the project's success. If additional contacts are required, please let us know if you are interested in the project contact or the purchasing agent.

L. Describe Supplier’s information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

We have implemented automation software for Accounts Payable. Esker on Demand is utilized by AP to process invoices automatically into our operating system “Oracle” as well as offering an electronic workflow for invoice approvals.

Regarding our customer interface, OFS currently uses both EDI protocols and website technologies as its main drivers for internet commerce capabilities. Through these technologies, we are able to handle purchase orders, acknowledgments, advanced shipping notices (ASN), and invoicing. Any additional needs would be accommodated by the in-house Information Technology team. We are working with OMNIA Partners currently to engage the Opus platform for ecommerce.

M. Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement (“Guaranteed Contract Sales”).

\$__0___.00 in year one
 \$__0___.00 in year two
 \$__0___.00 in year three

As a multiple award contract through currently 4 OMNIA Partners furniture contracts, OFS is unable to guarantee sales. However, we anticipate that sales will continue to grow as they have each of the 9 previous years.

To the extent Supplier guarantees minimum Contract Sales, the administration fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

OFS Brands Inc. Response to Appendix D, Exhibit A**Item 3.0 Supplier Response:**

N. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

- i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners)**
- ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.**
- iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).**
- iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.**

OFS agrees with the strategies outlined above for all OMNIA Partners members.

DEFINITIONS

Contract means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non-Federal entity that, consistent with 31 U.S.C. 6302-6305:

- (a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non-Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;
- (b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non-Federal entity in carrying out the activity contemplated by the Federal award.
- (c) The term does not include:
 - (1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

- (d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non-Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Pass-through entity means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non-Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. (b) *Prohibition.*

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. (c) *Exceptions.* This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements;
or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) *Reporting requirement.*

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at <https://dibnet.dod.mil>. CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, offeror certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition. Additionally:

- (1) The Contractor agrees to comply with 49 USC 5323(j) and 49 CFR Part 661, which provide that federal funds may not be obligated unless steel, iron and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR 661.7. A general public interest waiver from the Buy America requirements applies to microprocessors, computers, microcomputers, software or other such devices, which are used solely for the purpose of processing or storing data. This general waiver does not extend to a product or device that merely contains a microprocessor or microcomputer and is not used solely for the purpose of processing or storing data. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11.
- (2) A bidder or offeror must submit to the FTA recipient the appropriate Buy America certification with all bids on FTA-funded contracts, except those subject to a general waiver. Bids or offers that are not accompanied by a completed Buy America certification must be rejected as nonresponsive. This requirement does not apply to lower tier subcontractors.

FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS

Awarded Supplier(s) (also referred to as Contractors) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Supplier is accepted these FEMA and Additional Federal Funding Special Conditions required by the Federal Emergency Management Agency (FEMA) and other federal entities.

"Contract" in the below pages under FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS is also referred to and defined as the "Master Agreement".

"Contractor" in the below pages under FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

Notice of Legal Matters Affecting the Federal Government

In the event FTA or DOT funding is used by Participating Public Agency, Contractor agrees to:

- 1) The Contractor agrees that if a current or prospective legal matter that may affect the Federal Government emerges, the Contractor shall promptly notify the Participating Public Agency of the legal matter in accordance with 2 C.F.R. §§ 180.220 and 1200.220.

OMNIA PARTNERS EXHIBITS
EXHIBIT F - FEDERAL FUNDS CERTIFICATIONS

- 2) The types of legal matters that require notification include, but are not limited to, a major dispute, breach, default, litigation, or naming the Federal Government as a party to litigation or a legal disagreement in any forum for any reason.
- 3) The Contractor further agrees to include the above clause in each subcontract, at every tier, financed in whole or in part with Federal assistance provided by the FTA.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:

- a. Equal opportunity and nondiscrimination laws
- b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7
- c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Bid Guarantee

For proposals that are to include construction/reconstruction/renovation and related services, bids must be accompanied by Certified or Cashier's Check or an approved Bid Bond in the amount of not less than five percent (5%) of the total bid. Surety shall provide a copy of the Power of Attorney authorizing the Executing Agent the authority to execute the bid bond documents and bind the surety to the bid bond conditions. The bid bond shall have a corporate Surety that is licensed to conduct business in the state of the lead agency and authorized to underwrite bonds in the amount of the bid bond.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

OMNIA PARTNERS EXHIBITS
EXHIBIT F - FEDERAL FUNDS CERTIFICATIONS

1. CONTRACT REMEDIES

Contracts for more than the federal simplified acquisition threshold (SAT), the dollar amount below which an NFE may purchase property or services using small purchase methods, currently set at \$250,000 for procurements made on or after June 20, 2018, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms and must provide for sanctions and penalties as appropriate.

1.1 Applicability

This contract provision is required for contracts over the SAT, currently set at \$250,000 for procurements made on or after June 20, 2018. Although not required for contracts at or below the SAT, FEMA suggests including a remedies provision.

1.2 Additional Considerations

For FEMA's Assistance to Firefighters Grant (AFG) Program, recipients must include a penalty clause in all contracts for any AFG-funded vehicle, regardless of dollar amount. In that situation, the contract must include a clause addressing that non-delivery by the contract's specified date or other vendor nonperformance will require a penalty of no less than \$100 per day until such time that the vehicle, compliant with the terms of the contract, has been accepted by the recipient. This penalty clause should, however, account for force majeure or acts of God. AFG recipients should refer to the applicable year's Notice of Funding Opportunity (NOFO) for additional information, which can be accessed at FEMA.gov.

2. TERMINATION FOR CAUSE AND CONVENIENCE

- a. Standard. All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).
- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

When applicable:

- a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60-1.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).
- b. Key Definitions.
 - i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which

OMNIA PARTNERS EXHIBITS
EXHIBIT F - FEDERAL FUNDS CERTIFICATIONS

is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

- ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.
- c. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.
- d. Required Language. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's

OMNIA PARTNERS EXHIBITS
EXHIBIT F - FEDERAL FUNDS CERTIFICATIONS

commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the

applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4. DAVIS-BACON ACT

- a. Standard. All prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
 - ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti-Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.
 - iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

- b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

5. COPELAND ANTI-KICKBACK ACT

- a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").
- b. Applicability. This requirement applies to all contracts for construction or repair work above \$2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.
- c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

- a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
- b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

OMNIA PARTNERS EXHIBITS

- c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

- a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.
- b. Applicability. This requirement applies to all FEMA contracts awarded by the non-federal entity in excess of \$100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
- c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements*. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages*. In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of \$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages*. The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized

OMNIA PARTNERS EXHIBITS
EXHIBIT F - FEDERAL FUNDS CERTIFICATIONS

representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

- a. Standard. If the FEMA award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).
- b. Applicability. This requirement applies to "*funding agreements*," but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of "funding agreement."
- c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

- a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).
- b. Applicability. This requirement applies to contracts awarded by a non-federal entity of

OMNIA PARTNERS EXHIBITS
EXHIBIT F - FEDERAL FUNDS CERTIFICATIONS

amounts in excess of \$150,000 under a federal grant.

- c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.
2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
3. The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.
2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
3. The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

- a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).
- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.
- c. Requirements.
- i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for

OMNIA PARTNERS EXHIBITS
EXHIBIT F - FEDERAL FUNDS CERTIFICATIONS

participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530.

- ii. In general, an “excluded” party cannot receive a Federal grant award or a contract within the meaning of a “covered transaction,” to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a “covered transaction,” which is any non-procurement transaction (unless excepted) at either a “primary” or “secondary” tier. Although “covered transactions” do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS’s implementing regulations, it does include some contracts awarded by recipients and subrecipients.
- iii. Specifically, a covered transaction includes the following contracts for goods or services:
 - 1. The contract is awarded by a recipient or subrecipient in the amount of at least \$25,000.
 - 2. The contract requires the approval of FEMA, regardless of amount.
 - 3. The contract is for federally-required auditservices.
 - 4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of \$25,000.
- d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

- (1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor’s principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).
- (2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
- (3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

OMNIA PARTNERS EXHIBITS
EXHIBIT F - FEDERAL FUNDS CERTIFICATIONS

- (4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. BYRD ANTI-LOBBYING AMENDMENT

- a. Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.
- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of \$100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix II(I); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.
- c. Suggested Language.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

- d. Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

11. PROCUREMENT OF RECOVERED MATERIALS

- a. Standard. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. See 2 C.F.R. Part 200, Appendix II(J); and 2 C.F.R. §200.322.
- b. Applicability. This requirement applies to all contracts awarded by a non- federal entity under FEMA grant and cooperative agreement programs.
- c. Requirements. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.
- d. Suggested Language.
 - i. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—
 1. Competitively within a timeframe providing for compliance with the contract performance schedule;
 2. Meeting contract performance requirements; or
 3. At a reasonable price.
 - ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>.
 - iii. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.”

12. DOMESTIC PREFERENCES FOR PROCUREMENTS

As appropriate, and to the extent consistent with law, CONTRACTOR should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products or materials produced in the United States. This includes, but is not limited to, iron, aluminum, steel, cement, and other manufactured products.

Applicability For purchases in support of FEMA declarations and awards issued on or after November 12, 2020, all FEMA recipients and subrecipients are required to include in all contracts and purchase orders for work or products a contract provision encouraging domestic preference for procurements.

Domestic Preference for Procurements As appropriate, and to the extent consistent with law, the contractor should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products. For purposes of this clause: Produced in the United States means, for iron and steel products, that all

manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States. Manufactured products mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.”

13. ACCESS TO RECORDS

- a. Standard. All recipients, subrecipients, successors, transferees, and assignees must acknowledge and agree to comply with applicable provisions governing DHS access to records, accounts, documents, information, facilities, and staff. Recipients must give DHS/FEMA access to, and the right to examine and copy, records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities, personnel, and other individuals and information as may be necessary, as required by DHS regulations *and* other applicable laws or program guidance. See DHS Standard Terms and Conditions: Version 8.1 (2018). Additionally, Section 1225 of the Disaster Recovery Reform Act of 2018 prohibits FEMA from providing reimbursement to any state, local, tribal, or territorial government, or private non-profit for activities made pursuant to a contract that purports to prohibit audits or internal reviews by the FEMA administrator or Comptroller General.

Access to Records. The following access to records requirements apply to this contract:

- i. The Contractor agrees to provide Participating Public Agency, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.
- ii. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.
- iii. The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.
- iv. In compliance with the Disaster Recovery Act of 2018, the Participating Public Agency and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

14. CHANGES

- a. Standard. To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope.
- b. Applicability. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

15. DHS SEAL, LOGO, AND FLAGS

- a. Standard. Recipients must obtain permission prior to using the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials. See DHS Standard Terms and Conditions: Version 8.1(2018).
- b. Applicability. FEMA recommends that all non-Federal entities place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to a ward of the contract. Resolutions of a ward should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at <http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12>. They will be updated from time-to-time as necessary.
 - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d. The form may be used “as-is”, subject to edits as described herein.
 - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
 - of the public entity awarding the contract
 - of that county in which that public entity is located
 - of another public entity within that county
 - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

SignatureEmail Address: AMcClelland@ofs.com**For material changes, the awarded contract holder and/or subsequent assignee agrees to and understands the following principles:**

i. **Contract holder reference.** If the contract holder undergoes a merger, acquisition, or partial assignment, in which case they still maintain the contract, then all transactions made under the existing contract number (including purchase orders) must reference the name of the awarded contract holder. The exception to this requirement is if the contract holder no longer holds the contract or if the company has been acquired by another company and undergone a name change. Notice of the authorized name change, to the existing contract, must be provided and approved by Region 4.

In instances where the contract holder has acquired a separate and distinct company, and it is necessary to designate those certain purchases facilitated by the non-contract holder, then this designation may be made if, and only if, the contract holder is also referenced on the transaction.

ii. **Maintenance of records.** Both the awarded contract holder and subsequent assignee agree to remain responsible for maintaining all auditable records, including documents kept in the ordinary course of business and sales invoices, related to OMNIA Partners, Public Sector and/or contract number pursuant to the statutory requirements identified in the vendor contract.

iii. **Payments.** Both the awarded contract holder and subsequent assignee agree that all payments made by participating entities must be made directly to the contract holder, unless otherwise approved by Region 4. Accordingly, both parties acknowledge that in instances where it is necessary to designate the purchases facilitated by assignee, that the contract holder must also be referenced on the purchase order.

iv. **Handling of Proprietary and/or Confidential Information.** In accord with the terms of the contract, both awarded vendor and assignee agree that at all times it will hold in strict confidence and not disclose to any third party Confidential and/or Proprietary information of Region 4, except as approved in writing by Region 4, and will use the Confidential Information for no purpose other than providing services under the contract. Both awarded vendor and assignee shall only permit access to Confidential Information to those of its employees or authorized representatives having a need to know and who have signed confidentiality agreements or are otherwise bound by confidentiality obligations at least as restrictive as those contained herein.

This document is to be construed in strict accordance with the terms and conditions outlined in the Region 4/vendor Master Agreement referenced herein. Both awarded vendor and assignee agree to uphold the vendor obligations set forth in the vendor agreement. This Agreement will become effective when signed by all parties.

SignatureEmail Address: amcclelland@ofs.com**For material changes, the awarded contract holder and/or subsequent assignee agrees to and understands the following principles:**

i. **Contract holder reference.** If the contract holder undergoes a merger, acquisition, or partial assignment, in which case they still maintain the contract, then all transactions made under the existing contract number (including purchase orders) must reference the name of the awarded contract holder. The exception to this requirement is if the contract holder no longer holds the contract or if the company has been acquired by another company and undergone a name change. Notice of the authorized name change, to the existing contract, must be provided and approved by Region 4.

In instances where the contract holder has acquired a separate and distinct company, and it is necessary to designate those certain purchases facilitated by the non-contract holder, then this designation may be made if, and only if, the contract holder is also referenced on the transaction.

ii. **Maintenance of records.** Both the awarded contract holder and subsequent assignee agree to remain responsible for maintaining all auditable records, including documents kept in the ordinary course of business and sales invoices, related to OMNIA Partners, Public Sector and/or contract number pursuant to the statutory requirements identified in the vendor contract.

iii. **Payments.** Both the awarded contract holder and subsequent assignee agree that all payments made by participating entities must be made directly to the contract holder, unless otherwise approved by Region 4. Accordingly, both parties acknowledge that in instances where it is necessary to designate the purchases facilitated by assignee, that the contract holder must also be referenced on the purchase order.

iv. **Handling of Proprietary and/or Confidential Information.** In accord with the terms of the contract, both awarded vendor and assignee agree that at all times it will hold in strict confidence and not disclose to any third party Confidential and/or Proprietary information of Region 4, except as approved in writing by Region 4, and will use the Confidential Information for no purpose other than providing services under the contract. Both awarded vendor and assignee shall only permit access to Confidential Information to those of its employees or authorized representatives having a need to know and who have signed confidentiality agreements or are otherwise bound by confidentiality obligations at least as restrictive as those contained herein.

This document is to be construed in strict accordance with the terms and conditions outlined in the Region 4/vendor Master Agreement referenced herein. Both awarded vendor and assignee agree to uphold the vendor obligations set forth in the vendor agreement. This Agreement will become effective when signed by all parties.

RFP # 24-22

National Cooperative Purchasing Alliance

Introduction / Scope

- ◆ Region 14 ESC on behalf of itself and all states, local governments, school districts, and higher education institutions in the United States of America, and other government agencies and non-profit organizations (herein “Public Agency” or collectively “Public Agencies”) is soliciting proposals from qualified vendors to enter into a Master Agreement for a complete line of Furniture.
- ◆ Region 14 ESC, as the lead public agency, has partnered with NCPA to make the resultant contract available to all participating agencies in the United States. NCPA provides marketing and administrative support for the awarded vendor that promotes the successful vendor’s products and services to Public Agencies nationwide. The Vendor will execute the NCPA Administration Agreement (Tab 2) upon award. Vendor should thoroughly review all documents and note any exceptions to NCPA terms and conditions in their proposal.
- ◆ Awarded vendor(s) shall perform covered product or services under the terms of this agreement. Respondents shall provide pricing based on a discount from their standard pricing schedules for products and/or services offered. Electronic Catalog and/or price lists must accompany the proposal. Multiple percentage discount structure is also acceptable. Please specify where different percentage discounts apply. Additional pricing and/or discounts may be included.
- ◆ Each product or service proposed is to be priced separately with all ineligible items identified. Services may be awarded to multiple vendors. Respondents may elect to limit their proposals to a single product or service within any category, or multiple products or services within any and all categories.
- ◆ National Cooperative Purchasing Alliance (NCPA)
 - The National Cooperative Purchasing Alliance (herein “NCPA”) assists public agencies to increase their efficiency and reduce their costs when procuring goods and services. This is accomplished by awarding competitively solicited contracts that are leveraged nationally by combining the volumes and purchasing power of entities nationwide. Our contracts are available for use by any entity that complies with procurement laws and regulations.
- ◆ It is the intention of Region 14 ESC and NCPA to achieve the following objectives through this RFP.
 - Provide a comprehensive competitively solicited Master Agreement offering Products and Services to Public Agencies;
 - Achieve cost savings of Vendors and Public Agencies through a single competitive solicitation process that eliminates the need for multiple proposals;
 - Combine the purchasing power of Public Agencies to achieve cost effective pricing;
 - Reduce the administrative and overhead costs of Vendors and Public Agencies through state of the art purchasing procedures.

Twenty-five years later, Grahame handed the keys to a partnership led by Bill Haggerty, Daniel Warn, and Clif McKenzie, whose leadership stemmed more from custodianship than ownership. Customer Care – Our products have evolved and improved to respond to modern offices. The thing that hasn't changed is our commitment to customer care. We will celebrate this new contract on one of our quarterly webinars and training sessions for sales.**

Watson's hours are 8-5 PDT/PST however we have staff that happily start their day early to facilitate great care for our east coast clients. Our Service teams are available 24 hours a day. Our sales representatives work around the clock in their respective markets.**
- Green Initiatives - **Our rule of three.**
Watson's respect for materials, processes, and planet forms the stable foundation of our environmental philosophy. Everything we make and everything we are as a company emerges from these three intertwined commitments.
First and foremost, we use the cleanest ingredients we can get our hands on – stuff that's recycled or recyclable; stuff that doesn't off-gas toxins; stuff that lasts. The deeper the green, the better; red and yellow list materials have no place here. Second, we keep our eyes and ears open to how the materials landscape is constantly changing. New options emerge all the time, which means we'll forever be on a journey to improve what we use.
As an environmentally minded manufacturer, we take our methods very seriously. Each stage of our process is designed to maximize our ability to reduce, reuse, and recycle. We use nesting algorithms to minimize the materials we need. We reclaim and repurpose powder, sawdust, and water. We recycle everything we possibly can. Then we get downright granular about our waste stream – rethinking each scrap before anything gets tossed. Even if we didn't operate on a septic system, we'd want to keep the gunk out of the pipes.
By some standards, we're allowed to call ourselves a zero waste to landfill organization. By those standards any company that tosses less than 10% of its waste can claim this title. And while that's not bad... it's not enough. Not to us. Our goal is to be relentless about bringing our numbers down. So, we keep working on ways to lighten the dumpster. Ten percent is fine but moving towards zero matters more.

Watson Terms & Conditions

Terms of Sale

These terms of sale supersede all previous price lists and terms and are subject to change without notice.

Prices

Purchase orders will incur a 5% of product net materials surcharge due to rapid price escalation of components.

All prices are list, freight prepaid (as described below) and do not include cartoning, storage or taxes. Watson reserves the right to make changes to price without prior notice.

Terms of Payment

Terms of payment will be established based on the credit rating and credit information provided by and for specific customers based on their credit application. Orders are invoiced at time of shipment. Standard payment terms are 50% due at time of order and 50% due before shipment. Approved credit levels may be extended to net thirty (30) days. Past due accounts will be charged the lesser of 1-1/2% per month or the highest rate permitted by law plus all collection costs, including reasonable attorney's fees and expenses.

Credit card payments are accepted up to \$5,000

Taxes

All sales, use, excise and other applicable taxes are the purchaser's responsibility and will be invoiced to the purchaser. If purchaser claims an exemption from such taxes, it shall be the purchaser's responsibility to furnish an appropriate exemption certificate.

Order Acknowledgment

The price list identifies the information that must be noted on the purchase order. Any omission may result in the delay of processing the order. All Quotations, Acknowledgments, and Invoices are subject to corrections for errors or omissions.

All orders and subsequent change orders must be in writing. Watson will issue a written acknowledgment that includes estimated ship and arrival dates; Customers should verify the acknowledgment for accuracy. The acknowledgment is the final agreement between Watson and the customer.

Order Changes and Cancellations

Acknowledged orders may not be changed or canceled, in whole or in part, without prior written consent of Watson. Orders for which production has started may not be canceled. Orders that include non-standard products and non-standard finishes may not be canceled. Order changes may affect delivery dates. Expenses incurred because of order changes will be charged to the Customer. In the event of cancellations prior to the start of production for standard products, Customer will be liable for cancellation charges of 25%.

Returns

Watson products are made to order and may not be returned for credit unless authorized in writing by Watson. At its discretion, Watson may deem it necessary to issue a Return Merchandise Authorization (RMA) to recover defective or failing product for testing and quality assurance.

An RMA consists of an RMA order acknowledgment, an RMA checklist, a prepaid shipping label and sleeve and the appropriate packaging to return the product in question.

RMA processing is a responsibility of the dealer's representative (service technician, installer, etc.).

If RMA product is not shipped within 30 days of the date of issue, the scope of work will be viewed as incomplete, and an invoice may be issued based on the value of the parts not returned. Purchasers will be responsible for additional freight costs incurred from non-authorized carriers when returning product.

Shipment and Delivery

Domestic shipments are FOB Watson. The invoice price includes standard domestic freight for the 48 contiguous states. Shipments outside the 48 contiguous states will be shipped FOB distribution point, surface freight included to the point of embarkation and freight costs beyond that point will be added to the invoice. Charges incurred by Watson complying with non-standard shipment requests such as inside delivery, expediting, redelivery, weekend delivery, unpacking, straight trucks, specific driver requests or temporary holding will be invoiced to the purchaser. Risk of loss shall pass to purchaser at the time Watson places the product(s) in the possession of a common carrier or at the time of delivery to the purchaser in the case of delivery by Watson vehicles.

Packaging

We wrap our products in reusable blankets whenever possible. This method reduces packaging waste, lessens freight damage, expedites on-site installation and enables easier identification of concealed damage. Here are a few things you should know about Watson's blanket wrap practice:

Most products will be individually loaded and secured with blankets and straps
Some steel components may come on small pallets and hardware will be bulked packed in boxes
Each item will be wrapped in shipping blankets that will stay with the truck
Exposed wood edge table surfaces will have added packaging to protect edging during transit
Storage components will be covered in plastic bags and blanket wrapped
Some table and storage components will have corner guards and be wrapped in plastic
Cartoning may be specified, but is subject to a 5% of total List price surcharge.

Freight Claim

We'll file the freight claim on your behalf. But to do that – we'll need your help.

FREIGHT DAMAGE: It is the purchaser's responsibility to examine products upon receipt, note the damage or shortage on the Bill of Lading, and to notify Watson within 24 hours of delivery. Failure to provide notice within 24 hours constitutes acceptance of the product.

CONCEALED DAMAGE: Claims must be made by the purchaser in writing and with photographs within five (5) business days after delivery. Failure by the purchaser to make any concealed damage claim within five (5) business days constitutes acceptance of the product and a waiver of any apparent damages.

Storage

We understand that projects sometimes face unforeseen delays. If the request to move an order out is received more than 5 weeks or 25 business days prior to the acknowledged ship date, we can likely accommodate that request without additional cost. If the request to move an order out is received less than 25 business days prior to the acknowledged ship date, customers may opt to contract storage with Watson for up to 30 days post-ship date. Watson charges a storage fee of \$1 per day per \$1,000 of the Total Order Net. The minimum storage fee is \$250 Net. Storage should be considered delivery to the customer for all purposes, including invoicing.

Force Majeure

Watson shall not be liable for any loss, damage, or delay resulting from forces beyond its reasonable control including fire, flood, strike or other labor difficulty, act of God, or due to any cause beyond its reasonable control.

In the event of any such delay, delivery will be postponed by such length of time as may be reasonably necessary to accommodate for the delay.

Watson has been a consistent innovator. We were the first office furniture Manufacturer in the US to offer height adjustable worksurfaces. We have not stopped making furniture for the workspace better since. In 2019 we introduced Tia, the first height adjustable private office with a column leg and not the traditional c or t leg. Our Tia height adjustable meeting tables were the first that had the display rise with the surface. In 2020 we introduced our greatest innovation yet, a bending rail system. No longer are workers restrained by the grid of a linear layout, but they have the ability to expand and make their work areas fit how they work, when they are working. It is infinitely moveable and doesn't require an installer of facility staff to move the rail. Workstation agility reached a new height with the introduction of Edison rail.

Designing innovative and creative products for the office, putting function first and beauty second, made with honest materials, is why Watson exists. We make furniture for the forward thinking office. Our next innovation targets storage for securing personal items while working.

**MERCURY WARRANTY TERMS & CONDITIONS**

WATSON MERCURY CONSOLES: Lifetime Plus 10 Warranty

We are proud of the products we make and the materials and processes we use to make them. That's why we back our Mercury Consoles with a Lifetime Warranty on all components manufactured by Watson and a 10-year warranty that covers the electronics and buy-out parts. In addition to the warranty coverage on the components, we also cover labor and installation costs for the first 5 years on everything!

WARRANTY DETAILS

Watson Manufactured Parts: All components manufactured by Watson Consoles, if found defective under ordinary use, will be replaced at no charge for as long as the original purchaser owns the product.

Electronic Parts: All electronics and buy-out parts including, but not limited to, lifting & adjustment mechanisms, environment control appliances and switches, monitor arms, acrylic etching, and task lighting, will be replaced at no additional charge for the first ten years of original ownership.

Labor: Labor for the first 5 years on ALL Mercury components are covered under this warranty.

Watson Non-Obsolescence Policy: Watson will make a good faith effort to maintain product compatibility within our various generations of product platforms to provide our customers with spaces that adapt to change. Watson's non obsolescence policy commits to provide our customers with products of comparable function or operational characteristics for a term equal to the warranty period. Watson fabrics and finishes must be updated periodically to maintain the market appeal of our products and respond to the demands and changing preferences of our customers. As a result, some fabrics and finishes are periodically discontinued. Other times vendors will discontinue an item that we have in our legacy products. When that happens, we will do our best to provide a suitable alternate.

This warranty does not apply to: failure to apply, install, reconfigure, or maintain products according to published Watson, or manufacturer, instructions and guidelines; normal wear and tear or defects resulting from neglect; consumable items such as light bulbs and batteries; Watson products that have undergone buyer modification or reconfiguration including the substitution of unauthorized non-Watson component(s) for use in the place of Watson components in an integrated product solution; products subjected to improper use or conditions including negligence, accident, or alterations; products damaged by AC power disturbances.

Concept Seating Full Warranty. Watson acts as the reseller of Concept Seating, as such is not responsible for warranty coverage for either parts or labor. All warranty claims must be submitted through the Concept Seating process in accordance with the Concept Seating policy. See link for more details:
www.conceptseating.com/resources/warrantyclaim.

This warranty is not transferable. The warranty terms are dependent upon initial assembly and maintenance to be performed by Watson Factory Certified Personnel.

BUYER'S RESPONSIBILITY

The execution of this warranty requires the cooperation of the buyer with Watson Consoles. With guidance from the Watson Consoles' Customer Service team, the buyer agrees to perform basic troubleshooting tasks to determine the nature of the defect and to self-correct before Watson personnel will provide on-site assistance. If the issue requires on-site assistance from Watson personnel and the product failure or defect is found to have resulted from items outside the warranty coverage, the buyer agrees to reimburse Watson Consoles for applicable expenses resulting from the claim. Expenses include, but are not limited to product shipping, installation labor, transportation, and accommodations. Watson reserves the right to request that the damaged product be returned prior to granting a remedy. Repairs, substitute products or replacements of equal or higher value used to resolve a warranty claim will in no way extend the applicable warranty period applied to the original product. Watson cannot guarantee the availability of specific matching colors, grains, fabrics, or textures but will work with customer to find a reasonable substitute.

Watson makes no other express or implied warranties to any product except as stated above and makes no warranty of Watson Consoles' product fitness except for use as standard communication console furniture.

Ref: Region 14 Contract 07-129 - 2025 Pricing Update Request

To whom it may concern,

As per the attached Region 14 Contract Update Form, Watson Furniture Group is requesting the utilization of our 2025 Watson Furniture price catalog effective January 6, 2025. It should be noted that the last pricing update was January 8, 2024. Additionally, the merging of contract 07-64 products and services into this 07-129 contract on September 5, 2024, did not represent any pricing updates.

This pricing update represents a weighted average increase of approximately 3%. Of note, Watson costs have been impacted by:

- Rising raw material cost due to natural disasters in the past year
- Labor costs remain elevated
- Increasing operational expenses such as utilities and transportation
- Increasing investments costs in enhanced equipment and technology to increase efficiencies
- Inflationary pressure due to overall economic climate and rising costs across industries
- Industry pressure of competitors prices that benchmark reductions on certain products

Watson is also discounting pricing for certain products pursuant to the last point above.

Ref: Region 14 Contract 07-129 - 2025 Tariff Relief Temporary Surcharge Request

Ms. Williams,

We sincerely appreciate your ongoing partnership with Watson Furniture.

This past month, the President of the United States announced executive actions implementing tariffs on imported goods and materials from just about everywhere. While these actions could continue to see adjustments and date changes, many have already influenced our costs.

Watson sources the vast majority of our supplies from US based vendors. Our vendors are, however, linked to a supply chain that depends on European and Asian countries. Many of our vendors are heavily impacted by the tariffs – Wilsonart, PPG, Byrne, Fastenal – are just a few that have increased prices or added surcharges in ranges that make it problematic for us to absorb it all.

- Byrne electric supplies our power solutions. Increases from them are complex.
 - All products with technology from China 1-4%
 - All products from Mexico & Canada 10-18%
 - 25% aluminum tariff. The above averages do not include this aluminum tariff.
 - Effective March 26, 2025, the prices of affected products will increase.
- PPG supplies our powder coating for metals. They increased costs by 4% in March. This offsets tariff costs from their sub-suppliers.
- Fastenal +3-6% (varies by product position). This is where we get ALL of our hardware.
- EB Bradley notified us this week of a +3-4% increase in laminate costs.

Effective May 1, 2025, Watson will apply a 3% surcharge to all orders to address the increased tariff burden. The surcharge will be applied to the total product net for any furniture orders received on or after May 1, 2025.

The surcharge impacts the entire Watson Furniture offering, including previously quoted products. Orders at current pricing without the surcharge will be accepted through April 30, 2025. The surcharge will appear as a separate line item on Acknowledgments and Invoices. Our current list prices, discount, and terms will remain unchanged.

The situation remains dynamic, and we continue to monitor it closely. If these tariffs are amended, increased, or reduced we will assess the impact and determine if our surcharge needs to be adjusted as

well. In the interim, please be assured that we continue to pursue efforts to mitigate the effect of these tariffs to the maximum extent possible.

Sincerely,

Kevin Goy

Ref: Region 14 Contract 07-129 - 2025 Dispatch Console Commercial Terms Update Request

Mr. Kruszec,

We sincerely appreciate your ongoing partnership with Watson Furniture.

As part of the recent merger of our now expired contract 07-64 Dispatch Console products into the active 07-129 Furniture contract, we would request to officially clarify the following related to those transferred products only:

Price book discount: 47.5%

Installation Services: Quoted per Job

Freight: Quoted per Job

The reasons for the above different terms as compared to the original 07-129 Furniture products is due to the following:

Price Book Discount: Same as the previous 07-64 contract terms

Installation Services: Same as 07-64. Dispatch console furniture are highly technical products sold directly to the end-user with no dealer involvement and with highly varying customer requirements. As a result, installation services are provided by trained factory-based technicians, therefore requiring a significantly different variable cost structure.

Freight: Most emergency service (911) end-users of Dispatch Console products are in locations that do support the more efficient 53' trailer option used for office furniture sales. As such, multiple smaller box trucks are required and, similar to the above, require a variable cost structure to the original 07-129 office furniture products.

Thank you for your consideration in this request!

Sincerely,

Kevin Goy

830600 - Lakewood Branch Library Facility

Originating Year:	2013	Project Type:	Administrative Facilities	Department:	250 - Public Works
Planned Completion Year:	2025/26	Category:	Capital	Project Manager:	Nathan Scribner

Project Description/Scope/Purpose

This project funds the construction of a branch library facility in the Lakewood Village neighborhood in order to increase access to library services for those living in north Sunnyvale by making it more convenient for residents to visit. On November 19, 2013 (RTC 13-275), Council authorized the \$14.05 million sale and purchase agreement between the City of Sunnyvale and Stratford School, Inc. for the Raynor Activity Center. Approximately \$13.5 million of the proceeds from the sale are allocated for the capital project for design, construction, and startup costs of a new branch library located at Lakewood Park. The initial estimate of a new library was roughly 17,000 square feet that has now been updated to 20,000 feet.

On 1/14/2020, the City Council approved a joint use agreement with Sunnyvale School District (SSD) and Fremont Union High School District (FUHSD) with RTC 20-0057. Both districts have agreed to contribute a maximum of \$3.0 million each towards construction. The Friends of the Sunnyvale Library have also committed to contributing \$500,000 for furniture, fixtures, and equipment; bringing the current available budget for design and construction to \$27.3 million. Project design started in FY 2019/20 with construction scheduled to begin in FY 2023/24.

Project Evaluation and Analysis

Residents living in north Sunnyvale are the only residents who must travel more than two miles to access library services. In fact, many residents in north Sunnyvale live over four miles from any library. As a result, the Lakewood area has the lowest percentage of residents with Sunnyvale library cards than any neighborhood in Sunnyvale. Furthermore, there is a significant concentration of seniors and youth in this area - the age groups tending to make the most use of library services, but also the most restricted in terms of mobility. As such, some of the City's residents with the most to gain from library services have the most difficult time accessing those services. This project will address this issue and improve the quality of life for residents.

Fiscal Impact

This project is funded by proceeds from the sale of the Raynor Activity Center, the Park Dedication Fund, the General Fund, and contributions from the Sunnyvale School District, Fremont Union High School District, and Friends of the Sunnyvale Public Library.

As of FY 2020/21 Library positions (two each part-time Library Specialists I and III and one full-time Administrative Librarian) have been shifted from the Department's operating budget to project operating costs.
