Subject: 1154 and 1170 Sonora Court - threat of litigation

The purpose of this email is to document a conversation that I had on June 22, 2023, with the applicant's attorney, Tamsen Plume of the Holland & Knight law firm, regarding the above project. During that conversation, Ms. Plume stated "My clients are willing to litigate this if they have to" or words to that effect. She made other statements indicating that litigation is likely if the project is not approved.
