[14-0422](#) Progress Update on the Water Pollution Control Plant Master Plan

##### Study Session Summary:

Environmental Services Department Staff presented on the status of the Water Pollution Control Plant Master Plan. Initial discussion revolved around the current processes at WPCP, the Strategic Infrastructure Plan (SIP), and the status of “gap” projects identified by the SIP. Discussion then turned to opportunities for recycled water production based on the final design of the new WPCP and costs related to each option.

Council discussion included questions regarding the salinity of the City’s recycled water, the possibility of using some of the new WPCP site for solar arrays, the possibility of climate change affecting the design of the surrounding area, and ongoing funding for the WPCP project overall.

#### **4 Public Comment**

None.

## **5 Adjourn Special Meeting**
