

## BPAC 2020 Proposed Study Issues

No.	Date	Study Issue Working Title	Summary of Scope	Staff Comments
1	2/21/2019	Improve Bicycle and Pedestrian Access at Sunnyvale Caltrain Station	To evaluate the existing pedestrian and bicycle access to the Sunnyvale Caltrain Station, make recommendations on improvements to signage, access paths, roadways, traffic control and bicyclist / pedestrian amenities, determine areas for the inclusion of public art displays, and perform an evaluation of right-of-way restrictions, feasibility of improvements and identify possible sources of funding.	There is potential for improvements to the existing bicycle and pedestrian facilities and amenities near the Sunnyvale Caltrain Station. However, there are a couple of concerns with this study issue that may result in a lack of sponsorship. First, there are many jurisdictions and entities involved, so coordination could be a challenge and it might be difficult to get consensus. Second, acquiring funding for improvements might be difficult, especially for areas not in the public right-of-way.
<p>Submit Study Issue Form by 8/12/2019 for sponsorship to take place in September 2019</p> <p>Submit Study Issue Form by 9/9/2019 for sponsorship to take place in October 2019</p>
