PUBLIC HEARINGS/GENERAL BUSINESS

[25-0619](#) Annual Review of City Manager's Recommended Budget Full budget available online at: Sunnyvale.ca.gov/your-government/governance/city-budget

Staff addressed comments and questions from the Commissioners on the City Manager's FY 2025/26 Recommended Budget (Recommended Budget), highlighting funding available for projects and positions related to sustainability programs. The Commission discussed the Recommended Budget and asked clarification questions of staff.

Chair Veitch opened the Public Hearing at 9:24 p.m.

There were no public comments.

Chair Veitch closed the Public Hearing at 9:25 p.m.

MOTION: Commissioner Kunz moved, and Commissioner Jansen seconded, a motion to provide the following recommendations on the City Manager's Recommended Budget for FY 2025/26 to City Council, and to nominate Vice Chair Nabhan to convey these recommendations to City Council verbally and in writing:

1. Given the City's priority of advancing climate action, consider whether Project 824780 – Upgrading of Fuel Stations, utilizes the most appropriate strategy, given there are two newly replaced tanks on City properties. Fuel needs assessments should consider:
 - a. Fleet electrification, especially with the CARB Advanced Clean Fleets ruling;
 - b. The costs of maintaining this asset while electrifying, then the cost of decommissioning this stranded asset prior to the end of its useful life;
 - c. Alternative methods of fueling while the fleet is transitioning to all-electric, such as Mobile Fueling.
2. Recommend that future costs for project 831290 beyond FY 27/28 be included in the budget to align the long-term financial budget with the importance that Climate Action will have in the next two decades.
3. Support funding Budget Supplements:
 - a. #1 funding the Study Issues;
 - b. #3 Homestead Road Full-Time Bike Lanes;
 - c. #4 Safe Parking Program, acknowledging that this can help reduce litter and pollution impacts;
 - d. #5 Street Sweeping (option B) with a recommendation to not use gas-powered leaf blowers to accomplish this;
4. Support not funding Budget Supplement #6 while acknowledging that artificial intelligence (AI) data centers have significant environmental impacts.

The motion carried by the following vote:

Yes: 5 - Chair Veitch
Vice Chair Nabhan
Commissioner Jansen
Commissioner Kunz
Pistone

No: 0

Absent: 1 - Commissioner Parenteau

STANDING ITEM: CONSIDERATION OF POTENTIAL STUDY ISSUES

None.
