

210 W Ahwanee Ave

Multi-family Residential Transportation Demand Management (TDM) Program

Transportation Demand Management Strategies		Points Obtained
Proximity to Transit	< 0.5 miles to VTA Bus Stop (Bus Route 523) on Mathilda Ave/San Aleso	1
Proximity to Commercial Uses	Less than .25 miles from: 1. A shopping center consisting of at least three tenant spaces, or 2. Three separate retail/restaurant/service/recreational uses	3
Access Improvements	Close Gaps: Bicycle, Pedestrian, and/or transit access improvements (e.g. bike lanes)	3
Total Points Obtained		7.0

**TRAFFIC DEMAND MANAGEMENT
MEASURES**

Tapti Homes

210 & 214 W Ahwanee Ave

CITY OF SUNNYVALE

July, 2020

TRAFFIC DEMAND MANAGEMENT

The Tapti Homes project is **not** located within 1/3 mile of a Cal train station, and therefore is **not** required to incorporate Transportation Demand Management Measures (TDM) into its design. Although not required, the applicants will incorporate the following TDM into the project:

1. Pedestrian pathways

Understanding the importance of walk ability to the community as well as to traffic demands, the project has been designed with designated exclusive pathway connections to city sidewalks.

2. Telecommuting Infrastructure

Every new home will be pre-wired with access to high speed internet and broad band technology.

3. Access Improvements

Project is providing 5ft of additional right of way to allow accommodation of a future bike lane along Ahwanee Ave.
