MEET "KATIE"

...I will think of you, the way I'll always help myself, I know you'll be there because with you & only you as my therapist, you helped me help myself by letting me be myself with you. So, I will never forget that because I will continue to be myself for me & others to be able to meet & have people like you in my world, I can't thank you enough for introducing me the importance of mental health but taking care myself, & for the way the impact of influence you have helped me endure for the last three years, I still can't believe it but sometimes I just know I wouldn't have wanted it another way. I am still writing this without crying or anything just with me, myself & I processing & reflecting on what has and is to come in my life, & I'm so honored to have met you, & got to

MEET "KATIE"

Always cherish you & this relationship with all my heart, because you have helped me change the person I thought I was, into the person I always have been, which is someone who cares about the people she loves, never gives up & is the strongest & smartest person I am, I always have been, just needed someone like you to help me see it for myself again. I think the most that has changed for myself is the view on the world & myself, and where, what, & how I can see myself, the way I tried so hard not to because I was so scared of denial & rejection. It took me some time, but I managed to view life around me the way others were, but as you were showing & telling me ways life can be for me. With you, you made everything seem so easy but easier than it was, you have made me feel so comforted & acknowledged by your presence. You coming over for our sessions, especially the ones in my room ^{with you} were always my favorite, but the best times were all with you. For how I will be afterwards, after you is unthinkable and unknown for, but I know I'll be continuing to better myself and continue to help me and my life become what I deserve, and I know with time I will, promise I always
