Staff went over their recommendation to the proposed study issues with the commission.

Chair Kesting proposed that the study issue would assess the feasibility of implementing reduced speed limits around parks in order to mitigate risks to pedestrians and cyclists.

Jim Stark, Superintendent of Golf and Parks, explained staff recommendation is not to sponsor because the specialty is within traffic engineering. Process to move the study issue forward, is to present to the Bicycle and Pedestrian Advisory Committee or discuss with a City Council Member to see if they would like to sponsor.

- 3      [25-0315](#)      Temporary Use Ice Skating Rink in Downtown Park

Chair Kesting explained that the study issue would explore converting a portion of a park near downtown into a temporary ice skate rink.

Jesus Raygoza, Superintendent of Recreation Services, explains that staff recommendation is not to sponsor, because there is a developmental agreement between the city and CityLine developer that requires CityLine to operate an ice rink or other activity for three winters.

**4      [25-0316](#)      Street Trees for Improved Traffic Safety**

Chair Kesting explained that the city should explore utilizing street tree planting as a strategy to enhance traffic safety.
