Subject: Fwd: Complaint Regarding Lack of Off-Street Parking on Samedra St

WARNING - This email came from an EXTERNAL source. Confirm the sender and its contents are safe before responding, opening attachment or links.

Hi Momo,

Thank you for the opportunity to speak with you, Steve, and Lauren yesterday morning.

I'm forwarding the complaint I submitted to the city regarding the **aggravated off-street parking and safety concerns** near my property, which have worsened following the addition of bicycle lanes on Mary Avenue and Homestead Road. I'll share the slides I plan to present at the hearing in a separate email in the coming days.

Please don't hesitate to reach out if you have any questions.

Best regards,

Larry

Subject: Complaint Regarding Lack of Off-Street Parking on Samedra St

WARNING - This email came from an EXTERNAL source. Confirm the sender and its contents are safe before responding, opening attachment or links.

Dear Thinh,

It was great speaking with you yesterday. As discussed, I am formally filing a complaint regarding the parking situation on Samedra St. The issues are as follows: Students from Homestead High School are using Samedra St as their "parking lot". This problem is worsening due to the removal of off-street parking on S Mary Ave and Homestead Rd to make room for bicycle lanes. As the second house from Homestead Road, my property has been disproportionately impacted, leaving me and my visitors without off-street parking and significantly impairing our use of the property. This situation has been especially tough for my disabled parents, who now have to walk a considerable distance due to the lack of parking. Additionally, the overcrowded parking has created increased risks for pedestrians due to obstructed views. I have attached two photos to illustrate the severity of the situation. I kindly request that the city consider the following solutions to mitigate these issues: 1. **Alternative Parking Solutions:**

Explore options such as creating additional parking areas or improving existing facilities to accommodate the displaced vehicles. 2. **Community Engagement:** Involve residents in discussions to find a balanced approach that supports both cycling infrastructure and parking needs. I believe that with thoughtful consideration and collaborative efforts, it is possible to achieve a solution that benefits all members of our community. I appreciate your attention to this matter and look forward to a positive resolution. Thank you for your time and understanding. Sincerely, Larry
