- 1.D**      [25-1073](#)      Discussion of Potential Council Priority Project Ideas

Ms. Raby provided an overview of the Council Priority Projects (CPP) process and timeline. Ms. Raby noted that each Board and Commission may forward one priority project for City Council consideration.

Proposal No. 1 – Commissioner Parenteau presented a proposal focused on

promoting distributed energy storage for renters in multi-tenant housing, emphasizing uninterruptible power supplies (battery storage) to reduce energy costs during peak hours, improve resilience, and address barriers for low- and moderate-income renters. Commissioners discussed potential implementation challenges, jurisdictional considerations, coordination with Silicon Valley Clean Energy (SVCE), and landlord-related constraints.

Proposal No. 2 – Vice Chair Pistone presented a proposal related to the environmental impacts of AI data centers in Sunnyvale. Commissioners discussed potential approaches including transparency requirements, efficiency standards, a possible temporary moratorium on approving new data centers, and broader economic and regional considerations.

Proposal No. 3 – Commissioner Jansen presented a proposal to implement two pilot projects for natural grass athletic fields using regenerative maintenance practices and not using synthetic pesticides or herbicides. Commissioners discussed cost, staff capacity, training requirements, timing relative to the turf and pesticides Study Issues, and overall feasibility.

Chair Nabhan opened the public hearing at 9:17 p.m.

No public comments were made.
