

DRAFT 5/14/2024 *SGJ*

RESOLUTION NO. ____

**RESOLUTION ADOPTING PROJECT LISTING FOR
FISCAL YEAR 2024/25 FUNDED BY SENATE BILL 1, THE
ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017**

WHEREAS, California State Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017), was passed by the California Legislature and signed into law by the Governor of California in April 2017 to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of the City of Sunnyvale are aware of the projects proposed for funding in the community and which projects have been completed each fiscal year; and

WHEREAS, the City of Sunnyvale must adopt by resolution a list of projects proposed to receive fiscal year funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

WHEREAS, the City of Sunnyvale will receive an estimated \$3.9 million in RMRA funding in fiscal year 2024/25 pursuant to SB 1; and

WHEREAS, this is the eighth year in which the City of Sunnyvale is receiving SB 1 funding which will enable the City of Sunnyvale to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1; and

WHEREAS, the City of Sunnyvale has undergone a robust public process to ensure public input into the community's transportation priorities/the project list; and

WHEREAS, the City of Sunnyvale used a Pavement Management System to develop the SB 1 project list to ensure that revenues are being used on the most high-priority and cost-effective projects that also meet the community's priorities for transportation investment; and

WHEREAS, the funding from SB 1 will help the City of Sunnyvale maintain and rehabilitate 340 streets/roads segments and active transportation infrastructure throughout the City of Sunnyvale this fiscal year and 300 similar projects into the future. The City of Sunnyvale

uses SB 1 funds for its Pavement Rehabilitation Program, which includes slurry seal, crack seal, and pavement rehabilitation projects; and

WHEREAS, the 2021 California Statewide Local Streets and Roads Needs Assessment found that the City of Sunnyvale's streets and roads are in "good" condition and this revenue will help the City increase the overall quality of the City's road system and over the next decade will bring the City's streets and roads into a "very good" condition; and

WHEREAS, the SB 1 project list and overall investment in the City's local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials and practices, will have significant positive co-benefits statewide. Maintaining Sunnyvale streets in very good condition is essential to maintaining the economic vitality of the City and enhancing the quality of life of the City's residents.

NOW, THEREFORE IT IS HEREBY RESOLVED, BY THE CITY COUNCIL OF THE CITY OF SUNNYVALE THAT:

1. The City Council hereby finds that the facts set forth in the recitals to this Resolution are true and correct, and establish the factual basis for the City Council's adoption of this Resolution.
2. The City Council hereby adopts the Resolution approving the Project Listing for fiscal year 2024/25 pursuant to the Road Repair and Accountability Act of 2017.
3. The City Council hereby approves the following list of newly proposed projects which will be funded in-part or solely with fiscal year 2024/25 Road Maintenance and Rehabilitation Account revenues:
