Have you attended meetings of the board(s) or commission(s) for which you are applying?	No	

Board or Commission Selection

First Choice	Human Relations Commission
Second Choice	Board of Library Trustees (R)

Applicant Qualifications

What motivated you to apply for this board or commission?

I've always been an avid book reader and have extensive knowledge in foreign literature through my college education. I attend a lot of various activities offered at the public library and would like to be more involved in the selection of a variety of programs and book offerings, to strengthen the diversity as it appears in the city population. I am interested to serve diverse populations, including children, adults and elderly, and giving space to residents whose mother tongue is not English. I work with different populations at work and am passionate about people from different socioeconomic backgrounds having access to library resources as well as the joy and enrichment that comes from reading.

What skills or attributes can you bring to this board or commission?

I am detail oriented, methodical, by the book yet very creative and thinking out of the box when solving issues. I have organizational skills that could be an asset in organizing events at the library to promote various causes. I speak several languages such as Hebrew and French, that could be a tool to grow interest in the library offerings and events. I am currently taking a general class to get certified as a board member.

The primary role of a board or commission member is to provide advice to City Council on policy issues that are within the scope of the board or commission. What steps would you take to effectively exercise this specific board or commission role?

As a first step to exercise a role on this board I would study the current issues being handled by the board to better understand what are its goals and where they are currently at. Once I have that information I will check what is working and what is not working from what has been done in the past, so that the goals can be achieved. For example, there used to be an in person movie club before COVID-19 which was moved to Zoom and never got back to the in person format. I will work with the other team members to understand the possible reasons for this phenomenon, and by reaching out to patrons to get feedback as well.

Education – List college degrees, majors and any relevant training or experience that demonstrates your ability to effectively serve on this board or commission.

BA - English & French Language & Literature
MA - History of Art

In my job in healthcare I was in charge of delivering BookMobile services by the Santa Clara County Public Library for residents in elderly care facilities. I successfully increased the number of subscribers and was able to offer them various library services according to their interest and abilities.

Describe your involvement in community activities, volunteer and civic organizations.

I enjoy volunteering for many causes and in my job run 2 hospice volunteer programs in San Jose and Oakland, creating opportunities with our non-profit foundation.

I am a certified CERT volunteer with the City of Sunnyvale, certified as a counselor for prevention of domestic violence, certified counselor on a national emotional support (suicide) hotline.

I have also served as a member on the visual arts committee to the City of Mountain View, and a member on the age friendly committee of the City of Sunnyvale.

I currently serve on the second term on the advisory committee to the City of Sunnyvale on accessibility.

Description Area

The City has a Code of Ethics and Conduct for Elected and Appointed Officials and an Attendance Policy (7.2.19), 2 G (II) that appointed members are required to follow.

Do you have any concerns related to the above code and policy?

No

Are you willing to accept a temporary appointment for the remainder of an unexpired term?

Yes

Board or Commission-Specific Questions

Board of Library Trustees

Community demographics and technology are constantly changing. What do you think are the principal issues the Sunnyvale Public Library may be addressing over the next few years?

I think a main concern for the library is the fact our traditional reading methods are changing and the way we get our information. For a library to be successful it must understand the new trends and have a good mix of resources, so that it is not considered as an ancient institution that patrons are no longer interested in visiting.

I've heard people say that books are not needed as one can use a tablet, for example.

On the other hand, listening to books while driving is a great way to still "read" but adapt to a way that is more technological than a hard copy book. So I think being able to cater to different methods of "reading" consumption and offering programs on site is a key to success.

Human Relations Commission

We are looking for someone with community-level experience on issues related to equity, access, inclusion, and social justice

11. What do you think are major equity challenges facing the Sunnyvale community?

I think that the most important equity challenges facing the Sunnyvale community are:

Providing fair access to city resources

Developing comprehensive diversity and inclusion programs and adopt it as part of the city policy

Avoid all aspects of racial injustice, hate crimes and systemic racism.

Following transparent procedures to assure public safety accountability.

Maintain a committee like this Human Relations committee that will advise the city about equity issues, promoting equity and inclusion.

12. Please describe your experience working with historically marginalized communities. How have your actions benefited these communities?

I am a certified counselor for prevention of domestic violence.

I have worked and volunteered in this capacity in a shelter for battered women under the umbrella of the AACI organization which serves Asian American women in the Bay Area.

I have been able to help a large number of female clients and their children who in many cases were new immigrants with no English language skills or economical means.

It was a very rewarding experience knowing I was able to help these individuals and get them on the right path to freedom and self sustainability.
