**RE: FY 2025 Community Project Funding Request from the City of Sunnyvale –
Rebuild Fire Station 2**

Dear Congressman Khanna:

On behalf of the City of Sunnyvale, we respectfully submit a Community Project Funding request for \$5,000,000 to rebuild the old and out-of-date Fire Station 2 located at 795 E. Arques Ave. In addition to serving our community, Fire Station 2 is a countywide training workhorse. It serves as a regional fire academy training facility for Sunnyvale Department of Public Safety and fire departments throughout Santa Clara County.

This replacement and expansion project will:

- Improve emergency response services to East Central Sunnyvale
- Meet higher training demand in response to intensifying fire seasons throughout the state
- Improve interoperability among jurisdictions by expanding capacity for regional training
- Increase emergency preparedness by training more community volunteers
- Achieve sustainability goals with green building design

Thank you for considering our request. Please do not hesitate to contact me or Chief Phan Ngo, Director of Public Safety, at pngo@sunnyvale.ca.gov if you have any questions.

Sincerely,

Larry Klein
Mayor

Rebuild Fire Station 2

California faces a growing threat from fires. In 2020, five of the largest fires in our state’s history burned at the same time. They destroyed thousands of buildings and forced hundreds of thousands of evacuations. **Our firefighters are on the frontlines, called to emergencies locally and statewide.** They need modern facilities and robust training to be effective first responders. For them to better prepare for and respond to emergencies, we need to **rebuild the old and out-of-date Fire Station 2.**

Quick Facts

MEETS GOALS City County State

PROJECT NEED The 2021 Fire Station Masterplan identified Station 2 as being past its useful service life

LOCATION 795 E. Arques Ave.

PROPOSED SQUARE FOOTAGE
Approx. 20,500 s.f.

Fire Station 2 is a Countywide Training Workhorse

Fire Station 2 is one of only two facilities to offer numerous required training courses for firefighters countywide. This includes the 17-week Joint Fire Academy. The Station also hosts emergency preparedness training for community volunteers and annual in-service training for Sunnyvale’s public safety officers. Rebuilding the Station would allow us to meet the high local and regional training demand in a modern sustainable facility.

Why Rebuild?

- ➔ Living conditions lack modern health and safety features for fire personnel
- ➔ Aging, energy inefficient facility is costly to maintain
- ➔ Cramped and dated trailers used for classrooms
- ➔ Not enough restrooms; must rent portable toilets for training classes
- ➔ Inadequate equipment storage

400+ people trained annually

60 age of Station 2

This Project Will:

- ➔ Improve emergency response services to East-Central Sunnyvale
- ➔ Meet higher training demand in response to intensifying fire seasons throughout the state
- ➔ Improve interoperability among jurisdictions by expanding capacity for regional training
- ➔ Increase emergency preparedness by training more community volunteers
- ➔ Ensure living and working conditions meet modern health and safety standards
- ➔ Achieve sustainability goals with all-electric green building design

SUBJECT: FY 2025 Congressionally Directed Spending Request from the City of Sunnyvale – Rebuild Fire Station 2

Dear Representative Khanna:

I am pleased to support the City of Sunnyvale's request for rebuild of Fire Station 2 located at 795 East Arques Avenue.

Fire Station 2 is nearly 60 years old and has quickly outgrown its original footprint and is well past due its expected useful service life. The station currently does not have enough restrooms or equipment storage. The facilities also lack features that are standard in most modern stations, leading to higher utility costs and inadequate living conditions.

The station serves as a vital training center, serving more than 400 people annually. It is one of only two facilities that offers required training for firefighters in Santa Clara County, which is home to more than 4 million people. With wildfires remaining a constant risk, it is critical that we continue to invest in facilities that support training our first responders. In addition, Fire Station 2 hosts emergency preparedness training for volunteers and city public safety officers.

Rebuilding the station will improve emergency response in east-central Sunnyvale, accommodate greater utilization by public safety personnel and enhance regional training capacity. It will also help the City achieve its sustainability goals for green building design and construction.

Thank you for your kind consideration of this request. If you have any questions, please do not hesitate to contact my office at 916-651-4410 or senator.wahab@sen.ca.gov

Sincerely,

A handwritten signature in black ink that reads "Aisha Wahab".

RE: Congressionally Directed Spending Request – Sunnyvale Fire Station 2

Dear Congressman Khanna,

I am writing to respectfully urge you to support the City of Sunnyvale’s Community Project Funding request to rebuild Fire Station 2, located at 795 East Arques Avenue.

With California facing a growing threat of fires annually, firefighters are on the frontlines. As such, they require modern facilities and robust training. Nearly 60 years old, Fire Station 2 is old and out-of-date, negatively impacting the effectiveness of our first responders. Fire Station 2 specifically trains over 400 people annually; they are one of only two facilities to offer numerous training courses for firefighters not only for the City of Sunnyvale but countywide as well. The current living conditions of the fire station lack modern health and safety features for fire personnel, is costly to maintain due to the energy inefficiency of the facility, has a limited number of classrooms available, and currently has inadequate equipment storage.

By rebuilding Fire Station 2, the City of Sunnyvale would be able to meet higher demand in response to intensifying fire seasons throughout the State, improve interoperability among jurisdictions by expanding capacity for regional training, increase emergency preparedness by training more community volunteers, ensure living and working conditions meet modern health and safety standards, and achieve sustainability goals with green building design.

As a committed advocate for the safety of Sunnyvale residents and the County as a whole, as well as the sustainability of the community, I respectfully ask for your support to rebuild Fire Station 2 in Sunnyvale. Thank you for your kind consideration of this request. Please do not hesitate to reach out to my office at (408) 446-2810 if you have any questions.

Sincerely,

Evan Low

**RE: FY 2024 Congressionally Directed Spending Request from
the City of Sunnyvale – Rebuild Fire Station 2**

Dear Congressman Khanna,

The Sunnyvale Chamber of Commerce is pleased to support the City of Sunnyvale's request to rebuild Fire Station 2 located at 795 East Arques Avenue.

Fire Station 2 was built in 1964 and has quickly outgrown its original footprint and is well past due its expected useful service life. The station currently does not have enough restrooms or equipment storage.

The station serves as a vital training center, serving more than 400 people annually. It is one of only two facilities that offers required training for firefighters in Santa Clara County, a county home to more than 4 million people. With wildfires becoming more and more prevalent, it is critical that we continue to invest in facilities that support training our first responders. In addition, Fire Station 2 hosts emergency preparedness training for volunteers and city public safety officers.

Rebuilding the station will improve emergency response in east-central Sunnyvale, accommodate greater utilization by public safety personnel, and enhance regional training capacity. Our firefighters are on the frontlines, called to emergencies locally and statewide. Modern facilities will allow them to better prepare and respond to the needs our community and our state.

Thank you for your consideration. Do not hesitate to contact me with any questions.

Regards,

Marie Bernard

**RE: FY 2025 Community Project Funding Request from the City of Sunnyvale –
Safe Routes to Schools and Parks**

Dear Congressman Khanna:

On behalf of the City of Sunnyvale, we respectfully submit a Community Project Funding request for \$3,625,000 to make walking and biking safer near schools and parks at three locations. These infrastructure improvements align with numerous local, state and federal policies and initiatives, and have significant health, safety and environmental benefits. Additionally, we would be investing in neighborhoods that have a high percentage of socio-economically disadvantaged families.

The enclosed Safe Routes to Schools and Parks Project Sheet outlines the benefits to Californians by funding these improvements.

Thank you for considering our request. Please do not hesitate to contact me or Chip Taylor, Director of Public Works, at ctaylor@sunnyvale.ca.gov if you have any questions.

Sincerely,

Larry Klein
Mayor

Safe Routes to Schools & Parks

Sunnyvale’s neighborhoods were not designed for the car volumes we see today. The resulting **congestion around schools and parks causes concerns** in our community about safety, air quality and access. **Safer routes will encourage walking and biking** which are healthier for people and better for the environment. The schools proposed for these **Safe Routes projects** have a combined enrollment of 1,200 students with a high percentage of socio-economically disadvantaged families. **Investing in these neighborhoods will improve overall health, safety, and connectivity.**

RE: FY 2025 Federal Funding Request from the City of Sunnyvale – Safe Routes to Schools and Parks

Dear Congressman Khanna:

I am pleased to support the City of Sunnyvale's request for funding for the Safe Routes to Schools & Parks project, which will improve safety for students walking and biking near schools and parks at four locations. I believe this project is important because it supports a network of bicycle and pedestrian facilities that our community desperately needs. Providing better walking and bicycling routes to and from schools and parks will help encourage residents to choose to walk or bike to their destination. This can reduce the number of vehicles on our roadways and therefore increase health benefits for all Sunnyvale community members.

One of the main obstacles preventing more Sunnyvale residents and visitors from walking and bicycling is the lack of adequate infrastructure in the community, including the absence of comfortable crossings at arterial roadways. I believe the proposed improvements will address these and other challenges and will lead to an increase in bicycling and walking around the city.

I look forward to the positive impact this project will have to the Sunnyvale community and welcome the opportunity to show my support for this request for funding.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Gallagher", is written over a circular stamp. The signature is fluid and cursive.

RE: FY 2025 Federal Funding Request from the City of Sunnyvale – Safe Routes to Schools and Parks

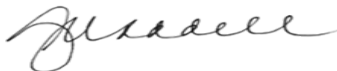

Dear Congressman Khanna:

I am pleased to support the City of Sunnyvale's request for funding for the Safe Routes to Schools & Parks project, which will improve safety for students walking and biking near schools and parks at four locations. This project is important because it supports a network of bicycle and pedestrian facilities that our community desperately needs. We know that supporting our students to get to and from school safely is critical; providing better walking and bicycling routes to and from schools and parks will help encourage residents to choose to walk or bike to their destination. This can reduce the number of vehicles on our roadways and therefore increase health benefits for all Sunnyvale community members.

A primary obstacle preventing more Sunnyvale residents and visitors from walking and bicycling is the lack of adequate infrastructure in the community, including the absence of comfortable crossings at arterial roadways, enhanced crosswalks and ADA curb ramps, especially around Braly Elementary School in the Santa Clara Unified School District. I believe the proposed improvements will address these and other challenges and will lead to an increase in bicycling and walking around the city and to Braly Elementary School.

I look forward to the positive impact this project will have to the Sunnyvale community and on children and youth, and welcome the opportunity to show my support for this request for funding.

Sincerely,

Gary Waddell, Ed.D.

RE: FY 2025 Federal Funding Request from the City of Sunnyvale for Bernardo Avenue Undercrossing, Safe Routes to Schools and Parks

Dear Congressman Khanna,

On behalf of Silicon Valley Bicycle Coalition (SVBC), a non-profit that works to support healthier and more just communities in San Mateo and Santa Clara counties by making biking safe and accessible through education, advocacy and fun, we are writing to express support for the City of Sunnyvale's request for funding for the two active transportation improvement projects:

- Bernardo Avenue Undercrossing
- Safe Routes to Schools and Parks.

Both of the proposed projects align with SVBC's goals of having low-stress routes, crossing major barriers and safe routes to school and connecting the community. The projects will promote active transportation, mode shift, safety, equity, and connectivity. By enhancing the safety and improving the comfortability in the pedestrian and bicycle networks, these projects will expand mode choice and reduce automobile trips. In addition, these projects support the City's goal in reducing vehicle miles travel and greenhouse gas emissions. They will also enhance the multi-modal system serving the greater Bay Area.

When the City of Sunnyvale adopted its Active transportation Plan in 2020, one of SVBC's ask to the city was to procure funding to help a faster build out of the proposed projects in the Plan. It is exciting to see the City of Sunnyvale making use of this great opportunity to help achieve their goals faster. We strongly support the projects and we request you to consider providing funding for these important projects.

Sincerely,

A handwritten signature in black ink, appearing to read "Clarrissa Cabansagan".

Clarrissa Cabansagan
Executive Director
Silicon Valley Bicycle Coalition

Livable Sunnyvale

February 23, 2024

The Honorable Ro Khanna
United States House of Representatives
306 Cannon House Office Building
Washington, DC 20515

**RE: FY 2025 Federal Funding Request from the City of Sunnyvale for
Bernardo Avenue Undercrossing
Safe Routes to Schools and Parks**

Dear Congressman Khanna:

I am writing as the Chair of Livable Sunnyvale, a coalition of individuals and organizations that are working together toward a more vibrant, inclusive and people-friendly Sunnyvale. With our members and partner organizations, we educate and activate Sunnyvale residents and elected officials to secure an environmentally sustainable future with broadly shared prosperity and a high quality of life. I and our board are writing to express support for the City of Sunnyvale's request for funding for the two active transportation improvement projects:

- Bernardo Avenue Undercrossing
- Safe Routes to Schools and Parks

Livable Sunnyvale strives to ensure equity in the transportation network. We support transportation solutions that protect the environment and reduce traffic. We also encourage the development of walkable, transit-friendly village centers, with homes, shops, jobs and green space. We are highly concerned with the slow pace of progress in making bicycling and walking safe in Sunnyvale and how this lack of change makes our climate goals less and less realistic.

Both of the proposed projects will promote active transportation, mode shifts, safety, equity, and connectivity. By enhancing the safety and improving the comfortability in the pedestrian and bicycle networks, these projects will expand mode choice and reduce automobile trips. In addition, the two proposed projects support the City's goal in reducing vehicle miles traveled and greenhouse gas emissions. By providing improved active transportation facilities, they enable more equitable and affordable transportation options for the Sunnyvale community.

Thank you for considering providing funding for these important projects.

Be well,
Angela Rausch, Chair of Livable Sunnyvale

**RE: FY 2025 Community Project Funding Request from the City of Sunnyvale –
Bernardo Avenue Undercrossing**

Dear Congressman Khanna:

On behalf of the City of Sunnyvale, we respectfully submit a Community Project Funding request for \$3,000,000 to provide a separated pedestrian and bicycle pathway to connect north and south Bernardo Avenue. Bernardo Avenue is a major north-south commute route on the border of Sunnyvale and Mountain View. This crossing will go beneath the Caltrain railroad tracks and Central Expressway. The project will expand and connect the active transportation networks of Sunnyvale and Mountain View, support equity in transportation for those who cannot or choose not to drive, reduce vehicle emissions, and help meet our climate action plan by encouraging active transportation.

The enclosed Bernardo Avenue Undercrossing Project Sheet outlines the benefits to Californians by funding this pathway project.

Thank you for considering our request. Please do not hesitate to contact me or Chip Taylor, Director of Public Works, at ctaylor@sunnyvale.ca.gov if you have any questions.

Sincerely,

Larry Klein
Mayor

enc. Bernardo Avenue Undercrossing Project Sheet
Community Support Letters (2)

cc: City Council
Kent Steffens, City Manager
Sarah Johnson-Rios, Assistant City Manager
Chip Taylor, Director of Public Works

Bernardo Avenue Undercrossing

Bernardo Avenue is a major north-south commute route on the border of Sunnyvale and Mountain View. It should get people where they need to go safely and efficiently. But today, **Bernardo is bisected** by the Caltrain commuter rail and Central Expressway. This is a significant **barrier for bicyclists and pedestrians**. Multiple agencies are collaborating to **install an undercrossing** beneath the tracks and expressway. There is strong support for this project as it will **better connect residential areas, job centers and recreation**.

Quick Facts

MEETS GOALS City County Bay Area
 State Federal

PROJECT NEED

The VTA Countywide Bike Plan identifies the Caltrain tracks as an Access Barrier Crossing

LOCATION

Bernardo Avenue at the Caltrain and Central Expressway crossings

*Will supplement \$25M from VTA 2016 Measure B, Cities of Sunnyvale and Mountain View, and One Bay Area Grant 2

The Undercrossing Will:

- ➔ Connect Sunnyvale and Mountain View residents (225,000+ total) to the job centers in these cities (200,000+ jobs)
- ➔ Provide access to recreation, including Baylands Park, Twin Creeks Sports Complex and the Bay Trail
- ➔ Expand and connect the active transportation networks of Sunnyvale and Mountain View
- ➔ Make biking and walking more accessible and comfortable with an off-road segment
- ➔ Significantly reduce the distances commuters currently travel to get to a crossing
- ➔ Encourage biking and walking which eases traffic and reduces vehicle emissions
- ➔ Support equity in transportation for those who cannot or choose not to drive

Safe, Convenient, Connected Networks

The Bernardo Avenue Undercrossing project will provide a separated pedestrian and bicycle pathway. This pathway will connect north and south Bernardo Avenue. The crossing will go beneath the Caltrain railroad tracks and Central Expressway. VTA and the cities of Sunnyvale and Mountain View are leading the environmental clearance phase of project. Caltrain is leading the final design and construction phases. The undercrossing will connect into existing bicycle lanes on Bernardo and Evelyn avenues. These connections will link Sunnyvale and Mountain View networks and the countywide commuter bicycle lanes on Central Expressway. The undercrossing will also connect new high-density housing to the south with job center developments to the north.

Aligns with Multiple Policies & Initiatives

- ➔ Active Transportation Plans
- ➔ Vision Zero Plans
- ➔ Climate Action Plans
- ➔ Green Stormwater Infrastructure Plan
- ➔ Complete Streets Policies
- ➔ VTA & MTC Regional Transportation Plans

RE: Congressionally Directed Spending Request – Undercrossing for Bernardo Avenue

Dear Congressman Khanna,

I am writing to respectfully urge you to support the City of Sunnyvale’s Community Project Funding request to build a pedestrian and bicycle undercrossing to connect North and South Bernardo Avenue.

While California continues to lead the nation in investing in reducing emissions through vehicular transportation, Sunnyvale has shown its commitment to supporting these sustainability and environmental goals through projects to encourage people to walk or bike safely through its ambitious Climate Action Plan. Not only would the proposed undercrossing connect North and South Bernardo Avenue in Sunnyvale, but the active transportation networks between Sunnyvale and Mountain View would also become integrated for those who walk and bike.

Wider roadways such as Expressways can be challenging for pedestrians and cyclists, considering the distance to a crossing and safety. As the undercrossing would go beneath the Caltrain railroad tracks and the highly-trafficked Central Expressway, this project involves collaboration between the Cities of Sunnyvale, Mountain View, the California Department of Transportation, and the County of Santa Clara. Not only would this project benefit residents of Sunnyvale, but it reflects the regional collaboration required on the local, state, and federal levels to invest in equitable connectivity of our transportation systems and an investment in an environmentally-friendly future.

As a committed advocate for the safety of Sunnyvale residents and the sustainability of the community, I respectfully ask for your support for the undercrossing on Bernardo Avenue in Sunnyvale. Thank you for your kind consideration of this request. Please do not hesitate to reach out to my office at (408) 446-2810 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Evan Low", with a long, sweeping horizontal stroke extending to the right.

**RE: FY 2025 Community Project Funding Request from the City of Sunnyvale –
Build the Cleanwater Center**

Dear Congressman Khanna:

On behalf of the City of Sunnyvale, we respectfully submit a Community Project Funding request for \$10,000,000 to build the Cleanwater Center located at 1444 Borregas Ave.

Sunnyvale's Water Pollution Control Plant is one of the oldest on the West Coast. It works around the clock to provide essential wastewater treatment for residents and businesses. The Cleanwater Center is one of the necessary upgrades planned for this aging facility. Designed to LEED Gold standards, it will be an operational hub for the 67-person team who operates, maintains, and manages the Plant. Consolidating critical functions into a modern facility will achieve numerous operational, sustainability and regulatory goals.

The enclosed Build the Cleanwater Center Project Sheet outlines the benefits to Californians by funding this upgrade project.

Thank you for considering our request. Please do not hesitate to contact me or Ramana Chinnakotla, Director of Environmental Services, at rchinnakotla@sunnyvale.ca.gov if you have any questions.

Sincerely,

Larry Klein
Mayor

Build the Cleanwater Center

Our wastewater **treatment plant is one of the oldest on the West Coast.** It works around the clock to provide essential wastewater treatment for residents and businesses. The **Cleanwater Center** is one of the **necessary upgrades planned for this aging facility.** Designed to LEED Gold standards, it will be an **operational hub for the 67-person team** who operates, maintains and manages the Plant. **Consolidating critical functions into a modern facility** will achieve numerous operational, sustainability and regulatory goals.

Quick Facts

MEETS GOALS City County Bay Area
 State Federal

PROJECT NEED Sunnyvale’s Master Plan to rebuild its aging wastewater facility identified this project as a replacement priority (SunnyvaleCleanwater.com).

LOCATION 1444 Borregas Ave.

PROPOSED SIZE 26,574 square feet

This Essential Project Will:

- ➔ Improve operations by consolidating functions currently fragmented across multiple locations
- ➔ Replace multiple buildings that no longer meet current building and accessibility codes
- ➔ Update the laboratory to follow best practice standards
- ➔ Add an educational meeting space to engage with our community about protecting water quality and the Bay
- ➔ Create a modern facility that will help attract and retain staff
- ➔ Help achieve environmental and regulatory goals

Cleanwater Center: A Vital Hub for Plant Operations

Sunnyvale’s Water Pollution Control Plant has provided reliable 24/7 wastewater treatment since its construction in 1956. However, the Plant’s existing facilities are reaching the end of their useful life. Upgrades are necessary to reliably meet increasingly stringent environmental and regulatory requirements. The Cleanwater Program is the City’s long-term plan to upgrade and replace key facilities. The renovated Plant will be more operationally resilient, use more cost-effective technologies, be more energy efficient, and promote resource recovery. The Cleanwater Center will serve as a vital hub of operations for the team that runs and maintains the Plant. It will include a modern environmental laboratory for testing waste streams, a control room to monitor the thousands of daily measurements, a maintenance shop and warehouse, staff office and training facilities, and public education space.

SUBJECT: FY 2025 Congressionally Directed Spending Request from the City of Sunnyvale – Build the Cleanwater Center

Dear Representative Khanna:

I am pleased to offer this letter of support for the City of Sunnyvale's request for Congressional project funding to construct the Cleanwater Center. This project is a vital component of the city's broader effort to upgrade its aging wastewater treatment facilities, which have been a cornerstone of public health and environmental protection since their inception in 1956.

The Cleanwater Center, designed to meet LEED Gold standards, represents a significant advancement in the city's ability to manage its wastewater treatment operations efficiently and sustainably. The new facility will consolidate operations currently spread across multiple outdated buildings, enhancing operational effectiveness, and ensuring compliance with modern building and accessibility codes. Moreover, this project will modernize the laboratory facilities, follow best practice standards, and create a vital educational space for community engagement on water quality and environmental stewardship.

The City of Sunnyvale has outlined the necessity of this project within its Master Plan, identifying the Cleanwater Center as a replacement priority essential for the community's wellbeing. The proposed 26,574 square foot facility will serve as an operational hub for the dedicated 67-person team responsible for the plant's round-the-clock operation.

With a total project cost of \$72 million, the city is seeking \$10 million in federal funding to help make this project a reality. The investment in the Cleanwater Center will yield significant benefits for the City of Sunnyvale, including improved operations, enhanced staff recruitment and retention, and the achievement of environmental and regulatory goals. The project aligns with the objectives of city, state, county, and federal environmental initiatives, demonstrating its broad relevance and impact. As the former "Green Mayor of Sunnyvale", I wholeheartedly support this request.

Thank you for your attention to this matter and for your ongoing commitment to environmental stewardship and public health. If you have any questions, please do not hesitate to contact my Chief of Staff, Wendy Ho at (408) 299-5030 or via email at wendy.ho@bos.sccgov.org.

Sincerely,

Otto O. Lee

SUBJECT: FY 2025 Congressionally Directed Spending Request from the City of Sunnyvale – Build the Cleanwater Center

Dear Representative Khanna:

As a former Council Member in Sunnyvale and the current Executive Director of Silicon Valley Leadership dba Leadership Sunnyvale, I enthusiastically support the City of Sunnyvale's request for funding to Build the Cleanwater Center. This will provide an educational opportunity and location benefiting residents, schools, businesses, and nonprofit organizations to learn about our water, sanitation, and sustainability issues locally and regionally.

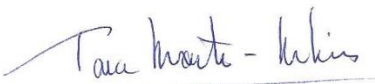

Sunnyvale's Water Pollution Control Plant has provided reliable 24/7 wastewater treatment since its construction in 1956, making it one of the oldest on the West Coast. However, the Plant's existing facilities are reaching the end of their useful life. Upgrades are necessary to reliably meet increasingly stringent environmental and regulatory requirements.

The Cleanwater Center is one of the necessary upgrades planned for this aging facility. Designed to LEED Gold standards, it will be an operational hub for the 67-person team who operates, maintains and manages the Plant. Consolidating critical functions into a modern facility will achieve numerous operational, sustainability and regulatory goals. It will also serve as our public welcome center, equipped with educational materials and built to support the continuation of Sunnyvale's educational programs and tours.

The Cleanwater Program is the City's long-term plan to upgrade and replace key facilities. The renovated Plant will be more operationally resilient, use more cost-effective technologies, be more energy efficient, and promote resource recovery. The Cleanwater Center will serve as a vital hub of operations for the team that runs and maintains the Plant. It will include a modern environmental laboratory for testing waste streams, a control room to monitor the thousands of daily measurements, a maintenance shop and warehouse, staff office and training facilities, and public education space.

Thank you for your kind consideration of this request. If you have any questions, please do not hesitate to contact me through email at Tara.Martin@LeadershipSunnyvale.org.

Sincerely,

Tara Martin-Milius

**RE: FY 2025 Community Project Funding Request from the City of Sunnyvale –
SMaRT Station NextGen Project**

Dear Congressman Khanna:

On behalf of the City of Sunnyvale, we respectfully submit a Community Project Funding request for \$10,000,000 to replace the old equipment at the Sunnyvale SMaRT Station located at 301 Carl Road.

The SMaRT Station processes nearly 700 tons of solid waste a day from Sunnyvale and Mountain View. Replacing the equipment with modern versions will recover more recyclable and organic material from the waste system and will reduce the City's carbon footprint by 2,200 metric tons annually.

The enclosed SMaRT Station NextGen Project Sheet outlines the benefits to Californians by funding this replacement project.

Thank you for considering our request. Please do not hesitate to contact me or Ramana Chinnakotla, Director of Environmental Services, at rchinnakotla@sunnyvale.ca.gov if you have any questions.

Sincerely,

Larry Klein
Mayor

SMaRT Station NextGen Project

The SMaRT Station® has been a **reliable workhorse** for 30 years. The facility **processes nearly 700 tons of solid waste a day** from Sunnyvale and Mountain View. Its main job is to **separate recyclables and organics from garbage** and prepare them for sale. But it's **time to replace the old equipment with modern technology**. This will keep more of these valuable materials out of the landfill and available for reuse. Operations will also be **faster and safer** and **lead to greater greenhouse gas emissions reduction**.

PROJECT NEED Helps meet state and local climate action and zero waste goals

LOCATION 301 Carl Road, Sunnyvale

Meeting Zero Waste & Climate Goals

The City of Sunnyvale operates the SMaRT Station. It is a 30-year-old materials recovery and transfer facility built to help meet state recycling mandates. It processes more than 200,000 tons of waste a year from a population of almost 250 thousand. The state now requires organic waste recovery (SB1383). The City also has Zero Waste and Climate Action plans to meet aggressive greenhouse gas reduction goals. These call for increased diversion of material from landfills. To do this, we must upgrade the outdated SMaRT Station equipment. This "NextGen" project will make operations more efficient, enhance employee safety, and recover more recyclable and organic material from our waste stream. This will result in reducing our carbon footprint by 2,200 metric tons annually.

Equipment Upgrades Will:

- ➔ Reduce the City's carbon footprint by 2,200 metric tons annually
- ➔ Increase total waste diversion from the landfill by 50% to 62%
- ➔ Increase organic waste diversion to 75%
- ➔ Improve worker safety by using technology versus hand-sorting
- ➔ Reduce reliance on natural resources by diverting recyclable material
- ➔ Conserve landfill space with improved waste diversion
- ➔ Make the facility energy resilient with solar panels and battery backup systems

SUBJECT: FY 2025 Congressionally Directed Spending Request from the City of Sunnyvale – SMaRT Station NextGen Project

Dear Representative Khanna:

I am pleased to support the City of Sunnyvale's request for upgrading City owned Sunnyvale's Material Recovery and Transfer (SMaRT) Station located at 301 Carl Rd.

The SMaRT station serves as a vital environmental facility, serving more than 250,000 residents in the area. It provides valuable environmental benefits to the community by processing the garbage, recycling and organics from residents and businesses. The facility is an asset getting the city closer to City's zero waste goals.

SMaRT Station has been in operation for 30 years. The facility processes nearly 700 tons of solid waste a day from Sunnyvale and Mountain View. Its main job is to separate recyclables and organics from garbage and prepare them for sale. The facility also processes food scraps collected from residents and businesses to eventually convert into an energy resource.

The City has Zero Waste and Climate Action plans to meet aggressive greenhouse gas reduction goals. The state now requires organic waste recovery (SB1383). These call for increased diversion of material from landfills. To do this, City must upgrade the outdated SMaRT Station equipment. This "NextGen" project will make operations more efficient, enhance employee safety, and recover more recyclable and organic material from our waste stream. Operations will also be faster and safer and lead to greater reduction of greenhouse gas emissions. This will result in reducing our carbon footprint by 2,200 metric tons annually.

SUBJECT: FY 2025 Congressionally Directed Spending Request from the City of Sunnyvale – SMaRT Station NextGen Project

Dear Representative Khanna:

I am pleased to offer this letter support for the City of Sunnyvale’s request for upgrading the City-owned SMaRT (Sunnyvale Material Recovery and Transfer) station located at 301 Carl Road. The SMaRT station is a valuable environmental facility, serving more than 250,000 residents in the area by separating and processing the garbage, recycling and organics from residents and businesses to prepare them for sale.

Over the past 30 years, the SMaRT station has been processing nearly 700 tons of solid waste per day from Sunnyvale and Mountain View, positively impacting the environment and furthering our efforts to combat climate change. To continue to meet new state requirements goals outlined in the Zero Waste and Climate Action plans that now require organic waste recovery (SB1383), the City must upgrade SMaRT equipment to make operations more efficient, energy resilient with solar panels and battery backup systems, enhance employee safety, and recover more recyclable and organic materials from our waste stream. With upgraded equipment, the SMaRT Station NextGen Project can reduce the City’s carbon footprint by 2,200 metric tons annually, increase waste diversion from landfill, and greatly reduce greenhouse gas emissions in alignment with the City’s environmental goals.

These benefits will have a tremendous impact for generations to come, providing residents with a cleaner and healthier environment for all. I firmly believe that we need to be strong stewards for our planet and am a strong champion for promoting sustainability. As the former “Green Mayor of Sunnyvale”, I wholeheartedly support this request.

Thank you for your kind consideration of this request. If you have any questions, please do not hesitate to contact my Chief of Staff, Wendy Ho at (408) 299-5030 or via email at wendy.ho@bos.sccgov.org.

Sincerely,

Otto O. Lee

SUPPORT FOR THE CITY OF SUNNYVALE'S FISCAL YEAR 2024-25 COMMUNITY PROJECT FUNDING REQUEST FOR THE SMART STATION NEXTGEN PROJECT

Dear Representative Khanna:

On behalf of the City of Mountain View, I am writing in support of the City of Sunnyvale's request for \$10 million in Community Project Funding (CPF) for the Sunnyvale Materials Recovery and Transfer Station (SMaRT Station®) NextGen project, which will upgrade and electrify equipment used to sort recyclables and solid waste at the SMaRT Station.

The SMaRT Station is a 30-year-old material recovery facility (MRF) owned by the City of Sunnyvale. The City of Mountain View has a partnership agreement to use the facility to process solid waste, recyclables, and organic materials. The facility separates recyclables into saleable commodities, ships organics to markets, and processes mixed solid waste to recover recyclable or organic materials.

Mountain View and Sunnyvale are committed to helping to achieve our climate action plans and reduce greenhouse gas emissions. The City of Sunnyvale's project to upgrade the SMaRT Station will increase processing efficiency, enhance employee safety, conserve landfill space, preserve natural resources, and recover more recyclable and organic materials from mixed solid waste.

The City of Sunnyvale estimates that this project will reduce the facility's carbon footprint by 2,200 metric tons a year and increase the facilitywide landfill diversion rate from 46.5% to 61.5%, which supports Mountain View's strategic priorities of sustainability, climate resiliency, and zero waste.

For these reasons, we support this project and the City of Sunnyvale's \$10 million request for the Fiscal Year 2024-25 Community Project Funding.

Sincerely,

A handwritten signature in black ink that reads "Patricia Showalter".
