#### **Notice and Agenda**

# Bicycle and Pedestrian Advisory Commission

Thursday, October 20, 2016

6:30 PM

West Conference Room, City Hall, 456 W. Olive Ave., Sunnyvale, CA 94086

#### **CALL TO ORDER**

#### **ROLL CALL**

#### **ORAL COMMUNICATIONS**

This category provides an opportunity for members of the public to address the commission on items not listed on the agenda and is limited to 15 minutes (may be extended or continued after the public hearings/general business section of the agenda at the discretion of the Chair) with a maximum of up to three minutes per speaker. Please note the Brown Act (Open Meeting Law) does not allow commissioners to take action on an item not listed on the agenda. If you wish to address the commission, please complete a speaker card and give it to the Recording Secretary. Individuals are limited to one appearance during this section.

#### **CONSENT CALENDAR**

**1.A** 16-0949 Approve the Bicycle and Pedestrian Advisory Commission

Meeting Minutes of September 15, 2016

**Recommendation:** Approve the Bicycle and Pedestrian Advisory Commission

Minutes of September 15, 2016 as submitted.

**1.B** <u>16-1003</u> Approve the Bicycle and Pedestrian Commission Meeting

Minutes of August 18, 2016

**Recommendation:** Approve the Bicycle and Pedestrian Commission Minutes of

August 18, 2016, as submitted.

#### **ADJOURNMENT**

Notice to the Public:

Any agenda related writings or documents distributed to members of this meeting body regarding any item on this agenda will be made available for public inspection in the originating department or can be accessed through the Office of the City Clerk located at 603 All America Way, Sunnyvale, CA. during normal business hours and at the meeting location on the evening of the board or commission meeting, pursuant to Government Code §54957.5.

Agenda information is available by contacting Carol Shariat at pubworks@sunnyvale.ca.gov or (408) 730-7415. Agendas and associated reports are also available on the City's website at sunnyvale.ca.gov or at the Sunnyvale Public Library, 665 W. Olive Ave., Sunnyvale, 72 hours before the meeting.

Pursuant to the Americans with Disabilities Act, if you need special assistance in this meeting, please contact Carol Shariat at (408) 730-7415. Notification of 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting. (29 CFR 35.106 ADA Title II)

# Meeting Minutes - Draft Bicycle and Pedestrian Advisory Commission

Thursday, September 15, 2016

6:30 PM

West Conference Room, City Hall, 456 W. Olive Ave., Sunnyvale, CA 94086

#### **CALL TO ORDER**

Chair Jackson called the meeting to order at 6:40 p.m. in the West Conference Room.

#### **ROLL CALL**

Present 5 - Chair Kevin Jackson

Vice Chair David Jones

Commissioner John Cordes Commissioner Timothy Oev

Commissioner Margaret Okuzumi

Absent 2 - Commissioner Angela Rausch

Commissioner Kyle Welch

Late arrival: Vice Chair Dave Jones

Council Liaison Attendance: Councilmember Martin-Milius (present)

#### ORAL COMMUNICATIONS

Commissioner Oey announced: The Trailblazer Race, the Silicon Valley Tour De Coop and the Viva CalleSJ.

Chair Jackson shared that at the VTA BPAC Meeting last week, the topic of green bike lanes was discussed. Although there is no hard data yet, what they mostly do is give a feeling of confidence, but are not shown to improve safety. There is a Subcommittee working on a Complete Streets Policy implementation. 7 member agencies have adopted the MTC Complete Streets Resolution, but the 7 do not include Sunnyvale. Commissioner Oey asked what the process was. Chair Jackson would like staff to get details. At the Mathilda /237/101 Interchange Improvements Meeting they discussed the 5 foot bike lanes, possible speed reduction, and removing the gutter so there will be no concrete/asphalt seam. They would like to see a bike/pedestrian bridge at Mathilda and Moffett Park Drive, but there is no funding identified for this as of yet.

Commissioner Okuzumi reported on the El Camino Real meeting. The consensus was to recommend higher density housing. There was also a public hearing/community workshop. They recommended more residential, more commercial or a balance between the two.

Councilmember Martin-Milius commented that the project on Maude between Fair Oaks Avenue and Mathilda Avenue will start in October.

#### **CONSENT CALENDAR**

**1 A.** <u>16-0897</u> Draft Minutes of the Bicycle and Pedestrian Advisory Commission Meeting of July 21, 2016

Motion: Chair Jackson moved to approve the July 21st BPAC meeting minutes as amended, all said yes.

Yes 5 - Chair Jackson
Vice Chair Jones
Commissioner Cordes
Commissioner Oey
Commissioner Okuzumi

**No** 0

**Absent** 2 - Commissioner Rausch Commissioner Welch

#### **PUBLIC HEARINGS/GENERAL BUSINESS**

None

#### STANDING ITEM: CONSIDERATION OF POTENTIAL STUDY ISSUES

2. <u>16-0896</u> DPW 17-06 Residential Vehicle Parking Requirements

There was quite a bit of discussion on how to re-word the study. Commissioners Okuzumi, Cordes, and Oey as well as Chair Jackson, gave their suggestions. DPW staff took note and agreed to make the changes.

A member of the public, Shaun Storm, spoke regarding the lack of adequate parking. He wants the parking audited and enforced and suggested permit parking. Chair Jackson encouraged everyone to show up at the up-coming council hearing and make their feelings known.

3. <u>16-0898</u> DPW 17-07 - Develop Mobile Version of Sunnyvale Bicycle

Map

Commissioners Oey and Okuzumi mentioned a few typos but other than that, all were happy with it. DPW staff will make the corrections.

**4.** <u>16-0899</u> DPW 17-08 - Develop and Adopt Design Standards for Bike Wayfinding and Route Signs

Commissioner Cordes recommended to strike the last sentence and questioned why the attachments/pictures were not included and why the completion date is 2019 instead of 2018. Commissioner Okuzumi suggested making a change to the first sentence. DPW staff agreed to look into the date and make the corrections.

5. <u>16-0900</u> DPW 17-09 - Increase Bike Mode Share to 5% by 2020

Commissioner Cordes said it was well written and complimented DPW staff. Commissioner Okuzumi wanted one sentence re-worded. DPW staff agreed to make the change.

Chair Jackson proposed one new study issue to be added: When doing street maintenance, consider the Street Space Allocation Policy and make some minor adjustments before re-painting the stripes. This would also

include curb and gutters and the median.

Motion: Chair Jackson moved. Commissioner Oey seconded the motion. The motion carried by the following vote:

Yes 5 - Chair Jackson

Vice Chair Jones

**Commissioner Cordes** 

Commissioner Oey

Commissioner Okuzumi

**No** 0

Absent 2 - Commissioner Rausch

Commissioner Welch

Commissioner Okuzumi proposed one new study issue to be added:

When a crash involves a pedestrian or a bicyclist she would like DPS to work with DPW to assess if engineering or enforcement could have prevented the crash. She currently gets a yearly report of all crashes that occur but with no explanation of

cause. She would like to see detailed quarterly reports similar to the ones generated by the City of Mountain View.

Motion: Commissioner Okuzumi moved. Chair Jackson seconded the motion. The motion carried by the following vote

Yes 5 - Chair Jackson
Vice Chair Jones
Commissioner Cordes
Commissioner Oey
Commissioner Okuzumi

**No** 0

**Absent** 2 - Commissioner Rausch Commissioner Welch

#### **NON-AGENDA ITEMS & COMMENTS**

#### **Commissioner Comments**

Chair Jackson inquired about the timeline of Mary Avenue that was supposed to be completed in September. DPW staff agreed to get an update.

Commissioner Oey would like to add Stevens Creek Trail to the active item list. He also asked if the chip/slurry process could be done with a smoother surface like in other cities.

Chair Jackson stated that the Bernardo undercrossing is being stalled by the transportation funds and he would like DPW to find out when the project will get underway. He also asked DPW staff for an update on the Mary Ave bike lanes that were scheduled to be completed in September. He suggested having The Complete Streets Checklist that is currently sent to VTA, also be included in the BPAC agenda. He wants more information on the Peery Park project checklist as well since one of the conditions is to add bike lanes on Mary Avenue, north of Central, which is to be part of the Mary Avenue bike lanes project. DPW agreed to look into it.

Commissioner Cordes inquired about the time-line of the new project management system that will give more information on projects in Sunnyvale. DPW staff said it will be online in 3-4 months.

#### **Staff Comments**

None.

Council Liaison Attendance: Council Liaison Tara Martin-Milius absent (Excused)

#### ORAL COMMUNICATIONS

Chair Jackson asked BPAC members to provide a brief introduction of themselves for new BPAC member Tim Oey.

Dave Simmons, Valley Transportation Authority (VTA) BPAC representative provided a briefing on the VTA's BPAC meeting regarding Complete Streets project prioritization lists for Fiscal Year 16/17 and handed out the projects list related to OBAG grant applications and stated the City submitted a prioritization list. Chair Jackson asked to have the list included in the next month's BPAC agenda as information only to see the checklist. Mr. Simmons responded to questions from BPAC members.

Commissioner Oey announced and handed out pamphlets on a trail blaze run coming up and on Zero Waste pledge.

Vice Chair Jones commented that he participated with bike parking at the State of the City event and suggested a bike ride prior to the event be organized for next year's event.

Chair Jackson announced a public meeting about the Draft Environmental Impact Report on the Mathilda/237/101 Improvement Project will be held on August 30 at Columbia Middle School; All four agencies approved the Stevens Creek Trail (SCT) Feasibility Study and preferred segments; Sunnyvale will do a traffic study related to the Bernardo segment. Chair Jackson commented that several of The SCT participating mayors showed interest in coordinating bike plan updates so that inter-agency bike routes connect. Chair Jackson would like to form an ad-hoc committee to work on City initiatives, such as the Bike Plan, but it needs to be sponsored by Council or staff. Also, there is a Horizon 2035 meeting on September 14 to review the Land Use and Transportation Element.

#### **CONSENT CALENDAR**

1A. 16-0814 Draft Minutes of the Bicycle and Pedestrian Advisory Commission Meeting of July 21, 2016.

Chair Jackson deferred the BPAC meeting minutes for July 2016 due to technical difficulties.

#### PUBLIC HEARINGS/GENERAL BUSINESS

#### 2. <u>16-0814</u> Sunnyvale Bikeway User Map

Carol Shariat, Principal Transportation Planner provided the staff report and a sample map for final review. Ms. Shariat commented there is limited budget remaining therefore comments should be focused on identifying discrepancies.

Chair Jackson commented the bike map should be viewed from a first time user perspective and asked the focus should be on does it have the information needed and is it easy to use.

Commissioner Cordes inquired how long before it goes to print and when the next update would be. Ms. Shariat stated it would take approximately one to two weeks after comments are provided to the consultant before going to print. Ms. Shariat addressed comments and questions related to funding and next updates, including possibility of future updates provided in electronic form on the City's website.

Chair Jackson commented the map may need more study that may take longer to ensure it is useful and correct that would exceed the current project budget. Chair Jackson commented that at a future meeting focus can be on providing updates not

addressed in the current update.

Commissioner Oey provided an electronic map with comments and updates received to date, and further discussion on additional comments and/or concerns were discussed and annotated by Commissioner Oey on the electronic map. Chair Jackson provided comments he received from the public.

Commissioner Rausch inquired about map colors and various bike class types.

Commissioner Cordes moved to recommend Class I bike paths and public access pedestrian routes be marked green on the map. Commissioner Oey second the motion. The motion carried by the following vote:

Yes: 7 Chair Jackson

Vice Chair Jones

Commissioner Cordes
Commissioner Rausch
Commissioner Welch
Commissioner Okuzumi
Commissioner Oey

No: 0

Commissioners inquired if they can see the final draft and or be informed on what the consultant could include with the remaining budget. Ms. Shariat will ask consultant what can and cannot be added to the map based on available funds and report back to the BPAC.

Commissioner Oey commented that if bike map update exceeds project budget, can the consultant provide a budget estimate to add all remaining comments and for printing.

Commissioner Oey motion to use remaining bike map project budget to include as many changes as discussed and do not print. Also, have consultant provide budget estimate to complete map update with remaining comments that were not included this round, and include printing estimate. Chair Jackson second the motion. The motion carried by the following vote:

Yes 7 - Chair Jackson

Vice Chair Jones

**Commissioner Cordes** 

Commissioner Oev

Commissioner Okuzumi

Commissioner Rausch

Commissioner Welch

**No** 0

#### STANDING ITEM: CONSIDERATION OF POTENTIAL STUDY ISSUES

<u>16-0815</u> DPW 17-16 Residential Vehicle Parking Requirements

Chair Jackson provided comments to clarify intent of this study issue is to provide alternatives to street parking. Ms. Shariat asked Chair Jackson to review the study issue and email clarifying comments for insertion into the study issue paper that will provide a better understanding.

Chair Jackson opened the floor for any new study issues:

Commissioner Welch recommended a study issue to have the bike map converted to electronic form to allow easier and cost effective updates.

Commissioner Welch moved to propose a study issue to convert current Sunnyvale bike map to a mobile version. Commissioner Cordes second the motion. The motion carried by the following vote:

Yes: 7 Chair Jackson

Vice Chair Jones

Commissioner Cordes Commissioner Rausch Commissioner Welch Commissioner Okuzumi Commissioner Oey

No: 0

Commissioner Cordes proposes to develop standards for bike route signs that are useful to bicyclists. To improve current bike signs that do not provide useful directional information. Commissioner Oey second the motion. The motion carried by the following vote:

Yes: 7 Chair Jackson

Vice Chair Jones Commissioner Cordes Commissioner Rausch Commissioner Welch Commissioner Okuzumi Commissioner Oey

No: 0

Commissioner Cordes moved to propose Sunnyvale adopt goals to increase bike commuting to five percent within seven years of adoption. Chair Jackson second the motion. The motion carried by the following vote:

Yes 5 - Chair Jackson Commissioner Cordes Commissioner Oey

Commissioner Okuzumi
Commissioner Welch

No 2 - Vice Chair Jones Commissioner Rausch

#### **NON-AGENDA ITEMS & COMMENTS**

#### **Commissioner Comments**

Chair Jackson inquiring status of online projects database. Ms. Shariat will get status from Traffic Manager, Shahid Abbas.

Comminssioner Cordes announced Silicon Valley Bicycle Coalition Urban Farm Bike Ride on August 20th starting at San Jose Diridon Station. Vice Chair Jones announced the Silicon Valley Tour De Coop on September 17th.

#### **Staff Comments**

Principal Planner Shariat advised BPAC that League of American Bicyclists sent a bike survey to be filled out to anyone residing in Sunnyvale. Ms. Shariat would like BPAC to spread the word of the survey to all they may know.

City of Sunnyvale Page 6

### City of Sunnyvale

#### Agenda Item

**16-0973** Agenda Date: 10/20/2016

#### REPORT TO BICYCLE AND PEDESTRIAN ADVISORY COMMISSION

#### **SUBJECT**

Forward recommendation to the City Council related to the Horizon 2035 Land Use and Transportation Element

#### **REPORT IN BRIEF**

The Land Use and Transportation Element (LUTE)

<a href="http://www.pmcworld.com/client/sunnyvale/documents/aug2016/1">http://www.pmcworld.com/client/sunnyvale/documents/aug2016/1</a>. Draft LUTE.pdf> draft is currently available for public review. The LUTE includes two of the seven State required elements of Sunnyvale's General Plan and establishes goals and policies for the physical development and transportation system of the city. The LUTE will be incorporated into the Land Use and Transportation chapter of the General Plan; the chapter also includes Economy and Open Space sections which will not be modified by this update. Attachment 1 is the Table of Contents for the entire adopted General Plan. The Housing Element (Chapter 5) was updated in 2015; other elements will be updated in the future. The LUTE incorporates major land use and transportation changes in areas highlighted in the Changing Conditions map (Figure 1 on page 11 of the Draft LUTE), including areas of the Peery Park Specific Plan, Lawrence Station Area Plan, El Camino Real Plan, and Village Centers. The Horizon 2035 LUTE plans for the potential buildout of 72,100 housing units and 59.8 million square feet of industrial, office and commercial space; compared to the currently adopted General Plan, levels represent an increased potential of 5,530 housing units and 4.3 million square feet of industrial, office, and commercial space. Transportation policies in the draft LUTE focus on a regional approach to reducing vehicle miles traveled, complete streets, alternative transportation, and supporting mixed use development that allows for car-light and car-free living in Sunnyvale.

#### The LUTE **Draft Environmental Impact Report (EIR)**

<a href="http://www.pmcworld.com/client/sunnyvale/documents/aug2016/2.1.">http://www.pmcworld.com/client/sunnyvale/documents/aug2016/2.1.</a> LUTE-DEIR August-2016.pdf> analyzes the potential environmental impacts of LUTE policies and mitigates those impacts to less than significant levels, if feasible. The Draft EIR was available for a 45-day public review and comment period from August 26, 2016, through October 11, 2016, as required by the California Environmental Quality Act (CEQA). The Final EIR will streamline the review of potential development projects in the city under CEQA when those proposed projects are consistent with applicable policy documents.

The Commission is not being requested to provide a recommendation on the EIR, although commissioners may do so as individuals. Staff recommends the Commission recommend to City Council: adoption of the Horizon 2035 Land Use and Transportation Element.

#### **BACKGROUND**

The current update to the Sunnyvale LUTE began in 2011 as part of an effort titled Horizon 2035; the effort combined the preparation of the City's first Climate Action Plan (CAP) with the update to the

**16-0973** Agenda Date: 10/20/2016

Land Use and Transportation Element (LUTE) of the General Plan. A 15 person committee made up of residents and business representatives was appointed by a City Council sub-committee. The Horizon 2035 Committee recommended a set of integrated goals, policies and actions for both of the documents. Preparation of an Environmental Impact Report commenced in 2013, however, due to a flaw in one of the studies, work was temporarily put on hold. The CAP was revised to reflect the adopted General Plan and was adopted by the City Council in 2014. In 2015, an updated transportation analysis was completed and additional community outreach was conducted using Open City Hall (an online participation center that allows additional community engagement and input). Study sessions were held with the Planning Commission and City Council to update them on the progress and receive feedback on the proposed LUTE policies. A revised draft LUTE (see Attachment 2 for link to the draft LUTE) was prepared to address some of the feedback. The new Draft LUTE and a Draft EIR were released in August 2016. Comments on the adequacy of the Draft EIR closed on October 11, 2016.

The Draft LUTE is being presented to the Bicycle and Pedestrian Advisory Commission, the Sustainability Commission and the Housing and Human Services Commission in October 2016. After the Final EIR is available, public hearings will be scheduled for the Planning Commission to make a recommendation and for the City Council to consider actions on the EIR and Draft LUTE.

#### **EXISTING POLICY**

The existing LUTE has the following themes for the goals that guide land development and transportation in Sunnyvale:

- Appropriate housing
- Strong economy
- Transportation efficiency
- Community character

Complete text of the current Land Use and Transportation element can be found in the General Plan, Chapter 3, available on the City's website (see link in Attachment 2).

A detailed comparison of the Draft LUTE and the currently adopted LUTE is available as Attachment 5.

#### LAND USE AND TRANSPORTATION ELEMENT DISCUSSION

The Land Use and Transportation Element of the Sunnyvale General Plan establishes a land use plan and related transportation plan for development in the City for approximately the next 20 years. Compared to 2014 conditions (referred to as "existing conditions" in the EIR), the updated LUTE will allow for an additional 15,100 housing units and 13 million square feet of office, industrial, and commercial development. The plan also represents an additional 5,500 housing units and 4.3 million square feet of office, industrial, and commercial development over the adopted LUTE at build-out, primarily in Peery Park, Lawrence Station, El Camino Real, Reamwood and mixed use Village Centers. The following table highlights the growth expected from the adoption of the updated LUTE:

#### 16-0973

	2014 Conditions	LUTE	Horizon 2035 LUTE Buildout
Population	147,055	161,099	174,500
Housing Units	57,000	66,570	72,100
Industrial/Office/Commercial (million s.f.)	47.3	55.5	59.8
Jobs*	82,000	109,901	124,410
Jobs-to-Housing Units Ratio	1.44	1.65	1.73

<sup>\*</sup>Jobs as reported by Census (2014) and as estimated by ABAG (2035) for existing LUTE; Horizon 2035 estimate uses similar jobs/sf plus 5%.

The above table does not illustrate how the plan will guide the manner in which growth and change will be accomplished in the City. The proposed Horizon 2035 LUTE draft sets forth 12 objectives for land use and transportation in the city over the next 20 years. The goals, policies, and actions reflect these guiding objectives.

To achieve these components, the plan emphasizes mixed use and village centers, the jobs/housing ratio, and a multimodal transit system. The following three sections provide a brief overview of each of these planning concepts with historical context and a description of how the concept will be brought to fruition.

#### **Mixed Use and Village Centers**

While transit mixed use and corridor mixed use developments are already present in Sunnyvale, the goals and policies of the updated LUTE provide for additional mixed use areas, and introduce the Village Centers concept. Village Centers will serve existing lower density residential neighborhoods by providing retail and service uses along with additional variety of residential types. They will be accessible via multiple modes of transportation and include gathering spaces such as plazas and parks.

Mixed use development is not a new concept for Sunnyvale. It was introduced to Sunnyvale when private developers offered mixed use retail/housing projects on El Camino Real; two such sites were built in the 1980s. The 1989 101/Lawrence Specific Plan envisioned mixed use (although the non-residential component was not exercised). The nearby Lakeside Specific Plan (2005) allows hotel and residential uses on the same site. Horizontal mixed use with shared driveways was accomplished in 2001 at the Cherry Orchard shopping center and apartments, also on El Camino Real. In 2006 the Precise Plan for El Camino Real enabled more mixed use developments in the corridor; however, the Precise Plan provided more guidance on preserving the retail nature of the corridor and little guidance on desirable residential densities. The Horizon 2035 Committee has recommended an increase in allowable housing along El Camino Real (2,700 dwelling units more than the adopted plans); an update to the Precise Plan is currently underway.

The 2003 update to the Downtown Specific Plan required and encouraged mixed use development at higher residential densities than allowed elsewhere in the community. This is the first mixed use transit village for Sunnyvale. No change to the Downtown Specific Plan is included in the Draft LUTE. The Lawrence Station Area Plan, an area confirmed by the Horizon 2035 Committee to accommodate a mixed use transit village with increased development potential (both office and residential) is also pending and action is expected on that plan prior to the Planning Commission and

#### 16-0973

City Council hearings on the LUTE.

A mixed use retail with high density housing site was enabled through updated zoning at the Tasman Fair Oaks Light Rail Transit station (completed in 2011) and a mixed use zoning combining district was developed in 2008 and implemented at Lawrence Station Road in 2012.

The Horizon 2035 Committee recommends mixed use village centers at several existing shopping centers throughout the City. These sites would be required to provide the basic retail/service needs for the neighborhood, in a redesigned form that incorporates residential uses. Each of the village center sites would be subject to the preparation of a more detailed plan before it could transition to mixed use. These sites allow "neighborhood-serving commercial uses integrated with residential uses, typically located near arterial intersections or major collector streets providing pedestrian and bicycle connections." Page 72 of the Draft LUTE

<a href="http://www.pmcworld.com/client/sunnyvale/documents/aug2016/1.\_Draft\_LUTE.pdf">http://www.pmcworld.com/client/sunnyvale/documents/aug2016/1.\_Draft\_LUTE.pdf</a> provides more details about these areas and Figure 5 (page 71) shows where they would be located.

#### **Jobs/Housing Ratio**

In 1979 the City Council adopted a policy on the Jobs-Housing Imbalance acknowledging that the problem was endemic to all cities in Santa Clara County and that all the cities needed to be part of the solution (Attachment 3). In 1972 the General Plan buildout predicted 52,604 housing units; there was not a prediction of buildout for jobs (compare, also, to the 1955 General Plan which estimated 120,000 jobs at buildout and 47,789 housing units). The City embarked on a series of planning and housing programs over the next 25 years to increase the housing supply, increase the availability of affordable housing and decrease the number of potential jobs. These efforts included:

- rezoning industrial and commercial properties to allow for additional housing (three phases over 13 years, including the final phase called Futures);
- implementing controls on the intensity of industrially zoned developments and require payment of a housing mitigation fee for developments approved by Use Permit to exceed 35% floor area ratio (FAR);
- allowing higher density housing in transit rich areas such as the downtown (and later on, Lawrence Station);
- allowing the development of accessory living units on single-family and duplex properties of minimum size;
- allowing housing in all zoning districts;
- preserving the mobile home parks by creating a Mobile Home Park General Plan designation (previously, most mobile home parks had an underlying industrial general plan designation);
- requiring inclusionary affordable dwelling units (Below Market Rate);
- requiring housing mitigation fees for net new non-residential development regardless of zoning district; and,
- in compliance with State requirements, removing barriers to obtaining approvals for new residential development.

Although net new industrial/office development has taken place in Sunnyvale since 1979, the number of jobs has decreased (i.e., ABAG reports the number of jobs in 1990 was 121,000 compared to 82,000 in 2014). This decrease in jobs is a result of changes in the character of industry (fewer

**16-0973** Agenda Date: 10/20/2016

businesses supporting two or three daily shifts of employees) and also changes in the local economy (a considerable number of jobs were lost during the recession in 2008). In 1989 the City of Sunnyvale formalized the Economic Development program and created staffing positions to coordinate with long range planning activities and development services, and to support and represent business as business needs changed. As part of the business-attraction program was a recognition that the across-the-board 35% FAR requirement limited the variety of job types that would be attracted to the City. This recognition resulted in the Futures intensification areas that allowed higher FAR developments on industrial properties in Moffett Park (50% FAR) and Peery Park (70% and 100% FAR). Later, specific plans for these areas further increased the allowable development; the increase allowances were made dependent on the reduction of vehicle trips through transportation demand management (TDM) programs, requiring up to 35% reduction in peak hour trips.

#### **Multimodal Transit System**

A significant change from the currently adopted LUTE is the stronger emphasis on complete streets, carpooling, transit, and the integration of land uses so that a resident had choices to live without or to live with less reliance on automobiles. The use of Level of Service will be phased out over a number of years with direction to focus on vehicle miles travelled, and, when available, multi-modal measures of effectiveness (see Policy 29 on page 28 of the Draft LUTE). The policies and resulting design of the transportation system will create safer and more convenient travel while providing greater choice in mobility and reducing traffic, emissions, and the need for large, multi-lane streets.

The 1972 General Plan Circulation chapter focused largely on automobile use of the street system, better flow and traffic signal interconnects, and keeping roads safe and efficient (for automobiles). Transit use was promoted, with policies about coordinating with transit agencies. Only one goal addressed bicycles, which was to provide an experimental bike route on Hollenbeck. The 1981Transportation Element of the General Plan introduced goals for convenient and efficient alternatives to the automobile and for increased use of non-auto travel and off-peak travel (demand management). In 1997 the combined Land Use and Transportation Element continued the trend to support more modes of travel; however, the level of service standards measuring automotive use at intersections were still important values in the community. The element was updated in 2008 when complete streets policies were added with a focus on modal balance and transport vs. non-transport uses.

Since 1981 the City has supported a number of infrastructure, policy and regulatory changes to address a broader set of transportation modes.

- Industrial sites prior to 1982 had no sidewalk requirements. Sidewalk installation is required on new industrial development and for additions and change of use over specified sizes.
- New standards requiring wider sidewalks were adopted in 2014.
- A bicycle master plan has been adopted and will be updated in 2017.
- Bicycle infrastructure and network have been significantly expanded through the City:
  - o 31 miles of bike lanes in 1993, 79 miles in 2006, 169 miles in 2016.
- New bicycle standards have been developed including the use of buffered bike lanes, bike boxes, and green bike lanes.
- Bicycle parking is required in new multi-family residential and non-residential development.
- Light Rail was constructed through the northern portion of Sunnyvale.

**16-0973** Agenda Date: 10/20/2016

 Area plans have been adopted to support transit ridership near Caltrain and Light Rail Transit stations.

- Sense of Place plans have been adopted for transitioning neighborhoods to expand pedestrian and bicycle connections and to improve the overall experience on public streets.
- City Staff members and Council participate in regional transportation planning activities: staff
  on technical/advisory committees at Valley Transportation Agency (VTA); Councilmembers
  serve on the VTA advisory committees and the Board of Directors, as Sunnyvale's rotation
  allows.
- The City has partnered with the Santa Clara Valley Water District on pedestrian pathways as a
  joint use with streams and flood control channels. The SCVWD will be constructing the EastWest Channel trail in 2017-2018.
- Traffic signals have been timed to interconnect and optimize vehicle travel but also been modified to provide safe pedestrian crossing. The new signal system includes SafeWalk 3D pedestrian detection system and an infra-red bike detection system.
- Transportation Demand Management (TDM) programs are required for higher intensity nonresidential development.
- Residential TDM requirements were adopted recently.

#### **Plan Organization**

The LUTE is organized into the following sections:

- Chapter Lead-in
- Introduction
- Plan Structure
- Goals and Policies
- General Plan Land Use Framework
- Area Plans
- General Plan Transportation System

The Chapter Lead-In provides background and legislative information that will not be included in the final adopted LUTE. It describes the California Government Code requirements for general plans, the relevant Sunnyvale planning documents, and a description of the Complete Community purpose and strategies.

The Introduction describes that the purpose of the General Plan is to guide the development and transportation system of the City by establishing a framework for decision-making regarding land use and transportation over the next 20 years. This section also summarizes the policy direction of the document, and provides information on addressing climate change, creating a complete community, and the character of change in Sunnyvale.

The Plan Structure includes the guiding principles for the Sunnyvale LUTE (listed below), and a list of the goals included in the element.

• Complete Community. Create a place to live that is less dependent on automobiles and reduces environmental impacts, with distinctive activity centers and neighborhoods with character and access to nearby services.

16-0973

**Regional Planning Coordination.** Coordinate regional and local planning efforts with other agencies and organizations to ensure Sunnyvale's competitive edge in the regional economy.

- Neighborhood and Transit-Oriented Place-Making. Develop mixed use areas that incorporate commercial, public, and residential uses that are compatible with the surrounding neighborhoods, create dynamic gathering spaces, establish unique visual character, provide nearby services, and reduce reliance on automobiles.
- **Economic Development.** Foster an economic development environment which provides a wide variety of businesses and promotes a strong economy that can resist downturns within existing environmental, social, fiscal, and land use constraints.
- **Environmental Sustainability.** Provide environmental leadership through land use patterns, renewable energy opportunities, and a multimodal transportation system.
- **Multimodal Transportation.** Offer the community a variety of options for travel in and around the city that are connected to regional transportation systems and destinations.
- Healthy Living. Maximize healthy living choices by providing easy access to fresh and healthy food, a range of recreation and open space options for community members of all ages, and convenient and safe biking and walking options throughout the community.
- Attractive Design. Protect the design and feel of buildings and spaces to ensure an attractive community for residents and businesses.
- **Diverse Housing.** Provide residential options for all incomes and lifestyles, including a variety of dwelling types, sizes, and densities that contribute positively to the surrounding area and the diversity of the community.
- Special and Unique Land Uses. Allow for land uses such as child care, nursing homes, and places of worship that complete the community fabric.
- Neighborhood Preservation. Ensure that all residential areas and business districts retain the desired character and are enhanced through urban design and compatible mixes of activities.

Goals and Policies follow, with a description of each goal's context and purpose, followed by supporting policies and action items.

The General Plan Land Use Framework section includes the land use designations for residential, mixed use, and commercial, office, and industrial designations with descriptions and allowed density and intensity. It also includes maps of the allowed designations and their locations throughout the city.

The Area Plans section describes the existing and future area and specific plans in place for Sunnyvale. These plans include the following:

- Arques Campus Specific Plan
- Downtown Specific Plan
- East Sunnyvale Sense of Place Plan

#### 16-0973

- Fair Oaks Junction Sense of Place Plan
- Lakeside Specific Plan
- Lawrence/101 Site Specific Plan
- Lawrence Station Area Plan
- Moffett Park Specific Plan
- Peery Park Specific Plan
- Precise Plan for El Camino Real
- Reamwood Light Rail (future)
- Mixed Use Villages (future, one per site)

The Southern Pacific Corridor Specific Plan, adopted in 1984, was intended to guide redevelopment of older industrial sites (mostly canneries) and included nine areas adjacent to the railroad tracks. Several of these sites have been incorporated into other plans (Peery Park, Downtown) and others have been redeveloped in accordance with the plan. Staff recommends repeal of the remainder of the SPCSP.

The General Plan Transportation System section covers the classifications of roadways and their descriptions, and explains that the updated LUTE prioritizes investment in pedestrian, bicycle, and transit improvements. It also states that to stay ahead of state legislation and transportation advancements, Sunnyvale will require that all new projects assess both level of service (LOS) and vehicle miles traveled (VMT) impacts. The LOS approach measures levels of congestion at specific intersections and roadway segments resulting from a project and grades them from a free-flowing LOS A to a stop-and-go LOS F. The VMT approach focuses on the anticipated vehicle travel distances associated with a project. In the future, multi-modal measures of effectiveness will provide better insight into the impacts or benefits on all methods of transportation.

#### **General Plan Land Use Map**

The updated General Plan Land Use Map looks very similar to the current plan. What is different is the plan updates the General Plan designation on several sites to reflect the current use of the property when it is not expected that the use will change (e.g., lower density townhouses in a higher density designation). The map also employs new descriptions of land use designations, better aligning the residential densities to the zoning maximums. The current range reflects a 10% increase in density that was allowed through inclusionary zoning categories. State laws have changed the landscape on inclusionary housing and density bonus so that a simpler General Plan density range is maintained. Policies in the housing element to support at least 75% of maximum zoning density are unchanged.

#### Addressing Public Feedback

In response to City Council and Planning Commission requests to identify ways to address public feedback, the staff developed possible changes to the LUTE in response to the results from Open City Hall. The following two changes were developed:

- 1. Consider lowering the number of allowable residential units in certain portions of the mixed use areas or removing a few potential mixed use village sites.
- 2. Revise policies on reduced parking to phase in parking reductions for mixed use projects or

allow case-by-case consideration of reduced parking.

#### **Next Steps**

16-0973

After adoption of an updated Land Use and Transportation Element, staff will embark on several implementation efforts and updates to other plans. These include:

- Transportation Strategic Plan update
- Noise and Air Quality Elements of the General Plan update
- Climate Action Plan implementation items and potential update
- Housing Element implementation items
- Bicycle Plan update
- Green Building Program update

#### **FISCAL IMPACT**

Costs associated with the preparation of the LUTE and EIR were covered with operating budgets (primarily staff hours), and from a special project (EIR) funded with General Plan Maintenance fees and from other general fund revenues. The special project included funding for EIR consultants and project specific expenses.

The updated General Plan Land Use and Transportation Element will allow the City to be more competitive for funding, particularly transportation projects.

The plan will support reinvestment in properties which generate additional revenue through increased property taxes, sales taxes, and in-lieu fees (such as transportation impact fees) which can be utilized for capital improvements and services throughout the City. In addition, proposed Community Benefits policy (Policy 104 of the Draft LUTE) ensures that future development projects provide appropriate improvements or resources to meet the City's future infrastructure and facility needs, and that in turn, the City provides development incentives that result in community benefits and enhance the quality of life for residents and workers. These Community Benefits revenues can be used to support specific City projects that will be prioritized by the City Council.

As no specific development projects are proposed by the LUTE, no financial analysis has been prepared to assess any potential increase in land values that could be realized from adoption and implementation of the LUTE or value of revenue that could be realized by the City under the Community Benefits policy.

#### **PUBLIC CONTACT**

The Horizon 2035 Committee met 29 times from December 2010 to September 2016 to work on the LUTE and the CAP, including hosting public outreach/information sessions and reconvening twice after the first document was prepared. In January 2015, staff updated the committee on the reinvigorated work on the LUTE and its relation to other specific plans and projects under way, and requested guidance on incorporation of certain key existing LUTE policies into the proposed Horizon 2035 policies. In September 2016, staff provided the committee with a summary of the revised Draft LUTE and the Draft EIR, answered questions, and accepted comments. The Committee generally endorsed the changes to the plan. Staff presented two potential modifications to the LUTE that could be considered to address community feedback from the Open City Hall topics: several committee members expressed concern about these possible modifications to the plan. Agendas, handouts and

**16-0973** Agenda Date: 10/20/2016

notes of the Horizon 2035 committee meetings are available on the project website: <u>Horizon2035.inSunnyvale.com <a href="http://www.Horizon2035.inSunnyvale.com">http://www.Horizon2035.inSunnyvale.com</a> <a href="http://www.Horizon2035.inSunnyvale.com">http://www.Horizon2035.inSunnyvale.com</a> <a href="http://www.Horizon2035.inSunnyvale.com">http://www.Horizon2035.inSunnyvale.com</a> <a href="http://www.Horizon2035.inSunnyvale.com">http://www.Horizon2035.inSunnyvale.com</a> <a href="http://www.Horizon2035.inSunnyvale.com">http://www.Horizon2035.inSunnyvale.com</a></u>

Staff also held an All Commissions Congress in September 2016, presenting the Draft LUTE to a broader audience than the boards and commissions who will provide formal feedback on the Draft LUTE. The Sustainability Commission, Housing and Human Services Commission and Bicycle and Pedestrian Advisory Commission will consider the draft LUTE at their October 2016 meetings.

The LUTE was shared for public review on the Horizon 2035 website, tabled at community events, and shared on business and neighborhood group listservs.

In summary, between 2010 and 2016, public contact regarding the LUTE included outreach through the following:

- City Council Study Sessions (see details below)
- Neighborhood associations
- Business groups
- · Boards and commissions
  - Planning
  - Bicycle and Pedestrian Advisory
  - o Housing Commission
  - Sustainability
- Interested-party mail and email lists
- Open City Hall (see fuller description below)
- Paper and online surveys
- Pop-up venues
- Project Website (Horizon2035.inSunnyvale.com < http://www.Horizon2035.inSunnyvale.com >)

#### **Open City Hall**

The most extensive public outreach conducted for the LUTE over the last two years took place through Open City Hall, Sunnyvale's online public participation tool. Four topics were posted for public participation and open comment. These topics and participation rates are summarized in the table below. Summary results are available in Attachment 4 and full results including all comments made on Open City Hall are available on the Open City Hall website (see link in Attachment 2).

#### **LUTE Open City Hall Topics and Response**

Topic	Time Period	Views	Responses
LUTE Objectives	May, 2015	468	110
Alternative Transportation	September, 2015	333	134
Mixed Use Areas	September, 2015	420	140
Growth and Development	December, 2015	256	104
Total		1,477	488

**16-0973** Agenda Date: 10/20/2016

#### 2015-2016 Study Sessions with City Council and Planning Commission

May 5, 2015 Joint Study Session with Planning Commission

Land Use and Transportation Element (LUTE)

August 18, 2015 City Council Study Session:

 Update on Draft Land Use and Transportation Element and Consideration of Land Use Alternatives for Environmental Impact Report

August 23, 2016, Joint Study Session with City Council and Planning Commission:

• Draft Environmental Impact Report and Land Use and Transportation Element

#### **ALTERNATIVES**

Recommend to City Council:

- 1. Adoption of the Horizon 2035 Land Use and Transportation Element.
- 2. Adoption of the Horizon 2035 Land Use and Transportation Element, with modifications.
- 3. Provide comments to the City Council.

#### STAFF RECOMMENDATION

Recommend to City Council Alternative 1: Adoption of the Horizon 2035 Land Use and Transportation Element.

The LUTE includes the fiscally, economically, and environmentally sustainable land use and transportation policies necessary to support the goals established in the other General Plan chapters. The LUTE will be incorporated into the Land Use and Transportation chapter of the General Plan. Adoption of the LUTE will provide a consistent and comprehensive framework for the City over the next 20 years, and will provide clear policy direction and regulations for development to proceed in a well-planned and coordinated manner. Further, the LUTE EIR will provide the opportunity for tiering and streamlining the development review process for individual projects in the city which are consistent with the LUTE.

If the LUTE is not adopted, development applications and transportation improvements would be considered on an individual and incremental basis subject to the existing LUTE. This approach, however, does not reflect the more current vision of the community and the needs for future of development in Sunnyvale. Additionally, not adopting the LUTE could result in inconsistencies and conflicts between adopted specific plans and projects. The LUTE is a proactive and coordinated development strategy that can address issues facing the city today and in the future.

## **Current Sunnyvale General Plan Consolidated in 2011**

http://ecityhall.sunnyvale.ca.gov/cd/GeneralPlan.pdf

#### Policy 1.1.5 **Jobs/Housing Imbalance**

#### **POLICY PURPOSE:**

This policy is designed to define the jobs/housing imbalance problem and to serve as an acknowledgement by the City Council that the jobs/housing imbalance and related problems are endemic to all cities in the County of Santa Clara.

#### **POLICY STATEMENT:**

In recognition of the jobs/housing imbalance and related problems, the Sunnyvale City Council

- Views the severe jobs-housing shortage and imbalance as endemic to all county cities and recognizes that it must be addressed through mutual co-operation and goal-setting.
- Defines the jobs-housing imbalance not only as a problem of too little housing but also as one of rapid industrial development serviced by an inadequate transportation network.
- Commits itself to encourage not only jobs and housing for as many of our citizens as possible but also to maintain and improve our quality of life. The City Council considers these four components jobs, housing, transportation, quality of life as inseparable when seeking solutions.
- Believes that the City should be part of the solution, not part of the problem.

(Adopted: Council Motion (12/11/1979))

Lead Department: Community Development

## **SUNNYVALE**

### Open City Hall Summary Results

This is a summary of public feedback received through the Sunnyvale Open City Hall online tool on key components of the Horizon 2035 Land Use and Transportation Element (LUTE). More than 500 residents participated between August and December, 2015. The tool included postings for feedback on:

- Overarching objectives of the LUTE
- Alternative transportation choices
- Mixed-use areas
- · General growth and development

The following sections summarize participants' feedback on each of these issues. For some topics, staff has identified possible changes to the LUTE to better reflect community sentiment.

#### **LUTE OBJECTIVES**

The Horizon 2035 LUTE includes 10 overarching objectives. It does not set a hierarchy for the objectives; however, asking the community to rank the objectives helps in understanding how well the plan aligns with community values. The major theme for the Horizon 2035 LUTE is a complete community that includes focus on environmental sustainability, healthy living, and mixed-use areas that promote neighborhood and transit-oriented placemaking.

The highest ranked objectives are consistent with the complete community concept, indicating the LUTE is on the right track overall.

### Participants ranking of objectives in the proposed LUTE:

Complete Community

**Environmental Sustainability** 

Healthy Living

Neighborhood & Transit-Oriented Placemaking

**Multimodal Transportation** 

Attractive Design

Regional Planning Coordination

**Economic Development** 

**Diverse Housing** 

#### **ALTERNATIVE TRANSPORTATION CHOICES**

Participants' level of agreement with alternative transportation policies proposed in the LUTE:

The LUTE includes a number of new policies and programs—summarized at right—that establish new transportation priorities, including funding and building more transit, bike, and pedestrian infrastructure and options for reduced vehicle parking in Sunnyvale.

Participants strongly supported most of these transportation policies. The policy regarding reduced parking requirements was an exception.

**Possible Changes:** Revise policies on reduced parking to phase in parking reductions for mixed-use projects or to allow case-by-case consideration of reduced parking.

**AGREE** that Sunnyvale should provide clear, safe, and convenient links between all modes of travel, including access to transit stations/ stops and connections.

83%

**AGREE** that Sunnyvale should prioritize transportation financing, over time, to the most environmentally friendly modes and services.

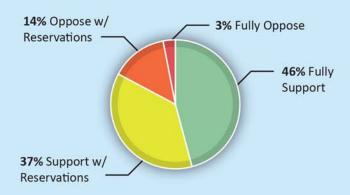

AGREE that Sunnyvale should have fees for on-street and public parking, which would be set to reflect market demand and maintenance costs.

**SPLIT** opinion, with some that AGREE but others that DISAGREE with the idea that Sunnyvale should establish reduced parking requirements for transit, corridor, and village mixed-use developments.

#### Participants' level of support for Village Centers proposed in the LUTE:

The introduction of Village Centers into the city is an important part of the LUTE update. The majority of participants indicated they support this concept (46% fully support, 37% support with reservations).

In general, across all mixed-use types, participants wanted more:

Walking paths and bike paths

Green space and public gathering areas

📾 ់ Parking

Restaurants, retailers, entertainment, and services

Participants were given a long list of potential features to allow in the three mixed-use types proposed in the LUTE. Participants also could write in their own thoughts.

The LUTE accommodates and encourages these features in the descriptions and land use designations. These features should be considered when preparing mixed-use area plans and when considering approval of future projects in these areas.

Some participants indicated it was an important feature to have more housing in mixed-use areas, while others indicated it was important to have less.

The proposed LUTE would allow more housing in all of the mixed-use areas, in different amounts, densities, and designs.

**Possible Changes:** Consider lowering the number of allowable residential units in certain portions of the mixed-use areas or removing a few potential mixed-use village sites.

#### Participants' desire for housing in mixed-use areas:

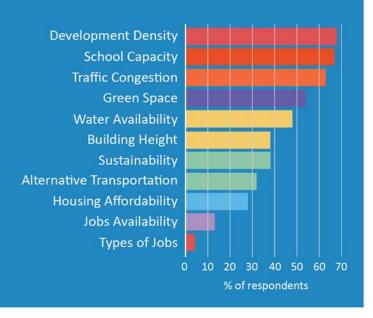

#### GENERAL GROWTH AND DEVELOPMENT

#### Participants' rating of the importance of various issues when considering growth in the city:

Many participants rated development density, school capacity, traffic congestion, green space, and water availability as the top five issues of concern when planning for potential growth and development.

The intent of the LUTE update is to accommodate growth in an orderly fashion and direct it to certain areas, and to ensure adequate access and mobility by providing for multiple modes of transportation. Draft LUTE policies and programs address these and other related concerns. The LUTE includes a policy on working with other agencies (water, transportation, etc.). The LUTE needs to be consistent with other General Plan elements that address open space and water.

#### Important Issues

#### COMPARISON OF LUTE VERIONS

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
Goal LT-1 Coordinated Land Use Planning - Protect and sustain a high quality of life in Sunnyvale by participating in coordinated land use and transportation planning in the Region.	GOAL A: COORDINATED REGIONAL AND LOCAL PLANNING Protect the quality of life, the natural environment and property investment, preserve home rule, secure fair share of funding and provide leadership in the region. 	Action 1: Use transportation services and facilities to facilitate connection between neighborhood village centers both in and out of Sunnyvale.		Action 1: Use transportation services and facilities to facilitate connections between neighborhood Village Centers both within and outside of Sunnyvale.	
	or surniyvare.		Action 2: Require needed street right-of-way dedications and improvements as development occurs. Any additional right-of-way beyond that required by the Roadway Classification should be used for alternative mode amenities, such as bus-pullouts or medians, wider bike	
Policy LT-3.3 Maintain lower density residential development areas where feasible. (Previously LUTE Policy C2.3)	POLICY 21: Establish appropriately scaled car- free and pedestrian-only zones in higher density locations and high pedestrian demand locations.	Omitted from draft 1	POLICY 21: Establish appropriately scaled car- free and pedestrian-only zones in higher-density locations and high pedestrian demand locations.	Omitted from draft 2
LT-3.3a Study the potential rezoning of properties in the R-4 and R-5 zoning districts to other zoning districts. (Previously LUTE Action	Action 1: In areas with high pedestrian demand, provide road closures for specified periods of time.	Omitted from draft 1	Action 1: In areas with high pedestrian demand, provide road closures for specified periods of time.	Omitted from draft 2
Strategy C2.3.1) LT-3.3b Promote and preserve single-family detached housing where appropriate and in existing single-family neighborhoods. (Previously LUTE Action Strategy C2.3.2)	Action 2: Study the implementation of Cyclovia events.	Omitted from draft 1	Action 2: Study the implementation of Cyclovia events.	Omitted from draft 2
LT-3.3c Monitor the progress of the remediation efforts for Futures Site 5 (General Plan Category of ITR for Low Medium Density Residential) to determine if and when conversion to residential use is appropriate. (Previously LUTE Action Strategy C2.3.3)		Omitted from draft 1		Omitted from draft 2
Policy LT-3.4 Determine appropriate density for housing based on site planning opportunities and proximity to services. (Previously LUTE Policy C2.4)	POLICY 22: Follow California Environmental Quality Act (CEQA) requirements, Congestion Management Program (CMP) requirements and additional City requirements when analyzing developments' transportation impacts and assessing the need for offsetting transportation system improvements or limiting transportation demand.	Similar to the first draft's Policy 58	POLICY 22: Require large employers to develop and maintain transportation demand management programs to reduce the vehicle trips generated by their employees.	Similar to the second draft's Policy 61
LT-3.4a Locate higher-density housing with easy access to transportation corridors, rail transit stations, bus transit corridor stops, commercial services and jobs. (Previously LUTE	Action 1: Reduce peak hour and total daily single occupant vehicle trips by expanding the use of transportation demand management programs in the City.	Omitted from draft 1	Action 1: Work with large employers to develop appropriate target trip reduction goals by company size and a system to track results and establish penalties for noncompliance.	Omitted from draft 2
Action Strategy C2.4.1) LT-3.4b Locate lower-density housing in proximity to existing lower density housing. (Previously LUTE Action Strategy C2.4.2)		Omitted from draft 1		Omitted from draft 2

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
	POLICY 23: Promote modes of travel and actions that provide safe access to City streets and reduce single occupant vehicle trips, and trip lengths locally and regionally. The order of consideration of transportation users shall be: (1) Pedestrians (2) Non-automotive: such as bikes, three-wheeled bikes, scooters etc. (3) Mass transit vehicles (4) Delivery vehicles (5) The single occupant automobile.		POLICY 23: Follow California Environmental Quality Act requirements, Congestion Management Program requirements, and additional City requirements when analyzing transportation impacts of proposed projects and assessing the need for offsetting transportation system improvements or limiting transportation demand.	rian to Dian 2
			Action 1: Reduce peak hour and total daily single- occupant vehicle trips by expanding the use of transportation demand management programs in the City.	
			Action 2: As part of a future update to the City's Transportation Impact Assessment Guidelines, establish and monitor development-based transportation goals and indicators for the following: Vehicle miles traveled in the City per service population (population + jobs)	
			Action 3: As part of a future update to the City's Transportation Impact Assessment Guidelines, consider establishing additional development-based transportation goals and indicators for the following: Vehicle trips  Service population within walking distance to bicycle facilities and transit stations  Service population within walking distance to daily destinations for services, amenities, and entertainment	
	POLICY 24: Among motorized vehicles, priority in all services shall be given to low emission, zero emission or environmentally friendly vehicles such as carpools in providing parking and planning for lane priority and other operations.		POLICY 24: Promote modes of travel and actions that provide safe access to City streets and reduce single-occupant vehicle trips, and trip lengths locally and regionally. The order of consideration of transportation users shall be: (1) Pedestrians (2) Non-automotive (bikes, three-wheeled bikes, scooters etc.) (3) Mass transit vehicles (4) Delivery vehicles (5) Single-occupant automobiles	
	POLICY 25: Providing safe accommodation for all transportation users takes priority over non transport uses.		POLICY 25: Among motorized vehicles, priority in all services such as carpools shall be given to low emission, zero emission, or environmentally friendly vehicles in providing parking and planning for lane priority and other	
	POLICY 26: Use multi-modal measures of effectiveness to assess the transportation system in order to minimize the adverse effect of congestion.		pperations. POLICY 26: Prioritize safe accomodation of all transportation users over non-transport uses. As City streets are public spaces dedicated to the transport movement of vehicles, bicycles, and pedestrians, facilities that meet minimum appropriate safety standards for transport uses shall be considered before non-transport uses are considered.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
	POLICY 27: Move progressively toward eliminating direct and hidden subsidies of motor vehicle parking and driving, making the true costs of parking and driving visible to		POLICY 27: As parking is the temporary storage of transportation vehicles, do not consider parkign a transport use of public streets.	
	motorists.  Action 1: Pursue opportunities for user fees such as paid parking, paid parking permits at workplaces, paid parking places for on street parking in residential neighborhoods, and promote corporate parking cash out			
	programs Action 2: Manage City provided public parking though pricing and location strategies in order to match supply and demand, shift the market costs to users of vehicle parking, maintain mobility and access to Sunnyvale businesses, and reduce			
	Action 3. Advocate at regional, State and Federal levels for actions that increase the visibility of the true costs of parking and driving to motorists, and improve the cost			
	return attributable to driving. POLICY 28: Shift transportation subsidies and project financing over time to the most environmentally friendly modes and services.		POLICY 28: Prioritize street space allocated for transportation uses over parking when detering the appropriate future use of street space.	
	POLICY 29: Parking is the temporary storage of transportation vehicles and shall not be considered a transport use of public streets.		POLICY 29: As they become available, use multimodal measures of effectiveness to assess the transportation system in order to minimize the adverse effect of congestion. Continue to use level of service (LOS) to describe congestion levels. Use vehicle miles traveled (VMT) analysis to describe potential environmental effects and impacts to the regional transportation system.	
	POLICY 30: Street space allocated for transportation uses shall be a higher priority than parking when determining the appropriate future use of street space.		POLICY 30: Maintain a funding mechanism where new and existing land uses equitably participate in transportation system improvements.	
	PÓLICY 31: Support bicycling through planning, engineering, education, encouragement and enforcement			
	Action 1: Maintain and implement a citywide bicycle plan to maximize the provision of safe and efficient bicycle and pedestrian facilities throughout the city.		POLICY 31: Move progressively toward eliminating direct and hidden subsidies of motor vehicle parking and driving, making the true costs of parking and driving visible to motorists.	
			Action 1: Pursue opportunities for user fees such as paid parking, paid parking permits at workplaces, and paid parking places for on-street parking in residential neighborhoods, and promote corporate parking cash out programs.

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
Goal LT-5 Effective and Safe Transportation - Attain a transportation system that is effective, safe, pleasant, and convenient. (Previously LUTE Goal C3 / Adopted in 1997)	GOAL E: CREATION, PRESERVATION AND ENHANCEMENT OF VILLAGE CENTERS AND NEIGHBORHOOD FACILITIES THAT ARE COMPATIBLE WITH RESIDENTIAL NEIGHBORHOODS. Support the development of village centers that create an identity and "sense of place" for residential neighborhoods, provide for neighborhood gathering places, and allow for a vibrant mix of public, commercial and residential activities. Through the development review process and other permitting processes, assure that adequate protection is provided to residential neighborhoods when new uses and development projects are considered	Similar to the first draft's Goal C	Goal E: Creation, Preservation, and Enhancement of village Centers and Neighborhood Facilities that are Compatible with Residential Neighborhoods.	Similar to the second draft's Goal C
Policy LT-5.1 Achieve an operating level-of- service (LOS) of "D" or better on the City-wide roadways and intersections, as defined by the functional classification of the street system. (Previously LUTE Policy C3.1)	POLICY 50: Strengthen the image that the City is composed of cohesive residential neighborhoods, each with its own individual character and village center; allow for change and reinvestment that reinforces positive neighborhood concepts and standards such as walkability, positive architectural character, site design and proximity to supporting uses.		POLICY 53: Strengthen the image that the community is composed of cohesive residential neighborhoods, each with its own individual character and Village Center; allow for change and reinvestment that reinforces positive neighborhood concepts and standards such as walkability, positive architectural character, site design, and proximity to supporting uses.	Omitted from the draft 2
LT-5.1a Maintain and update a functional classification of the street system. (Previously LUTE Action Strategy C3.1.1)	Action 1: Promote land use patterns and urban design that strengthens the sense of uniqueness and community within existing neighborhoods such as creating village	Similar to the first draft's Policy 40	Action 1: Promote land use patterns and urban design in Village Centers that reflect context and iconic aspects of the surrounding neighborhood to strengthen the sense of uniqueness and community.	Similar to the second draft's Policy 43
LT-5.1b Monitor the operation and performance of the street system by establishing a routine data collection program and by conducting special data collection as the need arises. (Previously LUTE Action	echters. Action 2: Allow for mixed use development at appropriate village centers while preserving sufficient commercial zoning to serve neighborhood retail and service needs.	Omitted from the draft 1	Action 2: Develop an area plan, development standards, or other guidelines for each Village Center to assist in achieving desired objectives and preserving or enhancing surrounding neighborhood values.	Omitted from the draft 2
Stategy C3.1.2) LT-5.12 Require roadway and signal improvements for development projects to minimize decline of existing levels of service. (Previously LUTE Action Strategy C3.1.3)	Action 3: Provide public gathering places with appropriate amenities for residents, such as at village centers and neighborhood and community parks.	Omitted from the draft 1	Action 3: Allow for mixed-use development at appropriate Village Centers while preserving sufficient commercial zoning to serve neighborhood retail and service needs.	Omitted from the draft 2
LT-5.1d Study and implement physical and operational improvements to optimize roadway and intersection capacities. (Previously LUTE Action Strategy C3.141)	Action 4: Seek opportunities to create distinctive landmark features or focal elements at village centers and at points of entry or gateways into neighborhoods.	Omitted from the draft 1	Action 4: Provide public gathering places with appropriate amenities for residents, such as Village Centers and neighborhood and community parks.	Omitted from the draft 2
LT-5.1e Promote the reduction of single occupant vehicle (SOV) trips and encourage an increase in the share of trips taken by all other forms of travel. (Previously LUTE Action Strategy C3.1.5)		Similar to the first draft's Policy 19	Action 5: Seek opportunities to create distinctive landmark features or focal elements at Village Centers and at points of entry or gateways into neighborhoods.	Similar to the second draft's Policy 19

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
LT-5.1f Study the use of density, floor area limits, parking management, peak hour allocations and other techniques to maintain or achieve acceptable levels of service on existing roadways. (Previously LUTE Action Strategy C3.1.6)	POLICY 51: Preserve and enhance the character of Sunnyvale's residential neighborhoods by promoting land use patterns and transportation opportunities that are supportive of a neighborhood concept as a place to live, work, shop, entertain and enjoy public services, open space and community near one's home and without significant	Omitted from the draft 1	POLICY 54: Preserve and enhance the character of Sunnyvale's residential neighborhoods by promoting land use patterns and transportation opportunities that support a neighborhood concept as a place to live, work, shop, entertain, and enjoy public services, open space, and community near one's home and without significant travel.	Omitted from the draft 2
LT-5.1g Minimize the total number of vehicle miles traveled by Sunnyvale residents and commuters. (Previously LUTE Action Strategy	tracelon 1: Enhance existing residential neighborhoods by retaining and creating village centers with safe and convenient	Omitted from the draft 1	Action 1: Enhance existing residential neighborhoods by retaining and creating Village Centers with safe and convenient pedestrian and bicycle access.	Omitted from the draft 2
Policy LT-5.2 Integrate the use of land and the transportation system. (Previously LUTE Policy C3.2)	pedestrian access. Action 2: Support a full spectrum of conveniently located commercial, public, and quasi-public uses that support and enhance the livability of residential	Omitted from the draft 1	Action 2: Support a full spectrum of conveniently located commercial, public, and quasi-public uses that support and enhance the livability of residential neighborhoods.	Omitted from the draft 2
LT-5.2a Allow land uses that can be supported by the planned transportation system. (Previously LUTE Action Strategy C3.2.1)	neighborhoods. Action 3: In addition to parks, promote small scale, well-designed, pedestrian-friendly spaces within neighborhoods to establish safe and attractive gathering areas.	Omitted from the draft 1	Action 3: In addition to parks, promote small-scale, well-designed, pedestrian-friendly spaces within neighborhoods to establish safe and attractive gathering areas.	Omitted from the draft 2
LT-5.2b Minimize driveway curb cuts and require coordinated access when appropriate. (Previously LUTE Action Strategy C3.2.2)	Action 4: Require amenities within new development and village centers that serve the needs of residents.	Omitted from the draft 1	Action 4: Require amenities in new development and Village Centers that serve the needs of residents.	Omitted from the draft 2
LT-5.2c Encourage mixed use developments that provide pedestrian scale and transit oriented services and amenities. (Previously LUTE Action Strategy C3.2.3)		Omitted from the draft 1	POLICY 55: Require new development, renovation, and redevelopment to be compatible and well-integrated with existing residential neighborhoods.	Omitted from the draft 2
LT-5.2d Continue to evaluate transportation impacts from land use proposals at a neighborhood and citywide level. (Previously LUTE Action Strategy C3.2.4)		Omitted from the draft 1	Action 1: Utilize adopted City design guidelines to achieve compatible and complementary architecture and scale for new development, renovation, and redevelopment.	Omitted from the draft 2
LT-5.2e Study potential transit station mixed use development. (Previously LUTE Action Strategy C3.2.5)		Omitted from the draft 1	Action 2: Consider land use transitions, such as blended or mixed-use zoning and graduated densities, in areas to be defined around Village Centers.	Omitted from the draft 2
Policy LT-5.3 Optimize city traffic signal system performance. (Previously LUTE Policy C3.3)	POLICY 52: Require new development, renovation and redevelopment to be compatible and well-integrated with existing	Omitted from the draft 1	Action 3: Where an opportunity arises, consider integrating or colocating a Village Center with a neighborhood park or open space.	Omitted from the draft 2
LT-5.3a Maintain the signal system and respond quickly to signal breakdowns. (Previously LUTE Action Strategy C3.3.1)	residential neighborhoods. Action 1: Utilize adopted City design guidelines to achieve compatible and complementary architecture and scale for new development, renovation and	Omitted from the draft 1	Goal F: Protected, Maintained, and Enhanced Residential Neighborhoods	Omitted from the draft 2
LT-5.3b Monitor traffic signal control performance. (Previously LUTE Action Strategy C3.3.2)	Action 2: Consider land use transitions, such as blended or mixed use zoning and graduated densities in areas to be defined around village centers.	Omitted from the draft 1	POLICY 56: Improve and preserve the character and cohesiveness of existing residential neighborhoods.	Omitted from the draft 2

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
LT-5.3c Interconnect groups of traffic signals where practicable. (Previously LUTE Action Strategy C3.3.3)	Action 3: Where an opportunity arises, consider integrating or co-locating a village center with a neighborhood park or open space.	Omitted from the draft 1	Action 1: Support neighborhood associations throughout Sunnyvale to facilitate community building and neighborhood identity and to encourage participation in land use and transportation decisions.	Omitted from the draft 2
LT-5.3d Make appropriate hardware and software improvements to traffic signals. (Previously LUTE Action Strategy C3.3.4)		Omitted from the draft 1	Action 2: Explore developing design standards and guidelines, similar to the Eichler Design Guidelines, to preserve the defining character of existing distinctive	Omitted from the draft 2
LT-5.3e Make the traffic signal system responsive to all users, including bicyclists and pedestrians. (Previously LUTE Action Strategy C3.3.5)		Omitted from the draft 1	Action 3: Use land use and transportation policies, guidelines, regulations, and engineering specifications to respect community and neighborhood identities and values for quality and design.	Omitted from the draft 2
LT-5.3f Install and remove signals when warranted and establish an implementation schedule. (Previously LUTE Action Strategy		Omitted from the draft 1	Action 4: Establish standards and promote and support programs that result in the maintenance and rehabilitation of existing housing and residential neighborhoods.	Omitted from the draft 2
Policy LT-5.4 Maintain roadways and traffic control devices in good operating condition.  (Previously LUTE Policy C3.4)		Omitted from the draft 1	Action 5: Develop special area plans and neighborhood preservation programs to guide change in neighborhoods that need special attention	Omitted from the draft 2
LT-5.4a Inventory and monitor roadway conditions and implement a regular program of pavement maintenance. (Previously LUTE Action Strategy C3.4.1)		Omitted from the draft 1	Action 6: Look for opportunities to reclaim unneeded and underperforming paved areas (public and private) that could be converted to neighborhoodenhancing features such as additional tree coverage,	Omitted from the draft 2
LT-5.4b Install permanent and painted pavement markings. (Previously LUTE Action Strategy C3.4.2) n LT-5.4c Implement programs for repair of roadbeds, barriers and lighting. (Previously LUTE Action Strategy		Omitted from the draft 1	gathering areas, pocket parks, or community gardens. POLICY 57: Limit the intrusion of incompatible uses and inappropriate development in and near residential neighborhoods, but allow transition areas at the edges of neighborhoods.	Omitted from the draft 2
C3.4.33 LT-5.4d Respond quickly to sign damages and losses. (Previously LUTE Action Strategy C3.4.4)		Omitted from the draft 1	Action 1: Where appropriate, use higher-density residential and higher-intensity uses as buffers between neighborhood commercial centers and transportation and	Omitted from the draft 2
LT-5.4e Develop and implement a program for long term transportation infrastructure replacement. (Previously LUTE Action Strategy		Omitted from the draft 1	rail corridors.  Action 2: Require appropriate noise attenuation, visual screening, landscape buffers, or setbacks between residential areas and dissimilar land uses.	Omitted from the draft 2
(3.4.5) LT-5.4f Manage on-street parking to assure safe, efficient traffic flow. (Previously LUTE Action Strategy C3.4.6)		Omitted from the draft 1	Action 3: While respecting the character of existing residential neighborhoods, consider interspersing duets, paired homes, and similar housing that are designed to appear as one dwelling within new single-family subdivisions to introduce greater housing choices.	Omitted from the draft 2
LT-5.4g Conduct periodic analyses of roadway facilities and collision data in order to assure traffic safety. (Previously LUTE Action Strategy		Omitted from the draft 1	POLICY 58: Encourage and support home businesses that remain secondary to the use of each home and do not detract from the primary residential character of the	Omitted from the draft 2
Policy LT-5.5 Support a variety of transportation modes. (Previously LUTE Policy C3.5)		Similar to the first draft's Policy 23	Action 1: Monitor home business trends to ensure City regulations accommodate changing technologies, lifestyles, and neighborhood needs	Similar to the second draft's Policy 24

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
LT-5.5a Promote alternate modes of travel to the automobile. (Previously LUTE Action Strategy C3.5.1)		Omitted from the draft 1	POLICY 59: Allow compatible and supporting uses such as group homes, places of assembly, community centers, recreational centers, and child care centers in residential neighborhoods (including single-family neighborhoods) subject to review and consideration of operations, traffic, parking, and architecture.	
LT-5.5b Require sidewalk installation in subdivisions of land and in new, reconstructed or expanded development. (Previously LUTE		Omitted from the draft 1	Goal G: Diverse Housing Opportunities Ensure ownership and rental housing options with a variety of dwelling types, sizes, and densities that contribute positively to the surrounding area and the health of the community.	Omitted from the draft 2
Action Strategy C3.5.2) LT-5.5c Support land uses that increase the likelihood of travel mode split. (Previously LUTE Action Strategy C3.5.3)		Omitted from the draft 1	POLICY 60: In addition to more traditional forms of housing (single-family detached, townhouses, garden apartments, and shared corridor multi-family housing), also support alternative housing types including co-housing, single-room occupancy units, live/work spaces, transitional housing, senior housing, assisted living, and other types that may become necessary and appropriate to serve a changing population.	Omitted from the draft 2
LT-5.5d Maximize the provision of bicycle and pedestrian facilities. (Previously LUTE Action Strategy C3.5.4)		Omitted from the draft 1	<b>POLICY 61:</b> Determine appropriate residential density for a site by evaluating the site planning opportunities and proximity of services (such as transportation, open space, jobs, and supporting commercial and public uses).	Omitted from the draft 2
LT-5.5e Implement the City of Sunnyvale Bicycle Plan. (Previously LUTE Action Strategy		Similar to the first draft's Action 6 of Policy 65	POLICY 62: Encourage the development of housing options with the goal that the majority of housing in the planning area is owner-occupied	Similar to the second draft's Action 6 of Policy 69
LT-5.5f Support an efficient and effective paratransit service and transportation facilities for people with special transportation needs. (Previously LUTE Action Strategy C3.5.6)		Exactly the same as the first draft's Policy 44	POLICY 63: Promote new mixed-use development and allow higher-residential density zoning districts (medium and higher) primarily in Village Centers, El Camino Real Nodes, and future industrial-to-residential areas.	Exactly the same as the second draft's Policy 47
LT-5.5g Ensure safe and efficient pedestrian and bicycle connections to neighborhood transit stops. (Previously LUTE Action Strategy		Omitted from the draft 1	<b>POLICY 64:</b> Consider the impacts of all land use decisions on housing affordability, and housing needs of special needs groups within Sunnyvale.	Omitted from the draft 2
LT-5.5/) LT-5.5h Work to improve bus service within the City, including linkages to rail. (Previously LUTE Action Strategy C3.5.8)		Omitted from the draft 1	Goal H: Options for Healthy Living Create a City development pattern and improve the City's infrastructure in order to maximize healthy choices for all ages, including physical activity, use of the outdoors, and access to fresh food.	Omitted from the draft 2
Policy LT-5.6 Minimize expansion of the current roadway system, which maximizing opportunities for alternative transportation systems and related programs. (Previously		Omitted from the draft 1	POLICY 65: Promote community gardens and urban farms.	Omitted from the draft 2
LUTE Policy C3.6) LT-5.6a Develop clear, safe and convenient linkages between all modes of travel; including, access to transit stations and stops and connections between work, home and commercial sites. (Previously LUTE Action Strategy C3.6.1)		Almost the same as the first draft's Action 1 of Policy 38	Action 1: Modify the Zoning Code to create specific provisions for community gardens and urban farms as allowed uses, including those in and near residential areas.	Almost the same as the second draft's Action 1 of Policy 41

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
LT-5.6b Promote public and private transportation demand management.		Similar to the first draft's Action 1 of Policy 22	Action 2: Identify appropriate locations in the planning area for community gardens and urban farms.	Similar to the second draft's Action 1 of Policy 23
(Previously LUTF Action Strategy C3.6.2) Policy LT-5.7 Pursue local, state and federal transportation funding sources to finance City transportation capital improvement projects consistent with City priorities. (Previously LUTE		Omitted from the draft 1	Action 3: Accept community gardens as meeting the requirements for on-site landscaping.	Omitted from the draft 2
Policy C3.7) LT-5.7a Develop alternatives and recommendations for funding mechanisms to finance the planned transportation system. (Previously LUTE Action Strategy C3.7.1)		Omitted from the draft 1	Action 4: Develop standards for community gardens in Village Centers.	Omitted from the draft 2
LT-5.7b Develop a funding mechanism where new and existing land uses equitably participate in transportation system improvements. (Previously LUTE Action		Omitted from the draft 1	POLICY 66: Increase the number and frequency of farmers markets.	Omitted from the draft 2
Policy LT-5.8 Provide a safe and comfortable system of pedestrian and bicycle pathways. (Previously Community Design Policy B.2)		Omitted from the draft 1	Action 1: Study modifying the Zoning Code to create provisions for farmers markets.	Omitted from the draft 2
Policy LT-5.9 Appropriate accommodations for motor vehicles, bicycles, and pedestrians shall be determined for City streets to increase the use of bicycles for transportation and to enhance the safety and efficiency of the overall street network for bicyclists, pedestrians, and motor vehicles.	GOAL F: PROTECTED, MAINTAINED AND ENHANCED RESIDENTIAL NEIGHBORHOODS Assure that all residential areas of the city are maintained, that neighborhoods are protected and are enhanced through urban design that strengthens and retains the residential character.	Similar to the first draft's Policy 31	Action 2: Identify appropriate locations in the planning area for additional farmers markets.	Similar to the second draft's Policy 33
Policy LT-5.10 All modes of transportation shall have safe access to City streets.	character and cohesiveness of existing	Similar to the first draft's Policy 37	Action 3: Create standards for the operation of farmers markets.	Similar to the second draft's Policy 40
Policy LT-5.11 The City should consider enhancing standards for pedestrian facilities.	residential neighborhoods Action 1: Support neighborhood associations throughout Sunnyvale to facilitate community building and neighborhood identity and to encourage participation in land use and transportation decisions.	Omitted from the draft 1	POLICY 67: Enable the availability of fresh food in the community.	Omitted from the draft 2
Policy LT-5.12 City streets are public space dedicated to the movement of vehicles, bicycles and pedestrians. Providing safe accommodation for all transportation modes takes priority over non-transport uses. Facilities that meet minimum appropriate safety standards for transport uses shall be considered before non-transport uses are	Action 2: Explore developing design standards and guidelines to preserve the defining character of existing distinctive neighborhoods, such as the Eichler Design Guidelines.	Similar to the first draft's Policy 25	Action 1: Enact zoning changes for outdoor retail display in order to improve visibility of fresh food.	Similar to the second draft's Policy 26
PONE PERS 1.13 Parking is the storage of transportation vehicles and shall not be considered a transport use.	Action 3: Use land use and transportation policies, guidelines, regulations and engineering specifications to respect community and neighborhood identities and values for quality and design.	Almost the same as the first draft's Policy 29	Action 2: Maintain provisions in the Zoning Code that allow retail food sales in commercial zoning districts.	Exactly same as the second draft's Policy 27

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
Policy LT-5.14 Historical precedence for street space dedicated for parking shall be a lesser consideration than providing street space for transportation uses when determining the appropriate future use of street space.	Action 4: Establish standards and promote and support programs that result in the maintenance and rehabilitation of existing housing and residential neighborhoods.	Similar to the first draft's Policy 30	Action 3: Protect neighborhood commercial districts from redevelopment that would eliminate opportunities for access to local fresh food.	Similar to the second draft's Policy 28
Policy LT-5.15 Parking requirements for private development shall apply to off-street parking only.	Action 5: Develop special area plans and neighborhood preservation programs to guide change in neighborhoods that need special attention.	Omitted from the draft 1	Action 4: Study revised zoning standards to allow raising smaller livestock, poultry, and bees in the planning area, including near and in residential areas.	Omitted from draft 2
LT-5.15a Incentives to offset impacts of roadway changes to non-transportation users shall be considered when retrofitting roadways.	Action 6: Look for opportunities to reclaim unneeded and underperforming paved areas (public and private) that could be converted to neighborhood enhancing features such as additional tree coverage, gathering area, pocket park or community garden.	Omitted from the draft 1	POLICY 68: Promote compact, mixed-use, and transit- oriented development in appropriate neighborhoods to provide opportunities for walking and biking as an alternative to auto trips.	Omitted from draft 2
Policy LT-5.16 When decisions on the configuration of roadway space are made, staff shall present options, including at a minimum an option that meets minimum safety-related design standards for motor vehicles, bicycles	POLICY 54: Limit the intrusion of incompatible uses and inappropriate development within and near residential neighborhoods but allow transition areas at the edges of neighborhoods.	Omitted from the draft 1	POLICY 69: Promote walking and bicycling through street design.	Omitted from draft 2
and pedestrians. Policy LT-5.17 Bike retrofit projects shall be evaluated based on the merits of each project in the context of engineering and planning criteria.	Action 1: Where appropriate use higher density residential and higher intensity uses as buffers between neighborhood commercial centers and transportation and	Almost the same as the first draft's Action 2 of Policy 37	Action 1: Develop complete streets principles to accommodate all users, including pedestrians, bicyclists, skaters, and wheelchairs along with motor vehicles in transportation corridors.	Almost the same as the second draft's Action 2 of Policy 40
LT-5.17a The City shall maintain engineering and planning criteria with respect to roadway geometry, collisions, travel speed, motor vehicle traffic volume, and parking supply and demand (on and off street) to guide decisions on the provision of bike lanes.	rail corridors. Action 2: Require appropriate noise attenuation, visual screening, landscape buffers or setbacks between residential areas and dissimilar land uses.	Almost the same as the first draft's Policy 31	Action 2: Enhance connectivity by removing barriers and improving travel time between streets, trails, transit stops, and other pedestrian thoroughfares.	Almost the same as the second draft's Policy 33
Policy LT-5.18 The City Council shall make the final decisions on roadway space reconfiguration when roadway reconfiguration will result in changes to existing accommodations.	Action 3: While respecting the character of existing residential neighborhoods, consider interspersing duets, paired homes and similar housing that are designed to appear as one dwelling within new single-family subdivisions to introduce greater housing	Almost the same as the first draft's Action 3 of Policy 37	Action 3: Support traffic calming to slow down vehicles in order to promote safety for non-motorists.	Almost the same as the second draft's Action 3 of Policy 40
Policy LT-5.19 Public input on roadway space reconfiguration shall be encouraged and presented independently of technical engineering and planning analyses.	POLICY 55: Encourage and support home businesses that remain secondary to the use of each home and do not detract from the primary residential character of the	Omitted from the draft 1	Action 4: Promote separation of streets and sidewalks with planter strips and widened sidewalks, especially on streets with no parking lane.	Omitted from the draft 2
Policy LT-5.20 If street configurations do not meet minimum design and safety standards for all users, than standardization for all users shall be priority.	neighborhood. Action 1: Monitor home business trends to assure City regulations accommodate changing technologies, lifestyles and neighborhood needs.	Omitted from the draft 1	Action 5: Install and connect sidewalks and install safe crosswalks in industrial and office areas.	Omitted from the draft 2

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
Policy LT-5.21 Safety considerations of all modes shall take priority over capacity considerations of any one mode.	POLICY 56: Allow compatible and supporting uses such as group homes, places of assembly, community centers, recreational centers and child care centers in residential neighborhoods (including single-family neighborhoods) subject to review and consideration of operations, traffic, parking and architecture.	Omitted from the draft 1	Action 6: Maintain and implement a citywide bicycle plan that supports bicycling through planning, engineering, education, encouragement, and enforcement.	Omitted from the draft 2
LT-5.21a For each roadway space retrofit project, a bike and pedestrian safety study shall be included in the staff report to evaluate the route in question.	densities that contribute positively to the surrounding area and the health of the	Omitted from the draft 1	Action 7: Support streetscape standards for vegetation, trees, and art installations to enhance the aesthetics of walking and biking.	Omitted from the draft 2
	POLICY 57: In addition to more traditional forms of housing (single-family detached, townhouses, garden apartments, and shared corridor multi-family housing), also support alternative housing types including: cohousing, single room occupancy units, livework spaces, transitional housing, senior housing, assisted living and other types that may become necessary and appropriate to serve a changing population.		POLICY 70: Ensure that the planned availability of open space both in the City and the region is adequate.	
	POLICY 58: Determine appropriate residential density for a site by evaluating the site planning opportunities and proximity of services (such as transportation, open space, jobs and supporting commercial and public		Action 1: Define a minimum open space standard for residential uses, mixed-use developments, business developments, and Village Centers.	
	housing options in the City with the goal that the majority of housing in the City is owner- occupied (Adopted by City Council on May 9,		Action 2: Utilize joint agreements between the City and local school districts to create community recreational opportunities.	
	2006). POLICY 60: Promote new mixed-use development and allow higher residential density zoning districts (medium and higher) primarily in Village Centers, El Camino Real Nodes and future Industrial-to-Residential		Action 3: At regular intervals, review the park dedication requirements.	
	areas.		Action 4: Integrate usable open spaces and plazas into commercial and office developments.	
	GOAL H: OPTIONS FOR HEALTHY LIVING Create a city development pattern and improve the city's infrastructure in order to maximize healthy choices for all ages including physical activity, use of the outdoors and access to fresh		Action 5: Update the Parks and Recreation Element by 2020.	
	POLICY 61: Promote community gardens and urban farms.		POLICY 71: Improve accessibility to parks and open space by removing barriers.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
	Action 1: Study modifying the Zoning Code to create specific provisions for community gardens and urban farms as allowed uses including those in and near residential areas		Action 1: Provide and maintain adequate bicycle lockers at parks.	
	Action 2: Identify appropriate locations within the City for community gardens and urban farms throughout the community.		Action 2: Evaluate feasibility of flood control channels and other utility easements for pedestrian and bicycle greenways.	
	Action 3: Accept community gardens as meeting the requirements for on-site landscaping.		Action 3: Develop and adopt a standard for a walkable distance from housing to parks.	
	Action 4: Develop standards for community gardens in village centers.		POLICY 72: Protect creeks and wetlands as important parts of the community's natural environment and open space, and for their contribution to flood control.	
	POLICY 62: Increase the number and frequency of farmers markets.  Action 1: Study modifying the Zoning Code to create provisions for farmers markets.		Action 1: Work with other agencies to maintain creeks and wetlands in their natural state.  Action 2: Work with appropriate agencies to identify creek channels and wetlands to use as recreational	
	Action 2: Identify appropriate locations within the City for additional farmer's markets.		areas Action 3: Minimize or divert pollutants from draining into creeks and wetlands by enforcing best management practices during construction and site	
	Action 3: Create standards for the operation of farmers markets.		POLICY 73: Engage in regional efforts to enhance and protect land uses near streams and to respond to sea level rise and climate change	
	POLICY 63: Enable the availability of fresh food in the community.	1	Action 1: Maintain and regularly review and update a streamside development review and permitting process	
	Action 1: Enact zoning changes for outdoor retail display in order to improve visibility of fresh food		Action 2: Apply development standards provided by Santa Clara Valley Water District.	
	Action 2: Maintain provisions in the Zoning Code that allow retail food sales in commercial zoning districts.		Action 3: Streamside development review shall be conducted as part of a building permit plan check process, design review, miscellaneous plan permit, and/or the discretionary review process.	
	Action 3: Protect the neighborhood commercial district from redevelopment that would eliminate opportunities for		Action 4: Minimize effects of development on natural streambeds.	
	access to local fresh food. Action 4: Study revised zoning standards to allow raising smaller livestock, poultry and bees within the city including near and in residential areas.		Action 5: When opportunities exist, remove existing structures adjacent to streams that impact the streambed.	
	POLICY 64: Promote compact, mixed-use and transit-oriented development in appropriate neighborhoods to provide opportunities for walking and biking as an alternative to auto trips.		Goal I: Supportive Economic Development Environment An economic development environment that supports a wide variety of businesses and promotes a strong economy within existing environmental, social, fiscal, and land use constraints.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
	POLICY 65: Promote walking and bicycling through street design. (Note: This section will be moved to the transportation policy section after adoption)	Tall to Draft 1	POLICY 74: Provide existing businesses with opportunities to grow in Sunnyvale and provide opportunities to expand into new technologies.	Figure Construction
	after adoption). Action 1: Develop universal design and "complete streets" principles to accommodate all users including pedestrians, bicyclists, skaters and wheelchairs along with motor vehicles in		Action 1: Monitor the effect of City policies on business development and consider the effects on the overall health of business in the planning area.	
	Action 2: Enhance connectivity by removing barriers and improving travel time between streets, trails, transit stops and other		Action 2: Participate in partnerships with local industry/businesses in order to facilitate communication and address mutual concerns.	
	pedestrian thoroughfares. Action 3: Support traffic calming to slow down vehicles in order to promote safety for non-motorists.		Action 3: Work with start-up companies to address their unique land use and transportation needs during product development and placement of their new technologies.	
	Action 4: Promote separation of streets and sidewalks with planter strips and widened sidewalks, especially on streets with no parking lane.		POLICY 75: Support a full spectrum of conveniently located commercial, mixed-use, public, and quasi-public uses that add to the positive image of the community.	
	Action 5: Install and connect sidewalks and install safe crosswalks in the industrial and office areas.		POLICY 76: Promote business opportunities and business retention in Sunnyvale.	
	Action 6: Maintain and implement a citywide bicycle plan that supports bicycling through planning, engineering, education, encouragement and enforcement.		Action 1: Encourage conveniently located retail, restaurant, and other supportive land uses near business areas of the planning area.	
	Action 7: Support streetscape standards for vegetation, trees and art installations to enhance the aesthetics of walking and biking.		POLICY 77: Participate in regional efforts to respond to transportation and housing problems caused by economic growth in order to improve the quality of life and create a better environment for businesses to flourish.	
	POLICY 66: Assure that the planned availability of open space both in the city and the region is adequate		Action 1: Support land use policies to achieve a healthy relationship between the creation of new jobs and housing	
	Action 1: Define a minimum open space standard for residential uses, mixed-use developments, business developments, and village centers.		Action 2: Support transportation demand management programs and other ride-sharing programs countywide.	
	Action 2: Utilize joint agreement between the City and local school districts to create community recreational opportunities.		POLICY 78: Encourage businesses to emphasize resource efficiency, environmental responsibility, and minimize pollution and waste in their daily operations.	
	Action 3: On regular intervals review the park dedication requirements.		Goal J: A Balanced Economic Base: A balanced economic base that can resist downturns of any one industry and provides revenue for City services.  POLICY 79: Encourage green technology industries.	
	Action 4: Integrate usable open space and plazas into commercial and office developments		POLICY 79: Encourage green technology industries.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General
		Fian to Diant 1	POLICY 80: Encourage creation or installation of pilot programs for emerging industries in both private and public facilities	
	POLICY 67: Improve accessibility to parks and open space by removing barriers.		POLICY 81: Support a variety of land and building ownership forms, including business condominiums, planned developments, and more traditional single-owner	
	Action 1: Provide and maintain adequate bicycle lockers at parks.		POLICY 82: Attract and retain a diversity of commercial enterprises and industrial uses to sustain and bolster the local economy and provide a range of job opportunities.	
	Action 2: Evaluate feasibility of flood control channels and other utility easements for pedestrian and bicycle greenways.		Action 1: Promote a variety of commercial, retail, and industrial uses, including neighborhood shopping, general business, office, clean technology, and industrial/research and development.	
	Action 3: Develop and adopt a standard for a walkable distance from housing to parks.	a	Action 2: Ensure that rezoning of industrial or commercial areas and sites will not significantly hurt the community's economic base	
	POLICY 68: Protect creeks and wetlands as important parts of the City's natural environment and open space and for their contribution to flood control		Action 3: Encourage independent local businesses.	
	Action 1: Work with other agencies to maintain creeks and wetlands in their natural state		Action 4: Support a seamless development review process.	
	Action 2: Work with appropriate agencies to identify creek channels and wetlands to use as recreational areas.		Action 5: Expand the One Stop Permit Center and reflect "time to market" needs of business.	
	Action 3: Minimize or divert pollutants from draining into creeks and wetlands by enforcing best management practices during construction and site development.		POLICY 83: Encourage land uses that generate revenue, while preserving a balance with other community needs, such as housing.	
	POLICY 69: Engage in regional efforts to enhance and protect land use near streams and to respond to sea level rise and climate		Action 1: Monitor revenues generated by different economic sectors on an ongoing basis.	
	Action 1: Maintain and regularly review and update a streamside development review and permitting process		POLICY 84: Create a strong, identifiable Downtown that provides regional and citywide shopping opportunities and entertainment	
	Action 2: Apply development standards provided by SCVWD.		POLICY 85: Maintain an adequate supply of land zoned for office, industrial, and retail development to meet projected needs.	
	Action 3: Streamside development review shall be conducted as part of a building permit plan check process, design review, miscellaneous plan permit, and/or the		POLICY 86: Provide quality neighborhood, community, and regional retail centers/uses to meet the needs of residents.	
	discretionary review process. Action 4: Minimize effects of development on the natural streambeds.		Action 1: Track retail leakage to encourage businesses that meet missing retail needs.	
	Action 5: When opportunities exist, remove existing structures adjacent to streams that impact the streambed.		POLICY 87: Consider the importance of tax generation (retail, hotel, auto, and business-to-business uses) to support the fiscal health of the community and fund municipal services.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General
	GOAL I: SUPPORTIVE ECONOMIC DEVELOPMENT ENVIRONMENT An economic development environment that is supportive of a wide variety of businesses and promotes a strong economy within existing environmental, social, fiscal and land use constraints.	Plan to Draft I	Goal K: Protected, Maintained, and Enhanced Commercial Areas, Shopping Centers, and Business Districts: Achieve attractive commercial centers and business districts and buildings that are maintained and allow a full spectrum of businesses that operate unencumbered.	Plan to Draft 2

	POLICY 75: Encourage creation or installation of pilot programs for emerging industries in both private and public facilities.		buildings. Action 2: Promote commercial uses and designs that mitigate a boxy appearance or mass of large buildings (e.g., wall offsets, building articulation, or pedestrian scale	
	POLICY 76: Support a variety of land and building ownership forms, including business condominiums, planned developments and more traditional single owner developments.		Action 3: Promote distinctive and well-coordinated master sign programs for commercial centers and downtown.	
	POLICY 77: Attract and retain a diversity of commercial enterprises and industrial uses to sustain and bolster the local economy and provide a range of job opportunities.		Action 4: Develop a toolkit that addresses the pedestrian focus of shopping areas by encouraging pedestrian-oriented architecture that addresses the street (e.g., uniform setbacks, continuous building façades, building articulation, and appropriate signage).	
	Action 1: Promote a variety of commercial, retail, and industrial uses, including Neighborhood Shopping, General Business, Office, Clean Technology, and Industrial/Research and Development.		POLICY 92: Support convenient neighborhood- serving commercial centers that provide services that reduce automobile dependency and contribute positively to neighborhood character.	
	Action 2: Ensure that rezoning of industrial or commercial areas and sites will not significantly hurt the City's economic base.		POLICY 93: Support a regional commercial district in Downtown Sunnyvale.	
	Action 3: Encourage independent local businesses.		POLICY 94: Promote continuous reinvestment in shopping centers through maintenance, revitalization, and redevelopment	
	Action 4: Support a seamless development review process.		Action 1: During the development review process, work with owners of older shopping centers to revitalize façades and bring other site standards up to code.	
	Action 5: Expand the One Stop Permit center and reflect "time to market" needs of business.		Action 2: Consider providing incentives for renovating and upgrading the appearance of existing older shopping centers, such as a façade improvement grant program and similar economic development tools.	
	POLICY 78: Encourage land uses that generate revenue, while preserving a balance with other City needs, such as housing		Action 3: Utilize neighborhood enhancement programs and code enforcement to achieve maintenance at shopping centers that are neglected.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
	Action 1: Monitor revenues generated by different economic sectors on an on-going hasis	Plait to Diait 1	Action 4: Require increased landscaping, tree planting, and internal sidewalks when considering a revitalized or redeveloped shopping center	Flair to Drait 2
	POLICY 79: Create a strong, identifiable Downtown that provides regional and citywide shopping opportunities and entertainment.	2	POLICY 95: Require high design standards for office, industrial, and research and development buildings in all business districts.	
	POLICY 80: Maintain an adequate supply of land zoned for office, industrial and retail development to meet projected needs.		Action 1: Utilize adopted City design guidelines to achieve compatible architecture and scale for renovation and new development in business areas.	
	POLICY 81: Provide quality neighborhood, community and regional retail centers/uses to meet the needs of residents.		Action 2: Maintain and review, as needed, criteria for superior quality architecture, landscaping, and site development for office, industrial, and research and development projects that request to develop beyond	
	Action 1: Track retail leakage to encourage businesses that meet missing retail needs.		standard floor area ratio limits. Action 3: Carefully review the impacts, such as noise, odors, and facility operations, of commercial, office, and industrial uses and development adjacent to residential	
	POLICY 82: Consider the importance of tax generation (retail, hotel auto and business-to business uses) to supports fiscal health of the City and to fund municipal services.		POLICY 96: Maintain areas of Class B and C buildings to support all types of businesses and provide a complete community.	
	GOAL K: PROTECTED, MAINTAINED AND ENHANCED COMMERCIAL AREAS, SHOPPING CENTERS AND BUSINESS DISTRICTS Achieve attractive commercial centers and business districts and buildings that are maintained and to allow a full spectrum of businesses that		Goal L: Special and Unique Land Uses to Create a Diverse and Complete Community: Provide land use and design guidance so that special and unique areas and land uses can fulfill their distinctive purposes and provide a diverse and complete community fabric.	!
	characteristics and business aspects and protect the uniqueness and integrity of all the City's business areas and districts.		POLICY 97: Prepare specific area plans and special zoning tools (including but not limited to specific plans, precise plans, design guidelines, specialized zoning, and sense of place plans) to guide change in areas of the planning area that need special attention.	
	POLICY 84: Improve the visual appearance of the City's business areas and districts by applying high standards of architectural design, landscaping and sign standards for new development and the re-use or remodeling of existing buildings.		POLICY 98: Support the following adopted specialized plans and zoning tools, and update them as needed to keep up with evolving values and new challenges in the community: Downtown Specific Plan, Lakeside Specific Plan, Precise Plan for El Camino Real, Moffett Park Specific Plan, Peery Park Specific Plan, Lawrence Station Area Plan. (See	
	Action 1: Promote land use patterns and urban design that strengthens the sense of uniqueness within existing and new business areas and districts.		Figure 3 99:0 Plans) Se special area plans to guide land use and development in areas that support alternative travel modes, Village Centers, economic development, and a better jobs/housing ratio.	
	Action 2: Look for opportunities to create points of entry to or gateways to unique business areas and districts.		Action 1: Maintain Sense of Place plans that provide more focused policies and development standards to giude future land use and transportation decisions.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
		Plan to Drait 1	Action 2: Prepare a special area plan for each of the Village Centers to provide focused land use, transportation, and design standards, policies, and guidelines.	
	Action 3: As needed, create and update land use and transportation policies, architectural and site planning guidelines, regulations and engineering standards that respect community and neighborhood identities and protect quality design.		Policy 100: Use specialized zoning districts and other zoning tools to address issues in the community, and update as needed to keep up with evolving values and new challenges in the community.	
	Action 4: Establish and monitor standards for property appearance and maintenance.		POLICY 101: Use the Industrial-to-Residential (ITR) combining district to help meet the community's housing needs for all ages and economic ectors and balance its use with maintaing a healthy economy and employment base. ITR zoming allows industrial/commercial/office uses to continue as conforming uses while an area transitions to residential uses. ITR areas include Tasman Crossing, East Sunnyvale, te Lawrence Sation Area, the Evelyn Corridor (Fair Oaks at Wolfe), and Fair Oaks Junction.	
	Action 5: Promote and support programs that result in the maintenance and rehabilitation of existing properties.		Action 1: Update the Zoning Code to indicate that once a site zoned ITR has transitioned to residential use (or other use only allowed in a residential zoning district), it cannot be returned to industrial use	
	Action 6: Develop special area plans and neighborhood preservation programs to guide change in business area and districts that need special attention.  POLICY 85: Use density and design principles, such as physical transitions, between different land uses, and to buffer between sensitive		Action 2: During transition from industrial to residential uses, anticipate and monitor compatibility issues between residential and industrial uses (e.g., noise, odors, hazardous materials).  Action 3: Incorporate "sense of place" requirements for new ITR areas in order to enhance the residential feeling of new neighborhoods by requiring pedestrian, bicycle, and	
	uses and less compatible uses.  Action 1: When making land use decisions, anticipate and avoid whenever practical the incompatibility that can arise between dissimilar uses such as the encroachment of residential uses into business areas.		streetscape enhancements that reflect the unique character of each new neighborhood.  Action 4: Rezone transitioned neighborhoods from ITR to appropriate residential zoning after 75% of the land area has been redeveloped with residential use.	
	Action 2: Require that commercial activities near or adjacent to residential uses be conducted with minimally invasive exterior		Action 5: Consider sense of place or pedestrian circulation plans to address access in ITR neighborhoods.	
	POLICY 86: Support a full spectrum of conveniently located commercial uses and shopping centers that add to the positive image of the City.		POLICY 102: Ensure that Industrial uses in the ITR generally do not intensify beyond the base floor area ratio of 35% allowed in the zoning district (including any incentives to allow higher-intensity development).	
	image of the City. Action 1: Utilize adopted City design guidelines to achieve compatible architecture and scale for renovation and new development in Sunnyvale's shopping centers and commercial buildings.		allow higher intensity development). POLICY 103: Balance the need for additional residential uses with industrial uses needed for a healthy economy.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
	Action 2: Promote commercial uses and designs that mitigate boxy appearance or mass of large buildings (e.g. through wall offsets, building articulation or pedestrian scale design).	TIGHT OF DISECT	Action 1: Require any future study to change from industrial to residential shall include a full evaluation of the economic and fiscal impacts of converting an industrial area to residential uses, including the potential impacts on community facilities, municipal services, and schools.	Tion to Drait 2
	Action 3: Promote distinctive and well- coordinated master sign programs for commercial centers and downtown.		POLICY 104: Ensure that development projects provide appropriate improvements or resources to meet the future infrastructure and facility needs of the City, and provide development incentives that result in community benefits and enhance the quality of life for residents and workers.	
	Action 4: Develop a Tool Kit that addresses the pedestrian focus of shopping areas by encouraging pedestrian oriented architecture that addresses the street (e.g. through uniform setbacks, continuous building facades, building articulation and appropriate signage).		Action 1: Update development impact fees periodically to provide fair-share funding for transportation, utilities, parks, and other public improvements and to address community needs such as affordable housing.	
	POLICY 87: Support convenient neighborhood- serving commercial centers that provide services that reduce automobile dependency and contribute positively to neighborhood		Action 2: Establish zoning incentives, density bonuses, or other land use tools where higher development potential may be allowed based on contributions toward desired community benefits.	
	POLICY 88: Support a regional commercial district in Downtown Sunnyvale.		Action 3: Include a discussion of community benefits in area plans and specific plans that defines the City's priorities and outlines an implementation program.	
	POLICY 89: Promote continuous reinvestment in shopping centers through maintenance, revitalization and redevelopment.		POLICY 105: Support the provision of a full spectrum of public and quasi-public services (e.g., parks, day care, group living, recreation centers, religious institutions, schools, hospitals, large medical clinics) that are appropriately located in residential, commercial, and industrial neighborhoods and ensure that they do not have a negative effect on the surrounding area.	
	Action 1: During the development review process work with owners of older shopping centers to revitalize facades and bring other site standards up to code.		Action 1: Encourage carpooling, shuttles, and transit access to public and quasi-public services to minimize adverse traffic and parking impacts on neighborhoods.	
	Action 2: Consider providing incentives for renovating and upgrading the appearance of existing older shopping centers, such as a façade improvement grant program and similar economic development tools.	f	Action 2: Ensure the provision of bicycle support facilities at all major public use locations.	
	Action 3: Utilize neighborhood enhancement programs and code enforcement to achieve maintenance at shopping centers that are neglected.		POLICY 106: Encourage multiple uses of public and quasi- public facilities (e.g., religious institutions, schools, social organizations, day care), such as community events, after- school programs, and festivals.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
	Action 4: Require increased landscaping, tree planting and internal sidewalks when considering a revitalized or redeveloped	1011001011	POLICY 107: Maintain and promote conveniently located public and quasi-public uses and services that enhance neighborhood cohesiveness and provide social and recreational opportunities.	Thirty State 2
	shopping center. POLICY 90: Require high design standards for office, industrial and R&D buildings in all business districts of the City.		POLICY 108: Recognize child care and places of assembly as essential services and land uses that support the diverse needs of the community. Avoid locating these sensitive uses near hazardous materials, noise, dust, etc.	
	Action 2: Maintain and review as needed criteria for superior quality architecture, landscaping and site development for office, industrial and R&D projects that requests to develop beyond standard codes for floor area ratios.		Action 1: Periodically review the availability and demand of sites appropriate for places of assembly and consider expanding available sites if appropriate.	
	Action 3: Carefully review the impacts of commercial/office/industrial uses and development adjacent to residential areas such as noise, odors and facility operations.		POLICY 109: Locate place of assembly uses where they provide benefit to the community and do not adversely impact nearby uses.	
	POLICY 91: Maintain areas of Class B and C buildings to support all types of businesses and provide a complete community.		Action 1: Maintain zoning tools to limit the locations and type of places of assembly in industrial areas.	
	GOAL L: SPECIAL AND UNIQUE LAND USES TO CREATE A DIVERSE AND COMPLETE COMMUNITY Provide land use and design guidance so that special and unique areas and land uses can fulfill their distinctive purposes and provide a diverse and complete community		POLICY 110: Allow community-serving places of assembly in commercial zoning districts if the provision of a full range of conveniently located retail and retail services is not compromised.	
	fapoliticy 92: Prepare specific area plans and special zoning tools (including but not limited to Specific Plans, Precise Plans, Design Guidelines, specialized zoning, and Sense of Place Plans) to guide change in areas of the City that need special attention.		POLICY 111: Recognize schools, both public and private, as integral parts of the community that require special consideration to manage traffic, support residential development, and provide open space.	
	POLICY 93: Support the following adopted specialized plans and zoning tools, and update as needed to keep up with evolving values and new challenges in the community: Downtown Specific Plan, Lakeside Specific Plan, Precise Plan for El Camino Real, Moffett Park Specific Plan. (See Figure 3-5 Area Plans)		Action 1: Work with school districts and private school operators during and after the City review and permitting process to minimize negative effects on the surrounding area.	
	POLICY 94: Use special area plans to guide land use and development in areas that contribute support to: alternative travel modes, village centers, economic development and a better jobs/housing ratio.		Action 2: Maintain a working relationship with school districts on transportation, pedestrian and bicycle access, safe routes to school, and other neighborhood issues.	

Adopted General Plan	Draft 1- Horizon 2035	Relation of Adopted General Plan to Draft 1	Draft 2	Relation of Adopted General Plan to Draft 2
	Action 1: Prepare special area plans for the following areas to provide more focused policies and development standards to guide future land use decisions: Peery Park, Lawrence Station, and new Industrial to Residential study areas (ITRs) including an expanded East Sunnyvale ITR.		Action 3: Assist public and private schools in neighborhood relations regarding land use and transportation issues.	Plan to Draft 2
	POLICY 95: Use specialized zoning districts and other zoning tools to address issues in the community and update as needed to keep up with evolving values and new challenges in the community.		Action 4: Work closely with school districts to review the impacts of proposed residential development on school capacity and facilities.	
	POLICY 96: Use the Industrial-to-Residential (ITR) zoning to help meet the City's housing needs for all ages and economic sectors and balance its use with maintaining a healthy economy and employment base. ITR allows industrial/commercial/office uses to continue as conforming uses while an area transitions to residential uses. ITR areas include Tasman Crossing, East Sunnyvale, Futures 4a, Futures 4b and Futures 6a.		POLICY 112: Support continuous education (beyond grades K–12) and educational enrichment programs while minimizing impacts on the surrounding land uses.	
	Action 1: Update zoning code to indicate that once a site zoned ITR has transitioned to residential use (or other use only allowed in a residential zoning district) it cannot be returned to industrial use.		POLICY 113: Give due consideration to the location and operation of government uses in order to provide benefit to the greater community.	
	Action 2: During transition from industrial to residential uses anticipate and monitor compatibility issues between residential and industrial uses (e.g. noise, odors and hazardous materials).		Action 1: Maintain and plan for appropriate land areas to support public facilities, including facilities such as the civic center, library, corporation yard, and water pollution control plant. Promote colocating government (federal, state, county, city) activities when appropriate to improve access to the	
	Action 3: Incorporate "Sense of Place" requirements for new ITR areas in order to enhance the residential feeling of new neighborhoods by requiring pedestrian, bicycle and streetscape enhancements that reflect the unique character of each new		community at large MPromote co-locating government (federal, state, county, city) activities when appropriate to improve access to the community at large.	
	neighborhoods from ITR to appropriate residential zoning after 75% of the land area has been redeveloped with residential use.			
	Action 5: Consider sense of place or pedestrian circulation plans to address access in ITR neighborhoods.

1 1	Bernardo Caltrain Under- crossing	M. Pineda	TBD	Feasibility Study accepted by the City Council. Funds for 20% local matching funds must be identified before further project initiation. Project is included in VTP 2040. Project is currently un-funded. Grant application submitted to obtain funding for environmental review.	10/20/2016
2	Code of Ethics and Conduct	Shariat	Annual	Reviewed by BPAC during the January 2016 meeting	4/15/2016
3	Utility Bill Insert	Shariat	Annual	BPAC reviewed proof during June 2016 meeting, Scheduled to go out in July/Aug.	7/14/2016
4	Bike to Work Day	Shariat	Annual	Event held May 12, 2016 Two energizer stations: Wolfe and ECR, & Plaza del Sol (downtown Caltrain station)	7/14/2016
	Road Overlay, Slurry, Reconstruction & Chip Schedule	T. Pineda	Annual	Transmitted at Feb. 2016 BPAC meeting.	4/14/2016

Item #	Item	PR	Due Date (Approx)	Status	Last Updated
6	Community Design and Transportation (CDT) - Planning Grant Program	Abbas	Annual	Feasibility study/concept plan for the West Channel Trail corridor capital project approved by Council. East and West Channel trail concepts provided to SCVWD for inclusion in flood control project. City can't begin on trail projects until SCVWD is done with the flood control project. SCVWD plans to complete the project in 2017/2018.	4/14/2016
7	Safe Routes to Schools Projects	Price	Decign 2016	Safe Route to School Comprehensive Pedestrian Infrastructure Improvements project underway. Project funds is \$1.9 Million. Under design stage	4/14/2016

Item #	Item	PR	Due Date (Approx)	Status	Last Updated
8	Establishment of Bike Lanes on Mary Avenue (Fremont to Evelyn)	Werner	Construction Spring 2016	Under construction. Anticipated completion in November.	10/20/2016
9	One Bay Area Grants	Abbas	2016	Updates provided in May 2015.	6/12/2015
10	Priority Development Area Grants	Abbas, Uribe, Pineda, Zulueta	Fall, 2017	Space Allocaiton Study, Mathilda Avenue Plan Line, Precise Plan for El Camino Real update/EIR. Consultant selection complete and are in process. Mathilda Avenue Plan Line is completed, and space allocation study for El Camino Real is on hold.	
11	Old Mountain View-Alviso Road	Ng	Construction 2017	The City of Sunnyvale is currently designing a bridge replacement project on Old Mountain View-Alviso Road between Patrick Henry Drive and Reamwood Avenue. The proposed project will replace the existing bridge with a wider bridge structure that accommodates pedestrian and bicycle facilities. Construction is anticipated to last 9-12 months. To help facilitate construction and ensure pedestrian/bicyclist/motor safety, there will be temporary trail and road closures. The road closure is anticipated to last for 2-3 months and trail closure is anticipated to last for 3-4 months. Under design.	4/14/2016

December	<ul> <li>Final month for Annual Review of Code of Ethics and Conduct for Elected and Appointed Officials<sup>6</sup></li> <li>2017 Work Plan</li> </ul>

### Footnotes

1

Council Policy requires that all boards and commissions create an annual work plan, defined as a 12-month calendar of the policy issues the body will be acting on during the year. Since Council does not approve until February the issues it will ask each of the boards and commissions to study, these work plans can not be adopted by the boards and commissions until March.

2

May is the month for boards and commissions to perform an official review and to comment on the City Manager's recommended budget to Council—i.e., make recommendations to Council regarding priorities and service levels, fees, and/or capital projects. Given the budgetary process, the City Manager's recommended budget will typically not be ready for boards and commissions to review until shortly before the time that a recommendation is necessary from the advisory body---in other words, there will be a very short turnaround time for boards and commissions---in fact, often there is not enough time to perform a thorough review and get the results to Council without conducting a special meeting of the board/commission and subsequently sending the Chair or his/her designated representative to Council's public hearing to convey recommendations in person (waiting for the normal board/commission minutes to reach Council won't work). This underscores the importance of a board/commission being prepared to conduct its review—to understand its role, to know how to navigate the budget and be familiar with its contents---before the issue is brought before it in May.

Unless otherwise dictated by City Charter, each board and commission shall, within the month of July each year, or during the next regularly scheduled meeting if a July meeting is not otherwise necessary, elect one of its members as presiding officer, to serve commencing after the end of the meeting, upon completion of mandatory chair training and ideally in time to advise staff on the agenda for the next regularly-scheduled meeting. The Board of Building Code Appeals must meet in July to select a Chair and Vice Chair if no meetings if no meetings are scheduled in the future. The selection of Chair and Vice Chair shall be the last item on the agenda at the scheduled meeting. All boards and

commissions shall select their chair and vice chair in accordance with practices and procedures outlined by the Office of the City Clerk.

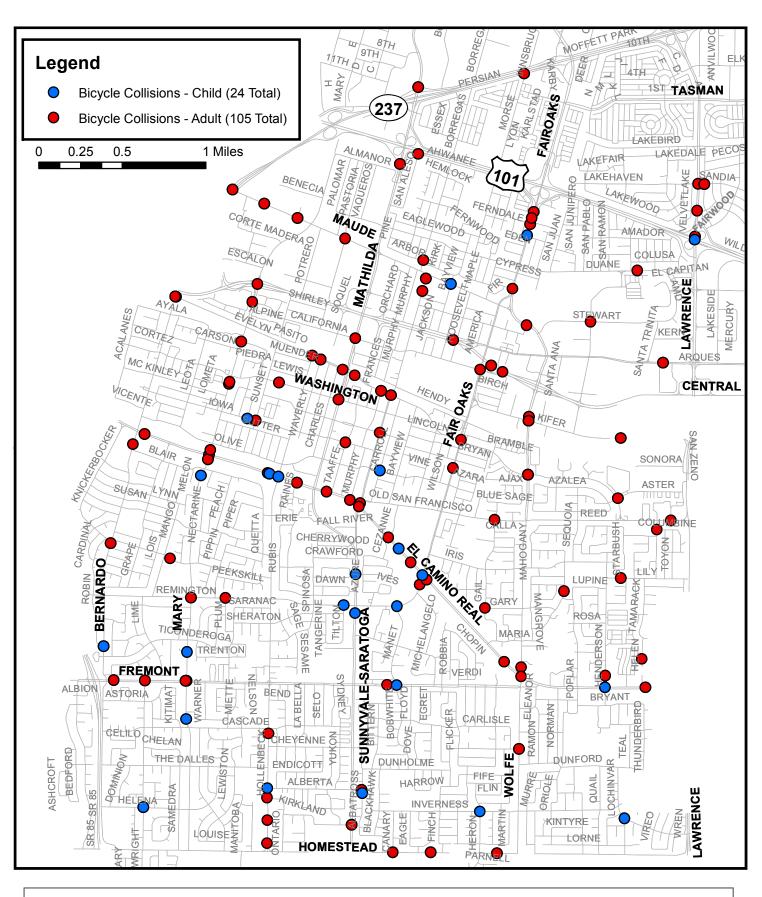

- Boards and Commissions may propose study and budget issues throughout the year. In order to be considered by Council for study in the following year, however, all study issues must be proposed by boards and commissions by no later than September. Any Study Issues proposed by a board/commission after September shall roll over to the next year's process (the only other recourse a b/c member has is to get Council to sponsor the Study Issue Paper). Study Issue papers must be signed by the City Manager prior to being ranked by a board or commission.
- Boards and Commissions must rank their study issues by no later than November of each year so that staff can complete the work necessary to add these issues to the list Council will consider for ranking early in the next calendar year. Chairs of boards and commissions are encouraged to attend the Council's public hearing on study/budget issues to champion the issues ranked and prioritized by their body.
- 6 All Boards and Commissions must review the City's Code of Ethics and Conduct for Elected and Appointed Officials annually near the end of the calendar year prior to Council review, and by no later than December.
