

RESPONSE TO COUNCIL QUESTIONS RE: 2/25/20 CITY COUNCIL AGENDA

Agenda Item #: 1.C

Title: Approve the List(s) of Claims and Bills Approved for Payment by the City Manager

Council Question: Please provide more information about the payment of \$1,438,889.50 to STC VENTURE LLC for Construction Services

Staff Response: The \$1.4M payment is the combination of reimbursement to STC Venture for the City's share of various Cityline projects: \$558K for cost of Sunnyvale Median improvements; \$250K for the Mathilda/Iowa Traffic Signal project; \$100K for the Mathilda/McKinley Traffic Signal and \$531K for the Mathilda/Washington Traffic Signal & Intersection project.

Council Question: What is the MidPen Housing "Outside Group Funding" cost of \$123,250.76?

Staff Response: This payment is to reimburse MidPen for the Persian Drive Sidewalk Project. Funding of this payment came from Community Development Block Grant funding.

Agenda Item #: 1.E

Title: Award of Bid No. PW20-07 to J. J. R. Construction, Inc. for Concrete Sidewalk, Curb, Gutter, Driveway Replacement and Tree and Stump Removal 2019 and Finding of California Environmental Quality Act (CEQA) Categorical Exemption

Council Question: Please provide a list of the 470 locations where work will be done. Assuming the contract is awarded, during which months will the work take place?

Staff Response: Locations are displayed in Attachment 1. Some locations may be added during construction and some may be removed depending on field conditions. The contract provides for a 170 working days, therefore construction is expected to run from May to December 2020.

Agenda Item #: 1.F

Title: Award of Contract to Siegfried Engineering, Inc. for the Lawrence Station Area Sidewalk and Bicycle Facilities Project and Determination of Proposal Non-responsiveness (F20-015)

Council Question: Is it possible to say when the bike lanes on Willow would be built after the completion of this design project?

Staff Response: The contract with Siegfried is to perform the engineering design and engineering services during construction for the bike lanes on Willow and for a study to complete bike path connections south of Reed Avenue. Public outreach to eliminate parking on the non-residential side of the street is included as part of the scope of the project. The proposal from Siegfried had a preliminary schedule showing the design phase to span from March 2020 through January 2021. The project has a federal funding component to it; therefore, staff will need to obtain Authority to Proceed (also known as E-76) for the construction phase of the project. Bid opening is tentatively scheduled for Spring 2021, with construction following in late Spring through Summer 2021.

Agenda Item #: 5**Title: Approve Recommendation of Public Art - Fair Oaks Park Renovation**

Council Question: The proposed art was for incorporating an “Old English Theme”. Is that the theme of the park after renovations and if so, are park buildings (not just art) trying to incorporate that theme?

Staff Response: The existing “Old English” theme for Fair Oaks Park will remain after the park renovations. The existing park building was updated recently and will not be included in the current renovation project.

Council Question: What other theme elements will be at Fair Oaks Park?

Staff Response: The most prominent use of the theme in the renovated park will be the playhouse in the new Magical Bridge Playground.

Council Question: For the Commission’s highest ranked item (Moore), I don’t see how the sports art relate to the “Old English Theme”. The art reflects the sports at the park, but not the theme. Does the art at existing Sunnyvale parks reflect the theme of that park.

Staff Response: The public art proposals for Fair Oaks Park are design concepts. The Arts Commission asked Mr. Moore how the pieces related to the theme and he replied “the connection with the old English theme is admittedly tenuous. My nod to the theme is in the finish of the pieces, connect the contemporary with old English (utilize techniques in the finish to be representative of old English).” Mr. Moore also stated in his presentation to the Arts Commission that he is flexible and open to suggestions as to what the specific figures should be (they don’t have to only be sports related figures), for example, there could be a knight in armor playing soccer. He wants his pieces to “absolutely be reflective of the community.” The selected artist will work with staff on the final public art design which will be provided to City Council as an information only item. Staff will ensure all are up to code and policy requirements are met.

Council Question: Could you remind Council about the theme of Sunnyvale’s parks (for those that have themes)?

Staff Response: Attachment 2 is the Directory of Parks, which lists the themes for every park. The only park to have a theme selected in the past 40 years has been Seven Seas Park. Generally, the theme of the park is represented in the artwork, playground components and in the example of Braly Park – the cherry trees donated by the Sister City Association of Iizuka, Japan.

Agenda Item #: 6**Title:** Approve Recommendation of Public Art - Washington Community Swim Center**Council Question:**

For the Art Commission's top two recommendations:

- The Hart proposal is one mosaic 18ft high by 5 ft wide.
- The Faducci proposal is for two interactive sculptures AND two mosaics.

What are the proposed dimensions of the two Faducci mosaics?

All proposals would be done under the \$135K budget?

Staff Response: Faducci provided the following dimensions for the sculptures and mosaics: Crocodile Pirate-7.5' wide x 3' tall x 3' deep, Octopus-10' wide x 5' tall x 6' deep, Ocean Panels (2)- @ 4' wide x 16' tall x 3" deep (3 sections). Yes, all artist's proposals are reflective of what they can produce for the \$135,000 commission.

Agenda Item #: Information Only**Title:** Notice of Public Works Director's Decision on Final Maps (Information Only)

Council Question: What was the proposal for 954 Henderson Avenue and 900 Henderson Avenue? These have been mobile home communities for an extended period of time, so what Final Map changes were being done?

Staff Response: These two mobile home parks are currently 100% rental (residents of these parks do not own their mobile homes). The final map allows the current owners to sell condominium type spaces for mobile home sites in the future. There are no immediate plans to sell any of the spaces.
