

Sunnyvale

1150-1170 Kifer Road
2022-7168

George Schroeder, Principal Planner
Planning Commission Study Session, January 9, 2023

Overview

- Special Development Permit and Tentative Parcel Map
- Proposed Project:
 - ◆ Construct an eight-story, 225-unit apartment building
 - Includes 36 low-income and 8 very-low income units
 - ◆ Parking structure within the first three levels
 - Existing offices would use two levels of parking structure
 - ◆ Relocate existing lot line
 - One lot each for offices and apartments

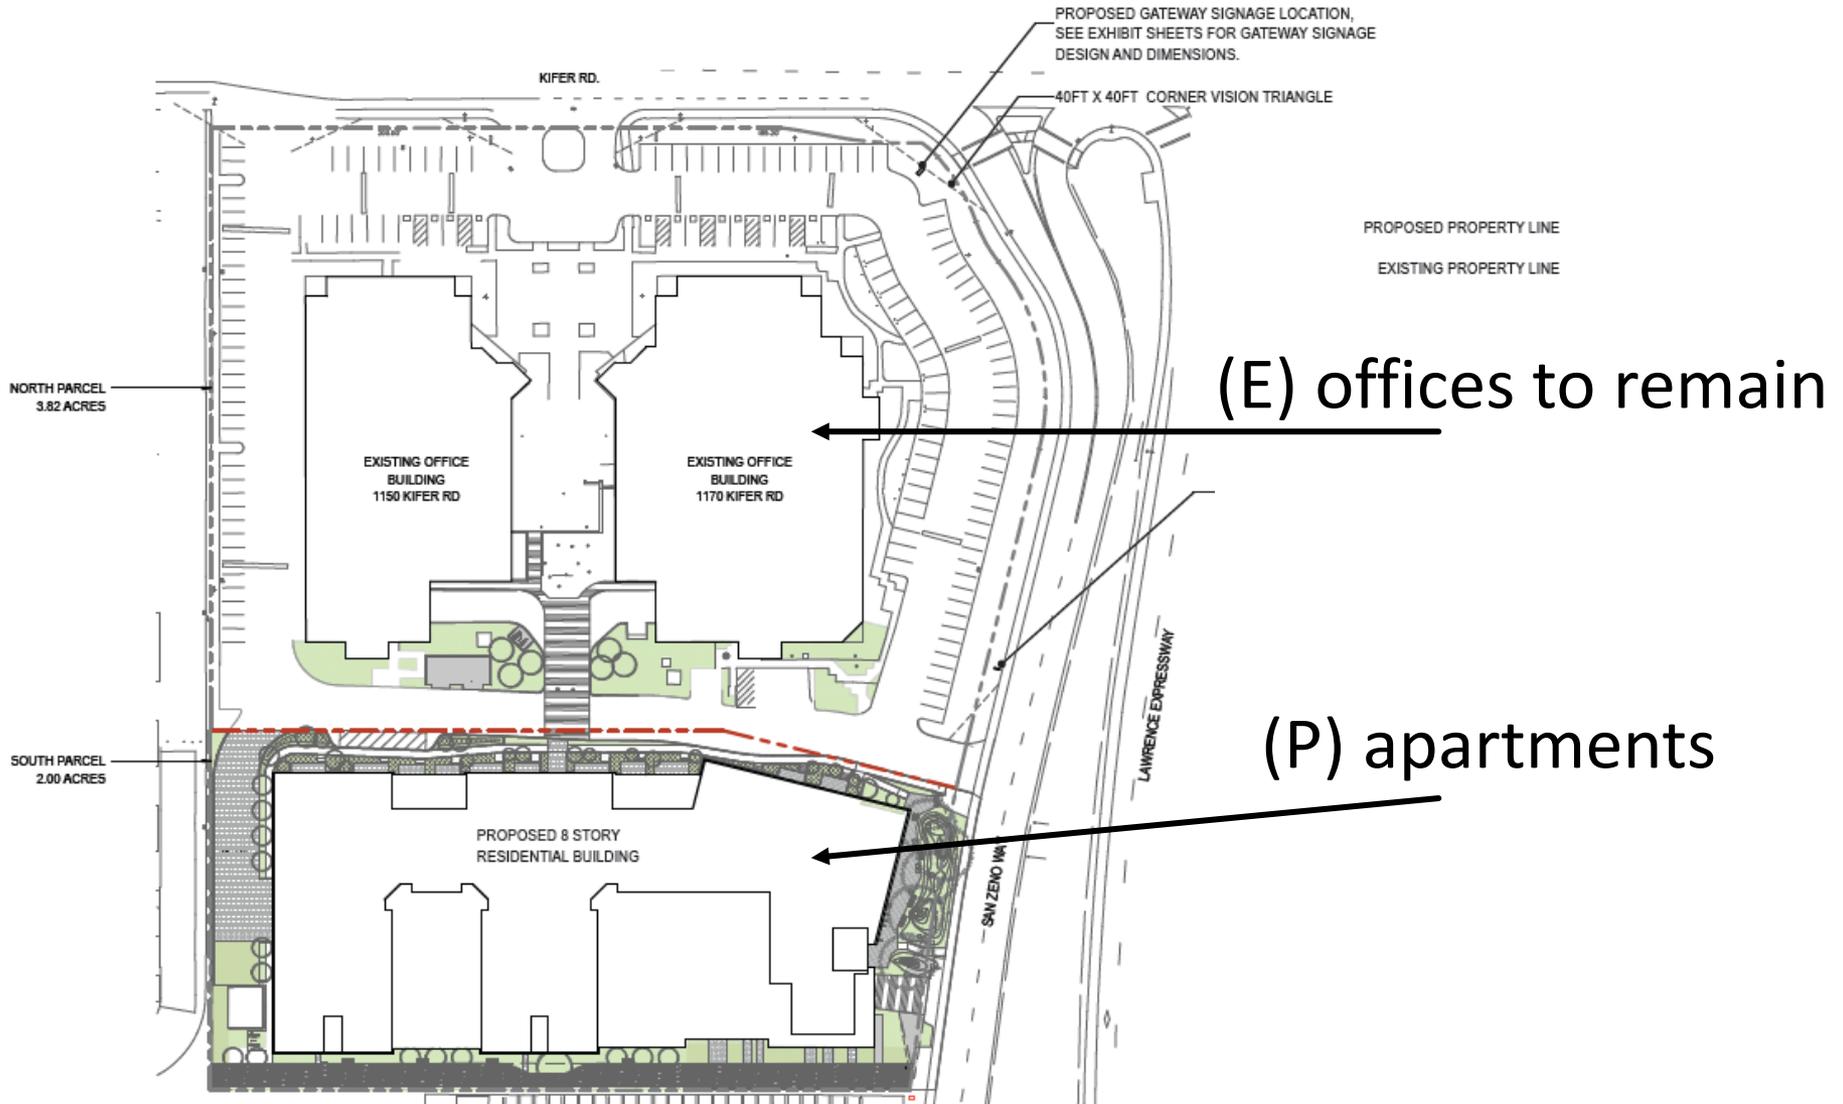

Background

- General Plan Designation: Transit Mixed-Use
- Specific Plan: Lawrence Station Area Plan (LSAP)
- Zoning: Flexible Mixed-Use I (MXD-I)
 - ◆ Residential:
 - Allowed: 45 du/ac (baseline)
 - ◆ Voluntary Incentives:
 - LSAP Incentives Program: up to 35 du/ac density incentive points
 - Green Building incentive
 - State Density Bonus
 - Proposed: 112.5 du/ac
 - ◆ Combination of LSAP incentives and State Density Bonus

State Density Bonus Waivers Requested

- Lot Width (188' when 200' is required)
- Building setback to shared-use path (6'-2" when 10' req)
- Nine LSAP Objective Design Guidelines
 - ◆ Parking access from side, rear, or interior drive aisle
 - ◆ Three vertical building modules, 15' wide x 5' deep
 - ◆ 15' x 15' wall recesses every 175 feet of wall plane
 - ◆ Reduce building height every 100' within 15' of height limit
 - ◆ Additional 15' building setback above 50' in height
 - ◆ Reduced floor plate sizes above 75'
 - ◆ Blank walls no greater than 30' along shared-use path
 - ◆ 20' x 20' wall recesses every 200' along shared-use path
 - ◆ 6' high exterior walls in parking structure

Feedback Requested

- Overall site and architectural design
- Upper floor cornice treatment
- West elevation articulation
