Summary of Key Changes to the Public Draft Moffett Park Specific Plan

On December 16, 2022, the City of Sunnyvale released the Moffett Park Specific Plan for public review. During the public review period, the City facilitated a series of meetings with the community, City Council, Planning Commission, property owners, and developers in Moffett Park. Additionally, the City received comment letters on the Specific Plan. A summary of the public meetings and links to the comment letters received by the City can be found at www.moffettparksp.com.

This document summarizes proposed changes to the Specific Plan in response to public comment. **This document does not contain all the proposed changes to the Specific Plan; rather it highlights key changes to the Specific Plan and describes why City staff recommend these changes.** To see a full list of comments on the Public Review Draft Specific Plan, City staff responses, and all proposed changes to the Specific Plan, please see **Appendix: Proposed Changes Matrix** for more details. City staff will also make non-policy or regulatory changes to the Specific Plan to address misspellings and typography, and to increase clarity for future readers. These changes are not included in this summary memorandum or in the Proposed Changes Matrix.

How This Summary is Organized

Proposed changes are organized by Specific Plan section or by a topic area that crosses multiple specific plan sections. After each section header, the summary includes a short narrative that describes the intent of the Specific Plan section and the requirements for new development. Then, at a high level, it describes some of the comments or questions raised during the comment period and City staff's recommended response. The narrative is followed by a table that highlights the proposed changes. The table includes the specific page number and section, background on City staff's response, and the proposed change to the Specific Plan. Within the "Proposed Change" column, modifications to Specific Plan text are denoted as: "**new text**" (in red) and "**removed text**" (in strike through). Revised maps or graphics have been included as appropriate after the table. Please note that this summary does not include all Specific Plan policies and standards, only those key changes that City staff recommends.
