

Little Tree Montessori International School

小樹苗蒙特梭利國際學校

Our History / Mission Statement

Growing Tree Learning Center was founded in 2004. In the following year, we established a sister school, Little Tree Bilingual Montessori Preschool. Currently, Growing Tree and Little Tree Schools have four campuses in Saratoga, Cupertino, and Campbell with a total capacity of approximately 500 students.

Our schools serve children from 2 to 6 years old. We offer full-day and half-day preschool programs. During the summer, we also offer summer programs with academic enrichment classes as well as art, music, culture, sports, and fun programs for the children.

We strive to offer high quality Montessori bilingual education to the local working families with young children. In our opinion, Montessori education program is one of the best programs for young children. It provides a rich developmental spectrum of growing the children's love of learning, independent thinking capacity, curiosity, and compassion toward others. Its international focus is a perfect fit for Silicon Valley's multicultural communities.

Growing Tree and Little Tree schools incorporate bilingual education into our everyday curriculum. At the preschool age, children learn a second language very easily. We believe that it is the ideal time to expose children to a second, or even a third language other than their mother tongue. During the day, our teachers and staff communicate with students in both Mandarin Chinese and English. Additionally, Little Tree Montessori School in Campbell began to offer Japanese enrichment classes this year. We hope that we can bring more languages and learning opportunities to our schools and provide a multicultural learning environment to the students.

Our schools are also involved in many community activities and services. We hold annual events for the children in our communities to bring local families together. We also hold fundraising events to give donations to the Red Cross for disaster relief, and each year we participate in the Second Harvest Bank food drives and Toys-for-Tots programs with the local charities as partners. Currently, we are also working to be in the Green-Biz program in the City of Cupertino to help conserve water, electricity and care for our environment.

We love our work and have a passion for working with children and actively participate in the community. Our staff work tirelessly to maintain our great schools and improve the educational programs. In the coming years, we will also continue to contribute to our community and advocate for its good causes.

We are very happy to have located a great facility in the city of Sunnyvale to start a brand new school here. We are confident that we will bring a wonderful and beautiful school environment that is trademark of our schools to the families in Sunnyvale.

Daily Schedule

Room 1, 3

Full day program

<AM 8:00~PM 5:30>

AM 8:00~9:00	Day care
AM 9:00-9:50	Work time
