<b>WATER AND SEWER CONNECTION FEES (cont'd.)</b>						
<p>(3) There is a reasonable relationship between the use of the fees, the need for a water system, a wastewater treatment plant, and the types of development projects upon which the fee is imposed. All development projects create varying needs for the consumption of water which cannot be fulfilled unless the project is connected to the municipal water system to assure an adequate supply of water to each project. Plus, each project creates a need for sewage conveyance, disposal and treatment. The degree to which each project is charged is based upon factors related to the degree of potential usage, such as: type and size of projects, number of units, and calculations of the escalated cost of the City's sanitary sewer system; the current system capacity; the cost of conveyance, treatment and disposal per equivalent single-family dwelling unit; and the estimated daily discharge for each facility to be connected to the sanitary sewer system, taking into account proportionate average daily discharge of sewage, total organic carbon, sewage, suspended solids, and ammonia nitrogen.</p> <p>The fees or charges shall be collected from the owner or developer of property either (1) prior to approval of the original connection of the property to the water or sanitary sewer system, or a redevelopment with incremental impact, or (2) in the event the uses being made of the property presently connected to the system are enlarged, added to, or further structures are constructed on the property.</p>						
<p>A. <u>Water Frontage Fee.</u> A frontage fee per lineal foot of frontage shall be paid by the owner or developer of property contiguous to a public right-of-way in which a water main (8" water line) has been installed or is to be installed without direct expense to the owner or developer other than payment of the charges specified herein. Frontage of corner lots, as the term "frontage" is used herein, shall mean the side of the lot to which the City has authorized a water connection.</p>
