Notes

1. FY 2004/2005 is the base year for the Balanced Growth Index. All revenues are converted to FY 2004/2005 dollars for comparison purposes.

2. This index only represents net new floor area, and does not reflect tenant improvements to existing floor area.

3. Data has been modified resulting in a decrease in base year, projections, and current year estimates. There is a significant challenge in finding reliable estimates of Sunnyvale jobs. This version of the Balanced Growth Profile provides Association of Bay Area Governments (ABAG) data from most recent publications while staff explores a more reliable annual estimate of jobs. Data for 2011 or 2012 is not yet available.

4. In a "balanced" growth scenario" each profiled item would increase 5% each year. Cumulative "balanced growth" to the end of 2013 would be 40%.
