RE: IDEC Corp.
1175 Elko Dr
Sunnyvale, Ca

1. The IDEC Campus is located in an industrial area. Public streets surround the campus with 3 out of 4 sides of the property. The East, South and West sides of the campus include Forgewood Ave. Elko Dr. and Anvilwood Ave. The North area of the campus has a neighboring building prohibiting installation of Turbines in this area.
2. The Location of the Turbines is on the IDEC campus behind locked gates. Once the aesthetically pleasing vertical wind Turbines are installed and operational, the energy produced will instantly offset the energy consumed from the utility company and lower the environmental impact of this building.
3. We would encourage any interested parties to install renewable energy sources as best suited for their property needs.

Kind Regards
Grant Gluck
