Hi Cindy,

Please remove us from the City Council Calendar.

I am sure the bigger projects will consume the most energy. By the time our turn comes the path of least resistance would be adopted.

We will work with a land use consultant to guide us.

Thanks,

Ashok

**Dear Cindy Hom/Andrew Miner:**

With regards to our application for General Plan Amendment that was received unfavorably by both the planning department and planning commission, we would like to request continuance and defer from the upcoming City Council meeting.

We would like additional time to engage consultants that would be better able to guide us on the feasibility of our objectives or suggest alternatives.

We are looking forward to meeting with City of Sunnyvale Economic Development agency as well to better align our visions for the subject property.

Sincerely,

**Ashok Killer**
