Methodology

The Portland State University (PSU) Survey Research Lab (SRL) conducted a combined mail and web survey of owners of Accessory Dwelling Units (ADUs), on behalf of the Green Building Program at the Oregon Department of Environmental Quality (DEQ), Portland's Metro regional government (Metro), and AccessoryDwellings.org. The goal of this survey was to learn about how ADUs are being used by owners in Portland, Eugene, and Ashland, Oregon. The survey was conducted from June 5 to August 11, 2013, and resulted in a total of 369 completed surveys, with 290 completed surveys from Portland, 49 completed surveys from Eugene, and 30 completed surveys from Ashland.

Background

The purpose of conducting this survey was to gain a better understanding of how ADUs are being used, who is using them, the financing mechanisms for them, and some energy usage and structural characteristics of them. Prior to conducting the survey, the SRL assisted representatives of DEQ, the City of Portland, Metro, AccessoryDwellings.org, Energy Trust of Oregon, the City of Eugene, and the City of Ashland with finalizing the survey instrument to ensure the items were accurately worded, skip patterns would correctly guide respondents through the survey, and the collected data would provide them with the information they needed to understand the current status of ADUs in Portland, Eugene and Ashland.

The survey included questions about past, current, and future ADU use; current occupant demographics and rental logistics; construction; energy use; and owner demographics. The final mail survey instrument can be found in Appendix C of this report. The survey instrument was also programmed into Qualtrics¹ web survey software, and testing was conducted to ensure appropriate wording of questions, correct functioning of all skip patterns, and the accurate recording of data.

Respondent Sampling

The target population for the survey included owners of ADUs in Portland, Eugene, and Ashland, Oregon. This included both owners who lived on the property where the ADU is located, owners who lived off the property, and registered businesses or property developers who owned properties with an ADU. Each city provided a list of names and contact information for ADU owners as found in building permit and tax records. There were initially 701 records for Portland, 104 records for Eugene, and 67 records for Ashland, for a total of 872 records. Because some individuals owned multiple properties with ADUs, each record in the list represented a single property with an ADU. From the original 872 records, 12 were removed due to incomplete addresses, or because the property was owned by a bank or city government, resulting in a final sample of 860 ADUs owned by 839 owners. The breakdown of the 860 total records included 689 from Portland, 104 from Eugene, and 67 from Ashland. Of those 860 ADU records, 68.8% were identified in the building permit and tax records as "owner-occupied", meaning they were located on properties where the owner lived. Within each city, the proportion of owner-occupied ADU records (i.e., prospective respondents who received the survey) was 64.7% (n=446) in Portland, 100% (n=104) in Eugene (where owner occupancy is required by code), and 62.7% (n=42) in Ashland.

¹ <http://qualtrics.com>

Targets were set for the number of completed surveys that would be large enough to confidently generalize the findings to the total population of ADUs in each of the three cities. These were calculated based on the total population size (Portland=689, Eugene=104, Ashland=67), the degree of accuracy desired in the results (i.e., sampling error, usually at $\pm 5\%$), the level of confidence that the data gathered from the sample is representative of the entire population (usually 95%) and how varied the population is expected to be (usually set at 50/50 to represent the widest variation). Using these factors, the targets for completed surveys were 248 for Portland, 82 for Eugene, and 57 for Ashland.

Respondent Recruitment

Target respondents were initially mailed an introductory letter informing them of the purpose of the survey and inviting them to participate. Respondents were told that the survey would be arriving in the mail a few weeks later, but that they could complete the survey immediately online by going to www.ADUSurvey.org and logging on with their Survey ID. This initial letter was mailed to the full sample of 839 owners. A total of three mailings were sent to potential respondents. The first mailing included the introductory letter, the second mailing included a cover letter and the survey instrument, and the third mailing included a reminder postcard. Each mailing also provided the link to take the survey online. If an introductory letter or survey mailing was returned with a forwarding address, the it was resent to the correct address. As responses came in to each round of mailing, they were tracked accordingly so the survey mailing and reminder postcards were sent only to those owners who had not yet completed the survey on paper or online.

Mailings were sent on the following dates:

Survey Mailings

Introductory Letter: Wednesday, June 5, 2013

Cover Letter & Survey Instrument: Friday, June 21, 2013

Reminder Postcard: Monday, July 8, 2013

There were 11 owners who owned multiple ADUs. These owners were sent modified introductory and survey cover letters that contained the Survey IDs for all of their ADUs, and received a separate paper survey for each ADU they owned in a single mailing packet. These mailings to multiple owners were sent a few days after the mailings for the individual owners. Due to printing and space constraints, these multiple ADU owners did not receive a reminder postcard.

The online survey went live on June 5, 2013, and concluded on August, 11, 2013. A total of 390 people responded to the survey by mail or online. Of those, 20 were removed from the final dataset because they did not provide complete data, resulting in a final count of 369 completed surveys across all three cities.

To help maximize the response rate, potential respondents were offered the opportunity to enter a drawing to win an Apple iPad Mini or a \$350 store gift card upon completion of the survey. Respondents could enter the drawing by filling out a separate slip of paper to be returned with the mailed survey instrument. Respondents who completed the survey online were automatically redirected to a separate form where they could enter their contact information to be entered in the drawing. The drawing was held on September 8, 2013.

Response Rates

The response rate is calculated by dividing the number of completed surveys by the total number of records that were eligible and deliverable. Table 1 below includes a list and frequencies of all final record dispositions for each city, and for all cities combined. The dispositions “Paper Complete” and “Web Complete” represent all completed surveys that are included in the results presented later in this report. “Paper Partial or Incomplete” include surveys that had one or more applicable sections of the survey left blank; these are excluded from the data results. The dispositions “Ineligible”, “Not current owner of property”, and “Mail returned to sender” are excluded from the response rate calculations. Table 2 presents the response rates for each city, and the total response rate for all cities combined. For additional context, Table 3 lists the proportion of completed surveys from owner-occupied properties by city.

Sampling Error

When estimating the sample size needed for a survey, one of the criteria included is the sampling error, also known as the margin of error. The sampling error is the level of accuracy we would like to have in the results. Once the survey is completed, though, the actual sampling error can be calculated. For this calculation, we used a confidence interval of 95%, maximum variation (50/50), and the sample sizes achieved. Based on those figures and the size of the population, the sampling error for the results of all cities combined and for each city are as follows:

Table 4: Sampling Error

City	Sampling Error
Portland	±4.38%
Eugene	±10.22%
Ashland	±13.43%
All Cities	±3.87%

These figures indicate the range we would expect the “actual” findings for the entire population of ADUs in each of the three cities, as well as all the cities combined. For example, we found that 91.0% of the Portland respondents had a completed ADU (Table 5). Using the sampling error in Table 4, we would expect the actual percentage of ADUs in Portland to be within ±4.38% of 91.0%, or within the range of 86.62% to 95.38%. This sampling error can be applied to each of the items within the survey for the Portland respondents; whereas, ±3.87% can be applied to the findings in this report for all three cities combined. Both of these sampling errors are small and within a reasonable range for generalizing to the respective populations. However, the sampling errors for Eugene and Ashland are much larger and suggest that the sample sizes for those two cities are not large enough to generalize to the respective populations with sufficient confidence. This commonly occurs with such small population sizes as we had with these two cities.

Notes on Data

The data presented on the following pages in this report include descriptive statistics for the City of Portland for all survey questions, as well as descriptive statistics for selected set of questions for all three cities combined. Due to the small final Ashland and Eugene sample sizes and relatively large margins of error, separate results for Ashland and Eugene are not included in this report.

This report is not intended to present any interpretation of the survey results. While reviewing these results, understand that further analyzing the data (e.g., intersecting selected items with each other using crosstabs) may provide a more detailed explanation of the results. It is also important to consider other information available that can provide context and further explain the findings. As needed and as more staff time comes available, DEQ will offer additional interpretation of these findings.

In this report, statistical tables are presented for each survey question. The header above each table includes the text of the original question, followed in parentheses by the question number and the “n” of each question. The “n” indicates the applicable sample size for each question – that is, the number of

respondents for whom the question was applicable. For questions where a numeric average is presented, the “n” represents the number of respondents who provided a valid response to that question.

A number of items in the survey instructed respondents to “check all that apply” from a series of options. For those items, all of the options are presented in one table, along with the respective frequencies and percentage of respondents who selected each option. Those tables do not include “total” frequency and percentage figures because they sum to totals beyond the sample size and greater than 100%.

Some survey questions were open-ended, or had “other” options where respondents could enter an open-ended response. These text responses are, for the most part, presented as they were written in by respondents. Where any text has been edited in these responses, it is presented as text in [brackets]. Editing was done in the following cases: To remove potentially personal or identifying information; to give similar answers across respondents the same wording to allow more accurate frequency counts; to shorten long or redundant responses for brevity and clarity. The original responses, excluding identifying information, are preserved in the final survey data file.

Dear <Mail_Name>,

I am writing to invite you to participate in a brief survey about [accessory dwelling units], known as [ADUs], in [City]. **The goal of this survey is to learn about how [ADUs] are being used in Portland, Eugene, and Ashland.**

This survey is being conducted by the PSU Survey Research Lab on behalf of the Green Building Program at the Oregon Department of Environmental Quality, Portland's Metro regional government, and AccessoryDwellings.org.

[ADUs] show great potential for meeting housing needs, and the results of this survey are key to understanding the role they can play in future regional housing. As an [ADU] owner **your feedback will help efforts to improve policies and incentives to support development of [ADUs] in the future.**

In a few weeks, you'll receive this survey in the mail. **You can complete this survey right now online** by going to the following website and logging in with the Survey ID listed below.

www.ADUSurvey.org

Survey ID: <ADU_PIN>

This survey will take about 10 minutes, and should be completed by you, or another owner who is familiar with the [ADU's] use and history. You were selected to participate in this survey because you are listed as the owner of a property that has a permitted [ADU] at: **<SITE ADDRESS>**.

This survey is completely voluntary and confidential. Your survey responses will not be connected with your name, your address, or the address of the [ADU].

We know your time is valuable, and your participation in this important survey is genuinely appreciated.

Sincerely,

Debi Elliott, Ph.D
Director, PSU Survey Research Lab

An [ADU] is a small, secondary living space on a single family lot that includes its own kitchen, bathroom, and living/sleeping areas.

(e.g., converted garage or shed; finished basement or attic; addition to a house or a new structure).

«MAIL_NAME»,

A couple weeks ago I wrote to invite you to participate in a brief survey about Accessory Dwelling Units, known as ADUs, in Portland. **Enclosed with this letter is your questionnaire along with a postage-paid return envelope.**

This survey is being conducted by the PSU Survey Research Lab on behalf of the Green Building Program at the Oregon Department of Environmental Quality, Portland's Metro regional government, and AccessoryDwellings.org. **The goal of this survey is to learn about how ADUs are being used in Portland, Eugene, and Ashland.**

ADUs show great potential for meeting housing needs, and the results of this survey are key to understanding the role they can play in future regional housing. Your participation is important, and will **help efforts to improve policies and incentives to support future development of ADUs.**

You can complete the questionnaire and return it in the envelope provided, or you may complete the survey online by going to the following website and logging in with the Survey ID listed below:

Appendix C: Survey Instrument

Accessory Dwelling Unit Survey

The purpose of this survey is to learn about how **Accessory Dwelling Units (ADUs)** are being used in Portland, Eugene, and Ashland, and to better understand the role they can play in future regional housing. It should be completed by you or another owner who is familiar with the use and history of the ADU that is listed in the letter included with this questionnaire.

Follow the **skip instructions** throughout the survey to answer the items that are applicable to you. For this survey, the term **ADU** will be used to mean "Accessory Dwelling Unit", "Accessory Residential Unit", and "Secondary Dwelling Unit".

Your responses are **voluntary** and **confidential**. **Questions?:** Contact Tara Horn at 503-725-8130, or srlweb@pdx.edu.

2. How is your ADU currently being used?

☐ As someone's primary residence, and is currently occupied

☐ As someone's primary residence, but is currently vacant

(Go to #2a)

☐ For short-term housing (less than 1 month stays)

☐ By the main house occupants as an extra room or workspace

☐ Not currently being used for anything

☐ Other: _____

(Skip to #3)

Primary Residence:

The place a person usually lives, sleeps, eats, and receives mail.

2a. If used as a primary residence, what best describes your situation?

☐ ADU is used as a primary residence year-round

☐ ADU is used as a primary residence seasonally or for only part of the year

☐ Other: _____

3. Regardless of current use, in the past 12 months, how many months has your ADU been occupied as someone's primary residence? _____ months

4. How have you used your ADU in the past? [Check all that apply]

☐ As someone's primary residence

☐ By the main house occupants as an extra room or workspace

☐ For short-term housing (less than 1 month stays)

☐ Other: _____

5. How are you planning to use your ADU in the future? [Check all that apply]

☐ As someone's primary residence

☐ By the main house occupants as an extra room or workspace

☐ For short-term housing (less than 1 month stays)

☐ Other: _____

NOT used as someone's primary residence

Section B: ADU OCCUPANCY

The questions below are aimed at gaining a better understanding of the people actually living in ADUs.

6. If your ADU is currently occupied, how many adults age 18 or older live there? _____ adults

7. How many children under age 18 live there? _____ children

8. In the table to the right, please fill in how many of the current ADU occupants are female and male in each age range.

	18-24 years	25-34 years	35-55 years	Over 55 years	Don't know
Female					
Male					

9. How long has the current occupant been living in the ADU? If there is more than one occupant, please think about the person who has lived there the longest.

- ☐ Less than 1 year
 ☐ 2 to less than 3 years
 ☐ Don't know
☐ 1 to less than 2 years
 ☐ 3 years or more

10. If there was not an ADU on your property, where would the current occupant(s) most likely live? [Check one]

- ☐ In the main house
 ☐ Other: _____
☐ In housing somewhere else in the city
 ☐ Don't know

11. In total, how many cars do the current ADU occupant(s) own? _____ cars ☐ None ☐ Don't know (Skip to #12)

11a. If the occupants do own cars, where do they usually park?

- ☐ On the street
 ☐ Other: _____
☐ Off the street (e.g. garage, driveway, parking pad)
 ☐ Don't know

12. Which of the following options best describes your relationship to the current occupant when they first moved into the ADU? [Check one]

- ☐ Family member
 ☐ Acquaintance
 ☐ ADU is occupied by another property owner
☐ Friend
 ☐ We didn't know each other
 ☐ ADU is occupied by myself (Skip to #15)
☐ Other: _____

If your ADU is currently vacant, answer questions #13 to #14a based on what you typically do when the ADU is occupied.

13. Do you charge the current occupant(s) of your ADU rent?

- ☐ Yes
 ☐ No ☐ Don't know (Skip to #14)

13a. How much rent do you receive monthly for your ADU? \$ _____

13b. If rent includes utilities, how much is the rent without utilities? \$ _____

14. Do you receive any services from the ADU occupant(s) in exchange for all or part of the rent (e.g. childcare, lawn maintenance)?

- ☐ Yes
 ☐ No ☐ Don't know (Skip to #15)

14a. What service(s) do you receive?

Section C: CONSTRUCTION

15. Which of the following best describes how you acquired your ADU? I purchased the house...

- ☐ with ADU already completed Skip to #21
☐ with the specific intent to build an ADU
☐ without any intent to build the ADU, but decided to build it later
 ☐ Other: _____

If your ADU is under construction, answer the following questions based on what you expect when the ADU is completed.

16. Who did the actual physical labor construction on your ADU? *[Check all that apply]*

- ☐ A paid contractor
 ☐ A paid friend or relative
 ☐ Myself or another owner of the property
☐ An unpaid contractor
 ☐ An unpaid friend or relative
 ☐ Other: _____
 ☐ Don't know

17. Who designed your ADU? *[Check all that apply]*

- ☐ A paid contractor
 ☐ An unpaid friend or relative
 ☐ Myself or another owner of the property
☐ An unpaid contractor
 ☐ A paid architect or designer
 ☐ Other: _____
☐ A paid friend or relative
 ☐ An unpaid architect or designer
 ☐ Don't know

18. Approximately how many unpaid hours were spent, by you or anyone else, constructing your ADU? _____ hours

19. How much did you or someone else pay for your ADU to be constructed?

Please include the costs for design, labor, materials, and permits. Your best estimate is fine. \$ _____

20. How did you finance the construction cost? *[Check all that apply]*

- ☐ Cash savings
 ☐ Loan from family member(s)
 ☐ Construction loan from bank
 ☐ Trade of services
☐ Home equity line of credit
 ☐ Credit card(s)
 ☐ Personal loan from bank
 ☐ Other: _____
☐ Refinance and cash out option based on main home value only
☐ Refinance and cash out option based on main home and future ADU value
☐ Purchased main home and constructed ADU with cash out option based on future property value

21. What is the approximate square footage of your ADU? _____ square feet

22. How many bedrooms does your ADU have? ☐ 0 (studio) ☐ 1 ☐ 2 ☐ 3 or more

23. Which of the following best describes the type of ADU you have?

ADU is attached to the main house as a/an...

- ☐ basement unit
☐ attached garage conversion
☐ attached addition to house
☐ converted attic or other internal space (not the basement)

ADU is detached from the main house as a/an...

- ☐ detached garage conversion
☐ addition above or beside an existing detached garage
☐ addition above or beside a new detached garage
☐ stand-alone detached unit

24. Regardless of how the ADU is currently being used, what was your primary reason for building the ADU or purchasing the property with an existing ADU? *[Check one]*

- ☐ Potential rental income allowed us to buy a house we could not otherwise afford
☐ Extra income from ADU rent
☐ Separate living space for household member or helper (e.g. adult child, nanny, or elder family member)
☐ Planned on building additional living space and decided to permit space as ADU to provide flexibility for future use
☐ Existing ADU was not a factor in our decision to buy the property
☐ Other: _____

25. What were the two biggest challenges you faced in building your ADU? *[Check up to two]*

- ☐ Obtaining financing
 ☐ Lot setbacks or height limits
 ☐ Design constraints or challenges
☐ Paying for the cost of construction
 ☐ Utility connections
 ☐ Minimum lot size (Eugene only)
☐ Permitting fees
 ☐ Minimum parking requirements (Eugene and Ashland only)
☐ Other: _____
 ☐ Don't know

Section D: ENERGY USE

The next series of questions is aimed at gaining a better understanding of how energy efficient currently built ADUs are.

If your ADU is under construction, answer the following questions based on what you expect when the ADU is completed.

26. Which utilities are metered separately, so the ADU gets its own bill? *[Check all that apply]*

☐ Electricity ☐ Natural gas ☐ Water ☐ Other: _____ ☐ None ☐ Don't know

27. Which of the following systems are shared between the ADU and the main house? *[Check all that apply]*

☐ Heating ☐ Hot water ☐ Other: _____ ☐ None ☐ Don't know

28. What types of energy-using appliances are located inside your ADU? *[Check all that apply]*

☐ Washer ☐ Dryer ☐ Dishwasher ☐ Refrigerator ☐ Stovetop or oven
☐ Water heater ☐ Gas fireplace ☐ Wall heaters (e.g. electric space heat, ductless heat pump)
☐ Central heating system (e.g. furnace) ☐ Other: _____ ☐ Don't know

29. What is your ADU's primary source of energy for...

Heating?	<input type="checkbox"/> Electricity	<input type="checkbox"/> Natural gas	<input type="checkbox"/> Liquid propane gas	<input type="checkbox"/> Fuel oil (kerosene)
	<input type="checkbox"/> Solar	<input type="checkbox"/> Wood or Pellets	<input type="checkbox"/> Other: _____	<input type="checkbox"/> Don't know

30. When the ADU was being built, what energy efficient features or equipment, beyond what was required by code, did you install? *[Check all that apply]*

☐ Did not incorporate any energy efficient features or equipment ☐ Windows ☐ Energy Star appliances
☐ Weatherization (e.g. air sealing, duct sealing, extra insulation) ☐ Water heating ☐ Heating equipment
☐ Lighting (e.g. compact fluorescent lights/CFLs, LEDs) ☐ Solar electric or photovoltaic (PV)
☐ Other: _____ ☐ Don't know

31. Approximately how many total light bulbs are installed in your ADU? _____ bulbs

32. How many of these are compact fluorescent light bulbs (i.e., CFLs or twisty bulbs) or LED light bulbs? _____ bulbs

Section E: Demographics

This final set of questions is for demographic purposes. Your responses will be combined with answers from other respondents.

33. What is your gender? ☐ Female ☐ Male ☐ Prefer not to answer

Appendix D: Reminder Postcard

Dear «MAIL_NAME»,

A few weeks ago, we invited you to participate in a brief survey about «TERM»s («ACRONYM»s). You should have received a **questionnaire** in the mail for you to complete. **Your participation is important, and will help efforts to improve policies and incentives to support future development of «ACRONYM»s. Complete the survey and you can enter to win an Apple iPad Mini or a \$350 store gift card!**

You were selected to participate in this survey because you are listed as the owner of a property that has a permitted «ACRONYM» at: «site_street».

If you have already completed and returned the survey, please accept our sincerest thanks. **If you have not responded yet, could you take a few moments to do so?** You can complete the survey and return it in the postage-paid envelope provided, or you may complete the survey online:

Survey ID: «ADU_PIN»

If you need a new survey mailed to you, or have questions, please call 503-725-5130.

This survey is being conducted by the PSU Survey Research Lab on behalf of the Green Building Program at the Oregon Department of Environmental Quality, Portland's Metro regional government, and AccessoryDwellings.org.

Sincerely,

Debi Elliott, Ph.D.
Director, PSU Survey Research Lab
