

# El Camino Real Corridor Plan Review of Images of Building Types

City Council Study Session, July 31, 2018 Andrew Miner, Assistant Director, Community Development

- Review proposed plan goals and standards
- Review potential development options
- Provide visuals of different development options
- Determine the appropriate development densities
  - Nodes
  - Segments

# **Plan Vision**

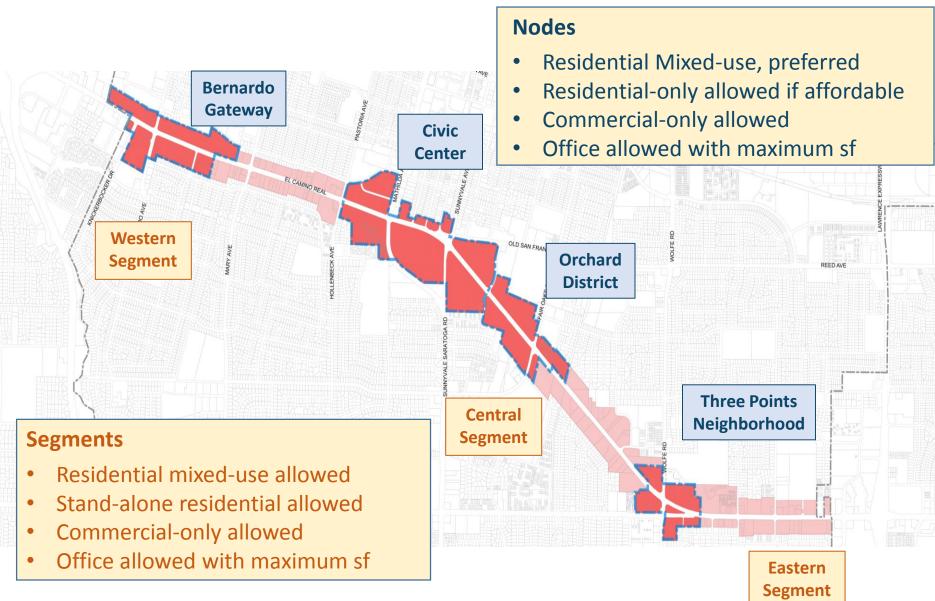

- Efficient circulation patterns
- Safe and convenient multi-modal access
- Appropriately scaled buildings that preserve the quality of life of adjacent neighborhoods and existing community assets
- Supportive environment for small and local businesses
- Housing opportunities that help meet the needs of the community
- New development will focus on supporting a sustainable community

# **Retail Goals**

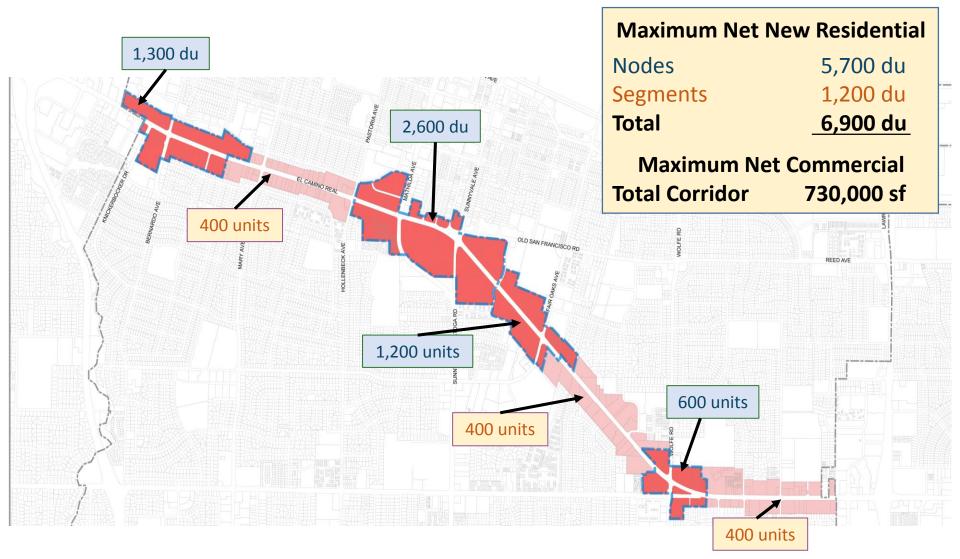

### **Three-Pronged Strategy for Retail**

- Create:
  - Pedestrian-oriented restaurant and retail street with a strong design theme
- Promote
  - High design furniture
  - Fixtures
  - Appliances
- Protect and Reinforce
- New Car Dealership sector

# **Corridor Goals**

## **Development Allowances and Incentives**

Maximum Net New Housing by District

# **Goals of Development Standards**

Plan should accomplish:

- How to meet plan vision
- Provide feasible development options
- Limit wholesale redevelopment
- Maintain commercial viability

## **Development Standards**

- Mixed-use with commercial component
- 16-18' commercial bay heights
- 15' front setback
- Setback on 4<sup>th</sup> floor and above
- 45 degree daylight plane
- Assumptions:
  - Podium parking
  - Average 1,000 sf residential unit size
  - 5-Story maximum

## Mixed Use

# **Building Examples**

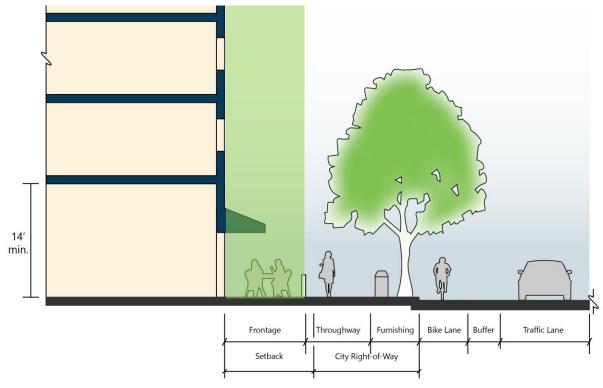

High bay retail

# High bay Visibility

## **Front Setback**

# Development Standard to Regulate Front Setback

- Setback Distance
- Non-building Use
- Design Amenities

# **Building Examples**

Street interface

### Active space

#### Passive space

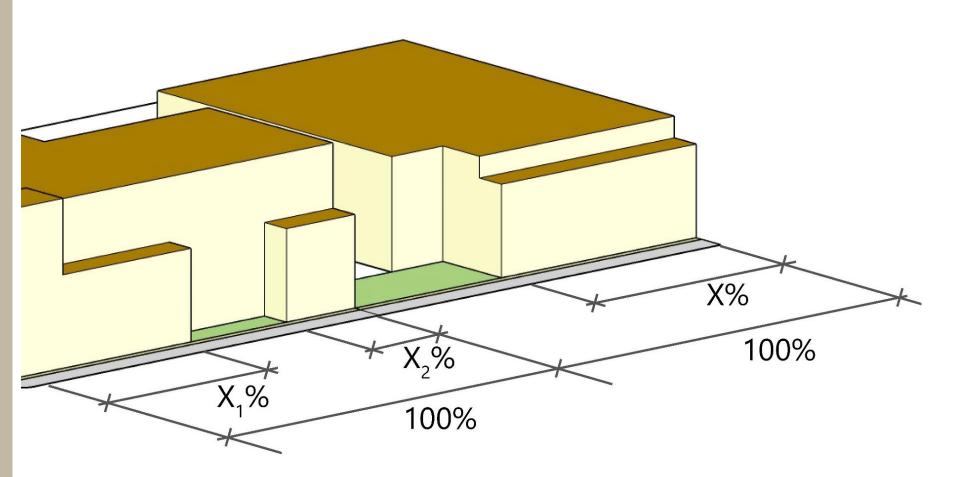

## Linear Massing Example

Verve (ECR in Mountain View)

Maximum Frontage at Build-To-Line

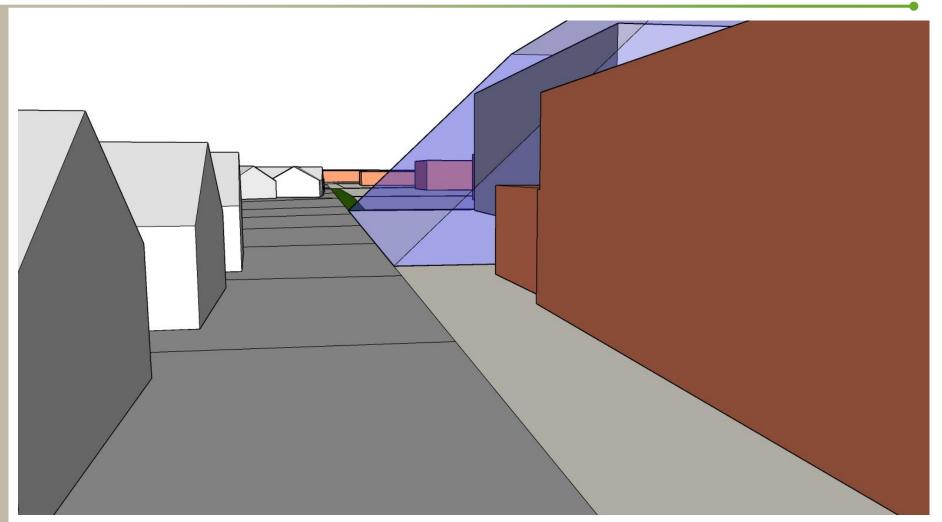

## Maximum Frontage at Build-To-Line

## Front Stepback

## Setbacks From Adjacent Residential

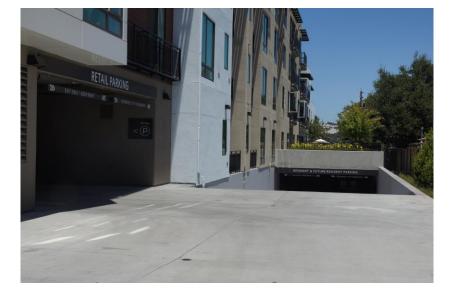

# **Building Examples**

Podium parking

## Podium and underground

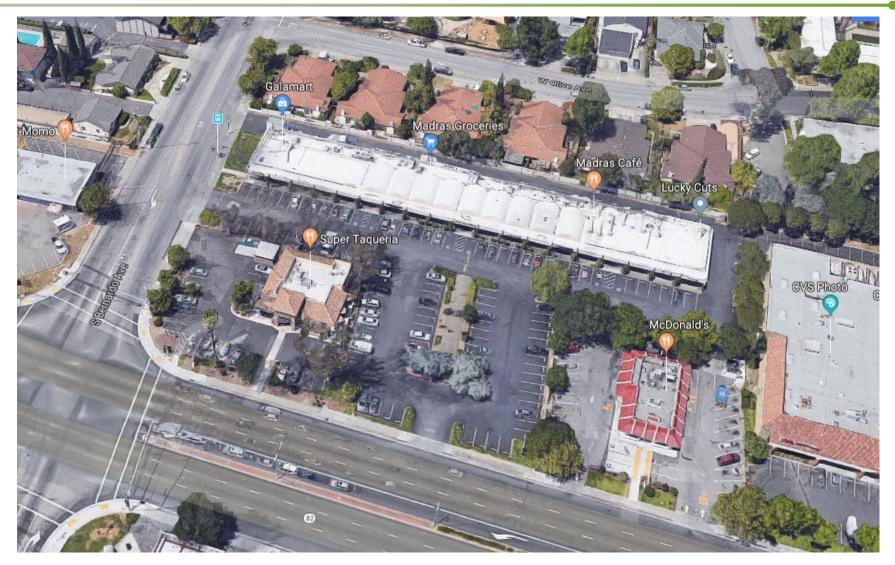

## Podium

# SITE 1 Node 1187 W. El Camino Real

## Area Context

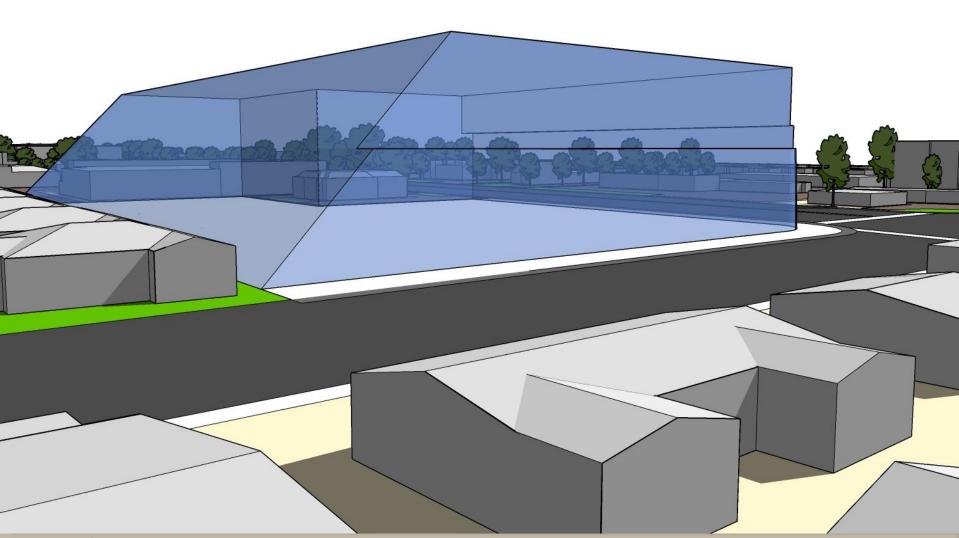

1187 West El Camino Real

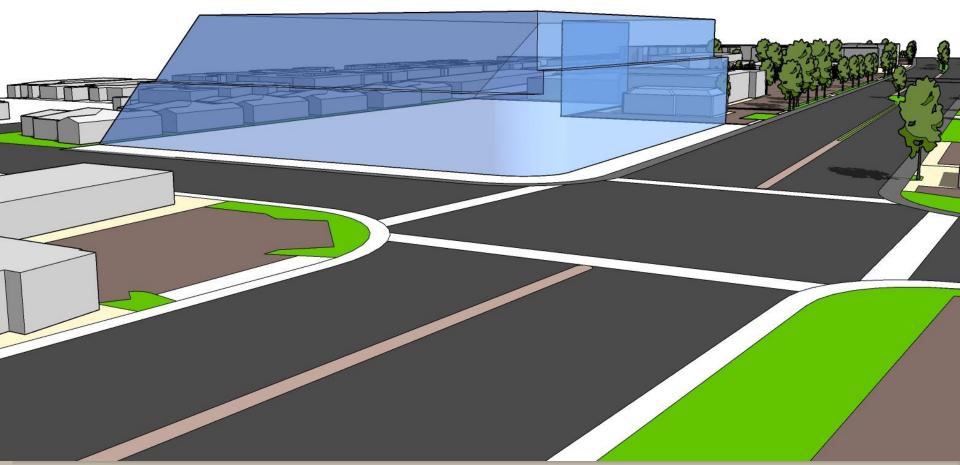

- 108,000 sf lot size (2.5 acres)
- Includes corner lot, not McDonalds
- 290' deep and 436' wide

Du/ac	36	54
<b>Commercial area</b>	20,000	20,000
# of units	90	134
Stories	3	4

City of Sunnyvale – El Camino Real Corridor Plan – July 2018

City of Sunnyvale – El Camino Real Corridor Plan – July 2018

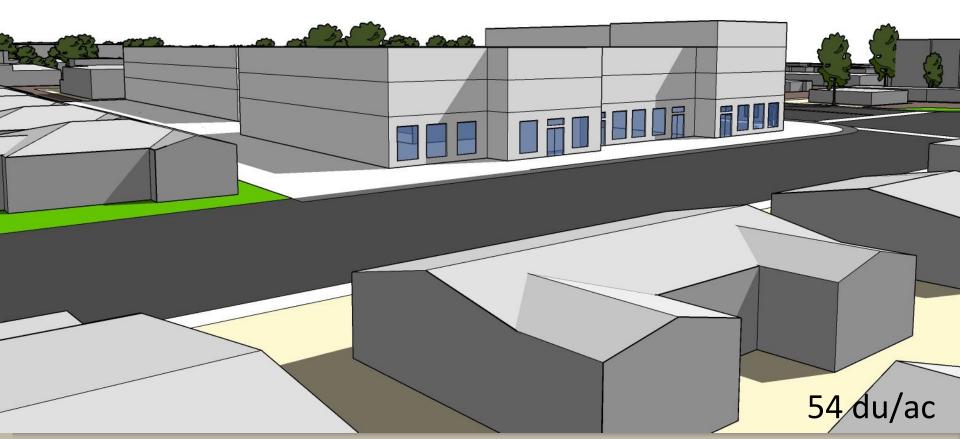

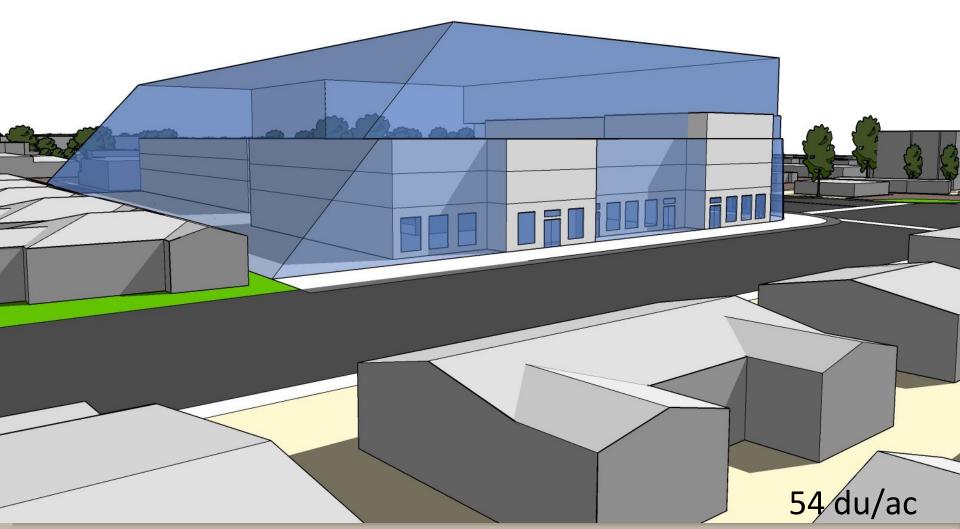

# SITE 2 Segment 922 W. El Camino Real

### Area Context

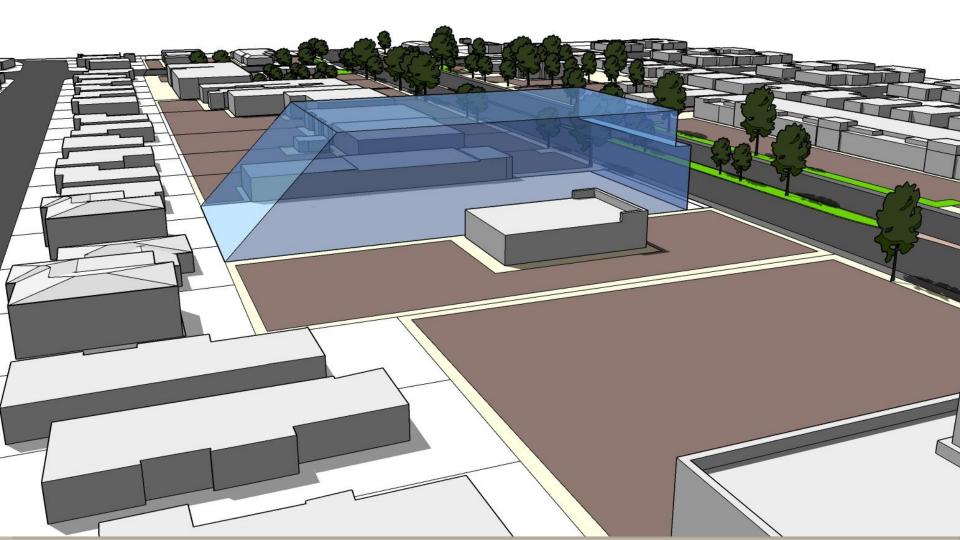

### **Example 2- Segment**

922 West El Camino Real

- 30,000 sf lot size (0.69 acres)
- Currently Firestone
- 265' deep and 112' wide

Du/ac	36	45
<b>Commercial area</b>	3,200	3,200
# of units	25	31
Stories	3	3-4

City of Sunnyvale – El Camino Real Corridor Plan – July 2018

## Recommendation

#### Considerations

- Not all properties will redevelop
- To meet goals, higher density on fewer properties
- Must include commercial in project
- Design policies and guidelines to control design
- Parking a limited factor
- Building types limiting factors
- Height at street to resolve adjacency concerns

# Build-out Based on Development Allowances

Area	Acres	Max units	All property redevelops (u/ac)	Half of the property redevelops (u/ac)
Nodes				
Bernardo	47	1300	28	54
Civic center	82	2600	32	63
Orchard	37	1200	32	67
Three points	25	600	24	50
Segments				
West	35	400	11	25
Center	49	400	8	16
East	45	400	9	17

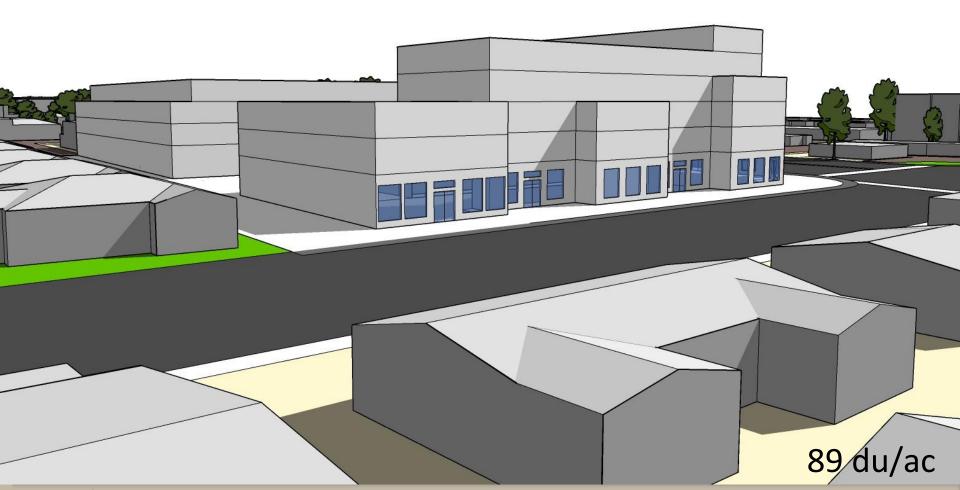

## Recommendation

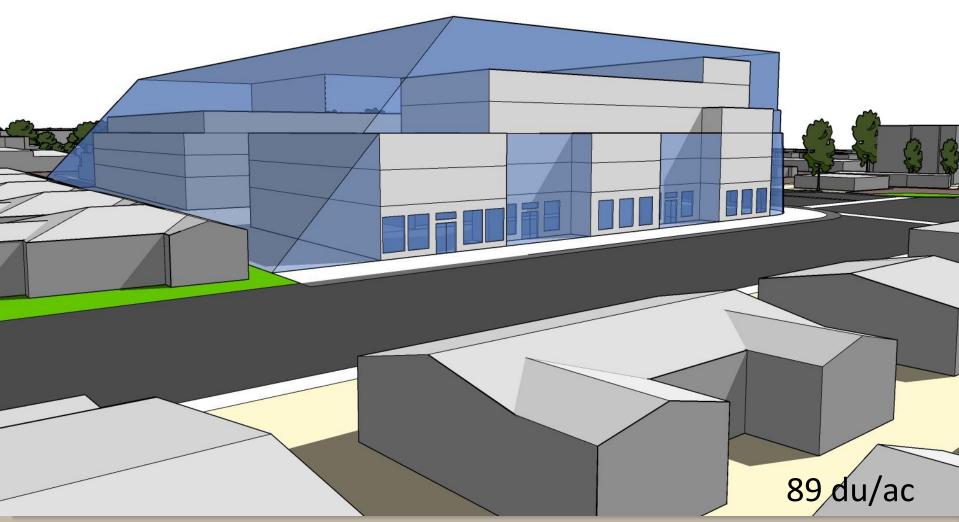

### Recommendation

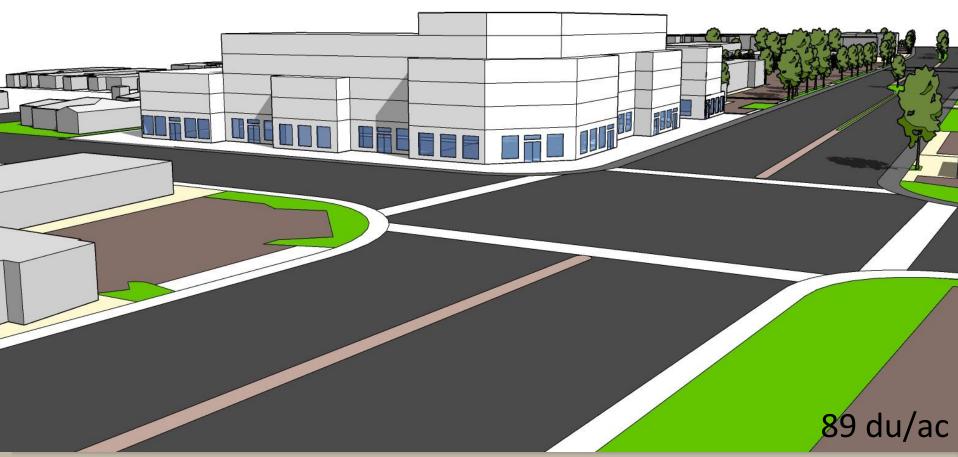

- Incentive zoning- min and max
- In nodes:
  - Minimum 36 du/ac
  - Maximum 54 du/ac
- In segments:
  - Minimum 24 du/ac
  - Maximum 45 du/ac
