Subject: Proposal for Summit Denali Charter School

Honorable Mayor, Vice Mayor, and Council Members:

Please vote against the proposed development of Summit Denali Charter School at 824 San Aleso Avenue.

In my opinion, it's the wrong type of development for that piece of property - and shoehorning a high school in there will not serve the students who would attend or neighboring residents.

Our Planning Commission recently voted against this proposed development - and I hope you examine their reasons for doing so.

A few reasons why I think you should vote against this proposal:

- it's the wrong type of development for that piece of property
- the school would be very near a motel known for illicit drug sales and prostitution
- the parking solution proposed by Summit Denali does not meet the City's parking requirements, and street parking on San Aleso Ave and Ahwanee Ave is already tight for residents along those two streets.
- the mechanical parking structure proposed by Summit Denali would be sited very near homes on West Hemlock Avenue and next to an apartment building on San Aleso Avenue. Those residents

don't believe adequate noise abatement will be provided for a mechanical parking structure sitting so near to their homes

So, please vote against the proposed development of Summit Denali Charter School at 824 San Aleso Avenue.

If possible, I would ask that the City work with Summit Denali Charter School proponents to identify another location within Sunnyvale that may be more suitable for this kind of development.

Thanks for listening,

Dave King

Subject: Proposed Summit School at 824 San AlesoI'm not opposed

Dear Sunnyvale City Council Members.

I'm writing in regards to the proposed Summit High School. I'm not opposed to having this school in our neighborhood but do question if this site is the right building and location for the following reasons:

Parking: The size of this site limits the amount of parking space available. With the proposed parking solution the number of parking spaces doesn't meet the required spaces and includes a 3 level parking garage for the teachers and a limit of 20 spaces for a student body of 400. Street parking here is already extremely crowded and any additional cars would be in the local neighborhood.

Traffic: This is a 2 lane street. There are 3 major projects in progress that will impact the traffic, the Mc Donald's at Mathilda and 2 new housing projects that will add an additional 200 homes using this street. This will affect all means of travel in front of the school (car, bikes and walking) especially at drop off and pick up times. With traffic crossing to go to Summit, Columbia Middle School and Mc

Donald's The plan is to have 40 bike parking spaces at the school double the number of car spaces for students and currently there are no bike lanes on this street.

No Outside Space: There is no outside space to use other than the parking lot or side driving lane to the parking lot. The plans do not even include a single bench or table outside the building. There is no type of buffer between the school and the apartments and homes that surround the school. The sound from any type of outdoor activity would carry directly to the .

**Please note that all conversations that I have been involved in were about this not being the right site if you were to consider this site there needs to be a review of the architecture to match the neighborhood.

**If someone was to ask for my suggestion for a good place for the school it would be the Motel 6 facing Mathilda. Lots of rooms, large parking area and a direct exit on Mathilda.

Please vote against the proposed development of Summit High School at 824 San Aleso Avenue.

Thank you for your consideration,

Sharon Mc Knight

Regarding your recent Access Sunnyvale service request:

Service Request Number: SR-00015271
Submitted On: 1/16/2019 10:29 AM
Request Type: Contact Us Request
Description: Hello City Council,

I'm a member of the SNAIL neighborhood association , a humble home owner.

I attended the last SNAIL meeting on January 10 and I was horrified.
our new chair , June Valenti said she is speaking to you individually "on behalf of SNAIL" to urge a

no vote against Denali High School's new proposed campus.

approx 13 people were in attendance at that meeting out of 1400 homes.
these 13 people don't represent a majority of thought about this volatile issue.
I feel it is my responsibility to make you aware of this. I'm quite upset - still.

There have been NO pamphlets circulated to the neighborhood regarding thoughts or votes on this issue.
1 person cannot speak for 1400 homes without knowing the population's idea and feelings.
I feel her behavior is immoral and unethical.
she cannot say she will back you with SNAIL in your no vote
she has no right to represent all of us this way.

Sincerely,
Sue Johnson @ 560 Manzanita Ave

City of Sunnyvale Planning Commission,

As home owners in the Snail neighborhood we would like there to be a high school close to our house. We request you vote yes on the review of the San Aleso high school plans submitted by Summit Denali.

We believe accessible public schools are a benefit to the families in Snail. San Aleso is a perfect street because it is at the edge of the neighborhood but still accessible for walking.

Dear Sunnyvale City Council,

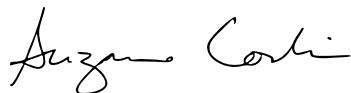

My name is Suzanne Corkins and I have a student in 9th grade at Summit Public School: Denali.

My son started at Denali in 6th grade and became more excited about school than he had ever been before! He has been there ever since and is thriving. The personalized and project-based learning approach that Summit Schools uses meets his needs like no other environment. Also, having a mentor who takes a personal interest in his progress each and every day has been incredibly valuable, and is hard to find at any other school.

As our elected city officials, I ask for your partnership so that Summit Denali can continue providing my child and more children in our community a high-quality education. We need your help to make that happen. **Please support Summit Denali.**

Summit Denali is an invaluable asset to our community and to my family. Please continue to provide the school community your strong support.

Sincerely,

A handwritten signature in cursive script that reads "Suzanne Corkins".

Sunnyvale, CA 94088-3707

Dear Sunnyvale City Council,

I have lived in the North Sunnyvale community of San Miguel for 15 years. My oldest daughter is currently in the 9th grade at Summit Public School: Denali. Denali has been truly a bright spot in the educational void of this generally neglected side of Sunnyvale. My daughter has truly thrived at this school and it has had a huge impact on our family!

As you know, there is no public high school option on this side of town. For our daughter to attend high school, she would have to commute across town in absolutely horrendous traffic with the carbon footprint to go with it. We are so excited about the prospect of a high school campus within walking distance of our house. The only parking we would need is for a bicycle at most! That is true for many of the Denali families. To decline the school its permanent high school on the underserved side of town is absolutely ludicrous, especially since the city handed the only public school here over to King's Academy. Also, after the continued approval of high density housing clogging our North Sunnyvale neighborhoods, it is incomprehensible that high school parking would be such an issue.

As North Sunnyvale residents and registered voters, our family asks you, our elected city officials, for your partnership so that Summit Denali can continue providing our child and the children in this neighborhood a high-quality education. We need your help to make that happen. Summit Denali is an invaluable asset to our community and to our family. Please support Summit Denali and all the "forgotten" kids of North Sunnyvale. Please continue to provide the school community with your strong support.

Sincerely,

James D. O'Neill and Family

Hon. Mayor Klein, Hon. Vice-Mayor Melton, and Hon.
Councilmembers Larsson, Hendricks, Smith, Goldman and Fong,

My name is Lorien Cunningham and I will have a student at Summit Public School: Denali who will attend the Denali High School next year. I was raised in Sunnyvale and am proud to have roots as a graduate of our excellent local public schools.

As a fellow elected official in our community, I know that we share a common interest in our local public school systems and in delivering on the promise of public education for every child in our community. I'm fond of saying that as parents, we can all only do the best we can by the learners we have -- but that is true of our local governments as well. Every child needs resources, support, mentorship and love to thrive. Doing the best we can by the learners we have in this community means creating opportunities for each and every one of them to succeed. As the mom of a learner that thrives in a personalized learning and mentorship model, I'm so thankful that we have a public school option that works for him at Denali in Sunnyvale.

As our elected city officials, I ask for your partnership on behalf of our family so that Summit Denali can continue providing our child and more children in our community a high-quality education. We need your help to make that happen. **Please support Summit Denali.**

Summit Denali is an invaluable asset to our community and to our family. Please continue to provide the school community your strong support.

Sincerely,

Lorien Cunningham

Sunnyvale City Council

15 Jan 2019

Dear Sunnyvale City Council,

My name is James "Bo" Begole and I have three students in 7th, 9th, and 11th grades at Summit Denali. I reside in Sunnyvale, in the Snail district which contains the proposed new location for Summit Denali High School. I ask that you please support Summit Denali's application for modifying the property on San Aleso so that it may bring high-quality education to our northern Sunnyvale community.

I chose to reside in the Snail district because of its proximity the Summit Denali Middle School campus on Weddell Drive. That building is within 20 minutes walking distance of our home. It is critical for me as a single parent who needs to work during the day that my children can get home themselves, either walking or bicycling. My oldest is 16 years old and he bicycles to school now and has no desire to attain a driver's license. It is important for my job that I not have to leave in the middle of the afternoon to pick the kids up. The proposed San Aleso Denali High School site is less than a mile from my home, less than 15 minutes' walk, whereas the temporary Denali HS site at St Cyprian's is 2.5 miles and takes almost an hour for my middle child to walk. The children carry heavy packs to school and so a shorter walk is healthier and safer for them.

Summit Denali has been a great experience for my family and an enhancement to Sunnyvale – the Middle School on Weddell transformed a drab industrial building into a vibrant and lively facility. The children and I regularly participate in volunteer work days to maintain and upgrade the school, providing a sense of community involvement in the school. The directors of the school are exceptional in their ability to control both the students and the parents as we drop off and pick up the kids in morning and afternoon, keeping traffic flowing smoothly in the neighborhood. I am certain this practice will continue.

Please support Summit Denali in its application to transform the building on San Aleso into a welcoming and nurturing facility that elevates the value of our community in Sunnyvale.

Sincerely,

James "Bo" Begole, PhD

Subject: For Jan. 29, 2019-Arguments against proposed development of Summit Denali Charter School at 824 San Aleso Ave.

Honorable Mayor, Vice Mayor, and Council Members:

Speaking for myself and not as the Chair of the SNAIL Community, I would like to address the Council Members on the Summit School submission for the Peery Park Specific Plan Conditional Use Permit. I urge you to vote against the proposed development of Summit Denali Charter School at 824 San Aleso Avenue, considering the City Staff did not recommend supporting the school proposal, and the Planning Commission voted against the proposed development on December 10th, 2018.

Let me tell you that as a former teacher myself, I am not opposed to having a high school in the north part of Sunnyvale this is just not the right site for it, and these are the reasons:

1. The lot is too small to accommodate a campus of 400 high school students.
2. The lot is too close to residents as it is situated right behind some properties where most of these residences have their bedrooms facing the would be school parking lot; which (if this project gets approved) will be noisy with high school students trying to rush to class early morning, taking an outdoor break at lunch, relaxing between classes, or just hanging out.
3. On this lot, there is no creative outdoor places catered for the students sporting activities and no outdoor learning environments for these young adults' intellect. This lot and the asphalt around it, are not - in my

opinion - an adequate environment that enhances safety, facilitates supervision, stimulates learning, nurtures collegial atmosphere or creates aesthetics.

4. The parking lot and parking structures are too close to the residential properties of Ahwanee apartments, and the homes on West Hemlock and Madrone avenues, which will inevitably be polluted with car fumes, and impact the residents of the neighboring properties.
5. The total spaces included in the parking lot and mechanic parking structure are under the required and necessary parking spaces to accommodate administrative, educators' and students' vehicles for a 400 high school students. Even with the proposed garage the site is still lacking 11 parking spaces as per city regulations.
6. The proposed drop off and pick up on the back of the building is right against the back fence of SNAIL properties which would create excessive noise up to 90 minutes prior to school hours and throughout the day, with their proposed "bussing" students on and off campus for the multiple off campus activities.
7. The Motels across from the proposed school are a magnet for prostitution, and drug activity in the area (this is a serious safety issue for the teen-aged students).
8. With the upcoming constructions of the Perry Park townhomes, circulation along San Aleso from Mathilda to Ahwanee or vice versa, traffic is expected to increase drastically.
9. Lastly, since the proposed site has no space for physical education, students will have to be bussed or driven in and out, which will inevitably be creating far more traffic than already existing.

For these reasons I urge you to vote against the proposed development of Summit Denali Charter School at 824 San Aleso Avenue and deny the Peery Park Specific Plan Conditional Use Permit by supporting both staff's recommendation and the negative vote of the planning commission.

I would ask that the City work with Summit Denali Charter School proponents to identify a different location within north Sunnyvale boundaries that may be far more suitable for such development.

Thank you for your "NO" vote which would illustrate your understanding of the above mentioned reasons to vote against the Conditional Use Permit for the 824 San Aleso Avenue property.
