

Plan 2018-2513 File#

for 1155-1175 Aster Ave

Addendum/Consideration

The water use of the industrial that has been in place for 60 yrs! and it is minimal!! (on Aster by RR)

With this outrageous pricing !!?? residential plan for > 100 units!...

Where is the water to come from?? It's not here in Calif!! It's not here at all. We cannot build homes that cannot be supported naturally from rainfall. Modify PLAN!

Stop this OVERBUILDING!
Just because of space, does not equal the resource (ie water) to overbuild or to sustain it!

MODIFY/SIMPLIFY THE PLAN!
