EXHIBIT "A" SCOPE OF WORK

Task 1 Kickoff Meetings

Key items for discussion with City staff include: Council and staff goals; primary City staff roles (ESD, Utilities, City Attorney); HF&H staff roles; internal and external attorney review, including approach to issues related to Propositions 218 and 26; risk management review; CEQA compliance; community outreach process and timing; HF&H tools for assessing SB 1383 roles; project schedule, etc. We also suggest discussion of the format and content for the Task 2 Workshop so City staff will have time to prepare.

Key items for discussion with Specialty include: overview of the process; Council and staff goals; company staff roles, including legal and accounting review; the company's ideas for any improvements or other modifications to the agreement; project schedule, etc. As noted above, we recommend requesting that Specialty provide the City the right to exercise a sole source option for a short, bridge agreement.

Meetings

Two sequential meetings: City and HF&H; City, HF&H, and Specialty

Deliverables

Meeting agendas, meeting summaries; draft text for Specialty letter providing option to extend

Task 2 Workshop with City Staff

We recommend a three-hour workshop to identify how best to address various issues in the process. The primary goal of workshop is to develop a shared understanding of the contents of the initial draft documents (RFP, proposal forms, draft agreement) to be developed in Task 3. HF&H will develop an annotated outline of key issues to facilitate discussion during the workshop. We anticipate the following preliminary areas for discussion:

- 1. Specific findings and recommendations from the Review, including additional observations not included in the report.
- Review of the current agreement focusing on how key topics are addressed, identifying areas for which modification may be useful, identifying changes in practice over time that have not been incorporated in the agreement, areas to "modernize", and whether any reorganization and/or simplification is warranted.
- 3. Discussion of the current compensation approach, and how the compensation package format can be adapted for use as proposal forms.
- 4. Discussion of customer service/billing, and other areas of close interaction between the City and Specialty.
- 5. Use of a matrix HF&H has recently used with a number of clients to delineate broad City and company roles in SB1383 compliance.

6. Any program or service options for which the City would like to consider proposed Specialty pricing prior to deciding to include in the final agreement.

Following the workshop, we will revise the outline to identify any areas for HF&H or City staff follow-up, or for further pre-proposal communication with Specialty as necessary for developing the initial draft documents.

Meetings

Workshop (three hours)

Deliverables

Discussion outline; revised discussion outline with summary notes and comments following the workshop

Task 3 Prepare Initial Draft Documents

Based on the outcome of the Task 2 Workshop, and any necessary follow-up, HF&H will prepare initial drafts of the sole source RFP, proposal forms, and the draft agreement as follows:

- The RFP will be relatively short with an overview of the process, and highlighted changes to programs, other services, compensation, etc., that are detailed in the draft agreement. The RFP will also describe any options Specialty should address in its proposal.
- 2. The initial draft agreement will redline changes to the current agreement, with use of comment bubbles to ask questions and to provide comments.
- The proposal forms will be based on the annual compensation package, modified as necessary to address program and service changes, any program or service options, and any modifications to the compensation process. The forms will address Specialty provision of transport-related data (annual vehicle miles travelled by vehicle type) to support CEQA analysis.

Once City staff have reviewed the initial drafts, we will meet (or possibly meet virtually with shared screens) to discuss City comments as entered into the documents and/or verbally.

Meetings

One meeting or conference call with City staff

Deliverables

Initial draft RFP, forms, and agreement

Task 4 Prepare Revised Draft and Final Draft Documents

HF&H will prepare revised draft versions of the three documents addressing City comments, and will resubmit them for review and comment. We recommend that legal review be conducted at this stage. After City staff review, including review by the City Attorney's Office and/or outside counsel, HF&H will prepare final draft versions for Council review. HF&H will prepare a concise draft presentation summarizing key points of the package for City staff review and comment, and will then prepare a final version. HF&H will be available to present to Council and/or to answer questions as needed.

Meetings

Council meeting

Deliverables

Final revised draft and final draft versions of the RFP, proposal forms, and agreement; draft and final Council presentations

Task 5 Release RFP; Proposal Preparation

Following Council review, HF&H will make final changes as necessary to prepare the package for release to Specialty. We assume that for the final versions, revisions will be relatively minor. Approximately two weeks after providing the proposal package to Specialty, City and HF&H staff will conduct a pre-proposal meeting with Specialty. Our budget assumes we will assist City staff in preparing up to two addenda to address questions raised by Specialty at, or subsequent to the meeting.

Meetings

Pre-proposal meeting

Deliverables

Pre-proposal meeting agenda; draft and final responses to questions for two addenda

Task 6 Proposal Review

City and HF&H will finalize the approach to proposal review, including the roles of City and HF&H staff. We assume HF&H will take the lead in reviewing the forms and in reviewing and categorizing Specialty's agreement exceptions. Following initial review by City and HF&H, we recommend meeting or having a conference call to discuss the proposal, and to determine if any changes in the order and timing of the remaining tasks is warranted.

For the remainder of Task 6, City and HF&H staff will meet twice to discuss the proposal, identifying areas of necessary company clarification, and discussing negotiation strategy. HF&H will prepare and submit any requests for factual clarification to Specialty, and will prepare a draft summary of the results of the evaluation, focusing on responsiveness to program and service requests, costs, and agreement exceptions. HF&H will also compile the transport data, and work with City staff and the CEQA consultant to define scenarios for the analysis.

Meetings

Initial meeting or call; two proposal evaluation meetings

Deliverables

Agendas for each meeting, clarifications requests to Specialty, and evaluation summary; transport data and scenarios for CEQA analysis

Task 7 Negotiations

We assume that negotiations will consist of up to three meetings over five weeks. We suggest negotiations be scheduled for alternative weeks (e.g., weeks one, three and five) to allow time for necessary work in the intervening periods. HF&H is available to facilitate, or to assist City staff in facilitating the negotiations. HF&H will prepare agendas for each meeting, and track the status of open and closed issues. Task 7 will result in final draft

language for most issues, and an agreed conceptual approach to the remainder of the issues.

Meetings

Up to three negotiation sessions with Specialty

Deliverables

Agendas for each session, and an updated summary of the status of open issues (as comments within the draft agreement)

Task 8 Council Study Session

HF&H will assist City staff in presenting key content from Specialty's proposal. City staff may also present the results of a customer survey or other outreach efforts related to the negotiation. It will be important to ensure public presentation materials and discussion presents Specialty's proposal in a manner that does not prejudice the company's ability to submit a proposal should the Council decide to conduct a competitive process at a later time.

City staff will seek Council direction on whether to complete sole source negotiations and return to Council with a final agreement, or whether to proceed to a competitive process. In the latter instance, Council would provide formal direction to staff as an agendized item at the following regular meeting.

Meetings

Council study session

Deliverables

Draft and final presentations summarizing Specialty's proposal

Task 9 Finalize Negotiations and Agreement

City and HF&H staff will meet a final time with Specialty staff to address any issues raised by the Council, and to finalize any necessary final language. HF&H will provide the City Attorney and City Clerk with a final version of the agreement for execution by Specialty.

Meetings

Final negotiation meeting

Deliverables

Final agreement for City to obtain execution by Specialty

Task 10 Council Award

HF&H will revise the Council study session presentation to provide a concise summary of the final agreement. Following City review and comment on the draft, HF&H will provide a final version for City execution.

Meetings

Council meeting

Deliverables

Revised draft and final presentations

Optional Services

Our budget includes optional services of 60 hours to address potential needs such as:

- Additional support related to CEQA compliance, if required.
