1345 Eleanor Way

Sunnyvale, Ca 94087

Good morning Mr. Ishijima,

Thank you for the email concerning my Variance. I would like to justify my request for this variance.

I do not feel that my home is considered a Corner lot.

Eleanor way runs East off Wolfe Road and Sweeps North Towards El Camino.

It has 225' of Frontage road. There are no sidewalks and there is 9' between the road and my fence.

This allows great visibility whether you are traveling East/ North towards El Camino or South /West on Eleanor way.

The fence that surrounds the house is constructed with a 6x6 post 8' separation with decorative rod iron in between. This continues to allow clear view around my home.

I have a great neighbor and I have asked if there were any issues with my fence, they appreciate the improvements and are supportive. We even took the time to verify that there were no vision obstacles with backing out of their driveways.

I have spoken to the surrounding neighbors and they have all agreed if needed, they would sign a letter regarding the fence. They feel the fence is beautiful and they Love it. This is a nice neighborhood and the neighbors have been supportive with the building of my home.

Patrick Banks
