

Gene Borelli

1341 Elenore Way
Sunnyvale, Ca 94087

To City of Sunnyvale Planning,

I am responding to Patrick Banks Fence issue.

I live next door to Patrick and have no issues

With backing or entering my driveway.

Patrick and I discussed this before he built his fence and he

Accommodated any potential visual issues.

Have a nice day,

Thank you,

Eugene R Borelli

Pat,

Just wanted to follow up on our conversation regarding the fence between our two properties on Eleanor way. As I mentioned, the fence does not impede my visibility around the corner while backing out of my driveway.

Cheers,

-E2

Hello

Mr. Momoko Ishijima
Location 1345 Eleanor ave
Six foot fence

I do not think is it a good idea to approve this because.

1. City do not have a side walk on this area and due to vision triangle I think it will be very difficult for vehicle to see around. As a biker riding will not be safe.
2. While pedestrian walking on the road or near the edge of the road and running vehicle will not be able to see a person, If there is a high level of block vision.
3. S Wolfe rd is very busy during morning and evening business hours and off hours and traffic is using inside road to get around the traffic safety of public will be if vision triangle are follow as they have to been enforced by city regulations.

This are my concert and as I live in same neighborhood.

Thank you
