Study Issue Form

The Study Issues process is designed to assist City Council with setting priorities for the coming calendar year. Board and commission members have two roles in this process:

1. To advise Council regarding the identification of policy issues to study, within their relevant area of authority;
2. To advise Council on those issues Council has decided to study.

The study issues process should focus on considering a new or revised ordinance, new or expanded service delivery program, changes to existing Council Policy, or amendments to the General Plan. The Study Issues Form is designed to focus board and commissioner members' ideas on potential policy study issues, and provide the opportunity for staff feedback and guidance in a transparent process. *Board members or commissioners may only fill out a form for study issue ideas within their purview.*

The City is currently developing its Active Transportation Plan (ATP), which includes updating the City's Bicycle Master Plan. As part of the ATP, the plan will evaluate the existing bicycle network, and provide recommendations for new bicycle infrastructure or improvements to existing bicycle facilities. Evaluation of bicycle infrastructures on El Camino Real would be evaluated as part of ATP.
