

Sunnyvale

Urban Forest Management Plan

Jim Stark, Superintendent of Parks
September 11, 2019

Background

- 2007 Study Issues (DPW 07-16-07) on the sustainability of large street trees.
- 2008 City determined need for Urban Forest Management Plan and received grant from California State Department of Forestry.
- Plan completed by Phytosphere Research in 2011.
- Overall goal of the UFMP is to help sustain, protect, and enhance the urban forest to maximize the many benefits that it provides.

Existing Policy

Municipal Code 13.16 - City Trees

Municipal Code 19.38.70d - Landscaping, Irrigation and Useable Open Space - *Minimum parking lot landscaping requirement* (Private property trees that are outside of the public right-of-way)

Municipal Code 19.94 - Tree Preservation (Private property trees that are outside of the public right-of-way)

General Plan -- City-wide Vision Goals

- ◆ **Attractive Community:** To maintain and enhance the appearance of Sunnyvale through the maintenance of a healthy urban forest, and the provision of abundant and attractive open space.

Urban Forest

The urban forest is comprised of three main groups of trees:

- Trees located on City-owned property including parks.
- Trees located on private property in the public right-of-way.
- Trees located on private property outside of the public right-of-way.

Major Goals of the UFMP

- ❖ Increase tree canopy cover to maximize ecosystem benefits provided by the urban forest.
- ❖ Choose and locate new trees in all vacant planting spaces to maximize tree-related benefits and minimize maintenance costs.
- ❖ Develop an urban forest canopy that is stable over the long term.
- ❖ Maintain city trees appropriately to maximize benefits and minimize hazard, nuisance, hardscape damage, and maintenance costs.
- ❖ Facilitate collaboration among City departments related to issues and projects involving trees.
- ❖ Foster community support for maintaining and improving Sunnyvale's urban forest.
- ❖ Encourage proper tree management on private property.

Major Goals of the UFMP

- ❖ Increase tree canopy cover to maximize ecosystem benefits provided by the urban forest.
- ❖ Choose and locate new trees in all vacant planting spaces to maximize tree-related benefits and minimize maintenance costs.
- ❖ Develop an urban forest canopy that is stable over the long term.
- ❖ Maintain city trees appropriately to maximize benefits and minimize hazard, nuisance, hardscape damage, and maintenance costs.
- ❖ Facilitate collaboration among City departments related to issues and projects involving trees.
- ❖ Foster community support for maintaining and improving Sunnyvale's urban forest.
- ❖ Encourage proper tree management on private property.
