of surround-
ings

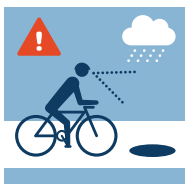

Follow rules
and road
signs

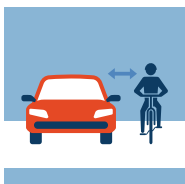

Stay alert
and
be visible

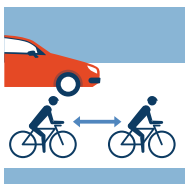

Be visible
at night –
use lights,
reflectors
and bright
clothing

Identify
hazards on
the road

Be alert and
watch for
cars

Ride single
file with safe
space

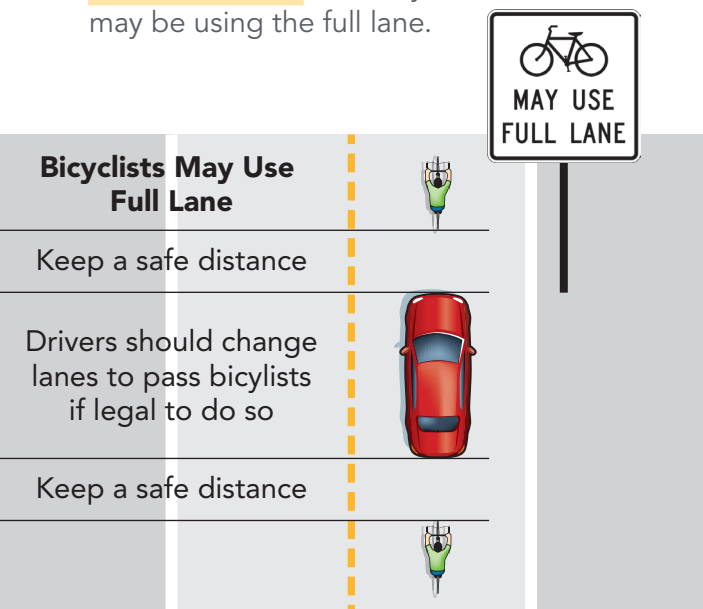

Be safe
and
wear a
helmet

Bicycles May Use Full Lane

The **Bicycles May Use Full Lane sign** is a traffic sign used in the United States to:

- Designate roads with lanes that are too narrow to be safely shared side-by-side by a bicycle and another vehicle to indicate that bicyclists may occupy the full lane to discourage unsafe within-lane passing.
- Encourage bicyclists to use the full lane to discourage unsafe within-lane passing.
- Encourage motorists to change lanes to pass bicyclists.
- Warn motorists that bicyclists may be using the full lane.
