---

Happy Tuesday Cindy,

This seems to be related to one of your projects, could you respond? Thanks

**PETER DANG**

The following service request has been assigned to your team:

[SR-00031476](#)

Requester: Patrick Grant

Email: [REDACTED]

Phone: [REDACTED]

Submitted On: 9/5/2020 6:01 PM

Interaction Type: Contact Us Request

Description: This is request to PLANNING to see drawing of what was proposed for file number 2020-7250, 623W Fremont, Avenue, APN:202-06-001. I'm a bit confused from description of legal notice what code variance requested.

Honestly as long as it does not restrict sidewalk or remove bushes hiding ugly industrial yard or increase noise or Light dust out of site I seriously doubt any issues on my part. In general the water company has tried to be a good neighbor,

If electrical being done, Since the water company uses NOISY front loader at all hours, it be really appreciated a Much quieter, non fume electric Loader be obtained, one with provision of not as loud backup warning. This is in residential area!. Please copy this comment to planning commission too.

Thank you.

Patrick Grant

Thank you!
