## Study Issue Form

The Study Issues process is designed to assist City Council with setting priorities for the coming calendar year. Board and commission members have two roles in this process:

1. To advise Council regarding the identification of policy issues to study, within their relevant area of authority;
2. To advise Council on those issues Council has decided to study.

The study issues process should focus on considering a new or revised ordinance, new or expanded service delivery program, changes to existing Council Policy, or amendments to the General Plan. The Study Issues Form is designed to focus board and commissioner members' ideas on potential policy study issues, and provide the opportunity for staff feedback and guidance in a transparent process. *Board members or commissioners may only fill out a form for study issue ideas within their purview.*

**Study Issue Working Title:** Recycle, Reuse and Repurpose

1. What are the key elements of the issue? What precipitated this study?

Recommend developers solicit sculptural artists that are interested in using recycled materials. Recycled materials can be molded into larger pieces, as opposed to using metal or glass, and can be used as a part of a multi-media installation.

2. Staff Summary of Scope and/or Comments: [Staff Use Only]

The current ordinance is worded in a such a way to provide private developers flexibility when selecting their artist or electing for the in-lieu fee. There may be a limited number of artists that work with recycled materials.
