

LSAP Update/Intuitive Development Project Subsequent Environmental Impact Report (SEIR) Mitigation Measures

Below is a summary of mitigation measures contained in the SEIR that would apply to future projects under the LSAP Update and the Intuitive Development Project. Bolded measures include new or modified measures from the 2016 certified LSAP EIR:

- Air Quality
 - *MM 3.5.3a (same as 2016 LSAP EIR)*: Compliance with the Bay Area Air Quality District's (BAAQMD) basic construction mitigation measures.
 - *MM 3.5.3b (same as 2016 LSAP EIR)*: Use of California Air Resources Board (CARB) minimum certified Tier 3 off-road diesel-fueled equipment.
 - ***MM 3.2-1 (new mitigation measure): Reduce construction-related Nitrogen Oxide emissions for the Intuitive Development Project.***
 - *MM 3.5.5 (same as 2016 LSAP EIR)*: Prepare a site-specific construction pollutant mitigation plan for project sites greater than five acres with construction lasting for more than two years.
 - *MM 3.5.6 (same as 2016 LSAP EIR)*: Prepare a site-specific health risk assessment for future development that includes sensitive receptors within 1,000 feet from Caltrain and/or stationary sources.
- Archaeological Resources
 - *MM 3.10.2 (same as 2016 LSAP EIR)*: Include information on construction plans listing procedures if cultural resources are discovered.
- Biological Resources
 - *MM 3.9.2 (same as 2016 LSAP EIR)*: Perform a bat survey prior to construction activities.
 - *MM 3.9.3 (same as 2016 LSAP EIR)*: Avoid construction during the avian nesting season or conduct preconstruction surveys for nesting raptors, special-status birds, and other migratory birds.
- Geology and Soils
 - *MM 3.7.4 (same as 2016 LSAP EIR)*: Include information on construction plans listing procedures if fossils are discovered.
- Hazards and Hazardous Materials
 - ***MM 3.8-1 (replaces MM 3.3.3 in 2016 LSAP EIR): Reduce potential for disturbance of hazardous contaminants.***
 - *MM 3.3.5 (same as 2016 LSAP EIR)*: Prepare a construction traffic control plan.
- Noise and Vibration
 - *MM 3.6.4 (same as 2016 LSAP EIR)*: Provide a construction noise control plan.
- Transportation
 - ***MM 3.14-7 (new mitigation measure): Prepare and implement a Temporary Traffic Control Plan for the Intuitive Development Project.***
