# Exhibit A Detailed Scope of Work Sunnyvale SNAIL Neighborhood Active Transportation Connectivity Improvements Project # TR-19-01 Caltrans Project # ATPL 5213 (068)

#### I. General

The City of Sunnyvale is seeking proposals from licensed civil or traffic consultant firms to provide professional services for the Sunnyvale SNAIL Neighborhood Active Transportation Connectivity Improvements project. The scope of work generally includes preparation of: applications and supporting documents for California Department of Transportation (Caltrans) National Environmental Policy Act (NEPA) clearance and E76 procurement, design development, bid documents, and bidding/construction support services for Public Works competitive bidding. Ancillary work includes environmental needs assessment to comply with the California Environmental Quality Act (CEQA), construction cost estimating, schedule monitoring, preparation of reports and recommendations, and project management.

The project is funded through Active Transportation Program (ATP) with federal funds. Consultants must be familiar with the typical processes, procedures, forms, and timelines required of California Transportation Commission (CTC) approval of the fund allocation as well as Caltrans authorization of the federal fund for the design and construction phase of the project.

This project has federal grant. The small disadvantaged business enterprises (DBE) goal for the Design/PE phase is 16%. Upon selection, consultant will need to fill out applicable forms to document compliance with DBE goal or good faith effort. Consultants proposing fee services over \$1M are subject to the Caltrans audit process. Consultant shall be familiar with the latest version (January 2021) of the Local Assistance Procedures Manual (LAPM) related to the above requirements.

# II. Project Information

# A. Description

In 2016, Sunnyvale was awarded an ATP grant in the amount of \$4,834,000 for the environmental, design, and construction phases for implementing Active Transportation Improvements in the Sunnyvale's Sunnyvale Neighbors of Arbor including La Linda (SNAIL) and San Miguel neighborhoods. The original scope focused on improvements that are on the perimeters of Sunnyvale's SNAIL and San Miguel neighborhoods and intended to improve safety and expand connectivity to nearby schools and other destinations.

In spring 2019, the City conducted outreach to Columbia Middle and San Miguel Elementary Schools as part of the effort to develop the Safe Routes to School chapter of the City's Active Transportation Plan, As part of the outreach efforts, the City learned that implementing improvements within the immediate vicinity of the two schools will benefit a larger number of active transportation users, especially on routes to and from schools.

After engaging with the community and performing various studies, the City decided to prioritize providing active transportation improvements closer to the schools. In March 2020, City submitted a Request of Scope Change to the Metropolitan Transportation Commission (MTC), Caltrans and CTC to revise the scope to include improvements in the immediate vicinity of the two schools. The request was approved by CTC at its December 2020 meeting. The revised project will install curb extensions, high visibility crosswalks, advance yield markings, raised crosswalks, speed feedback signs and HAWK (High-Intensity Activated crosswalk) beacons, upgrade a school path to current

standards, enhance existing bike lanes, and create new bike routes within SNAIL and San Miguel neighborhoods.

The project is administrated by Caltrans and funding allocation will be approved by CTC. The project is divided into three phases: environmental clearance, design (PE), and construction. CTC approved the funding allocations of environmental phase in 2019. Caltrans has authorized the E76 for Environmental phase (PA/ED) in 2019.

The City is seeking to hire a consultant for all three phases of the project. It is anticipated that the selected consultant will start the phase 1 work in October 2021 or earlier. The environmental field review process has not yet begun. The selected consultant shall obtain NEPA approval prior to March or April 2022. After NEPA approval, the City will be eligible to request the design fund allocation from CTC. The deadline to request design fund allocation is May 2022. The earlier NEPA is approved, the more time will be available for the design phase. Upon receiving CTC's design fund allocation and Caltrans E-76 PE authorization, the consultant shall start the design. The consultant is required to complete 100% design by January 2023 so the City can request the construction fund allocation from CTC and request the construction authorization (E-76) from Caltrans by the January 2023 deadline. The consultant will assist the City in submitting both requests.

The project locations and the proposed improvements include:

- 1) At the intersection of Mathilda Avenue and San Aleso Avenue, construct curb extensions on the northeast and southeast corners facing San Aleso Avenue only.
- 2) At the intersection of Fair Oaks Avenue and Ahwanee Avenue, construct curb extension on the northeast corner.

B. The employees' actual hourly rates shown in this cost proposal are the rates that were effective as of the RFQ/RFP advertisement date. In this example, the advertisement date is 01/07/20. Caltrans Contract Manager's pre-approval is required to add staff not previously listed on the cost proposal. The billing rates for these employees, including those that fall under general classifications, will be calculated and reimbursed based on their actual hourly rates as of the RFQ/RFP advertisement date (01/07/20). Hourly rates for new employees hired after the date of this cost proposal will not exceed (or shall be in line with) the rates of similar personnel listed on this cost proposal having similar experience, and requires prior-approval from the Caltrans Contract Manager.

C. Travel Time: California minimum wage laws require an employee to count employee travel time as hours worked whenever it requires employees to travel, no matter when the travel occurs. This includes any time employees are required to travel out of town, whether on a one-day or overnight trip.

If an employee's travel time to a transportation center (airport, bus station, train station, etc.) is about the same as the travel time to the employee's travel time as hours worked once he or she arrives at the transportation center. CA Division of Labor Standards Enforcement (DLSE) 46.3 Employers must also count as hours worked time spent by employees traveling from a central reporting location to their actual work location.CA DLSE 46.2

Employers are permitted to pay employees a lower wage rate for waiting or standby time than they do for time when employees are performing actual job duties. The employer must notify employees they will be paid the lower wage rate before the travel begins CA DLSE 46.3.2

Managers/Supervisors: Up to a maximum of 8 hours will be charged for work time or any combination of travel and work time (On Weekdays). Billing rate for travel time = Loaded Rate Formula "C" above. Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed as follows: Billing rate for travel time = Loaded Rate Formula "C" above, if working on a public works project.

When performing Non-Prevailing Wage duties on this project during the regular work day, the Billing rate for travel time = Loaded Rate Formula "E" above.

All travel time, outside of the regular work day, will be billed without the application of overhead rate as follows: Billing Rate = (Actual Hourly Rate) (1 + Fee) + (Delta Base + Delta Fringe) \* (1 + Fee)

Non-Exempt staff: During regular work day, actual travel time not to exceed 8 hours in any one day or one way travel will be billed at the Straight Time rate (i.e., without the application of the 1.5X or 2.0X multiplier for Overtime), as follows Billing rate for travel time= Loaded Rate Formula "A" above.

B. The employees' actual hourly rates shown in this cost proposal are the rates that were effective as of the RFQ/RFP advertisement date. In this example, the advertisement date is 01/07/20. Caltrans Contract Manager's pre-approval is required to add staff not previously listed on the cost proposal. The billing rates for these employees, including those that fall under general classifications, will be calculated and reimbursed based on their actual hourly rates as of the RFQ/RFP advertisement date (01/07/20). Hourly rates for new employees hired after the date of this cost proposal will not exceed (or shall be in line with) the rates of similar personnel listed on this cost proposal having similar experience, and requires prior-approval from the Caltrans Contract Manager.

CA DLSE 46.2

Employers are permitted to pay employees a lower wage rate for waiting or standby time than they do for time when employees are performing actual job duties. The employer must notify employees they will be paid the lower wage rate before the travel beginsCA DLSE 46.3.2
