
Name: Citizens Advisory Committee

Type: Committee

Description: City of Sunnyvale is considering submitting a charter amendment ballot measure to voters in 2020 that, if approved, would change the City's at-large election of Council members to a by-district system of elections. The purpose of this change would be to address potential compliance issues with the California Voting Rights Act. As part of this process, the City will be engaging with the community to identify key concerns and priorities for a local governance structure. The City has formed a Citizens Advisory Committee (CAC) to help guide the outreach process.
