Parks and Recreation Commission Proposed Study Issues, Calendar Year: 2022

Proposed Study Issues\*

| Date  | Working Title   | Summary of Scope                      | Staff Comments                           |
|-------|-----------------|---------------------------------------|--|
| 10/13 | Transparency in | Current permitting or reservations    | Commissioner Kesting is proposing        |
|       | Permitting for  | for athletic field use at local parks | that staff explore the use of an on-     |
|       | Field Use at    | is an opaque process where the        | line field reservation portal (software) |
|       | Local Parks     | public does not know who is using     | to host information that will be         |
|       |                 | our fields, when the fields are       | available for public view. This portal   |
|       |                 | reserved, or if the reservations      | (software) will also enable staff and    |
|       |                 | are being made by; individuals,       | the public to observe trends and         |
|       |                 | not for profits, or for profit        | analyze data that can be used to plan    |
|       |                 | entities. To better serve the public  | future park development/renovation       |
|       |                 | we should have a transparent          | projects.                                |
|       |                 | permitting/field reservation          |  |
|       |                 | system, where the public can see      |  |
|       |                 | how, when, who, & for what use        |  |
|       |                 | our athletic fields are reserved.     |  |
|       |                 | This online portal would allow the    |  |
|       |                 | public to see what fields are         |  |
|       |                 | available, who is currently using     |  |
|       |                 | our fields, the size of these         |  |
|       |                 | groups, & the typical duration of     |  |
|       |                 | these reservations. In addition to    |  |
|       |                 | informing the public of field use,    |  |
|       |                 | the portal would allow the public     |  |
|       |                 | to observe trends on what sports      |  |
|       |                 | are growing in our city. This data    |  |
|       |                 | could then be used to forecast        |  |
|       |                 | what types of parks we should be      |  |
|       |                 | building.                             |  |
| 10/13 |                 | With three local little leagues in    | This study would look at the             |
|       |                 | , ,                                   | possibility of adding additional         |
|       | ,               |                                       | hitting/batting cages throughout the     |
|       | Softball and    | _                                     | City. If approved, this study would      |
|       | •               |                                       | consider all possible user groups        |
|       | 10 0            |                                       | without a focus on any one group.        |
|       |                 | , , , ,                               | The consultant would evaluate needs      |
|       |                 |                                       | of all current user groups and           |
| I     |                 | batting cages in Sunnyvale has        | available resources to ascertain what    |

| File #: 21-1039, Version: 1                      |   |  |  |  |
|--|---|--|--|--|
|  | hitting cages. Currently De Anza & Serra Park have batting cages, though they are 20+ years old, and aren't a shared facility. This study would be to produce hitting cages for additional parks in Sunnyvale such as: Fair Oaks, Washington, Columbia, Lakewood Las Palmes, Ortega & Raynor Parks. In addition the study would | various sports and at various park sites. The study would also evaluate the existing conditions of the batting cages at Serra Park and De Anza Park which are currently maintained by Little League for their exclusive use. The potential for permitting the cages for use would be looked at, as would other ideas to allow for equal resident access to the facilities. |  |  |
|  |   |  |  |  |
| <del>                                     </del> |   |  |  |  |

Toward the end of the calendar year, no later than October, boards and commissions will review the list of proposed study issues and officially vote on sponsorship for each individually listed study issue. Official sponsorship means that the study issue is approved for ranking with a majority vote of the board or commission. Staff will then prepare the sponsored study issue papers, including fiscal impact **but not** the staff recommendation.

<sup>\*</sup>The study issues have been proposed for future sponsorship
