STAFF RECOMMENDATION

Alternatives 1 and 2: Make the finding that the action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(a); and Introduce an Ordinance Amending Chapter 19.44 (Signs) of Title 19 (Zoning) of the Sunnyvale Municipal Code (Attachment 5 to the report).

It is not uncommon for city sign codes to allow increased signage for theaters due to the variety of signs unique to that use. The Sunnyvale sign code already acknowledges that theaters may have special signage needs by allowing readerboards and electronic messaging signs that are generally not permitted with other uses. In other cities, greater sign area allowances are provided for theater uses.

Staff finds that the proposed sign code amendment is within the public interest, as it helps theaters located on the second floors within Regional Retail Business zones to effectively identify themselves. The request would affect a very limited type of project from gaining additional sign area: theaters in a specific district with a theater on the second story. It would not allow any further types of expanded signage. Adequate controls exist within the other sign code provisions and design guidelines, which helps to avoid excessive sign clutter.
